RECAP

We have witnessed many events this past year. From a tremendous homecoming and the Kingston Trio to a comical Christmas sing, and the festivities of Diamond Jubilee.

We have seen plans for a new library, and an extended ten year plan. We saw the University clear almost \$4,000 with the Ford Caravan of Stars, enabling us to bring bigger and better entertainment next year.

For those students who joined Greek fraternities and sororities, new avenues are being explored. Paddles, hats, jewels, horse shoes, and pledge books have been involuntarily exchanged. In the end better relations have been established. For independents, the young Republican Club and AHS have been formed.

In the realm of sports we enjoyed the best football season ever. Two Spartans, Jim Underhill and Kevin Hurt will carry on with the Dolphins next year. The baseball team also completed one of its most successful seasons. We've seen the innovation of scholarships for the crew team, however nominal.

In student government, honor students now have unlimited cuts, we will have the privilege of evaluating professors, and finally we will have a student judiciary board. Those who have served us this year have done well, the newly elected will endeavor to carry these new policies out and foster others.

In the academic world we have come into our own. The overall standards of the university have been raised and stiffer requirements must be met by incoming students.

So for another year the curtain is about to fall on the University stage. Old scenes have been replayed and new acts have been performed. For those who will not return our play is finished, for those who shall return our fate is still to be decided.

L. M. B.

BEWARE!!!

It is about time some light be shed on the so called computer datings programs that are sweeping our country's college campuses. Many on campus computer programs have worked out fine, however, these programs are not the ones to be watched.

It has been brought to the attention of University officials throughout the nation that the questionnaires that are answered are used for other than dating programming. And once they reach certain hands the results can be quite disastrous.

We of the Minaret can't tell the student body what to do with their own time and how to choose dates. However, we ask that you find out a little about these dating games before going out and committing yourselves.

M. H. S.

ARE WE GOING TO CROSS THE BRIDGE

In the last edition of the Minaret all students interested in running for student judge were asked to file application in the Student Government office. To date only four applications have been turned in for the male position and one for the co-ed seat. Are there only five capable students among 2300 who are interested in the University?

Recently at the S.U.S.G.A. convention, members, of our delegations sat in on discussions of student courts. In many universities, who's rules are much stricter than ours, these courts have played an instrumental role in setting school policy.

We all cry APATHY but why should the faculty and administration back the student body when they only find a handful of interested students from which to choose, especially when these are the same students who have continuously displayed interest?

MEN EXIST FOR THE SAKE OF ONE ANOTHER.
TEACH THEM THEN OR
BEAR WITH THEM.

Letters to the EDITOR

To The Editor

If Hillsborough County deems it necessary for more parking area for Tampa General Hospital why doesn't the University of Tampa administration consider the same for their campus.

The parking problem at Tampa U has long been a basic complaint of the students, proper and adequate parking facilities are a necessity.

It is the duty of the administration to review all parking situations and find a solution to one of their most pressing problems.

Many professors have complained about the students coming to class late. They fail to recognize the demand parking causes upon the student body.

Although the university has acquired the rights to use the fair grounds, the hours aren't convenient for those who have afternoon classes ending later than 5 P.M. Also, the fairgrounds are quite muddy during rainy days.

Not too long ago Tampa U purchased the land adjacent to the Embassy Hotel but that parking area is still not enough.

It is a sad thing to have to say that you have to walk blocks to the University when you have paid for the right to park on the campus.

Tampa U should invest in a building providing parking for all its students. This would not only be beneficial to the students but also to the university. The building could pay for itself, though the money collected from parking permits the cost having to be raised.

Other funds can be acquired through charging parking fees on nights when concerts, special shows take place. It might cost the student more money but in the long run it will be saving him aggravation.

Those parking areas which we already have should be paved, especially the one across from the Embassy Hotel which is full of holes.

It is a task to attain everything that is needed for a growing university. But if the university doesn't grow with the student body how can it expect to prosper?

It should be of the greatest importance that all interested in the situation, whether administration, faculty or student get together and join forces. So that it can be said of Tampa U that it is not yet lost. In fact, it is on its way to the top.

Richard Buckhantz

To all resident women of the University of Tampa
Dear Cinderella,

If you had chosen a different college, you might have rid yourself of the aggravation of curfews. Curfews still exist, probably 100% for freshmen girls throughout the country. But some schools are turning over to senior girls the privilege of coming in at any hour which they choose. Even some sophomores and an increasing number of juniors are now "on their own."

When and where did this start? In about 1955 the program came into existence and there has been an increasing interest in liberalizing hours for college women in the past few years. The state universities in the northern United States have been the main participants of the "no hours" plan. There has been a general trend for liberalizing hours of college women throughout the country.

The purpose is not to encourage the students to stay out later, but rather to recognize the maturity of the college woman and her ability to assume the responsibility of her own life.

Why should college women have more freedom? In some universities there is not room to accommodate the girls. Many upperclassmen want to know why they should keep hours when those in apartments don't. Other girls have been given much freedom in high school and have trouble adjusting to curfews. Still others have studied abroad, bringing back the fact that European students are almost entirely unsupervised. Many students feel the need for greater amounts of free time in order to meet the pressures of studying.

If you are treated as adults, I'm sure you will respond accordingly. People grow with responsibility and isn't the purpose of most colleges to turn adolescents into responsible adults? Why prolong adolescence when a reasonable way to start a girl onto the road of responsibility is available. If you fail with freedom, you don't deserve a college degree!

So Cinderella, why not try to modernize your godmother. It's your job to start the wand waving.

Good luck,
Your Step Sister

Dear Editor:

Recently, there has been considerable evidence of student dissent concerning the dress rules at the University. The popular opinion seems to be one of distress due to the strictness of rules.

Evidently these students fail to realize that everything has a reason for existence, including the "strict" dress rules. The Administration is not staffed by stupid people. In the midst of all the criticism, someone should step forward and defend the dress policy of the University.

The most obvious reason for "strict" rules is the fact that the University of Tampa is an in-town school. Whether the students like it or not, they must impress the people of Tampa with their sense of responsibility. One way to impress someone is neat, unextreme dressing. The good people of Tampa provide the students with the Main Building and grounds. The students must remember that the townspeople have a considerable investment in education, and walking around with cut-down jeans and filthy tennis shoes with no socks is a poor way to give an impression of adulthood.

The University of South Florida is way out of town, and there are no local people with an investment in the school to criticize the behavior of USF students. Here, students are under the constant critical eyes of the townspeople.

It is a matter of economic fact that the University must depend upon local grants and gifts if it is to expand. The least the University can give in return for these considerations is an honest effort for better education, and students that appear as intelligent young adults. The University simply cannot afford to have groups of Bohemian-like dressed students, and these groups, however minor they may be, will surely appear with slackened dress rules. Any stu-

An Evening Of Comedy, Drama and Satire

Recently the Delo Forensic Society presented an evening of comedy, drama and satire in the Falk Theater called "The Yin and the Yang" (from the Oriental philosophy of opposites). The free presentation was the culmination of a successful year for the Society.

The Delo Forensic Society, which was formed two years ago through the efforts of Dr. Hugh Fellows, was one of the most active organizations on campus this year. The Society's efforts were directed into three main areas: reader's theater, poetry reading, and debate.

The reader's theater was concerned primarily with productions of Garson Kanin's *Born Yesterday* and Dylan Thomas's *Under Milk Wood*. The Society presented *Born Yesterday* before various local organizations as public services, bringing recognition to the University.

Overall, the Delo Forensic Society has put on over two dozen programs in the community during the past year.

"The Yin and the Yang", directed by Dr. Fellows, opened with a satirical speech on TV advertising by Don Fredgant. Following him was Fred Myers in Robert Newman's "The Button". Mike Hyman, Carole Endsley, Paul Gowack, and Bruce Carpenter concluded the first half of the show with the Reader's Theater adaption of *Born Yesterday*.

The second half consisted of the entire Society performing Dylan Thomas's *Under Milk Wood*, with Bob Thompson as the narrator. The play, which is a cynical, satirical look at life in a small Welsh fishing village, was warmly received by the audience. Charlotte Kocian and Bruce Carpenter were the most outstanding characters in *Under Milk Wood*.

Mark Van Doren Noted Poet Visits Campus

The University of Tampa was honored recently by a visit from the famed Pulitzer Prize winner, poet, playwright, and philosopher, Professor Mark Van Doren. He appeared briefly at a late afternoon reception held in his honor in the Student Union, and returned in the evening for a masterful reading of his poetry and prose. The student turn-out for the afternoon reception was relatively light in comparison to the crowded, note-taking audience which witnessed the evening performance. Attendance for the most part was required or encouraged in the case of the latter event; however, the captive audience was well rewarded by Mr. Van Doren's superlative delivery and inspiring choice of material.

