WOMEN VOTERS HOLD PARTY

The Tampa League of Women voters held a party in the University ballroom Tuesday for all students who will be voting for the first time in the coming national election. Many who were just over 21 years old attended.

The League, which is the largest women voters group in Tampa, escorted students who wished to register for the first time, to the office of Supervisor of Registration at 505 Morgan Street where registrations are entered.

THE ALMA MATER

The following is a reproduction of the words to the University of Tampa Alma Mater:

Steadfast and true, sing we thy praise,
Alma Mater free.
Proud beat our hearts and all our days
We'll raise song to thee.
We'll go forth to love and praise thee,
and be ever true.
Hail our glorious Alma Mater,
Hail our Tampa U.

This is the Alma Mater! Learn it! If you don't like it, write another one and submit to the Minaret—we'll see that it gets a fair hearing. Also . . . WE NEED A FIGHT SONG, a MARCHING SONG!

ATTENTION MUSICIANS! Write a fight song . . . either the words or the music, and submit the manuscript to the Minaret and we'll find out what the Student Body thinks of it. We'll do our best to get a couple of good collegiate songs with the phrase "FIGHT ON TAMPA U." (or reasonable facsimile) accepted as official songs of the University of Tampa. Those of you who are poetically inclined can submit the words to a new fight song and we'll contact the music department to supply the music.

ATTENTION ADMINISTRATION

Several students joined in a discussion recently on the subject of schedules and it was the consensus of opinion that it would be an excellent idea if the University was able to release the Fall Semester schedule before the Summer session commences. In this way a student entering his senior year in the Fall would not run the risk of missing out on his required courses. For example, students could adjust the Summer courses to the Fall schedule and the Fall courses to the Summer schedule in such a way that there would be no conflict, and emphasis would be on the fact that one could plan his work and not have to resort to attending an extra Summer session or even a full semester.

Alpha Phi Omega Special Meeting

The Alpha Phi Omega Service fraternity will have a required attendance meeting on Friday, April 11th at 8 p.m. in room 217.

This meeting is especially important to all members as several propositions will be voted upon. New interest and enthusiasm will be a result of the meeting. A new idea about forthcoming activities will be discussed.

Come yourself, and tell your buddy members that you read this notice and bring him along.

Art. 1. Sec. 2. No person shall be a Representative who shall not have attained to the Age of twenty-five Years, and been seven Years a Citizen of the United States, and who shall not, when elected, be an Inhabitant of that State in which he shall be chosen.

Art. 1. Sec. 2. The House of Representatives shall be composed of Members chosen every second Year by the People of the several States and the Electors in each State shall have the Qualifications requisite for Electors of the most numerous Branch of the State Legislature.

Alpha Gammas Sell 60 Student Directories

The twelve Alpha Gamma pledges who each sold five Student Directories are to be commended for contributing their service to the benefit of the University. It is hoped that the Student Directory project may be carried on each year for the convenience of the students. Anyone wishing to obtain a directory may contact any one of the members of Alpha Phi Epsilon fraternity.

APOLOGIES

Apologies to James A. Lowder for the omission of his name from the Dean's list published in the last issue of the Minaret.

Art. Sec. 1. All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

Art. 1 Sec. 2. When vacancies happen in the Representation from any State, the Executive Authority thereof shall issue Writ of Election to fill such Vacancies.

HAVE YOU HEARD?

HAVE YOU HEARD . . . a rumor that the University will not operate the cafeteria? I hope this is not true! Will someone set us straight about this?

HAVE YOU HEARD . . . there is a NEW LOOK in store for a certain area within the University building soon? ! ! !

HAVE YOU HEARD . . . new trash cans were recently put into use about the building? This is one more step to help us keep the building clean.

HAVE YOU HEARD . . . Professor Keene has now adopted the 'curve' method of grading! . . . (Dear Editor: 'This should be front page news.')

