## PROCLAMATION

It is again a pleasure to call to the attention of the people of Tampa, Homecoming, to be celebrated by the University of Tampa on November 6th through 8th.

The need which our City had for this institution has been demonstrated by the rapid growth and fine progress the University has made in the few short years of its existence. Not only has it become the pivot around which a cultural life for citizens, both young and old, revolves, but it has been a contributing factor in bringing closer the future citizens and leaders of Tampa with a deeper understanding of the needs of the community.

Tampa is proud of the University, and I know that our citizens will be glad to join the Board of Trustees, the alumni, the student body, and the faculty, in their plans for Homecoming this year, as in past years.

This 1st day of November, 1940.

Mayor of the City of Tampa

## Dr. Becknell

One of the Originals, He's From Willkie's Own Home Town

By JAY SANDERS

All right, fellows, and ladies, too, step this way, right down close, that's it now. As far as you can see on my right, on those gigantic canvasses—faculty members. And way down there on my left, more faculty members. Just gobs of them. Any size, shape, form or description.

Who'll it be today? The wheel of fortune knows. Round and round she goes, where she stops nobody knows, A's, B's Ba, Bd, Be, B-e-c-k-n-e-l-l. That's it—Dr. Guy G. Becknell! And what a man! What a man! Come a little closer folks, so as not to miss a thing.

Now to cut the funny stuff. Dr. Becknell was one of the founding faculty members of our dear old Tampa U. And in his own words, "King Tut's tomb has nothing on this place."

He is a graduate of Northwestern

and Clark universities, and has his B. S., M. S. and Ph.D. degrees.

A note to the political minded—Dr. Becknell is from Willkie's home town. Like the rest of our broad-minded faculty he has his likes and dislikes. ... fish, Spanish bean soup, sauerkraut and beer head the list in favorite foods.

Entertainment! Well, he prefers research and conversation with friend to any other forms. However, he loves music, math and consideration for others.

And, at last we've found a member of the faculty that takes up for the students, for Dr. Becknell says they are more serious in their attitude toward lessons this year. ... And he really ought to know.

Dr. Becknell is a member of Phi Beta Kappa and Sigma Xi, and loves Elizabethan literature, but to prove he's a regular guy his only dislike is Hitler.

She weighed 85 pounds but he still called her his heavy date.

Envy the soda jerker—he lives such a stirring life.

## Former Students Flock To Sixth Homecoming

HEADS ALUMNI  
Hampton Dunn

With "Welcome" on its doormat and its latchstring hanging out, the University of Tampa is greeting its old grads and former students at its sixth annual Homecoming.

A brilliant opening for the festivities was the first alumni reception given by President and Mrs. Mooney in the ballroom Wednesday night, attended by a large gathering of alumni members.

## Dunn Named President Of Alumni

From Mercer College, Was Minaret Editor; Now Times Reporter

Dunn is a charter member of Tau Omega fraternity; was publicity director for the Tampa U. Athletic association, and has been a member of the alumni's board of directors for three years. He is a Times reporter, and a past president of the Junior Exchange club, and a member of the Masonic lodge, Zenadah Grotto, Eastern Star, and the Propeller club.

Graduate of Citrus county high school, he attended Mercer university at Macon, Ga., before coming to Tampa U. He is from Floral City.

Al Yorkunas, Tampa U.'s all-state center, from Youngstown, Ohio, was elected vice president; Miss Virginia Roberts, secretary, and Miss Jeannie Trice, treasurer.

Members of the board of directors are Robert Kasriel, Miss Bernice Horne, Billy Ailor and Miss Martha Powell.

Retiring officers are John Hall, Camden, N. J., president; Ailor, vice president; Miss Mary Eve, secretary, and W. B. Hippenmeyer, treasurer.

## President Mooney Appoints Straus Purchasing Agent

George K. Straus was appointed Purchasing Agent and Director of Maintenance and Supplies of the University, President Mooney announced yesterday.

The appointment was made at a meeting of the executive committee of the Board of Trustees last Tuesday.

Mr. Straus is a graduate of Stetson university where he was granted a Bachelor of Laws degree in 1935. After his graduation he was associated with a bond and securities company here in Tampa and in 1936 came to the university as head basketball coach and business manager of the Athletic Association, in which capacity he served until this week.

He began his new duties immediately after his appointment.

Howie Beynon

Undergraduates took charge of the celebration yesterday with a freshman pajama parade, a roaring bonfire and a "jook" dance, that added a high pitch of enthusiasm to the celebration.