It was learned that the noted poet makes his home at Cornwall, Connecticut, in the heart of the rustic setting peculiar to the New England area. Unmistakenly the years have confiscated his youthful appearance, but his treasure of contemporary wit more than labels him as a valued member of the present generation of worthy scholars. Among the faculty members present to welcome the stranger to the campus was President David Delo, Dr. Francis Thompson, Dr. William Stewart, and Dr. Hugh Fellows. President Delo expressed the University's sincere appreciation for the guest's consent to visit the school.

dent who does not appreciate the Administration's stand on dress rules should seek higher learning elsewhere—in a school out in the suburbs.

Mature adults do not dress like beach boys. Let's accept the dress rules without dissent, appreciating the reasons for them. The University will benefit in the long run, to be sure.

C.J.K.

Vietnam Service Officer At University

Mr. J. G. Taylor of the Veteran's Service Office will be at the University of Tampa (International Room, Student Union Building) May 24, 1966, at 7:00 p.m. He will discuss eligibility of veterans under the new G. I. Bill.

To be eligible for benefits, you must have 181 days of active service after January 31, 1955.

If you are eligible Mr. Taylor will have the necessary forms for you to complete and will instruct you in their completion. You MUST BRING YOUR SERVICE SEPARATION PAPERS with you if you are to complete your claim for benefits at this meeting.

If you have any questions regarding your right to benefits under one of the Public Laws (894, 550 or 634). You should make arrangements to attend.

Alvin F. Terry
Assistant Dean of Men

Adele Rigby Wins Award

MRS. RIGBY

A University of Tampa senior, Mrs. Adele Villemaire Rigby of 315 Lime Tree Road, Tampa, has been awarded a graduate assistantship in French at the University of Miami for 1966-67. The assistantship carries a stipend of \$3,600.

In addition to studying for her master's degree, Mrs. Rigby will work in the laboratory or teach in the department of foreign language.

Mrs. Rigby will graduate in June from the University of Tampa with a Bachelor of Arts in modern language. She has been a full scholarship student while at the University.

In addition to being an honor roll student, Mrs. Rigby has been tapped for induction into the Kappa Tau Chapter of Kappa Delta Phi, the honorary education society.

AWARDS

Continued from Page 1

fessor of speech. The award, consisting of a trophy and cash prize, was established by the noted actress last year when she visited the campus. Mr. D. J. Cermele, associate professor of drama, presented the Blanche Yurka Award to Robert Harris of Miami Beach, Fla.

Miss Elizabeth Anne Ferguson, Tampa, won the History Achievement Award. It is presented annually by the John Donaldson, Jr. Chapter, Daughters of the American Colonists. It goes to the history major who has achieved the highest four-year academic average in that field of study.

Pi Delta Epsilon Award Foreign Student Award

DARBY DORNBLASER

HELEN BELISSARIOU

Miss Suzanne J. Black received the annual Wall Street Journal Student Achievement Award which is presented to a graduating senior demonstrating outstanding scholarship and leadership in business studies.

Winner of the Pi Delta Epsilon National Medal of Merit for outstanding work in journalism was Miss Kathleen Darby Dornblaser of Bethlehem, Pa.

Student Government Merit Awards

DR. CHARLES WALKER

ROBERT KLUMP

EDMUND P. SLIZ

DR. C. R. WEST, JR.

Miss Jacqueline A. Beltram, Tampa, received the annual Winton King Award which is presented to the senior preparing for a career in public service who has demonstrated academic competence and outstanding citizenship and leadership.

The award to an outstanding foreign student at the University went to Miss Helen Belissariou, senior from Salonica, Greece. Miss Sandra L. Seed, a senior from Tampa, received the Delta Sorority Award as the outstanding sorority member at the University. Mrs. Lucile King, Dean of Women, presented Delta Sorority with the award which goes to the sorority whose members have attained the highest academic average for the 1965 fall semester. Dean of Men Michael DeCarlo presented a similar award to William Oakerson of Little Silver, N. J., for the same achievement among the fraternities of the campus.

The Rabbi D. L. Zielonka Award, presented annually to a student who has demonstrated a high standard of scholarship and interest in the field of religion and human relations, was awarded to Miss Penelope Donoghue.

Student Government Merit Awards were presented by Gary Garbis to Dr. Charles West, Professor of Philosophy; Edmund P. Sliz, Vice President for Business Affairs; Charles R. Walker, Jr.,

SERVICE AWARDS

RUTH BRAGG

DR. MILDRED MITCHELL

TRINIDAD RIO

DR. STEPHEN L. SPERONIS

DR. ROBERT E. WEAN

Vice President for Academic Affairs; Robert Klump, and Joe Malone.

In other activities, Dr. Charles R. Walker, Jr., vice president for academic affairs, recognized the students named to the Dean's List for the fall semester, and Dean King recognized the students elected to membership this year in "Who's Who Among Students in American Universities and Colleges." Service awards were presented to Student Congress and Panhellenic Associations officers.

James Lake Named President

James Lake of Plymouth, Mass., has been named president of Ulema, the honorary scholastic society of the University of Tampa. He will replace outgoing president Ray Neville.

Other officers named at the semi-annual dinner given by Univ. of Tampa President David M. Delo, include Bryce Smink, vice president; Nancy Daniels, secretary; Anita Carbone, treasurer; Mike Raddick, historian and representative to Student Congress. Dr. Charles R. West, Jr. is faculty adviser.

Alumni Day

Continued from Page 1

Association, class of 1962; University of Tampa President David M. Delo, and Rabbi Zielonka, chairman of the department of religion at the University.

The program calls for registration at 10 a.m. in the lobby of the Student Center and an 11 a.m. tour of the Western Civilization Corridor classrooms in Plant Hall.

At 12:30 p.m., J. Crockett Farnell, superintendent of Hillsborough County schools, and a member of the class of 1937, will deliver a luncheon address in the Student Center Dining Room. He will be introduced by Hance.

The luncheon agenda includes a welcome by Dr. Delo followed by the introduction of guests by Hance. Rabbi Zielonka will deliver the invocation and the benediction. The alumni greeting will be made by Hanna.

Editor of The Moroccan

Continued from Page 1

age). She has been on the Dean's list every semester. She is a member of Ulema and has been secretary for two semesters; president on the Spanish club, two semesters, secretary, one semester; member of Sigma Tau Delta (honorary English fraternity); member of Alpha Chi Omega; member of the Delo Forensic Society and the Readers Theater; was on the Minaret staff, one year; on the Moroccan staff as organization editor; member of the Newman club.

Her outside activities include music (piano) and ballet.

"I have not had a chance to make definite plans as yet. My only plan is to put out a good book; as outstanding as possible. To do this I need all the help that I can get. If any one is interested in being on the staff next year, please see me as soon as possible."

Student Body President

Continued from Page 1

SECRETARY OF ENTERTAINMENT - Richard Kunsch, Moe has consented to serve the Student Body as director of entertainment next year. His past success in this field as Vice President warrants our appreciation as well as our pleasure in having him in such a vital position.

My final three appointments are people who have held these positions during the 1964-65 year and have proven themselves as best qualified for the work. Bob Terry will be our SUSGA Correspondent, Bob Rodriguez will handle the budget as Secretary of Finance and Skip Leham will co-ordinate the SGA and Student Union as Secretary of the Student Union. More inter-organization representatives will be appointed in the fall.

The SUSGA Convention of May 5 - 7, in Jacksonville, was a fine workshop for our newly elected officers. Points of importance were noted, and will be researched further in an attempt to aid and enhance your school.

The problem of academic dishonesty will be one of the major undertakings my administration will attempt in the fall. We will expect you as students and future graduates of the university to accept the responsibilities of upgrading your educational community by doing what is right instead of what has grown to be accepted as commonplace. I offer you an article "Cheating in College", May 1966, Harper's, on the subject. Remember that this will be something which must come from the students themselves, in order to have it work. At this time I would merely ask of you to give a little thought to what Socrates once said, "A man who is good for anything ought not to calculate the chance of living or dying" (in our case it is cheating or failing) "he ought only to consider, whether in doing any thing, he is doing right or wrong."

BIG INCREASE IN FALL ENROLLMENT

Enrollment at the University of Tampa for the fall session has already climbed 69 per cent over last year.

Assistant Director of Admissions James C. Cook said that 696 students have been accepted thus far as compared to 412 last year at the same time.

All together between 1,650 and 1,700 students are expected on the Spartan campus this fall. Last autumn 1,500 students were registered. Approximately 700 freshmen will comprise the total enrollment.

Two Professors Retiring

Two professors of the University of Tampa are closing the final chapter on their active teaching careers.

Dr. Robert J. Nickel, professor of education, and Dr. Clarence M. Pruitt, professor of geography, are retiring this year from the University after accumulating a record of more than 90 years in the classroom. The two men who instruct students entering the teaching field were honored recently with a reception by the campus chapter of the Student National Education Association and the American Childhood Education Association at the University.