HAVE YOU HEARD . . . the Biology department is now raising flies and mosquitoes. (As if there weren't enough around this neck of the woods!)

HAVE YOU HEARD . . . that, in a student opinion poll conducted by the administration a few months ago . . . only 75 answers from students were received! . . . in the present Minaret poll, nearly 200 opinions have already been received and we're still going strong! Results will be tabulated and published in the next issue of the Minaret.

HAVE YOU HEARD . . . rumor has it, that the new room-numbering system recently installed should be re-arranged so that the rooms would number consecutively down the hall. We've heard personal complaints that the present numbering order is more confusing than before, when numbers were indiscernible.

HAVE YOU HEARD . . . the new Minaret bulletin board and drop-box has been commented upon with enthusiasm. Good! We hope you will continue to use it as a convenient place to leave your news.

HAVE YOU HEARD . . . your editor is going to use sections of our U. S. Constitution as 'fillers' in place of the common drivel usually used to fill up vacant spaces between articles.

ADVICE FROM THE PAST

"It matters not what you learn, but when you once begin learning a thing, you must never give it up until you have mastered it. It matters not what you inquire into, but when you inquire into a thing, you must never give it up until you have thoroughly understood it. It matters not what you try to think out, but when you once try to think out a thing, you must never give up until you have reached a conclusion which you are satisfied with. It matters not what you try to carry out, but when you once try to carry out a thing you must never give up until you have done it thoroughly and well. If another man succeed by one effort, you should use a hundred efforts. If another man succeed by ten efforts, you will use a thousand efforts.

Let man proceed in this manner, and, though dull, he will surely become intelligent; though weak, he will surely become strong."

The above quotation, written 2400 years ago by Confucius, is the second in our series ADVICE FROM THE PAST.

There will be few, if any, of us who can follow the "Advice from the Past," but we can all use it for bettering our outlook on life.

LETTERS TO THE EDITOR

WHAT IS AN ALMA MATER?

Lately we have heard a great deal of criticism concerning our Alma Mater. I feel that much of this criticism has been made without due consideration.

First, let us look at the definition of Alma Mater and see if our song fills the qualifications. If we consult the dictionary we find Alma Mater defined as literally, fostering mother; hence one's university, college, or school. From this definition we may conclude that an Alma Mater is not supposed to be a spirited or jazz time piece of music. For it to have a real meaning it should be original and be representative of the school. This our Alma Mater expresses.

Next, let us consider the criticism "that it sounds like a funeral dirge." I must agree with this criticism but the song is not to blame. The students carry all the burden for the way in which they sing the Alma Mater. They are only expressing their school spirit and until something is done to change the school spirit at the University of Tampa our Alma Mater will continue to be a funeral march. Sing it like you mean it.

Migration To Fla. On Increase

Jacksonville, Fla.—Enough people have moved into Florida to set up permanent residence during the past 10 years to create two cities the size of metropolitan Jacksonville, with many thousands left over.

So says the Florida State Board of Health Bureau of Vital Statistics. During the 10-year Federal census period ending in April, 1950, the state had gained 605,196 people by the "migration" route and had added 268,695 by the increase of births over deaths to the tally to make the 10-year population gain total 873,891 people, says Dr. Wilson T. Sowder, State Health Officer.

The "official" U.S. Census figure showed that as of April 1, 1950, Florida had 2,771,305 residents, a 46 per cent population gain since 1940.

Florida's gain was the third highest in the nation, being outranked percentage wise only by California and Arizona.

Steady population gains now place Florida in 20th position among the states, as compared with 27th place in 1940, according to Everett Williams, Vital Statistics Bureau director.

English 207 Praised

Did you ever dig around among old books and come up with something by a guy named Byron. He was English poet of the playboy variety who really wrote some gay poetry. He wrote a little masterpiece called "Don Juan" which makes Errol Flynn look sheepish. Believe it or not, I first ran across this masterpiece in an English course here at Tampa U. The course is number 207. A good deal of the material which you are exposed to in this course is so presented as to leave you very interested in reading other works by the authors. This course in English is conducted with the finesse characteristic of good teaching and represents an example for other college profs in the same field.

