

Pollution problems

Council to hold Environmental Teach-in

by Barry R. Lydon

Program Council culture chairman, Toni Eggito, announced that the Student Union Program Council will sponsor an Environmental Teach-in in the Student Union April 22.

The Environmental Teach-in will be in conjunction with the nation-wide demonstration against environmental pollution. Planned activities include discussions with experts in various fields of pollution and at night a panel discussion with a number of experts. Speakers for the day include:

11 a.m. — Dr. Marlow Ellison, biology professor at University of Tampa who will speak on environmental pollution.

12 p.m. — Dr. William H. Taft, assistant dean, assistant professor of sponsored research from U.S.F., who will speak on rehabilitation of Tampa Bay.

1 p.m. — Mr. Frank Neff, Hillsborough County Commissioner, who will speak on environmental pollution.

2 p.m. — Dr. John V. Betts, assistant professor of botany and bacteriology, U.S.F., who will speak on environmental pollution.

3 p.m. — Dr. Bruce Cowell, assistant professor of zoology, U.S.F., who will speak on fresh water pollution.

4 p.m. — Dr. David M. Delo, president of University of Tampa, who will speak on environmental pollution.

6:30 p.m. — Dr. Robert F. Johnson, senior consultant for conservation, who will speak on pollution in Hillsborough County and Tampa Bay and the ecology responsible for it.

7:30 p.m. — Panel discussion which will include: Dr. Johnson, Dr. Donald W. Roe, U. of T. chemistry professor; Dr. John S. Neill, director of Hillsborough

Health Dept.; Dr. Robert L. Harder, U. of T. philosophy professor; Mr. Robert A. Der, District Forester, Forest Service; Dr. Lawrence M. Dye, Chief Meteorologist, Environmental Science Service

Chairman Eggito stated that students are free to come and go during the day and that there will be a question and answer period after each speaker. The purpose of this Earth Day, according to Eggito is "To bring to the attention of the students the problems facing them today and in the future pertaining to environmental pollution and over-population."

Eggito stressed the goal of this program which is "To initiate a program here at the University in order to cope with the problems of pollution and ways of solving them."

Chairman Eggito asked that each professor at his discretion decide whether or not to hold class that day.

Man apprehended in reported dorm theft

A man was arrested last Friday in Plant Hall, after being reported to have entered Smiley Hall and stolen a purse.

He was reportedly seen by a dorm resident as he entered the dorm by the glass doors of the west wing.

At first the girl thought nothing of this, thinking him one of the custodial personnel. Then she began to wonder because he had a raincoat slung over his

arm, and decided to report the stranger to Mrs. Horan, house mother at Smiley. Sardella and had supposedly fled with her purse.

Mrs. Horan and the girl started to hunt for the man who had fled upstairs. They found that he had entered the room of Diane

He then entered the room of Lynn Fayne and Kathy Grodin, who had been sleeping and frightened him off with their screaming.

For a time no one knew

where he was, but shortly someone else caught sight of a man thought to be the culprit and Mrs. Horan called the campus police and city police. The campus police had him in custody near Plant Hall loading zone and the city police took over from there.

Smiley Hall residents object to going around the building to the front door to get to the west wing, so the glass door of the west wing, and the fire door, are always open from 7 a.m. to 3:30 p.m.

Over 12,000 fans viewed the University of Tampa Spartans defeat the alumni, 33-0, last Saturday. Story on p. 7.

Lydon corrects error

by Barry R. Lydon

I would like to make a personal apology to Jeff Onore for an error in the March 12 issue of the Minaret. The error occurred on page 2, paragraph 3. Jeff is not allowed to vote and thus did not cast the deciding vote to defeat the motion to open S.G.A. nominations. I hope this error will in no way hinder Jeff in performing his duties next year as S.G.A. president which he is very capable of executing. Also in an error in the sub-headline on page 1, I was not representing Student Union Program Council.

Summer board plan new for 70 session

Summer school students for the first time in University history will have the choice of three different board plans.

1. Students will not be required to board on campus.
2. Five Day Plan, those students wishing to eat in the cafeteria Monday through Friday will be allowed to do so for \$75.00.
3. Seven Day Plan, regular meal plan for summer school students, meals for seven days for \$105.00.

These plans were made possible through the efforts of Dean Charles West in an effort to make summer boarding more attractive to students. If the five day plan proves to be effective during the summer then it may be approved for the fall.

Room rates for the summer also have been announced: Single room, \$90.00 per session; Double room, \$80.00 per session; Triple room, \$70.00 per session.

The board rates for the pre-college work shop students will remain as previously announced.

Meehan and Fimble named new editors

Nancy Meehan, an English major from Melrose, Massachusetts and Ron Fimble, an economics major from St. Petersburg, have been named the new editors of the two campus publications, the Minaret and Moroccan at the March 26 meeting of the Publications Committee, according to Dr. William Stewart, chairman of the committee.

Susan Huff was appointed associate editor of the newspaper and Joe Marcel, the associate editor of the Moroccan.

Delta Sigma Phi business fraternity was approved by the committee to handle all advertising for both publications.

For the first time, the Minaret and Moroccan

acquired four, \$200.00 a year scholarships each, to be awarded to staff personnel. The newly elected editors will appoint their own staff members.

Receiving staff editorships for the Minaret are Barry Lydon, news; Christine Hahn, feature; Cindy Shaw, lay-out; and Ken Lombardi, sports, according to Miss Meehan, present editor of the newspaper. Staff positions for Moroccan have not been named yet.

Miss Meehan also announced the annual Minaret banquet will be held on April 19 at Pappas' Riverboat. Awards will be presented to this year's staff and next year's staff will be introduced.