Dr. Nickel opened the first page of his teaching career in 1918 in his native Kentucky. There in the eastern section where the pines told the mountains etching the skyline, Dr. Nickel opened his first school—a one-room schoolhouse. "I was only 16 then," he reminisced fondly, "but even then I had long held the desire to teach—I had an older sister who taught."

From headmaster at the head of the hollow, the educator passed to the county school superintendent's post. In that position, he gave an eager young man his first teaching job—a man whose love of the classroom was to become widely-known in his writing. He was Jesse Stuart.

The chapters in Dr. Nickel's teaching career quickly sped by. Coach in West Virginia, principal, superintendent of city schools. Colorful interludes were spent as a union carpenter and funeral director. "The latter jobs not only supplemented my income but helped finance the additional degrees I sought," he recalled. He received the bachelor's and master's degrees from Morehead State and the University of Kentucky, respectively. His doctorate was awarded at the University of Virginia.

How did he happen to join the University of Tampa faculty? "I disliked the cold climate and sought a position in the South. I became a professor in the University's education department in 1961."

While at the University, he has become widely-known for his practical solutions to problems and as a listening post for students. "He was just like a father to me," pointed out University Defensive Football Coach Charles Bailey.

Another student, Mrs. Catherine Little of Tampa, considers Dr. Nickel's patience and helpfulness his most outstanding traits. "He always has time for you. Today when everyone is in a hurry and no one has time to spare, Dr. Nickel is a rare exception. He always made me feel he was interested in whatever problems I had."

As an instructor of teaching methods, Dr. Nickel was respected for his practical knowledge in interpreting textbooks. In his understanding way, he pointed out to the would-be teacher it was important to let every student feel as though he had succeeded. "He told us to set up our program to assure that all students would have some level of success—no matter what kind of grouping they fell into," remarked Sam Rampello, social studies teacher at Plant High School, a University alumnus.

"He didn't stick entirely to the education book. In fact he was always bringing the practical aspect into our classes," noted Gayle Whitman, a University senior.

It was this interest in teaching which led Dr. Nickel to direct the University's Pre-College workshop program. Now in its fifth year, the program is designed to improve the academic skills of students whose background is deficient academically.

Now that the final pages are being concluded Dr. Nickel does not plan to retire from learning. He and his wife, Daisy Allison, will continue to work their flowers. And there might even be a few hours for fishing.

Product Of Our Generation

Dear Mark:

I'm sitting here in the mess tent trying to write you. Yours was the first correspondence of this type that I've received so I know I just have to answer.

Right now I have time to myself for the mortar explosions I hear are still over three miles away. Hardly a night goes by that they're not there, along with artillery or the 1000 pounders from the B-52's. Right now, though, the bombers are being used on Operation Harrison north of Saigon.

Received your letter about a week ago, I think, but never got to answer for our province went on alert that night and I was out on the perimeter.

I doubt if there's many men over here who are afraid to die. It's how we die. To get shot in the back or killed along with civilians by a terrorist mine is a rotten shame. I only hope if I have to go it's while facing my enemy.

The only paper we have here is the good old Stars & Stripes and I know they omit a lot of what's going on at home about feelings and reactions toward us but a lot of guys are getting letters from people like you to set them straight. Next to fighting I guess letter writing is next for it takes the mind off just sitting around and stewing on what could happen.

Mark, the Special Forces can't be put into words. Undoubtedly, you've heard Sadler's "Green Berets" and some of it's correct. The only time it's completely fulfilled is when you've been "zapped." Most of it is rotten, dirty, hot work. It is a glamorous life only after getting out for then you know you can take anything the world has to throw at you. It costs from \$17,000 to \$35,000 to train just one SF man. There's 90 to a class (100 counting officers) and only five to ten graduate for the GB. The rest go Airborne or Ranger.

If you can stand eating monkey meat, love living with snakes and scorpions, can eat a chicken raw, cook skunk cabbage, and not wash for seven days, then you may finish out one week of school.

Then it's off to Greenland for a week of skiing and then a flight to the Panamanian jungles to sweat out and chills to be replaced by body sores and leeches and wet feet for another week.

Then it's on to swimming in shark and alligator infested waters, holding your breath for 120 seconds (to start), scaling 500 foot cliffs in 30 minutes, then get back down in 10 seconds by Rogers ropes.

Then comes the hard part. Can you kill a man. Kill him, then walk away and forget him. Knowing only that he was an enemy of your country when in reality he was just, like you say, someone who couldn't see through the smoke to get to the fire.

The enemy we're fighting is ignorant, Mark. These people don't know us. They've never heard of democracy except what their instructors teach and to them it's worse than the way they now live.

I've been fired on the road north of here while escorting supplies in, been almost blown up by a claymore mine that weathered a delayed fuse and exploded 100 feet behind me. Even hauled water in a water trailer and when I got here it was empty with about twenty bullet holes in it and yet I hadn't heard a thing. That's how sneaky these people are.

I was born in New York 28 years ago, went to Europe at the

Honor Society Names Officers

Three new members have been inducted into Phi Alpha Theta, the international honor society in history of the University of Tampa. At the same time, the group has also named its officers for the coming year.

New members affiliating with the society are Dr. James Covington, professor of history and political science, George Taylor, senior from Tampa, and William Oakerson, junior from Little Silver, N.J.

Douglas Smith, junior from Ridgewood, N.J., is the new chapter president. Other officers are Janet Mathews, senior, Mt. Pleasant, Pa., vice president and Oakerson, secretary and treasurer.

age of 8 to be with my father who was in a U. S. Army hospital. He had stepped on a mine two months after the war ended and shattered his legs in thirteen places. I had a first hand look at what war could do.

At seventeen I joined up and have since been back to Europe, Japan and Korea twice. It was in Korea I volunteered for Viet Nam and was on my way in 22 days without a leave.

I have been here since October and have 5 months to go and there's only one way I'll go home before time. I'm from Florida and would really like to see it again, in fact, any part of OUR U. S. A.

Well, Mark, reckon I've written enough. If I've said anything worthwhile, I'm glad. If not, then you at least know that we really answer any letters we get.

You keep on a-prayin' and we'll take care of the fightin' and they'll catch that hell, especially here around Vung Tau, Viet Nam.

Best,
S. Charles Gorden
P.S. How did you obtain my name and address?

Motorcycles A Concern; Drive With Caution

Undeniable, the motorcycle has become a popular means of transportation on the University of Tampa's campus in the last few semesters.

To the larger number of students residing off campus, the motorcycle has a definite economic value. It saves on gas, parks easily, and it's speedy. Being equally popular with the girls, the 'cycles' don't cramp anyone's dating style either.

Despite the motorcycle's advantages, for many people they have various drawbacks. Dean King, speaking from the administrative point of view said, "Our real concern is the danger they present to the students." Unlike an automobile they offer no protection to the passengers in case of an accident. Even the minor mishaps on a motorcycle usually will result in a serious injury despite all precautions.

But danger isn't the only reason for the gradual concern with 'cycles' on campus. The unnerving noise from the racing motors resounds throughout classrooms and dorms, causing complaints from students and professors. It is often necessary for professors to momentarily stop lecturing as the "steel charger" passes by.

Many of these problems could be alleviated if the speed limit (15 m.p.h.), pertaining to the various public streets crisscrossing the University's campus, were observed. Even though these streets are infrequently patrolled by the city policeman, violators of all traffic rules are subject to fines and penalties as on other public roads.

The administration can regulate the use of motorcycles on campus in any way it thinks necessary. Such measures would not be needed of students were more aware of the responsibilities for correctly handling these motor vehicles.

If these rules were adhered to, it would certainly stop many of the reasons for complaint and perhaps save someone's life in the long run.

Mail this coupon and get taken for a ride.

Dear Sir:
I don't mind being taken, as long as I get taken back without having to buy anything. I am prepared for you to bend my ear the entire time about all the advantages of the VW Station Wagon. How distinctive looking it is (I will laugh). How I can fit my sailboat in it. Or my camping equipment. Or my nine children. The excellent traction in snow because of the weight of the motor on the rear wheels. And of course, the delightful novelty of getting over 20 mpg with this compact bus. Please call me to fix a convenient date. If a woman answers, hang up. My wife isn't quite ready for the idea yet.

2. No dress regulations.
3. 4-day weekends.
4. No parking problems.
5. No room checks.
6. Phones in each room - free of charge.
7. Fraternity and Sorority row.
8. No waiting in lines for registration - computers to plan schedules.

University Of Tampa Test Center For National Teachers Exam

The University of Tampa has been designated as a test center for administering the National Teacher Examinations on July 16, 1966, Dr. C. J. Ho, Director of Testing at the University announced on May 19th.