The course also includes some works from Scott, the fore-runner of our modern historical novel. His work is really wonderful and it is difficult to get out of the habit of reading Scott when you have once thrilled to his amazing adventure stories. Try the "Talisman" or "Ivanhoe" for a starter.

If we ever get a college magazine started we'll be able to read a few poems and stories of our own. In the meantime let's be content with what we get in our English classes.

Inspiration Corner

In Margaret Mitchell's "Gone With the Wind," one of that famous story's tart characters, Grandma Fontaine, gave forth a bit of wisdom which is worth singling out for reflection right now when many people are finding it hard to sustain their courage. This is what she said:

"We bow to the inevitable. We're not wheat. We're buckwheat! When a storm comes along it flattens ripe wheat because it's dry and can't bend with the wind. But ripe buckwheat's got sap in it and it bends. And when the wind has passed, it springs up almost straight and strong as before."

Bend with the wind—don't let life break your spirit. After your trials and disappointments and discouragements, spring back again like buckwheat. Don't let the things that can't be helped flatten you. Bide your time. Have patience. And after the storm, straighten up and go forward.

University Correspondence Notes... Best Buy

Your University of Tampa, pictured on the new "Etchette" French Fold correspondence notes, affords a distinctive background for letters and personal messages.

Twenty note folders and envelopes are contained in each box, and sell for \$1. They are available at Seely's Book Store where they may be seen and examined.

Proceeds from the sale of these notes will be paid over to President Nance for use as a part of his scholarship funds, and in this way will help defray the expenses of deserving students needing such aid the selection of which will be made by President Nance and Dean Rhodes. These notes are themselves the gift of a friend of this institution.

Your use of such "Ambassadors of Good Will" is going to help the scholarship fund, of course. It will also, however, to the eyes of everyone who may receive correspondence from you, be convincing evidence as to your own superior taste, and loyalty to the University of Tampa.

BIOLOGY CLUB REORGANIZES

The University of Tampa Biology Club, originally organized in 1944, is being re-organized on the campus. The next meeting will be on Tuesday, April 15th in the Biology Lab. at 11:30 a.m.

Any person who has an interest in Biology is asked to come and bring a friend with like interest.

The local club has hopes of reviving with enough membership to eventually become a chapter of the national biological co-ed organization known as the Beta Beta Beta.

The general purpose of the club is to promote social intercourse among member students thru mutual interest in the biological science field.

Advisors to the local club are Prof. Clyde Reed of the Botany department and Dr. William Goldsmith of the Biology department.

Remember, next meeting—Tuesday, April 15th, 11:30 a.m., Biology Lab. See you there!

THE STORY OF A TRIP

ESCAPADE IN HAVANA

by Eleanor Carden

The Band took its annual vacation (?) in Havana this year, participating in the Havana Winter Carnival. We left the University in the dead of night on Friday, Feb. 22, by Greyhound Bus. After riding all night over the bumpy road of our sunshine state, we arrived in Key West by nine o'clock Saturday morning. At the "Q" Airlines Airport there, we were divided into two groups, because the planes were not large enough to carry all of us on the same plane. The first group consisted of just band members, not one of whom could speak Spanish, while the second group consisted of all the chaperones and a few band members.

When the first group arrived in Havana, they were herded into a school bus and carried approximately fifteen miles from the city to a school. Unable to speak Spanish, they did not quite understand why, so they refused to leave the bus. When the second group arrived, the first were still sitting there, registering hunger and bewilderment. We were told that we were to stay there, along with bands from Key West, Miami, and Winter Haven. Contacting the official who had assured us of our reservations, we were told that the Ocean Hotel had cancelled them for no apparent reason. After a short discussion, it was decided that unless we were granted a place to stay that was at least closer to town, we would leave their fair city on the first evening plane, or rather, the first two.