Lack of quorum delays Griffin tribute

A proposed resolution in the House of Representatives of C.G.A. to establish

a memorial in memory of Dr. Martin Griffin has been delayed due to the fact that

on April 8 a quorum was not present. This was the first time this year that there has not been a quorum present.

Passage of the memorial at this stage looks doubtful this year.

As of date the memorial could be a \$100 certificate to the graduating English major who has the highest average in English, or it could be in the form of a statute, or it could be in the form of a \$100 scholarship to a student.

If there is not a quorum at a future SGA meeting, the resolution will wait for next year for passage.

Six thousand schools hold environmental day

by Kathy Roy

Some one thousand college campuses and six thousand schools across the United States will participate in a moratorium on the earth's polluted environment, April 22. The event is expected to produce some unusual methods of bringing the pollution to the people's attention and eventually bring about laws to correct the noisy, polluted world. Some of them include the following:

a "filth-in" where every protester at a given demonstration is to bring with him one day's national average per capita output of garbage — which is five pounds.

Harvard University is planning a "mill-in" on the city's busiest intersections and create traffic jams to show their disapproval of transportations that add fumes to the air they breathe. Others plan to tie up the switchboards of

companies who are the worst polluters, with phone calls of protest. The most drastic method is the "die-ins." The college students to dramatize their protests against the air and noise pollution of jet airliners, will lie-in front of jets about to taxi for take-off to prevent them from continuing to add more pollution to the over-crowded world.

The Atlanta Coca-Cola Company is preparing for the thousands of no-return bottles to be left on the door steps as a way of protest against them. The companies with products in cans, will be the next targets as thousands of tons of cans are expected to be delivered to them on Earth Day.

The University of Tampa will join the many institutions in presenting an environmental "teach-in" from 9:00 A.M. to 9:00 P.M. Room 3 in the Student Center. This program will include speakers, seminars, movies and discussions on the dangers and cures of pollution. The front lobby of the Merle Kelce Library will display books, magazines, pamphlets and other materials on the topic of pollution to round out University's activities on "Environment Day."

"WELL... IT LOOKS AS IF WE'VE JUST ABOUT PUSHED OUR ENVIRONMENT TO ITS LIMIT"

Jim Hilgert

HOUSE OF LEATHER

3903 W. KENNEDY

(One Block West of Dale Mabry)

OPEN 'TIL 6 P.M. — 876-9486

For one time only, this column is making an unprecedented offer to a selected public. Not often does an opportunity so remarkable appear.

As much as I hate to part with this cream puff, circumstances force me to find a new home for my car.

A car like this '63 VW convertible comes along once in a lifetime. This is a classic automobile.

A true Campus Car, it knows its way to the Tab, Spoto's, even Busch Gardens and back.

Do you miss the real fun of driving? Challenge, thrills and suspense are yours with this little number because you feel each sensuous bump in the road.

And this beauty is loaded with extras: windshield wipers, headlights, four tires (and a spare), ash-tray and glove compartment! Standard equipment includes four forward gears plus reverse!

This is a convertible, but there is no complicated mechanical apparatus to break down, ten husky men and a can of oil can fold up the top in minutes. A real plus for Florida driving.

I've put a lot of love into this machine, and consequently, it has aged beautifully. It is finished in a Mid-summer Elm Leaf green with a Mount Kilimanjaro Snowtip white all vinyl top. Inside is an harmoniously blended, rolled and pleated Dove-beige interior.

I have maintained this motor car to perfection at all times, never dulling the paint with repeated washing and waxing. Never allowed out in inclement weather, it is a true picture of new car freshness.

The best part is yet to come. If you're one of those fussy types who demands a smooth-running engine, you've got it in this car. Just rebuilt last year, it runs like a top and has been clocked on the straightaway at speeds in excess of 60 m.p.h. It also has a new battery, ignition relay and fuse.

I hate to part with my college car. It has had an exciting life so far (God only knows where it was before I bought it), but I know it has many good years left in it. I will sell only to the right kind of owner. Call me at 251-1453, anytime, day or night, if you have an interesting life to offer my car. I'll even throw in a bottle of Ripple to the new owner.

Nebraska cancels Tarzan film

(Daily Nebraskan, (C.I.B.) The movie "Tarzan the Ape Man" was scheduled to be shown on the University of Nebraska campus, but was cancelled because it "shows act of degradation of black people." The statement cancelling the film, apparently signed by the director of the Nebraska Union, was posted prior to the showing.

"I have, at the suggestion of the Afro-American Collegiate Society and specifically through their president, removed the sched-

uled film for this evening from public showing," the statement said.

The statement went on, "As the Director of the Nebraska Union, it is my judgment that in the face of this knowledge the only responsible action at my disposal is to concur and to remove the film from public showing."

The film shows natives being whipped and addressed as "boys."

Last week the same film was stopped from being shown at Yale.

Shirley Temple Black not alluring speaker

Shirley Temple Black, United States representative to the United Nations, is tentatively scheduled to address the student body at a convocation homecoming week-end next fall.

OPINION

The one-time curly haired, dimple-faced motion picture star is presently director of the National Multiple Sclerosis Society and on the United Nations delegation for UNICEF (United Nations Children's Fund).

Mrs. Black, who is expected to speak on her work with youth at the United Nations, is being paid a sum of \$2,000 to come to the University.

It is our opinion that the money being spent for Mrs. Black's appearance could be spent more effectively on a more alluring figure.