College seniors preparing to teach and teachers applying for positions in school systems which encourage or require applicants to submit their scores on the National Teacher Examinations along with their other credentials are eligible to take the tests. The examinations are prepared and administered by Educational Testing Service, Princeton, N. J.

The designation of the University of Tampa as a test center for these examinations will give prospective teachers in this area an opportunity to compare their per-

formance on the examinations with candidates throughout the country who take the tests, Dr. Ho said.

At the one-day session a candidate may take the Common Examinations, which include tests in Professional Education and General Education, and one of the 13 Teaching Area Examinations which are designed to evaluate his understanding of the subject matter and methods applicable to the area he may be assigned to teach.

Bulletins of information describing registration procedures and containing Registration Forms may be obtained from the University of Tampa, Room 130 or 308 or directly from the National Teacher Examinations, Educational Testing Service, Box 911, Princeton, N. J. Prospective teachers planning to take the tests should obtain their Bulletins of Information promptly, Dr. Ho advised.

Trivialities

1. What was the name of Gene Autrey's horse?
2. Who was the Cisco Kid's sidekick?
3. Who was the fat Sergeant on "Zorro"?
4. Who was the clown on "Howdy Doody"?
5. What was Elvis Presley's first golden record?
6. Who played Sergeant Joe Friday?
7. Who played Wild Bill Hickok's sidekick?
8. What was the name of Ahab the Arab's camel?
9. Name Donald Duck's girlfriend.
10. Name Roy Rogers' dog.
11. Name the dog starring in "Sergeant Preston of the Yukon."
12. Who played the role of Jimmy Dean's only friend in "Rebel Without a Cause"?
13. Who played Bret Maverick?
14. Who is Rex Marshall?
15. Who is Norma Jean Baker?
16. Name nine U.S. cars named after animals.
17. Name sixteen U.S. Cars named after places.
18. Who ran for President in 1948 on the Republican ticket?
19. What is the beer that made Milwaukee famous?
20. Who's carrot patch does Bugs Bunny raid?
21. Name Mickey Mouse's dog.

CALENDAR OF EVENTS

THRU JUNE 4 — University of Tampa student art show, Student Center, 9 a. m. to 10 p. m. daily; LaMonte Gallery, 2-4 and 7-9 p. m.

FRIDAY, MAY 27, 8:15 p. m. — University of Tampa Student Recital, Falk Theatre. Admission is free of charge.

SATURDAY, JUNE 4 — University of Tampa's second annual Alumni Day honoring class of '41 and special guests. Registration, 10 a. m. in the lobby of the Student Center; tour of Western Civilizations corridor of Henry Bradley Plant Hall, 11 a. m.; luncheon and address by J. Crockett Farnell at 12:30 p. m., Student Center Dining Room.

SUNDAY, JUNE 5, University of Tampa Commencement. Baccalaureate services, 11 a. m., Falk Theatre; Commencement Day luncheon honoring seniors, 12:30 p. m., Student Center; Commencement program, address by J. Colon Brown, chairman and chief executive officer of National Gypsum Co., 3:00 p. m., McKay Auditorium; President's Reception honoring graduates, their families and friends, 5-6 p. m., Student Center Dining Room.

Children who walk improperly, with the toes pointed in or out, should receive professional help to ward off permanent foot problems, according to the Florida Podiatry Association.

The incidence of foot problems is highest among the aging and the overweight, according to the Florida Podiatry Association.

HAVE FUN WORKING IN EUROPE.

WORK IN EUROPE

Grand Duchy of Luxembourg, Adventurous students now have an opportunity to work in Europe and earn as much as \$400 a month. Among thousands of available jobs, most of which require neither previous experience nor knowledge of a foreign language, are resort work, sales work, hospital work, farm work, and camp counseling.

Wages and working conditions are the same as those of the Europeans with whom the young Americans work. To encourage working in Europe the American Student Information Service (ASIS) is awarding travel grants ranging from \$250 and up to all job applicants.

Interested students may obtain the ASIS 36-page booklet containing every job category available in Europe as well as wages, working conditions and photographs of Americans on the job in Europe by sending \$2 (for the booklet, handling and air mail postage) to Dept. XI, ASIS, 22 Ave. de la Liberté, Luxembourg City, Grand Duchy of Luxembourg. The booklet also includes job and travel grant applications.

I am a sick student!
I am a spiteful student!
I am an unattractive student!
I believe my liver is diseased!

I am well-educated enough not to be superstitious, but I am superstitious!
I have to play with crayons to depreciate Art.
My Crayola is Broken!
I shall disturb the flies and be on my way.

If you travel Europe, bring towels. Else, you might find out what the newest thing in Drip Dry is, when you step out of the shower.

Chatter "Why were you born?"
My mother was pregnant and it seemed the likely thing to do.
Census Bean reports that, "Southern girls marry at an early urge."

Chemical Analysis of a Woman

Symbol: Wo

Accepted Weight: 120

Occurrence: Wherever man is found.

Physical Properties:

Boils at nothing.

Freezes in a minute.

Melts at less than room temperature if properly treated.

Very bitter if neglected or improperly treated.

Chemical Properties: Great affinity for gold, platinum, silver and precious stones. Violent reaction if left alone. Able to absorb great amounts of food matter. Turns green when placed beside better-looking specimen.

Uses: Highly ornamental. Useful as a tonic in the acceleration of low spirits. Useful as an equalizer in the redistribution of wealth.

Note: Probably the most effective income-reducing agent known to Man!

Caution: Highly explosive in inexperienced hands. Very complex and results in many unexplainable actions. Highly unpredictable, should be watched at all times!

Have you ever seen upon the street,
A boy who walked with wobbly feet,
With a lagging train of books behind,
He was a T.U. student with a Micro Mind.

With micro words and micro ways,
On lousy food, he filled his days,
And thus in the course of passing time
His brain had shrunk to a micro mind

His eyes gave out with a neon gleam,
His nose lit up like a movie screen
His ears worked like a swinging gate
And his heart pumped blood at a terrific rate

This boy obtained in passing years
Infinite impedance between his ears
At last he succumbed to a heavy jolt
When he failed what he thought was an easy bolt

The Doc looked up from his microscope
And said to the nurse behind this dope
Since not a trace of his brain can I find
He's a T.U. student with a Micro Mind

Drivers under 25 years of age represent only about 18 per cent of all licensed drivers in the U.S., but in 1965 they were involved in more than 30 per cent of all fatal traffic accidents and 28 per cent of all non-fatal highway mishaps.

1. You eat strawberries which you adore - hives for the formal.
2. Waking up Friday morning for Phys. Ed. (you only have that class Monday and Wednesday.)
3. Getting to the Airport at 6:00 A.M. for standby - the person in front of you got the last seat.
4. Missing an "A" on that final exam by one point.
5. You get a letter from home - "Aunt Bessie is fine, the baby lost a tooth... etc." P.S. No money.
6. A long - distance phone call when you were out - no name left.
7. After completely re-arranging your class schedule - another one of your courses is closed out.
8. You're supposed to graduate in June - Your advisor informs you that you're one credit short.

Organizational Meeting Held

The Tampa Bay Epsilon Nu chapter of Phi Delta Kappa held its organizational meeting and dinner at 7:30 p. m. on Monday, May 23, at the University of Tampa Student Center Dining Room.

The purpose of the organization is to promote research, service and leadership in the educational field.

Men to be considered for membership in the Epsilon Nu chapter must hold a master's degree, have three years of educational experience and occupy a role of leadership in education.

Dr. John Outtersen, chairman of the University's education department, said four national officers of the fraternity are expected to attend the Monday night meeting. They include Dean J. W. Lee of the Mississippi College Graduate School, second vice president of Phi Delta Kappa; Dr. Maurice Shadley, director of Special Services International Phi Delta Kappa of Bloomington, Ind.; Dr. Nathaniel Shope, superintendent of schools, Goldsboro, N. C., District 7 Representative; Dr. Billy Pascal, associate professor of Education of the University of Miami, state coordinator of Phi Delta Kappa.

Guests of honor at the meeting were University of Tampa President David M. Delo; University of South Florida President John Allen, Hillsborough County School Superintendent J. Crockett Farnell and Florida College President James Cope.

Brothers Honor "Mom" Walker

The brothers of Tau Kappa Epsilon honored "Mom" Walker of the Pioneer Laundry May 16th with a banquet. "Mom" is an avid supporter of the University and all its Spartan activities. She is well known for her kind and congenial attitude toward all the students, and even more so for her willingness to help anyone who is in need.

The idea of honoring "Mom" first came about two years ago when former president of the student body John Hines suggested that the Student Congress hold a dinner in the cafeteria on her behalf, reports George Murphy, TEKE president. The idea evidently got lost in the end-of-the-year activities. Mom told us that she was planning retirement this year, so we thought it only fair that this long overdue event come to pass.