This settled, our thoughts strayed to food, possibly because we had not eaten since 5:00. We were offered something vaguely resembling our desires in the form of bean soup, salmon, lettuce, prunes, cuban bread (naturally), and water in the school cafeteria. When we finished our meal (using the word loosely) we climbed back on our bus and bid the inhabitants a cheerful farewell.

We were then carried to and deposited at another school—La Escuela Municipal Valdez Rodriguez—where we were to spend the night. This one was deathly silent, empty except for the caretaker and janitor. As we sat outside the school for about a half hour, awaiting the arrival of the official who would explain our presence and make arrangements for us to stay, we were the object of much curiosity on the part of all the neighborhood children, a widely assorted group of characters. One rather toothless chap, who explained in dynamic sign language how he lost his front teeth, was forever on the steps begging cigarettes, and complaining vehemently (all in Spanish) when he did not receive one.

LOTTERY TICKET 8c

After establishing ourselves in two dorms on the third floor, we rested for a while and then ventured forth to catch a bus to town. The busses proved to be another bothersome detail. In the first place, they rarely stop. In order to get on, one takes a flying leap in the general direction of the door. This one almost stopped, so we all succeeded in getting on. We then took our seats, and a few minutes later one of the two conductors took our money (eight cents) and gave us a ticket for the Loteria Nacional. Unfortunately, none of us won anything. Since no one knew enough Spanish to tell the conductor where we wanted to go, we hopped off at the first spot that looked familiar and found ourselves approximately twenty blocks from where we wanted to go. There were only about eight of us who finally arrived at the Miami Restaurant on Paseo del Prado, the main street. We ordered spaghetti and meat balls and argued with two gesturing waiters (in Spanish) for the better part of a half hour. After reaching some sort of agreement, we had to wait about an hour, while the waiters would walk by, smile, say "Spaghetti and meat balls", and then disappear again. When we finally received our garlic, spaghetti, and meat balls (in the order of quantity) we were sufficiently famished that we ate the substance without a murmur. We then captured an "aquila" (taxi) that carried us back to school.

After we dressed for our ordeal, the school bus reappeared and carried us to Malecon Drive, by the water, where the parade was to begin. There again we were the object of curiosity, as was the case during our entire stay. There appeared around our majorettes, in their (for Cuba) remarkably short costumes, a ring about four deep of wondering admirers—mostly male. We were flattered by being asked to pose for a picture for the newspaper. The next day, we bought papers and saw on the front page our picture with the following caption, "one of the main attractions of the parade—the Winter Haven Band from Florida." We were placed in the first section of the parade in front of the Tampa float. When we paraded in front of the Capital we looked around and were surprised to see that the rest of the parade was nowhere in sight. We never saw anymore of it.

Most of us wanted to see some of the night life of Havana, so, after resting for a short while, we dressed and went out in groups to various places of interest. Several of us decided upon the Club Tropicana, a famous night club there. It was huge, but the most fascinating part was the gambling hall, where money flowed like water. This club had a huge dome-like ceiling, and was actually out-of-doors. It was furnished with tropical foliage and a very good native band, but a table would have cost us seventy dollars, so we declined to sit. Again we caught a taxi and asked to go to the Montmartre, another large club. When we arrived, the driver broke the news that the fare was four dollars. After this sobering occurrence we decided to go home, so was caught another taxi and went back to school.