Convocation attendance is generally poor due to a lack of interest within the student body. The students however, are not fully responsible for this. Speakers should be chosen who are more apt to appeal to the students.

In view of the fact that a ten per cent cut in spending has already been put into effect for this year, we feel that the amount being paid for Mrs. Black's appearance is too great an allotment for someone who we feel will not draw a substantial gathering.

Pot cheap in Congo; Parents are users

KINSHASA, The Congo—Small trucks carrying large bundles of green leaves come whistling out of the Ethiopian highlands early in the morning, racing down hairpin turns under a blistering sun, which threatens to dry out and ruin their precious cargo.

The cargo is called kat in Somalia where southerners chew the leaves.

IN KENYA, along the Indian Ocean coastline, a foreigner drives up to a gasoline station. He mentions a friend's name to the attendant, gives him the equivalent of \$5 and drives away a few minutes later with a tank full of gas and a rolled up newspaper full of marijuana.

In the Congo, they call it chanvre. It grows in the forts on seven-foot tall stalks and people in Kinshasa assert that you can buy a shoe-box full for a dollar.

One thousand miles to the east, in Congo's dense and dark Ituri forest, 4½-foot-tall pigmies sit cross-legged and slowly puff on long thin pipes full of the plant.

Americans tend to think of the smoking of cannabis and its natural variations as a recent and socially dangerous phenomenon.

HERE IN sub-Saharan Africa marijuana use is centuries old and African societies show little alarm about it.

This may be due to the considerable differences that exist between drug use patterns in America and black Africa.

For one thing, Africa's young people seem to assert their independence from their parents by not smoking marijuana. The social pressure on them is to abandon the habits of the old and poor, uneducated village people, who have long smoked.

"Smoking marijuana is about the last thing my students would do," says Adam Kuper, professor of sociology at Makerere University, considered by many as the Harvard of East Africa.

"IT WOULD identify them with the social con-

text they most want to escape," Kuper related several weeks ago in Kampala, Uganda.

Another important factor seems to be the absence of a feeling of illicitness or political action for those who turn on. Although most African governments have outlawed marijuana use, they largely ignore it or treat it as not being serious.

Only one country below the Sahara, South Africa, seems to be concerned about marijuana use, and to employ the same police tactics as the U. S.

They have destroyed hundreds of tons of the weed. "We aim to wipe out every marijuana plant growing in South Africa," a Natal police official was quoted as having said.

University tuition rises

Tuition fees at the University of Tampa have more than doubled in the past 10 years, and will soon increase again, according to catalogues of

the decade.

Tuition and fees for the academic year 1959-60 were \$275 a semester. Fees for 1969-70 are \$600 a semester for a reg-

ular full-time student.

Food costs have increased very little according to the 1959-1960 catalogue, which estimated the cost of food was \$535 for the school year. Food costs for 1969-1970 is \$550 for the year (two semesters).

Dormitory rooms were \$240 a year 10 years ago, and now range from \$400 to \$600 a year, according to the size of the room—air-conditioned or not.

The cost of books and supplies in '59-'60 are listed as \$75 for the year. The '69-'70 listed figure is \$80.

Admission fees, which were \$5, are now \$20.

Although the cost of operation of the University has increased accordingly, figures released by the U. S. Office of Education show that the University of Tampa cost to the undergraduate is well below the national average of \$2993 a year for private four-year universities.

T. U. adds 11 members to full time faculty

Tampa University will add 11 members to the full-time faculty next year, according to Dr. Harold W. Grutzmacher, Jr., vice president for academic affairs.

Only 10 of the 11 additions have been officially posted.

In the economics department Dr. Thomas Jeff Davis, professor of economics and business, and Douglass G. Norvell, assistant professor of economics and business are coming in.

Gilbert DeMeza, instructor in art, will be the addition to the art department.

Mrs. Virginia Springer, assistant professor of biology, will return after a year's leave of absence.

Howard W. Kratz, assistant professor, will join the education department.

The English department will get two new assistant professors, William J. Lobman, Jr. and Earl M. Williams.

Melvin Garten, assistant professor of history and political science, will join that department.

The philosophy and religion department will add Herman Saatkamp, Jr., assistant professor, and Mrs. Rebecca Singletary, instructor.

And wherever you find a congenial crowd, you'll find Coca-Cola. For Coca-Cola has the refreshing taste you never get tired of. That's why things go better with Coke, after Coke, after Coke.

It's the real thing. Coke.

Trophy and Cash

T. U. holds speaking contest

The Blanche Yurka Public Speaking Contest will be held at 3 p.m. on Monday, April 20th in the Student Center. Any full-time student attending the University of Tampa is eligible to enter. Prizes consist of a handsome trophy to be awarded at the Honors Convocation, plus fifty dollars in cash.

The rules are simple: 1. The speech may be on any topic relating to current events, education or the arts. 2. The speech must be at least five minutes, but less than ten minutes in length. 3. Although a speaker may use notes, the speech must *not* be read from a manuscript. 4. The speaker must sign a statement that the speech is his own, original composition. This does not prohibit him from quoting sources in support of his ideas — indeed, this is encouraged.

The Blanche Yurka Awards in Speech and Drama were founded in 1965 by the prominent actress of stage, radio, movies and television, on a visit to the campus of University of Tampa.

Twice, Miss Yurka has presented her world-famous "one-woman show" in Falk Theatre. She has also established a scholarship loan for students majoring in Speech and Drama at T.U. In 1967, Miss Yurka was awarded an honorary doctorate by the University. Last autumn, Miss Yurka starred in a London revival of *The Madwoman of Chaillot*, and is now starring in a New York production of the play.