We all wish "Mom" the very best of luck in the future and feel confident that she will remember all the fine students at the University. Our thanks will never stop.

Dr. Mitchell Speaks In St. Pete

Dr. Mitchell, an associate professor of psychology at the University of Tampa, assisted in conducting tests to select the original team of U.S. astronauts.

"Selection Problem on the Human Component for a Space System" will be Dr. Mildred B. Mitchell's topic when she addresses the Society for General Systems Research Thursday (May 26). Dr. Mitchell will give her speech at 8 p.m. at the University of South Florida's Bay Campus in St. Petersburg.

The Florida Canners Association is trying to find a new and convenient container for frozen concentrated orange juice that will lend itself to easier storage and easier opening.

Journalism Fraternity Inducts 7 New Members

Seven students of the University of Tampa were inducted into Pi Delta Epsilon, the collegiate journalism fraternity, at 9 p.m. on Monday, May 16, at the University's Student Center.

Those initiated included Leslie McDonald Barr, a junior from Glen Cove, N. Y.; Eileen Cohen, a junior from Philadelphia, Pa.; Marcia Chalfin, a senior from Paterson, N. J.; Mike Stelker, a junior from Paterson, N. J.; Anita Carbone, a sophomore from Merrick, N. Y.; Janet Lewis, a sophomore from Vero Beach, Fla.; and Sylvia Kroha, a sophomore from Toronto, Canada.

Col. Frank Hutchins, director of public relations at the University of Tampa, is the fraternity's adviser.

National President Addresses Chapter

Dr. Esther McKeune, national president of Kappa Delta Pi, will address the charter members of the University of Tampa's Kappa Tau chapter at their organizational meeting. The meeting will be held in conjunction with the Tampa Bay Alumni Association chapter beginning at 6:30 p.m. Thursday, May 19, in the University's main dining room.

University of Tampa president, Dr. David M. Delo, will be presented with the charter for the campus organization, which is an honorary society in education.

Installing the 26 charter members will be Mrs. Olga McClain, vice president of the Tampa Bay Alumni Association chapter.

Following initiation ceremonies, President Earl Hall of the Tampa Bay Alumni Association chapter will install the local chapter officers of Kappa Tau. Later, Dr. McKeune will install the new officers of the Tampa Bay Alumni Association chapter.

Invitations to attend the ceremonies have been extended to Governor Haydon Burns, State School Superintendent Floyd Christian, and University faculty members who are members of Kappa Delta Pi, according to Director of Teacher Education, Dr. John Outtersen.

Frank Johnson S.A.I. Sweetheart

Congratulations are in order for Frank J. Johnson, who was named SAI sweetheart for 1965-66 on May 19th. Our grateful thanks go out to him for the wonderful job he did painting our room, making a sign for our door, and many other jobs too numerous to mention.

We'd also like to congratulate our new initiates, Patricia Lawrence, Mary Ordog, and Jane Weinberg. Our Second National Vice President was present for the initiation service and complemented the sisters on their fine job. An initiation party was held at Howard Johnsons following.

Good luck to all the sisters and everyone on finals, and we hope everyone will have a very fine summer.

Nursing Staff Director Retiring

Mrs. Marguerite Austin, director of the University of Tampa's nursing staff who is retiring after 10 years of service, will be honored Thursday (May 26) with a reception at the University.

Faculty and staff members have been invited to the tea in Mrs. Austin's honor from 3:30 to 4:30 p.m. in the International Room of the Student Center.

DELTA SORORITY

The sisters of Delta Sorority would like to thank all who attended our Sweetheart Ball.

We are proud to announce our sweethearts for the past year: Lou Alarcon, Pat Del Piano, Art Ochenberg and Bill Lusk.

Also our outstanding pledges were Lucille LoPresti, fall, and Sandy Shasz, spring.

Sandy Seed received the outstanding active award. Also a special award for service from the sisters.

We would also like to thank our chaperones, Mr. and Mrs. James Favata, our adopted parents, who received the outstanding service award.

DELTA PHI EPSILON

The Deepers marked their first anniversary of their chartering with an Anniversary Ball, held at Quail Hollow Country Club. At this happy affair, our Men of the Year were announced. They are: Jack McMannus, Jerry Reiley, and Jason Scariatta. We owe these boys a great deal for all their help throughout the semester and we thank them very much.

A new award was presented to Professor Lloyd. This award is the Outstanding Faculty Member Award, and it goes to a member of the faculty who works for the betterment of the Greek system on campus.

Sister Jill Kaplan and J. C. Scariatta received the Best Couple Award.

Sunday, May 15, the Deepers will hold their annual Awards Banquet at the Sweden House. We are all looking forward to the presentation of the pledge skit, as well as the Best Active and Best Pledge Awards.

New officers were inducted last week. They are: Anne Schwartzstein, President; Linda McLeod, 1st Vice-President; Marcia Chalfin, 2nd Vice-President; Janice Fried, Secretary; and Bobbie Goldenberg, Treasurer. We would like to thank the past officers for a job well done, and wish the new officers a most successful administration.

Have a nice summer and we are looking forward to seeing y'all back in the Fall!

The Deepers

SIGMA PHI EPSILON

The brotherhood of Sigma Phi Epsilon would like to take this opportunity to congratulate Brother Bill Oakerson upon winning President of the Student Body, Brother Bill Smink for President of the Senior Class and Pledge Tom O'Brien for President of the Sophomore Class. Our thanks go out to all the people who supported Bill Oakerson and Tom O'Brien in their recent election.

Congratulations are also in order to Linda Liotta, the 1966 Sigma Phi Epsilon Sweetheart and her court, Mazal Kieffer, Connie Gull, and Cathy O'Neil. Brother Bill Gebauer was this year's recipient of the 'Psycho Award.'

We are looking forward to success in the intramural program to go along with our recent notification of scholastic champions.

Last weekend was our annual Sweetheart weekend and a good time was had by all. Congratulations to Brother Pat Del Piano who pinned Sandy Seed over the weekend.

There have been some changes in the Sig Ep family lately and a special congratulations go out to Mr. and Mrs. Hurt on their birth of a girl, Kelly Ann Hurt, on April 23rd at 1:00 p.m. Kelly Ann weighed in at 6 lbs. 10 ozs. Mr. and Mrs. Verlin Williams on the birth of their daughter on Wednesday, May 5th. She weighed 6 lbs. 5 ozs. Mr. and Mrs. Lester Harvey on the birth of a boy, born Tuesday, May 10th at 7:50 a.m. and weighing 6 lbs. 5 ozs.

Don't die now . . . you're coming down the home stretch!!!

Bill Smink

ZETA TAU ALPHA

The sisters of Zeta Tau Alpha formally presented their fall and spring pledges at their annual

THIS CALL COULD BE FOR YOU...

There's a wide variety of interesting career opportunities for high school and college graduates with General Telephone of Florida. Whether you'd like to be a telephone operator or prefer other areas such as secretarial, general office, accounting, sales, telephone installation and service, engineering or research . . . there's interesting work to be done.

To learn more, call or visit the personnel department at any one of our business offices.

"Good people make this a good place to work."

GENERAL TELEPHONE

A Member of the GT&E Family of Companies

FRATERNALLY YOURS

Stardust Ball, on April 29th, held at the Causeway Inn. President Darby Dornblaser presented the

following awards: outstanding fall pledge, Fran Faran; outstanding fall scholarship, Donna Zendeque; outstanding spring pledge, Helen Sinclair; and outstanding Spring Scholarship, Barbara Schmitt. Outstanding active scholarship was given to Glenna Osborne and Suzanne Black, outstanding active award.

Suzanne was also given an honorary plaque from her sisters in appreciation for her outstanding leadership.

Six sponsor trophies were given to: Hank Allen, Nick Caraminia, William Mac, Ronald Malone, Fredrick Myers and Jacque Verron.

Thanks again, boys, for your support!! The award "Knight of Zeta Tau Alpha" was bestowed upon a retiring Senior and outstanding sponsor Charles Sherrill.

Saturday was filled with splashing fun as the sisters and their dates enjoyed themselves at a pool party. A costume party was held that evening at the Wellwood Civic Center.

A picnic followed on Sunday at Donna Zendeque's lake house. The week-end was enjoyed by all.

TAU EPSILON PHI

Hearty congratulations go to Brother Burton Epel on becoming Vice President of the Senior Class. We are sure Burt will do a fine job while holding this office. The Teps would also like to congratulate Bill Oakerson on becoming Student Body President.

Plans are in the final stages for TEP weekend, which will be held May 20th to 22nd at the Causeway Inn. Friday night a formal dinner-dance is being held, to start off our weekend in fine fashion. Saturday afternoon will be spent lounging around the pool, followed by an outdoor Bar B-Q, and dancing to the fabulous band of Brother Alan Lutzk. This year's formal should rank high among fraternity formal weekend at Tampa U.