The next morning we were up bright and early and out to breakfast at a little snack bar next door to the modernistic Sports Auditorium, where El Presidente (before the revolution)

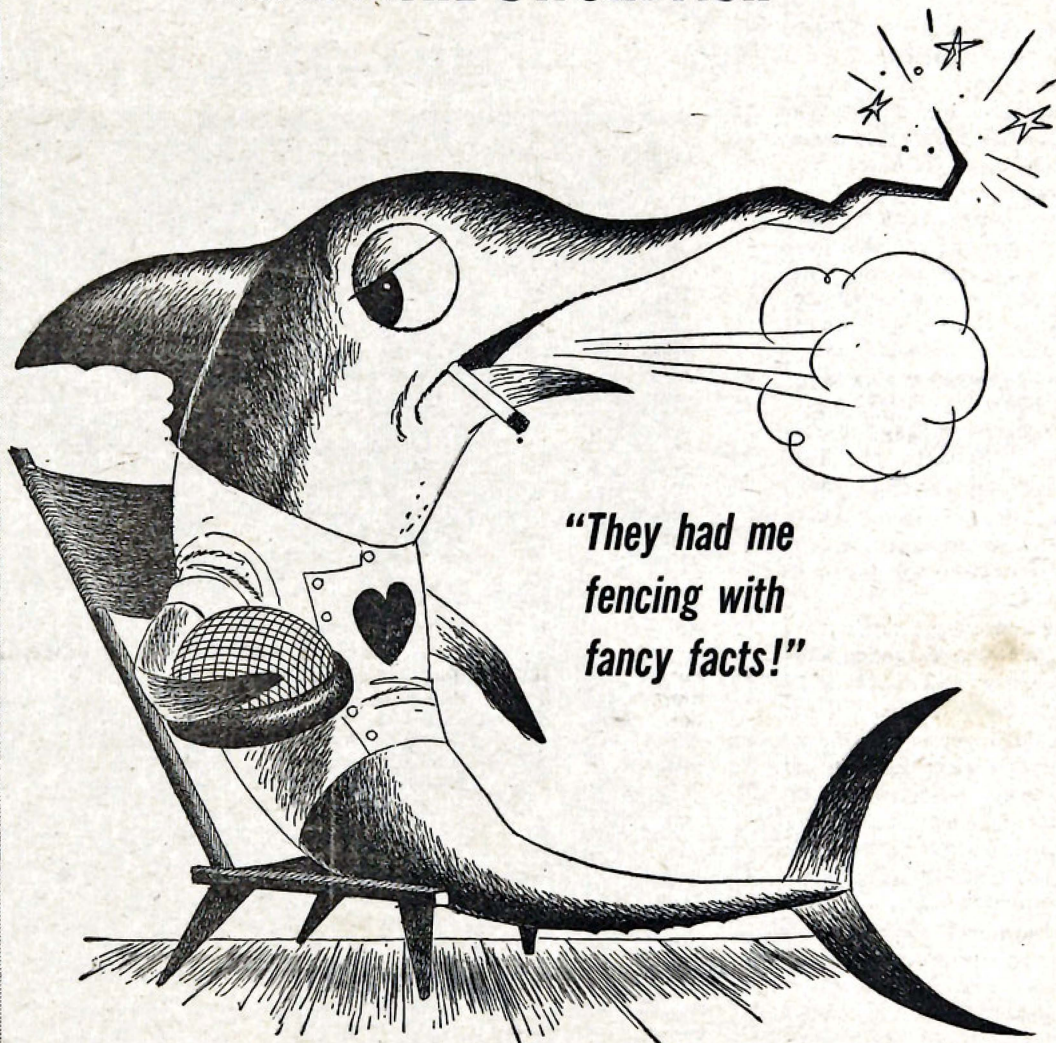

was speaking. We then caught a taxi and went to church at La Merced Cathedral, one of the oldest and most beautiful in the world. This time the same taxi waited for us to carry us back to town. On the way back down Malecon Drive, we ran out of gas. We finally got out on the Drive, across the bay from Morro Castle, took a few pictures and then walked back to town for lunch and souvenirs. We went back to school, packed, and were ready to leave at two o'clock. The bus carried us to the airport, where we took leave of Havana about an hour later. We flew back to Key West, where, after clearing customs, we boarded our bus. We paid a short visit to Miami, and then slept or sang all the way home. After arriving here at about five o'clock in the morning, we spent the rest of the day in bed. It was a very interesting trip, but take it from us—There's no place like home!