Miss Yurka's second book, *Bohemian Girl*, is being published in April of this year by Ohio State University Press.

Please do not walk on the grass in front of the Student Center.

We're with you on water and air pollution

We're against pollution—as much as you are. After all, we live here, too. So, what are we *doing* about it?

On *Air Pollution*—the U.S. Public Health Service estimated that 60% was caused by automobiles; 26% by industry, space heating and refuse burning; and about 14% by electric utilities.

We felt 14% was too much and we're spending millions of dollars to find ways of lessening it.

In the nuclear plants we're now building, there will be no combustion whatever.

We are equally concerned about water pollution and we're doing something about that, too.

Each of Florida's four electric companies is supporting continuing independent research to try to find out if there are any undiscovered effects on marine life caused by our warm water return.

It's simply good common sense for us to help in any way we can to improve the communities we serve.

We're not only *with* you—we're doing what we can to help *win* the battle against pollution.

Florida Power & Light Company / Tampa Electric Company
Florida Power Corporation / Gulf Power Company

A VISTA recruiting team will be on the University of Tampa campus April 14th thru April 17th to answer questions concerning the nature of the VISTA program and to provide information on application procedures. There are no entrance requirements for VISTA. Selections are made on the basis of the quality of applications and upon feedback given by the references whom the applicant has listed. Applicants should be 20 or over, preferably seniors with emphasis toward people with specialized skills.

Some 50 art students at the University of Tampa will display works at the Eighth Annual Student Art Exhibit 14 - 24, at Tampa Bay Art Center. Vernon Voltz, of Sarasota, nationally known sculptor, will judge.

The exhibit will feature ceramics, sculpture, paintings, drawings and prints. A public reception and preview was scheduled for Saturday, April 11, 8 - 10 p.m., at the center.

The show is open to the public. Center hours are 10 a.m. - 4:30 p.m., Tuesday - Saturday.

Harold Nosti, instructor in art at the University of Tampa, will be one of two judges for the first annual membership juried show of the Latin Quarter Art Gallery of the Ybor City Chamber of Commerce in May.

Works of art will be received May 1 and 2, and judging will take place May 4. Accepted works will be hung May 6 and the show will run through May 22. Some 100 artists contributors to the gallery are expected to submit work.

Mrs. Jeanne Matheny, lecturer in art at the University of Tampa, has been commissioned by the vestry of St. Mary's Episcopal Church to do a series of 12 stained glass windows of the apostles and their symbols.

The artist, who is now completing initial drawings, will begin work on the windows in April and expects to complete one panel every two weeks. Parishioners of St. Mary's are contributing the windows as memorials.

Dean of Men, John Benton, announced that fall applications for advisors are now being received. Any student who is interested in becoming an advisor should pick up an application in the Dean of Men's office.

Advisors receive \$800 and up for their work.

LITTLE MAN ON CAMPUS

Fraternally yours

Greeks elect officers

Theta Chi

As if winning had become some sort of innate force, our brothers began this year's softball season by edging out Pi Kappa Phi for our first win. In other standings Theta Chi has four newly elected officers in student government: Jeff Onore, student government president; Brian Wormser, senior class president; Richard Gaudio, sophomore class vice-president; and Tony Gaudio, student judge.

An award fitting for such a deserving brotherhood will be realized this weekend as we cruise to the enchanting Bahamas for our annual fraternity weekend.

So we now start to wrap up the year, tying up loose ends and preparing for next year, but has anyone stopped to look at what we have accomplished during the past year, and where we are going? I have, and I look with great pride and admiration, and at the risk of sounding too trite, I say, "keep up the good work."

Tau Epsilon Phi

Hey man,
what's happening?

Tau Epsilon Phi fraternity announces the new officers of the Fall '70 semester and congratulates those individuals.

Chancellor — K. Leach
V. Chancellor — D. Hall
Treasurer — L. Borowsky
Secretary — D. Weinstein
Historian — G. Steinberg

TEP weekend is slated to begin tomorrow night at Cocoa Beach. Many measures have been taken to make TEP's formal the best in its history. Music

is being provided by the "12th Street Apothecary," a sensational group, which features our own R. Mercer as the drummer.

On the sport's scene, M. Rosenthal has made the finals in Paddle-Tennis, our bowling team has made the finals in bowling, and Tau Epsilon Phi is in strong contention for first place in intramurals.

The TEP house has gone through many phases of improvement this semester and occupancy is now in its early stages.

TEP Quickies

Eddie — Did you get a RSVP? . . . Irv — I hear S.E. Asia is nice this time of year! . . . Jon — Nice bonnet! . . . Ism, Just follow me to nowhere . . . Ken — Are you sure you never get laryngitis? . . . Hi Jody!

Alpha Sigma Alpha

The Alpha Sigs would like to welcome back the sororities and fraternities from their weekend vacations and hope that they will settle down to prepare for their summer vacations.

Our congratulations go to Zeta Tau Alpha for their 2nd place and to Alpha Chi Omega for their 3rd place finish in the Second Annual Sigma Alpha Bowling tournament. The champions, like last year's, is Alpha Sigma Alpha. This year's combination was: Chris Miller, Kathy Roy, Barbara Kanaszka, "Hobie" Roth and Carol Santander.

The Alpha Sigs pledges are busy preparing for tonight's party for the pledges of the other three sororities on campus. The

theme is of a children's birthday party. The money was raised for the party through a very successful bake sale conducted by the pledges last Tuesday.

Chris, I see your new car but how are you going to explain your driver's license? Barbara, don't go around kicking tables and sometimes two heads are not better than one. Kathy, are you still seeing green roosters? Pink elephants, yes, but green roosters?