The brothers and pledges are now working together in a campaign called "Operation Overhaul," to clean and fix our house for next fall. This caper, led by our chancellor, Maxwell Smart Yellen, and his agent "99" corps, have big plans for our house, beginning with the painting of rooms and the rejuvenating of the house exterior. Grass has just been planted by our gardener on the side of our house. Rumor has it that he sneaked in some corn and watermelon seeds but that shall remain to be seen in the fall harvest.

Best of luck to our graduating brothers, David Yellen, Alan Weidberg, Joe Schwartz, Dick Riesenberger, Danny Nasshorn and Rick "King" Mannen. The brotherhood hopes that they all return to visit us in the future.

Good luck to everyone in their final exams and to everyone a pleasant summer.

ALPHA CHI OMEGA

The weekend of May 13, 14, 15, was ALPHA CHI WEEKEND, and what can be said except that it was wonderful. Traditional LEAD OUT on Friday night presented our Spring pledge to the chapter and guests. "Big Lyres" were awarded special recognition.

And from the hearts of each sister in our chapter, special and heartfelt congratulations to our ALPHA CHI Sweetheart for 1966. Few have ever contributed so much volunteer effort toward our chapter and its interests.

We are pleased to announce that Pledge Marie Anastasi was chosen secretary of the Spanish Club and that Sister Terri Melindi has been selected vice president of the Spanish Club, as well as being elected secretary of Kappa Delta Pi, Education Honorary Fraternity.

All the sisters of Gamma Pi chapter wish everyone a happy summer holiday.

Graduating seniors Sisters Leslie Smith and Judy Orovic were recently honored at our annual Senior Breakfast. We are very proud of these girls but they will be dearly missed in the ranks of our active chapter.

TAU KAPPA EPSILON (TKE)

Last weekend, April 29 through May 1, we had our annual Public Service Weekend. Every year this is done by all the Teke chapters. One weekend is set aside for all the chapters to engage in some sort of service for an organization, whether it be repairing, painting, advertising, etc. What we of Epsilon Beta did, was to work for the Salvation Army here in Tampa. We went from home to home, distributing advertisements about leaving discarded materials for the Army. We covered nearly the entire Bay area. We were publicized over all the major radio stations and were seen over Channel 8, last Saturday night at 6:00 p.m. It was truly a worthwhile weekend.

We also wish to extend the best of luck to EVERYONE in their exams.

Esquire's CLUB & CAMPUS FASHIONS

By CHIP TOLBERT
ESQUIRE'S FASHION EDITOR

SUMMER STANDS POISED on the edge of campus, ready to rush in and fill the void as classes, exams, and term papers come to their appointed ends. For Summer '66, your wardrobe will accent the colorful and the casual. Here are a few pointers on what to take along when you split the academic scene.

BASKETBALL BEACHWEAR? Why not? We already have the classic "boxer" short. This season one important swimwear trend derives from the basketball courts. The style is moderately trim-fitting, and its trademark is side vents. New sport-oriented color combinations take precedence: look for white cotton trunks with navy binding down the sides and around the legs; navy trunks with beige trim, and maroon trunks with navy bindings.

"BY THE SEA, BY THE SEA, by the beautiful sea..." Do you recall those colorful cardboard plaques with a cut-out hole to pop your head through to be photographed in a legitimate 1890's beach scene? Do you remember the hilarious beachwear fashions of our Victorian grandfathers? Well, modified versions of the same are back, and for sheer fun in the sun, they're unbeatable. Look for bold, striped, stretch cotton knit outfits. Shirts feature a Henley neck, while the usually matching stretch swim trunks reach halfway to your knees. Bold belt treatments, adjustable side tabs, and fully-lined shorts are all part of this "new" fashion. "Dipping, anyone?"

BELTED BRIEFS, bold colors, and trim lines cut from stretch fabrics may be more to the typical college man's taste. Husky brass and silver buckles complement broader belts. Colors are hot and bright: vivid blue-green blends, vibrant reds, yellows and oranges, and an endless variety of stripe and border treatments.

C.P.O.'S FOR SUMMER. The Chief Petty Officer shirt, along with bell bottoms and the classic Navy pea jacket, are three major fashion contributions of your local Army Navy store. The pea jacket is reserved for winter wear (though its double-breasted idea carries over in many of this summer's colorful blazers). Bell-bottoms are already a summer staple, and this season will see the C.P.O. shirt introduced for warm weather wear. Chief C.P.O. characteristics: they're blue, non-button-down, and have two flapped pockets in front. Many models feature epaulettes. Look for them in cotton, brushed denim and polyester blends in both long and short sleeved models.

RAINBOWS OF COLOR mark this season's soft, cotton sweatshirts in a wide variety of styling variations. Color to your taste in peach, pink, red or coral, lime, orange, copper or bronze, burgundy, lavender, or smoky charcoal. Styles include the traditional crew neck with long sleeves, V-necks, turtlenecks and mock turtles by the score, some featuring short-sleeved styling. Boating parkas in water repellent nylon will mostly be seen in bold competition stripes. Hot horizontal or vertical stripes in, for example, white, yellow or red, complement body colors in Navy, blue-green blends, and burgundy. And don't overlook bell bottoms in blue stretch denim, poplin jackets with a front zipper and a drawstring bottom, and India madras walking shorts.

THE SANDS OF TIME swirl through the hourglass, and another academic year bites the dust. Now it's time for sandy beaches, skin diving, water skiing, and sailing. However you select to spend your summer leisure, make the most of it, and with luck we'll both be back next Fall with the scoop on Back-to-College fashions. See you then.

Spartan Baseball Team

The U. of Tampa baseball team ended its season with a victory over U. of Jacksonville, 2-1. The Spartans finished in second place in the F.I.C. with a 16-8 overall record.

One main factor was the pitching of Ray Veit who had a 6-1 record, with a 2.17 E.R.A. Ray pitched 62.3 innings struck out 41, and gave up 15 earned runs.

Batting the ball all over the

park was Dan Sikes, who led the teams hitting with a .341 average.

The Spartans will be rebuilding their team for next season due to the many vacancies left by the graduating Seniors. These Seniors are Ray Veit, Dan Sikes, Joe Pizzano, Frank Vinning, Steve Moore and Wayne Hardin.

A fine first season must be credited to Coach Larry Gable.

Coach Gable's ability and knowledge of the game brought to his ball players the experience in which has not been seen on the T.V. diamond for the past seasons.

Congratulations to the ball club and all who make it possible each year.

Jim Frazier will not return next season but will be with Uncle Sam's team (U.S.A.F.).

Dan Sikes Named Outstanding Athlete

University of Tampa spring sports performers were honored last night at the annual Spring Sports Banquet held at the Student Center. The Alumni sponsored the event which was topped off by the naming of Dan Sikes as the Outstanding Athlete at Tampa during the past year. Dan was Alternate Captain of the football team, and played both center and linebacker for the Spartans. He also was the leading hitter on the baseball team with an average of .341. He led the Spartan diamond squad in the RBI department also, with 17.

Chuck Sprietsma was named as the outstanding Freshman on the basketball team. Senior guard Dick Pusins was named as the MVP in basketball. Dick led the team in scoring with an average of 19.8 points per game. Pusins and Wayne Harden also received certificates naming them to the All-FIC squad.

Senior first baseman, Frank Vining drew the honor as the MVP in baseball. Frank hit 205 for the Spartans and became the first Spartan infielder to ever go through a season without making an error. Joe Pizzano and Jim Frazier received certificates as All-FIC players in baseball. Pete Schaaf, who plays centerfield, was named as the Outstanding Freshman on this year's team. Pete hit .256 and had 15 RBI's and 7 stolen bases.

Chuck Heindel was named as the Outstanding Wrestler for the past season. Chuck was captain of the Spartan's State Championship team. He won 7 matches and lost only 1 in the 123 pound class this year. A sophomore, Chuck is the defending State Champion in his class.

The crew team honored Steve Taffe as the Outstanding Varsity Oarsman for 1966, and Ron Malone was named as the Outstanding Oarsman on the JV squad. Dan Wagstaff was named as the Outstanding Tennis Player for 1966. Members of the water-ski team were also honored at the event Tom McEwen, Sports Editor of the Tampa Tribune, was MC of the banquet.

Tampa Crew Has Successful Year

The Tampa Crew has completed a highly successful year. Their record for the campaign was a surprisingly good five wins and three losses.

What makes this record so impressive is that this was supposed to be a "building" year.

Equally outstanding is the fine showing (8 wins-5 losses) made by the J.V. boat which was manned by an almost totally inexperienced crew.