Campus Interviews on Cigarette Tests

No. 37...THE SWORDFISH

They crossed swords with the wrong man when they engaged this swashbuckling senior in combat! At first, he was foiled by the tricky, "one-puff" . . . "one-sniff" cigarette mildness tests. But he parried their thrusts with this gleaming sword of logic: The only way you can judge mildness is by *steady* smoking. That's the *true* test of cigarette mildness!

It's the sensible test . . . the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke, on a day-after-day, pack-after-pack basis. No snap judgments! Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why . . .

After all the Mildness Tests . . .

Objective tests—true, false and such—
They really make me squirm;
But one thing's true—those Lucky Strikes
Are fully packed and firm!

Be Happy- GO LUCKY!

To ease the stress of worldly cares
And worries caused by haste—
Just smoke a soothing Lucky Strike
That tops 'em all in taste!

Peter C. Thompson
Dartmouth College

In a cigarette, taste
makes the difference—
and Luckies taste better!

The difference between "just smoking" and really enjoying your smoke is the *taste* of a cigarette. You can *taste* the difference in the smoother, mellower, more enjoyable taste of a Lucky... for two important reasons. First, L.S./M.F.T.—Lucky Strike means fine tobacco... fine, mild tobacco that tastes better. Second, Luckies are *made to taste better*... proved best-made of all five principal brands. So reach for a Lucky. Enjoy the cigarette that *tastes better!* Be Happy—Go Lucky! Buy a carton today!

L.S./M.F.T.—Lucky Strike
Means Fine Tobacco

When out of favor in "men's eyes,"
As good old Shakespeare writes,
Pull out some Luckies—you'll get friends
Before your match ignites!

I Want Some Sea Food Mama

Are you fond of seafood? If you are, and if your definition of seafood includes the elegant and toothsome eel, you might like to clip this 14th century recipe for "eel reversed" and paste it in your cook-book:

"Take a large eel and steam it, then slice it along the back the length of the bone on both sides, in such manner that you draw out the bone, tail and head all together, then wash and turn it inside out, to wit, the flesh outwards, and let it be tied from place to place; and set it to boil in red wine. Then take it out and cut the thread with a knife or scissors, and set it to cool on a towel.

"Then take ginger, cinnamon, cloves, flour of cinnamon, grain of Paradise, nutmegs, and bray them and set them aside. Then take bread toasted and well brayed, and let it not be strained, but moistened with wine wherein the eel hath been cooked and boil all together in an iron pan and put in verjuice, wine and vinegar, and cast them on the eel."

They were bidding farewell to one who was leaving for India. In the conversation a friend said: "It gets very hot in India at times. Aren't you afraid the climate might disagree with your wife?"

The man looked at him reproachfully, "It wouldn't dare."

The men in the nudist colony were all giving the eye to a shapely new entrant. One man turned to the fellow next to him and said, "saaay! I bet she'd look great in a sweater!"

"What" asks a woman, "shall I tell my daughter?" Try telling something she don't know, lady—just try it.

APLIN SIGNS WITH CANADIAN PROS

Holland Aplin, popular all-around athlete here at Tampa U., recently signed a contract to play professional football with the Saskatchewan "Rough Riders" of the Western Interprovincial League in Canada. Aplin had previously signed a contract with the Cleveland Browns of the National Football League, but, later decided to give the Canadian game a try. Canadian football is played with twelve men, no blocking on kick-off or punt returns, and no blocking by linemen ten yards beyond the line of scrimmage. No terms were announced. Got your snow-shoes, Luke?