Pi Kappa Phi

The Brotherhood of Pi Kappa Phi would like to extend its congratulations to the new Daughters and Rose Buds.

Daughters are: Cathy Ernst, and Sharon Rowland.

Rose Buds are: Pam Vail, Joanne Styglas, Nancy Hicks, Donna Brake, and Lee Naffz.

Congratulations to Pledge Steve Virgilio on getting lavaliered to Diana.

Our Roman Party was a Big Blast! That "Purple Stuff" really does the trick.

Now Beta Lambda looks forward to the "Rose Ball" Weekend which will be held at the Desert Ranch Motel in St. Petersburg.

Pi Kapp Quickies

Who is Joe Melewski?

It has been reported that Jack, Duke, and Baron all got new shirts. But, they're not in Pi Kapp colors!!

What did Virgilio go to the hospital for? A little string got him!!

It has been reported that Mike Skalutsky has signed up for the Boston Red Sox as their starting pitcher and *Fielder*!!

Epsilon Rho Chapter

The Chapter would like to congratulate the pledges of the Spring semester for passing all their requirements and being good sports. Their initiation was held at the International Inn. The new brothers are: Don Thomas, Allen Edgerly, John O'Brien, Joseph LaVacchio, Robert Taylor, Don MacDougall, Francis E. Vegliante, Richard Burton, James A. Howd, Paul J. Castellano, John C. Dixon, John K. Kramer, Julius P. Baird, John Koenig, David E. Basarich, Ron Fimbel.

The Delta Sig Ball was a great success. This also was held at the International Inn, in the Gardens room on Friday night.

The Delta Sigs from Miami U. came up to visit the Epsilon Rho Chapter this past weekend. Both chapters had a great time at the Delta Sig Ball, Bush Gardens, Schlitz Brewery, and also the chapter football game that was held Sunday.

The chapter would like to thank all the guest speakers who participated in the Young Presidents Club. It was well rewarding and we hope they return next year. The chapter would also like to thank all the other speakers that Delta Sigma Pi presented throughout the semester.

This semester we were honored to have Mr. Chas. Farrar, Executive Director of Delta Sigma Pi visit Epsilon Rho Chapter.

Partnerships—

Margie Vansant engaged to Brother Rick Serina
Jan Lynn Ford engaged to Bro. Joe Giaquino, Jr.

Pinned—

Carol Ann Malett pinned to Bro. Wm. Reynolds

TKE

Congratulations to the new officers: Lucci, president; Raisin, vice president; Faggy, secretary; Jake, treasurer; Don, historian; Hyp, Chaplain; Kong, pledge trainer; and Softy, sergeant-at-arms.

The TKE bowling team has done an outstanding job this year. Under the guidance of Coach Tom Erney, the team enters the finals undefeated, bowling for the crown on Monday night.

The TKE basketball squad suffered its first loss in two years for a record of 18-1. We took first place in fraternity standings and third overall.

The UT Tekes will be joining men from more than 280 other TKE collegiate chapters throughout the United States and Canada, who will undertake community projects during the fraternity's fifth annual Public Service Weekend, April 25-26.

As the spring semester draws to a close, most of the fraternities and sororities are preparing for their biggest social event of the year. The Tekes Red Carnation Ball will be held at Apollo Beach this weekend. As always, it promises to have its climactic moments.

Alpha Epsilon Pi

Tau Phi Chapter would like to welcome everyone back after a most deserved spring vacation!

Preparations are now being made for the Fourth Annual "Penny Guess" by the Brothers. It will be held on the porch of the main building next week. Plans are also being completed for a fit installation banquet in late April. Many National officials will be in attendance and Tau Phi Chapter will receive some National awards.

The Spring Pledge Class consisting of Jeff Singer, Glen Cupperman, Alan Swtsky, Mark Pasis held a party for the entire Brotherhood which was a total success. A few fund-raising projects are planned by the pledge class during the next few weeks.

Alpha Epsilon Pi softball team has signed all of its starters from last year, and is looking for the trophy two years in a row. The basketball team put forth their best effort in the tough Fraternity league.

Joborama said success; some may get jobs

Although much has been written nationally and locally about the lack of job opportunities for 1970 college graduates, Robert Mortenson, guidance and placement counselor, has proclaimed the recently held Joborama and Teachorama successes.

He said that he was very pleased with the response from companies, social service organizations, the State Personnel Board, and had 42 teacher listings from Hillsborough County, and 35 from Pinellas County in addition to out-of-state opportunities. Mortenson said that he found no decrease in demands for new grades.

He said he received such comments as "fine student quality," after the interviews were held.

Final reports on actual job offers and hiring will not come in until later, but the

enthusiasm of those participating indicate that the results will be good according to the placement officer.

This is in contrast with national surveys made by the college placement council and the UPI which indicated that on a national basis things are not so rosy, and that there is an overabundance of applications and teachers, making competition keen.

Donald S. Colby, director of career planning and placement services at the University of South Florida, told the *Tampa Times* recently that 12 to 15 companies which normally interview students cancelled appointments. Colby painted a dismal picture for the 1970 graduate in his search for employment. He said companies have become very selective, turning thumbs down on students who have long hair and beards.

Drama production cancelled

Three nights of original dramatic productions have been tentatively cancelled by the University of Tampa Players.

These productions have been canceled because of lack of time. The shows would have required hours of rehearsal and planning. Because of the extended run of "Death of a Salesman" and the upcoming production of "Little Mary Sunshine" the shows have been called off.

Didn't someone say it was a dog's life???