The fine showing made by the entire Crew team did not go unnoticed by the Athletic Department. Sam Bailey, the chairman of the Athletic Department has awarded partial scholarships to every member of the varsity boat and lesser scholarships to those of the J.V. shell.

Although "next season" is almost one year away Brad Wick-ersham, the popular Crew Coach is eagerly awaiting its opening. The Coach feels, as does the rest of the team, that with the addition of the new "Spoon Oars" the latest improvement in racing equipment, Tampa's Crew will have a legitimate shot at the state title in 1967.

Phys. Ed. Chairman Receives Award

Dr. Miller K. Adams, Chairman of the Department of Physical Education at the University of Tampa, was given the distinguished service award for 1966 by the Florida Association for Health, Physical Education, and Recreation at their state meeting in Miami Beach. Dr. Adams was cited for his contribution to the profession through research, writing, and teaching. He has served the state association as vice-president of physical education, district director, and as working conference program director on two occasions. Recently Dr. Adams served for three consecutive years as research chairman setting up for the first time the reporting of research studies at the State Working Conference. Dr. Adams has served as Publication Director and Journal editor for Florida for the American Association for Health, Physical Education, and Recreation. He has written numerous articles for the Florida Journal for Health, Physical Education, and Recreation and for the Journal of the American Association for Health, Physical Education, and Recreation.

Faculty Members Renew Contracts

All 66 fulltime members of the University of Tampa faculty have accepted their contracts for the coming academic year. News of this unusual action was released yesterday by University President David M. Delo.

At the same time, Dr. Delo who has been president of the college since July 1, 1958, noted the University had only had two resignations since September, 1965 — both for health reasons.

Vice President for Academic Affairs Charles R. Walker, Jr. who is in charge of faculty recruitment said it is indeed a rarity for an entire faculty to accept their contracts. "When one compares our salary offerings to other universities as well as to the financial gains to be made in business, the action is even more unusual," he commented.

In previous years, the University, which registered 1,500 students in 1965, has averaged five or six resignations a year.

Dr. Delo said he attributed the unique record to the excellent atmosphere of academic freedom in the University's classrooms, the improvement in all facets of University operation and Florida's enticing climate.

"We are delighted with the report," the president added. "I think it is excellent evidence of the fine relationship between the various coteries of the University community."

Clare Timberlake Guest Speaker

Ambassador Clare H. Timberlake who is permanent U. S. representative to the Conference of the 18 Nation Commission on Disarmament in Geneva, was a guest speaker at the University of Tampa May 20.

He spoke to Political Science classes during the morning, a Comparative Government class in room 219 at 9 a.m. and International Relations students at 11 a.m. at Falk Theatre.

The internationally known diplomatic official became foreign service officer for the Department of State, December, 1930, vice consul, Toronto, 1931, Buenos Aires, 1932-35, Zurich, 1937-38, Vigo, Spain, 1938-40, Aden 1940, consul, 1940-43, consul-general, Bombay, 1948-50.

Still standing in Coral Gables is a lighthouse-like water tower that was built originally as a vantage point overlooking the city's waterways.

INTRAMURAL CO-ED SOFTBALL

Four teams entered the annual co-ed softball tournament this year and battled to a close finish in the double-elimination tournament which allows each team to play as many as four boys on the field at one time. Each team must have at least five girls in the line-up.

Members of the winning Independent team are:

- Miriam Pellegrino
Linda Ford
Lorrie Giard
Carol Hailey
Nancy McCandlish
Carol Mucinski
- Nick Lynch
Bill Gebauer
Pete Schmidt
Ken Votaw
Paul Kelley
Jay Whitbeck
Bub Falid

WOMEN'S INTRAMURAL SWIM MEET

- Team results: Zeta Tau Alpha — 29 points
Independents — 21 points
- Individual results:
- 25 yd. free style

1st Pat Harrington, 16.8, Zeta
2nd Lorrie Ciard, 18.0, Ind.
3rd Carol Spooner, 18.9, Zeta

25 yd. breast stroke

1st Miriam Pellegrino, 19.8, Ind.
2nd Helen Sinclair, 22.0, Zeta

100 yd. free style relay

1st Zeta (Zendigui, Sinclair, Spooner, and Harrington), 1.10.3
2nd Ind. (Giard, Ford, Carol Hailey, and Pellegrino), 1.11.0
- 50 yd. free style

1st Linda Ford, 37.2, Ind.
2nd Donna Zendigui, 47.0, Zeta

25 yd. back stroke

1st Sinclair, Zeta, 18.7
2nd — tie
Pellegrino, Ind., 21.1
Mary Gaudio, Zeta, 21.1

Dilly-dally here
before you go home.

Then fly back for
half-fare on Eastern.

Stay awhile and recuperate from the school year. Then jet home — for half-fare on Eastern.

Just use your Eastern Youth ID card, or similar card from another airline. If you don't have such a card, it's a snap to get one — provided you're under 22 and can prove it. For the specifics, stop by a Travel Agent or any Eastern ticket office.

Once you have your card, you can get an Eastern Jet Coach seat for half-fare. You can't make an advance reservation. But if there's a seat available at departure time, you can fly to any Eastern destination within the continental U.S.

BADMINTON TOURNAMENT 1966

Tony LaRosa of Theta Chi Fraternity won the Intramural Bradenton Championship of the University of Tampa for 1966. LaRosa gained the quarter finals by default from players who failed to show up for the tournament. In the quarter finals LaRosa defeated last year's champion, Bob Ashmead. For the final match to decide the school championship LaRosa disposed of Pete Silverman of Tau Epsilon Phi Fraternity.

Silverman was awarded second place and a tie for third place existed between Ashmead of Tau Epsilon Phi Fraternity and Frank Walker of Theta Chi Fraternity.

FINAL STANDINGS			
NAME	ORGANIZATION	POSITION	POINTS
LA ROSA	THETA CHI	CHAMPION	30
SILVERMAN	TAU EPSILON PHI	RUNNERUP	24
ASHMEAD	TAU EPSILON PHI	3rd	-
WALKER	THETA CHI	3rd	-
UNGER	TAU KAPPA EPSILON		10
DE GENOVA	SIGMA PHI EPSILON		10
MENAGAS	SIGMA PHI EPSILON		-
BRAVERMAN	LYKES HALL		10
GUSTAVSSON	MAIN BUILDING		10

PADDLE TENNIS TOURNAMENT

Rick Mannen, paddle tennis player deluxe, captured the first championship conducted by the University of Tampa Intramural Department. A popular new sport added to the intramural program this year produced a number of fine entries. Mannen drew a bye in the first round of play and then proceeded to defeat Ed Roth of Theta Chi, Mike Lavin of Sigma Phi Epsilon and finally Tony LaRosa of Theta Chi for the school crown.

LaRosa was awarded second place for disposing of Taylor of McKay Hall, and Wade Whitson of Lykes Hall.

A tie for third place existed between Whitson and Lavin. The doubles tournament, again spearheaded by Mannen, went to the Tau Epsilon Phi Fraternity who was also ably represented by Bob Ashmead.

Second place went to Theta Chi who had previously beaten teams from Lykes Hall and Pi Kappa Phi and McKay Hall.

SCORING			
ORG.	SINGLES	DOUBLES	TOTAL MASTER SCORE
TAU EPSILON PHI	20	20	40
THETA CHI	15	15	30
PI KAPPA PHI	0	11	11
McKAY HALL	0	11	11
SIGMA PHI EPSILON	11	0	11

FRANK HUTCHINS WINS PHOTOGRAPHY AWARD

FRANK HUTCHINS, Director of Public Relations, was named the winner of the "Flash" Jarocki award by the Florida West Coast Photography Association at the organization's annual awards banquet.

Russian Expert Visits Campus

Dr. Boris Stanfield, internationally recognized as an authority on Russian Economics, spoke to political science classes this week as the guest of John H. Lindenmeyer, assistant professor of political science.

Stanfield, who calls himself "a living fossil," was born in Tomsk, Siberia, in 1889. He received his Ph.D. at the Imperial University of St. Petersburg in 1916. His potential career at the University was ended by the assassination of Rasputin in December, 1916 and the subsequent revolution of 1917.

Now retired after teaching at Columbia University for 29 years, he has been visiting professor in Brazil, Mexico, Hawaii (three times).

He spoke about his personal knowledge of Lenin, Trotsky and Stalin, as well as several other leaders including the first head of the dreaded Cheka, Fel Dzerzhinsky. Dr. Stanfield fled from Crimea with the last echelons of the anti-red army in November, 1920. He arrived in Berlin in May, 1921 in rags, soon learned German and later became adviser of Averill Hariman in his famous Russian Manganese Concession in the Caucasus.

Coming to the United States in 1931 for the first time, upon invitation by Columbia University, he learned English and remained there until retirement due to age limits in 1957. The professor gave courses on the Soviet economy and ideology and a course on the socio-economic problems of the Western civilization.