SPARTANS BEGIN SPRING TRAINING

The Tampa U. Spartans opened four weeks of Spring football training on March 16. The Spring drills will come to an end on April 12, when a Spring game with a state opponent is slated. New head coach Marcelino Huerta has been putting his boys through their paces at four o'clock each afternoon at Phillip's Field. Twenty-six returning lettermen are expected to form the nucleus of the '52 Spartans but Bob Boucher and Joe Trevorow are early standouts among twelve newcomers making determined bids to break into the starting lineup.

Losses to the squad due to graduation, the draft and etc., include: Kayo Royal, Lou Sequella, Bob Lovely, Holland Aplin, Ray Stewart, Ernie Rubio, Jim Mitchell, Frank Sinkwich, Vince Chicko, and Jack Marley.

YATES NAMED CAPTAIN OF SPARTAN CREW

Letterman Bob Yates was recently elected captain of the crew. In an interview, Bob explained our three losses, in many outings, by pointing out that only three men in the first crew have had experience prior to this year. He added, however, that with the experience to be gained this season the crew will be tough next year. So far this year the Spartan oarsmen have dropped two close races, here in Tampa, to Florida Southern and Boston U. and lost again by two lengths to Southern in Lakeland.

GOLF TEAM

The newly organized golf team at the University will play its first match tomorrow at Stetson. Representing the Spartan team are: Holland Aplin, Dan Sliman, John Weidenkopf, and George McNally. A return match will be played at the Tampa Golf and Country Club soon.

BASEBALL TEAM RAINED OUT, SMOKERS SAVED!

The Spartan-Tampa Smoker baseball game scheduled last week was rained out twice and has been rescheduled. Coach Maseda had planned to pitch Pete McLeod against the Smokers with Leo Alfonso catching, H. L. Hiers at first, Vince Pitisci at second, Paul Fernandez at short, Charles Xiques on third. Fred Pancoast, John O'Neal, George Montz, and Mike Rovnak were to have divided the flychasing duties.

INTRAMURALS

Jim Matthews of Sigma Kappa Nu defeated Al Cazin representing the Independents for the badminton championship in a set of closely played games.

Cazin won the table tennis championship by forfeit from Harry Bryan of Sigma Kappa Nu, last year's champ. Bryan's practice teaching schedule forced him to withdraw from the tournament after reaching the finals.

Johnny O'Neal of the Ace Club is leading the way in the foul-shooting contest with 36 out of 50. Holland Aplin of SKN is second with 33, followed by Spicola of RND with 32. A schedule has been posted on the Intramural Bulletin Board setting the dates for all organizations to participate. All Intramural managers please check their dates.

Notice has also been posted on the board about the bait-casting tournament to be held in the near future. It will not count for points in the Intramurals this year, but if enough interest is shown, it will be included in next year's program.

The tennis tournaments are well under way with the expected favorites showing the way. Thus far, it has been a two man show with Bill Dawson and Jack Bryan both representing the Independents sweeping their games in the singles and in the doubles where they are teamed. Unexpected opposition has developed in both the singles and doubles by Marcelo Maseda and Leonard Scoville of KSK.

Volleyball is in the very near future, so all frats should begin to think about their teams. Something for everyone else to think about... Beta Chi will have towering Chuck Jarczyński in their lineup. Should be enough to make them pre-tourney favorites.

SIGMA THETA PHI NEW PLEDGES

The Sigma Theta Phi sorority recently held their formal pledging. Katherine Weekley was elected pledge captain and Bea Peters was elected pledge mother. Each pledge in this sorority is known as a "little sister." The members of the sorority choose a "little sister" from among the pledges. The following list gives the "little sisters" first and then the member: Lee Clark, Liz Birge; Beverly Beckett, Ann Gardner; Rosalie Durand, Ann Shaeffer; Janet Addison, Katherine Weekley; Ann Roberts, Sue Shaffer; Jackie Sierra, Pat Williamson; Jane Thompson, Betty June Robinson; Delina Smith, Betty Burnette; Clarice Mance, Helen Cleotelis; June Hundley, Kay Johnson; Emily Van Bever, Peggy Mosbacher; Joan Owen, Kay Johnson; Phyllis Stockton, Bea Peters; Rita McCormick, Naomi Craig and Ann Redish, Lorraine Wedel.