Zielonka to retire after 39 years at T.U.

Rabbi David Zielonka, Chairman of the Religious Department, will retire in May after 39 years of service to the University of Tampa.

The Rabbi may come back to the University of Tampa to work on a year to year basis, but there is nothing definite as of this date.

"My plans at present," said Zielonka, "are to do some traveling and writing. I will also do whatever possible to keep on helping the congregation."

The Rabbi will also be retiring from the Temple, located on Swann Ave., in Tampa.

Warner addresses spring commencement

Leslie H. Warner, president of General Telephone and Electronics Corp., will address 260 spring graduates at the commencement exercises at 3 p.m. Sunday, May 10 in McKay Auditorium. Warner received an A.B. from the University of Wichita and an M.B.A. from Harvard. He was formerly with Automatic Electric Co.

Baccalaureate services will be held at 11 o'clock in Falk Theatre. A

luncheon honoring the graduates is planned for 12:30 p.m. in the Student Center. Immediately following commencement there will be a President's Reception to honor the graduates, their friends and families in the Student Center.

Girls swim team urged by Florig

by Chris Kahn

There is a feminist movement forming on the University of Tampa campus.

No, not the bra-burning sort: this one is an attempt to form a girl's swimming team.

Doris Florig, a junior from Pennsylvania, is currently investigating the possibility of a girl's team.

Doris, who swam competitively while in high school, has discovered that other girls who have

raced in one league or another are also interested in returning to the starting block.

Efforts to get a group of girls together were spurred by the competitive swimming included in the Girls' Sports Day scheduled for last Saturday.

Although the Sports Day was cancelled, Doris has continued her endeavor in the hope that a team might be organized next Fall.

There are quite a few colleges which currently have girls' teams, some of which are in the immediate vicinity, and all of which are looking for competition.

As it appears now, the girls interested in the fall would form a "Swimming Club", undertaking their own coaching, and providing their own transportation to meets, since no University funds would be available to the group.

It may not sound like much yet; but the movement is underway.

Dr. Sandor Szilassy, Director of Merl Kelce Library, has announced that the Library will offer its share in the University of Tampa's special activities set aside for "Environment Day", on April 22, 1970, by displaying books, magazines, pamphlets, and other materials on the importance of the topic. Included in the display are publications on pollution problems and wild life.

NEW FLARE TRACKS, BY LEVI'S®—TO COMPLEMENT ANY OUTFIT, ANY SCENE

No matter the occasion, whether you're on campus or cruising the countryside—these new flared styles add a nice touch. Plentiful choice of new patterns and colors—by LEVI'S, of course.

33-0

Spartans beat alumni

A crowd of over 12,000 fans, the largest crowd ever at a spring game, watched the 1970 edition of the University of Tampa Spartans hand the alumni a 33-0 defeat last Saturday at Tampa Stadium.

The Spartans led by an alert defense in the first half, held a 14-0 lead at the half. The two scores came on interceptions by defensive back Wayne Jones. The 5-9 Jones picked off two of former Little All-American Jim Del-Gaizo's passes and raced one for 39 and the other for 52 yards for touchdowns.

The tough Big Red defense allowed only a net 23 yards on the ground.

In the second half, University of Miami transfer, Lew Pytel directed the Spartan attack to two touchdowns. Pytel completed 10 of 17

passes for 128 yards, and the longest pass of the night, 41 yards, to split end Mark Wakefield.

Early in the third quarter, Buddy Carter put the Spartans out in front 26-0 with a 3 yard pass to flanker Willie Miller. Jesse Soper's conversion attempt was then blocked. It was the first of two blocked PAT's, but the kicking specialist did convert three.

The fleet-footed Miller again scored with 3:23 left in the third quarter on a pass this time on a 14-yard pass from Pytel making it 26-0 with the conversion blocked.

Leon McQuay then showed the reason why he holds numerous Spartan records as he raced 8 yards around left end for the final score, and Soper's conversion made it 33-0.

The Spartan defense looked tough throughout the game. The defense consisting of Matt McVane, Sam Gellerstedt, Bobby Brown, Harry Smith, Noah Jackson, Willie Lee Jones and others gave up a total of only 125 yards throughout the night.

The offense looked sharp at times, but the polish that's needed in the regular season was missing, fumbles stopped two varsity drives on the 8 and 27 yard lines. It's been a long spring practice for both the players and coaches, and the rest 'till August will be welcomed.

The Spartans open the 1970 season on Sept. 19 in Dayton, Ohio against the University of Dayton, and will be ready to meet the test to better last year's 8-2 record.

WHO WILL BE KING OF THE INTRAMURAL MOUNTAIN?

Poetry Review

Recital called success

Alpha Chi, National Honor Society, presented a poetry recital last March 15, in the International Room of the Student Union before an approximated 250 people. The turnout was so great that they are considering a second annual Alpha Chi Poetry Recital to take place next spring.

The president of Alpha

Chi, Bob Hanna and its officers, Jo Ellen Faraghan, Kathy Stone and Georgia Hopper, put in a great deal of time in order to make the recital the tremendous success it was.

Dr. Duane Locke, renowned poet and professor at the University, introduced the poets.

Introduced first was Nico Suarez, the Bolivian poet, who read some of his own works and other poems by Pablo Neruda.

The next readings were done by Allen Britt, the most published poet in Florida. His calm and beautiful natural imagery was filled with the power of oneness.

Concluding the recital was Steve Barfield, a graduate student at the University of Georgia. His poetry consisted of precise jagged imagery, that left the audience spellbound. Barfield also read a poem by Paul Celan.