During World War II Dr. Stanfield was an executive of a large paper company in Minnesota, MANDO, and made a study of the labor-management relations in a communist-ridden trade union. His report resulted in the offer for the first time of a course at Columbia University on labor-management relations that attracted hundreds of students.

History Honor Society Has Formal Initiation

Phi Alpha Theta, International Honor Society in History, held its formal initiation on Sunday, May 21, 1966 in the Student Union's International Room. Dr. Covington, George Taylor and William Oakerson are the new members. Elections for 1966-1967 were held and Douglas Smith was elected president, Janet Mathews, vice president, and William Oakerson, secretary-treasurer. The new officers would like to wish the graduating members the best of luck in their future endeavors. Any history student interested in applying for membership is invited to submit his name in the fall.

The eggs of stream-spawning salmon and trout pick up particles of sand which help them sink to the bottom and anchor there, says the Miami Seaquarium's Capt. Bill Gray.

Braulio Alonso Luncheon Speaker

Braulio Alonso, principal of King High School who is also running for president elect of the National Education Association, will address the University of Tampa graduating seniors at their commencement luncheon at 12:30 p.m. Sunday, June 5 at the Student Center. "An Alumnus — What Responsibility to His University and to His Country," will be the title of his speech. University President Dr. David M. DeLo will introduce him.

A 1939 graduate of the University of Tampa, Alonso received his master's degree from the University of Florida and has done further graduate work there.

Alonso taught at Plant High School, served as director of adult and veteran education and has been principal of West Tampa Junior High School and Thomas Jefferson High School.

He has been a member of the board of directors at the Temple Terrace Chamber of Commerce, the United Fund, the Florida Education Association, the National Education Association, the Hillsborough County Education Association, the University of Tampa Alumni, the Advisory Board of Boys Club and Ybor City Chamber of Commerce. He has represented NEA in several Latin American countries and has lectured at the University of Puerto Rico.

The Tampa native resides with his wife, an elementary teacher, at 3510 11th Street.

MRS. LENDENMEYER WOMEN'S CLUB PRESIDENT

Mrs. John H. Lindenmeyer was installed as the new president of the University of Tampa Woman's Club May 21 at a luncheon at the Causeway Inn.

Mrs. Frances D. Allen was in charge of the installation ceremony. There will be a floral arrangement in the shape of a rainbow, which is the theme, in six colors both in ribbons and flowers. There will also be lighted candles in violet, blue, red, green, orange and yellow.

Other new officers are Miss Alice Rodriguez, vice president; recording secretary, Mrs. Michael D'Aprile; Mrs. Max Disbennett, corresponding secretary; Mrs. James Umholtz, treasurer; historian and parliamentarian, Mrs. Nora B. Helvey. Retiring members of the club and wives of retiring faculty members will be honored guests.

THE POISON: ALCOHOL

The guilt has grasped the victim it is slowly pulling her down into the depths of confusion and uncertainty. What fate awaits her at the bottom of this endless pit? No one knows, but every one has a vision. These visions are realistic, but still apparitions of the human mind.

What about the victims mind? Is it clear? Is it making sense to her? Or is it twisted and saturated by guilt or maybe alcohol or possibly both.

Does she know she is in the pit; she must know; the blackness of the pit of reality has swept over her long ago. She knows as well as any that reality can be dark, lonesome and confusing, if faced with guilt.

She is trying to run away from the pit? No one can run on a sea of alcohol.

LOOKING FOR Self Fulfillment?

Work for a year's time in Education, Health Services and Social Work in development areas in Israel, or participate in a kibbutz. Next available group for departure, June 1966. Interested applicants between 19-30 should write or call immediately:

MRS. NETTIE STEIN, (Regional Director)
Sherut La'am
515 Park Avenue
New York, N.Y. 10022
(212) 753-0230

Ski Team Wins West Coast Championship

The University of Tampa Ski Team won the west coast intercollegiate tournament on Saturday, April 30, 1966 at Stew's Ski School compiling 3,418 points. St. Petersburg Junior College finished second with 3,248 points and University of South Florida was third with 3,030 points. Tampa won the slalom and trick events under the great skiing in the slalom by Barry Hibben and Richard Randazzo and the tricks by Wayne Webster and Donald Laricks.

At Cypress Gardens Tampa placed sixth out of eleven schools entered in the Southern Intercollegiate Tournament on Saturday, May 7, 1966. The team will be even better next year with possibilities of getting a new boat and motor. Also there will be another ski dance next semester to help raise funds.

INTRAMURAL BOWLING FINALS

Sigma Phi Epsilon Fraternity won the 1966 University of Tampa Bowling Championships behind the strong rolling of Dave Scott and Tony Cuccurullo. This marks the fourth straight year in a row that Sigma Phi Epsilon has captured this honor.

Second place went to a strong Tau Epsilon Phi Fraternity team who bowled very well with stalwarts Bob Ashmead and Sandy Finman.

Third place was secured by McKay Hall. Leading bowlers were Steven Goddess and Vince D'Alessandro.

Fourth place position was occupied by Delta Sigma Pi who nosed out Pi Kappa Phi and Tau Kappa Epsilon Fraternities.

ORG.	TOTAL PINS	PLACE	MASTER POINTS
SIGMA PHI EPSILON	11,980	Champion	40
TAU EPSILON PHI	11,440	Runner-up	30
McKAY HALL	8,940	3rd	22
DELTA SIG	5,579	4th	18
PI KAPPA PHI	5,455		12
TAU KAPPA EPSILON	5,219		12

FINAL RESULTS

In the second runoff held last Monday, Oakerson and O'Brien emerged victors once again. The margin was smaller but at this point one vote was as good as a thousand. Kunch and Burgess led after the first tally with a score of 183-179, 68-66; Never again did Oakerson or O'Brien relinquish the lead.

The elections for another year have been concluded on campus. Inconvenience for the second runoff was voiced by some but it now clears the air, no bones can be picked and all those elected know that it was done fairly.

RESULTS:
Oakerson - 353, Kunch - 339
O'Brien - 132, Burgess - 115

18 UT Members Attend Meeting In Jacksonville

University of Tampa representatives to the Southern Universities Student Government Association S.U.S.G.A. Convention in Jacksonville last week may not have "brought home the bacon" but they did gather ideas for next year.

An eighteen member delegation from UT attended panel discussions on executive planning, student senates and judicial systems, administrative student relations and entertainment and social functions.

Over a thousand students met at the Robert Meyer Hotel where, for the first time, the convention was intergrated. It is now a matter of history that the University of Alabama was the first to invite a Negro school. UT representatives had proposed the original bill.

Bob Terri ran for vice chairman from the state of Florida, competing with students from Jacksonville University, Rollins and Miami. He was defeated by Sy Green from Miami.

John Mulry, vice president elect, met with entertainment agencies to discuss the possibilities for Homecoming as well as other special events coming up next year.

At the state caucus Gary Garbis presented UT's newly appointed Dean of Students Michael DeCarlo with a plaque for outstanding service to S.U.S.G.A.

Here are 7 knotty problems facing the Air Force: can you help us solve one?

1. Repairs in space. If something goes wrong with a vehicle in orbit, how can it be fixed? Answers must be found, if large-scale space operations are to become a reality. For this and other assignments Air Force scientists and engineers will be called on to answer in the next few years, we need the best brains available.

2. Lunar landing. The exact composition of the lunar surface, as well as structural and propulsion characteristics of the space vehicle, enter into this problem. Important study remains to be done—and, as an Air Force officer, you could be the one to do it!

3. Life-support biology. The filling of metabolic needs over very extended periods of time in space is one of the most fascinating subjects that Air Force scientists are investigating. The results promise to have vital ramifications for our life on earth, as well as in outer space.

4. Space orientation. The orbital problems of a spacecraft, including its ability to maneuver over selected points on the earth, are of vital importance to the military utilization of space. There are plenty of assignments for young Air Force physicists in this area.

5. Synergetic plane changing. The ability of a spacecraft to change altitude can also be crucial to space operations. Where but in the Air Force could S.C.B.'s get the chance to work on such fascinating projects right at the start of their careers?

6. Space propulsion. As our space flights cover greater and greater distances, propulsion—more than anything else—will become the limiting factor. New fuels and new propulsion techniques must be found, if we are to keep on exploring the mysteries of space. And it may well be an Air Force scientist on his first assignment who makes the big breakthrough!

7. Pilot performance. Important tests must still be made to determine how the pilots of manned aerospacecraft will react to long periods away from the earth. Of course not every new Air Force officer becomes involved in research and development right away. But where the most exciting advances are taking place, young Air Force scientists, administrators, pilots, and engineers are on the scene.

Want to find out how you fit into the Air Force picture? Contact your nearest Air Force representative, or mail the coupon today.