HOME EC. CLUB

The Home Ec. Club held its monthly meeting last Thursday. For the program, Mr. Joe Diaz, professional cake decorator, showed the club members how to do fancy cake decorations. Plans are being made for an Open House in the Home Ec. Department for high school seniors in the vicinity sometime this spring.

Cuban Is Awarded University Medal

The University of Tampa and the Pan-American Commission of Tampa, honored a noted Cuban on March 24 when President E. C. Nance presented the University Achievement Medal to Federico Morales y Valcarcel of Havana, for distinguished service to the cause of Pan-Americanism.

The presentation was made at the Tampa Terrace Hotel at a luncheon sponsored by the Pan-American Commission.

In bestowing the award on Mr. Morales, President Nance said he did so in the name of the University and the Pan-American Commission of Tampa "because of the many contributions you have made to the welfare and progress of humanity, in your great country of Cuba, and elsewhere, and because you have long been a champion and patron of Pan-Americanism and have rendered distinguished service to the cause of Pan-Americanism."

Earl Mullen, executive director of the commission, presided, and Tony Pizzo, executive vice president, reviewed the career of Mr. Morales.

Spartan Cagers Praised By Kansas City Papers

Carl Erickson, former Minaret editor now studying journalism at the University of Missouri, Columbia, sends clippings from Kansas City, Mo., newspapers complimenting the Spartan basketball team, which played in the national inter-collegiate tournament there this month.

New Head Coach - Huerta

This is our new head coach, Marcelino Huerta, who succeeds Frankie Sinkwich as top man in football at Tampa U. Marcelino or "Chelo" as he is called by his friends is a graduate of the University of Florida where he was an outstanding athlete. Under his coaching the Minaret predicts that Tampa U. will have its greatest year in football.

DORA... AREN'T YOU READY YET???

A FAST WORKER

Three men were awaiting the celestial screening test by St. Peter outside the Pearly Gates. Finally each was asked to step up and report on his activities on earth.

"I, sir," said the first man, "was a minister of the gospel for 40 years."

"Sand aside for further consideration," he was told.

"I, too, was a minister on earth," reported the second man although for only 30 years."

"Step aside for further consideration," he was also directed.

Then the third candidate stepped up. "I sir," he said, "was only a taxi driver, for six months."

"Walk right in," said St. Peter, bowing low.

"But sir," objected one of the other two, "how is it that a taxi driver is permitted to enter the Pearly Gates before two ministers?"

"Well," replied St. Peter, "the way I look at it, this taxi driver scared the devil out of more people in six months than either of you did in a lifetime."

First virgin: "Which would you most prefer in a husband—brains, wealth, or appearance?"

Second virgin: "Appearance, and the sooner the better."

In a Swedish Maternity Ward, it seemed peculiar that all of the twelve women in the ward had their children the same day. That is, all but Mrs. Olsen. Her baby was born a few days sooner.

Dr. Swensen strolled over to her bed. "How come, Mrs. Olsen, you are the only woman here who didn't give birth with the other women?"

"Ay bane the only one what didn't go on Svedish picnic last summer," she answered.

Overheard in thee bookstore last month:

A student, who had been buying books, was paying his bill. He looked up at the cashier and asked what it was she had around her neck.

"A ribbon, of course," she said. "Why?"

"Well," he replied, "everything else is so high around here, I thought it was your garter."

Speaker: "Remember, there's nothing in the world that's impossible to accomplish."

Voice from the rear: "Ever try to put toothpaste back in the tube?"

The old game of Post Office is now called Pony Express. Same idea only with more horsing around.