The audience consisted of students from Tampa University, New College, St. Petersburg Junior College and the University of South Florida. Some faculty members from the Hillsborough Public School System were also present.

MacDonald Resigns

Tom MacDonald, instructor in English, has resigned his position effective May 15, to complete studies toward a doctorate's degree.

The professor said he would be happier in a new environment. He will be attending Kent State University in Ohio.

T.U. Band presents concert

The University of Tampa Stage Band and Jazz Lab Ensemble, under the student direction of Gregg Holleman, will present an open-air concert on the steps of Plant Hall facing Plant Park and the Hillsborough River on Sunday, May 3rd, at 3:00 p.m.

Featuring the popular arrangements of recent years in a program designed for the entire family, admission is free with the recommendation that you bring your own folding chairs.

In case of rain the concert will be held on the Plant Hall porch.

Tampa host ski tourney

With many collegiate water skiing tournaments in full swing this month, the University of Tampa team is found to be a top contender in all events.

Coached by the internationally known Stew McDonald the Spartans recently participated in the University of Florida tournament held in Gainesville, Florida last week-end, results are not available at the time of printing.

In keeping up with the expansion in all University of Tampa Sports, the University of Tampa has taken over the

P.E. majors win

by Larry Kutney

The Intramural Basketball Championship has been captured this year by the Physical Education Majors. The Major's Club, led by Glen and Frank Permuy and Bob Hanna defeated the Independent team made up mostly of graduating football stars, 46-28.

The Major's gained the finals by defeating Theta Chi 64-43, and the Independents defeated defending champion TKE, 56-37. The loss ended the TKE winning streak at 17 games as they played without starter Frank Patroni.

TKE finished third as they defeated Theta Chi 53-45. The TKE's, led by Ken Bailey 17, Jeff Sverdlow 12 and Jim McKenna 10, fould trouble containing the hot shooting Gary Christy who had 20 points in the losing cause.

The championship held a lot of surprises as the Major's Club was deadly from the floor and controlled the boards.

The brother combination of Glen and Frank Permuy each connected for 12 points and the rebounding of Jay Franks told the story of the game, as the Independents found trouble finding the rim. Joe Pirrillo and Ed Johnson led the runners-up with 8 and 6 points.

Intramural Director Charles Kutrumbus has released the leading scorers for the '70 basketball season. Steve Virgilio was the leader with a 17.6 average, followed by Gary Christy, T.C. 17.2, Glen Permuy 15.5 MC, Barry Boydman, 15.0, TKE, Bob Hanna MC 14.6, and Jeff Sverdlow TKE 14.4. The leading foul shooters were Gary Gouse, AEP, 10-12 and Bob Hanna 14-17.

Intramural softball began its season last Thursday and Theta Chi opened with a 9-8 victory over Pi Kap. Lykes Hall showed impressive hitting as they pounded TEP for 45 hits and 19 runs in their 19-9 victory. Johanson had 2 HR's and Mettzer one, to lead the Lykes' attack. Tau Kappa Epsilon finished the opening day with a 7-4 win over Delta Sig. Terry Slater led the TKE hitters with 4 RBI's and Jim McKenna knocked in two to secure the win.

Intramural golf was held last Friday at the Rocky Point Course. Results are available at the Intramural office. Archery was completed on Monday and badminton will be finished today; tennis finals will be held next week.

The Intramural Track and Field Championship will be held tomorrow, Friday, April 17 at Plant High School at 3:30; the Major's Club is favored to capture the title.

Tampa U. holds photo show

"The Photography of Darkness" will be the topic of discussion by John Sheppard, young photographer, on Thursday, April 23 at 7:30 p.m., in the Student Union.

Sheppard will also have a photography show in the lobby of the Student Center to coincide with his talk.

Sheppard has had photographs published in various national magazines, including Psychology Today.

Students and the public are invited to attend this show sponsored by Alpha Chi, National Honor Society. The show is free.

Student Discount

Movie tickets for all Florida State Theatres and Drive-ins are on sale in the Student Center for \$1.25 each.

DORM SPACE AVAILABLE

Any Student wishing to move back on campus should contact Dean Benton's office concerning details. Reduced rates.

Spartan Sports by LARRY KUTNEY

I would like to thank the 75 or so people who attended the Spartan Highlight film held last week in the Student Union.

The NAIA, National Athletic Intercollegiate Association, has passed another decision against the University of Tampa and slapped a 2-year probation upon the university. The probation is a result of the university's use of an ineligible player during part of the 1969-70 basketball, baseball and wrestling.

The 1970 Spring Sports Banquet has been changed to Wednesday night, April 29, at the Student Union.

For the final edition of the *Minaret* it is hoped that complete results of all spring sports will be available, and also final standings in intramurals.

The Spartan baseball team is having a tough season this year. Next year the Spartans will play on a new field at the North end of the campus. A drawing of the new athletic complex will be printed in the next edition.

Although the Spartans are having a rough season, Florida Southern is ranked fourth in the college division and FSU is fourth in the University division in the NCAA Collegiate baseball rankings.

Although most collegiate baseball and football coaches dislike having men play in both sports, you would probably find it hard to convince both the University of Mississippi and the Mississippi State coaches of the fact. Ole Miss' super quarterback, Archie Manning, is one of the leading hitters on the defending SEC Championship team. State's Milner, a split end in football, also showed hitting power in leading State to a 10-game win streak.

The Spartan tennis record books were rewritten in UT's 6-3 win over Kent State. Spartan John McNeil and Bob Bodnar of Kent State, playing on UT's new tennis court, dueled for a record-breaking four hours before the Spartan won 6-2, 8-10 and 12-10.

With the huge success of the annual spring football game, the University will build and equip a weight and conditioning building for the University athletes.

S. U. P. C. gives award

President Pete Cicco announced that the honors banquet for Student Union Program Council will be held on Thursday, April 23, at 8 o'clock in the International Room of the Union.

Cicco stated that the purpose of this banquet is to honor committee chairman and others who have helped during the year. President Cicco stated that because of the help of these people, S.U.P.C. had its greatest year in presenting a diversified program to the student body.

The new officers for next year are: chairman, Pete Cicco, president; Gene Reboh, vice-president; Barbara Mass, secretary; William Burke, treasurer.

Golf has good season

The University of Tampa golf team is proving to be a good one as the swingers are carrying a 7-2-1 record for the 1970 season.

With Steve Bowers firing a 70 and Bruce McDonald a 71, the Spartans defeated St. Leo 299 to 294 for their seventh win.

With Dennis Sullivan leading the way the Spar-

tans finished 11th out of 84 schools in the Miami Invitational Tournament.

The Spartans met St. Petersburg Junior College Monday and will close the season April 24 against Rollins College.

UT vs. St. Leo's scores: Tampa—Bruce McDonald 71, Steve Bowers 70, Dennis Sullivan 74.

Baseball hit by injuries

With only four more games remaining on the 1970 Baseball schedule, the Spartans are looking to finish above .500 for the year.

After 15 games the Spartans were 7-8 last season at this time they had a 10-5 mark.

At the beginning of the year the team was looking to better last year's 15-9 record, and the possibility of that looks impossible at this time, with four very tough games closing the season.

Its been a rough season for first year Head Coach Dan Sikes. Early in spring training his top pitchers developed arm trouble, and small injuries have been occurring almost every week, and that's something that didn't happen last year, and playing conditions haven't been the best. Two games have already been rained out, one was

stopped early with the Spartans losing, another was played throughout an evening drizzle and two were played with water soaked infields.

The Spartans have lost five games by a total of five runs, including 1-0 and 2-1 to Miami, Fla., but the most unbelievable fact is that UT has left a total of 119 men on base in the first 15 games.

Tampa has only two batters over .300. Catcher Tom Eldridge is the leading hitter on the squad with a .325 average, and second baseman Dennis Dawes is the other, hitting .309.

Bill Atkins leads the team in stolen bases with 4, also well below last season's average; is hitting .280 and is tied with Ray Roderick for the RBI leadership with 7. Roderick is batting .260, about 30 points down from last year.

Two big surprises, in the fact that they are not hitting, are Jerry Margolis and left fielder Chuck Conti. Conti last year batted .312 and had 3 home runs, thus far he has managed only three hits,

Margolis, too is having trouble this year. The slugging first baseman hit near .290 last year, but has only four hits to his credit in the 1970 season. Margolis, though may be ending his season slump as he connected against Fairfield University for the first Spartan Home Run of the year and ended up by driving in five big runs in the 9-8 victory.

Scott Cushing has nine hits for the season and a .225 average while third baseman Leo Oshinski has five RBI's and also nine hits for the year.

Wah Jones is The leading pitcher with a 1.69 ERA and a 4-2 record. Jones has been the workhorse of the staff with 33 1/3 innings pitched, and has 40 strikeouts.

Chick Nunez holds a 2-1 record with 21 strikeouts in almost 25 innings pitched.

Carl Cavanaugh, last season 11-2, is 1-4 with a 2.63 ERA and 40 strikeouts in 41 innings pitched.

The Spartans will be at home on Saturday against Rollins College, and will close the 1970 season on the 25th against Stetson at home.

Crew Team

Tampa downs Rollins

Tampa's crew pulled off one of its most notable accomplishments in the last eight years by outstroking Rollins College in a dual race off Marjorie Park on April 11.

Coming from a deck back at the mile mark, Coach Brad Wickersham's

eight finished a length and a half ahead of Rollins.

Tampa's time was 6:47, Rollins 6:55 for the 2000-meter race (about 1 1/4 miles).

It was the first win for Tampa over Rollins in about eight years, Wickersham said.

Tampa's second win of the season against four defeats came on an excellent day for racing and it put Rollins on the losing side of the ledger with a 3-4 record.

Tampa pulled thirty-one strokes a minute, Rollins 35 during the race, but at the finish the Spartans upped their strokes to 35 while Rollins increased by one, to 36.

Tampa's next race is Saturday at Cypress Gardens in the state championship.

ski tourney . . .

(Continued from Page 7)

Southern Intercollegiate Tournament. This ski tournament, the biggest in the south, was formerly held at Cypress Gardens.

The S.I.T. is the largest ski tournament held during the year, and every collegiate ski team in the south participates. The tournament will be held this year at the Sokol Motel's Rocky Point Beach along the Courtney Campbell Causeway, the home of the U.T. squad; competition will begin at 12 A.M. on April 25 and 26.

The tournament will consist of Florida's best and some of the best skiers in the country including U.T.'s own Alan Kempton, Joker Osborn and Jimmy Jackson are other competitors.

The skiers will compete in slalom events at speeds ranging from 26 to 36 miles per hour through a set of slalom bouys. The event requires strength and rhythm to manipulate the challenging course.

The tricks competition is always an exciting event to watch as the competitors try to out do each other for the first place trophy.

Of the three events held, jumping is probably the most exciting and dangerous as the skiers fly through the air at speeds reaching up to 70 mph and distances up to 140 feet.

If you like thrills and excitement and water skiing at its best, come and watch the Spartans ski next Friday and Saturday.