## Dunn Elected President

The alumni held its annual meeting and election last night, naming Hampton Dunn as president, to succeed John Hall, of Camden, N. J. Students To Assist

Zeno Stalnaker, student body president, urged that all students do their part to welcome these returning alumni and requested cooperation in every other manner in putting the homecoming show over.

Welcomers are Zeno Stalnaker and Lucie Lee Marsh, seniors; Olga Martinez and Jimmy Whitehead, juniors; Tom Albers and Bettie Berlin, sophomores and Lola Ann Sparkman and Floyd Dobbins, freshmen.

## Parade Today

The annual homecoming parade is scheduled for this afternoon at 4:30 o'clock and competition is keen among the various fraternities and sororities, for the prizes for the most beautiful and appropriate floats. One prize will be given to a sorority and one to a fraternity.

Floats from student organizations will be a feature of the street parade, which will be headed by Mayor Chace, President Mooney and other dignitaries.

The parade will form on North Boulevard at the entrance to the Florida Fair grounds.

A special broadcast through WFLA will come directly from Phillips field, with the Tampa U. band performing and with talks scheduled by various alumni and students. Sponsors for Tampa and Oglethorpe will also be introduced.

## Sponsors Named

Tampa University team sponsors are Miss Celeste Dervaes and Miss Louise Griffin and the Alumni Association will be represented by Miss Betty Jo Mims and Miss Mary Baillif.

Oglethorpe sponsors will be the Misses Sue Cross, Sara Nance, Bert Towne and Lucille Smoak.

## The Social Spotlight

Dear "Old Grads"—  
Here's the welcome mat! Step on it, kids, everything's humming.

Sigma Theta bridge was a huge success and Dottie Thonnosen was the lucky gal who won the dress given as a door prize.

The kids who went to Stetson really had a swell time (especially those who came home during the wee hours of the morning on the athletic bus)—and we do mean athletic. The cheerleaders and the band really raked in the compliments about being the best in the state. And did the swing music and the jitterbugging of the cheerleaders go over? The Stetson crowd went wild about it.

The school prexy and his charming wife honored the alumni at a homecoming reception in the ballroom last night. This lovely affair was the first of its kind at Tampa U. and we hope it will become an annual one.

And huge congratulations to those gals chosen sponsors for the big grid-iron battle tomorrow night—Celeste Dervaes and Louise Griffin, representing the team, and Betty Jo Mims and Mary Baliff, representing the alumni. Skins, Dekes, Alpha Gams and S. T. P.'s have all planned homecoming luncheons and banquets in honor of alumni to add to the activities.

Alpha Gam pledges will honor members of the sorority and their dates at a formal dance at the Villa Del Rio Saturday night.

Freshmen will get their first taste of homecoming when they dance and prance around the bonfire tonight. And every one will get in the mood at the big parade tomorrow P. M. Frats and sororities are working diligently on their floats, and competition for the prizes will really be stiff this year.

Dear Maude:

The Junior class really did themselves up proud last week with their Junior Jook and the carnival. Congratulations, kids, that was really swell.

If you happen to see any of the girls around school toting furniture, well, don't get excited 'cause they are probably just working on their respective sorority rooms. And they are hard at work painting, scrubbing and such to get beautiful results.

Quite a number of the guys and gals around school had their first lesson in football at the M. S. O. football party. Games stressing forward passing, interference, signaling and such were played.

Players were also asked to make their own helmets and you should have seen some of the Paris creations that made their appearance. Popcorn, peanuts and cokes were served in keeping with the theme. Walter Brown proved to be the best interference man on the team. Technique, eh, Walter?

Skin pledges really put on a superb party Oct. 25 at Egypt lake. Some of the people got lost on the way out there and arrived late. At least that's their story.

Tom Johnson was the victim of a

## Freshman Pajama Parade And Bonfire Help Homecoming Off To A Big Start

Tampa U. frosh played a gay and noisy part in the University Alumni's Homecoming last night, with a gaudy pajama parade led by a pajama-attired band, a brilliant bonfire and a pajama-jook dance at the University ballroom.

Pepped up to a high pitch of school spirit, the freshmen, boys and girls, donned gaily colored pajamas and trooped toward, hep-hepping to the martial music of their gaudily attired band.

Down Lafayette street they went,

and around Franklin and Tampa, in the midst of the early evening throngs, telling Tampa that their city is a college town, with all the undergraduate trimmings—fanfare, spirit, gaiety, and all.

Back at the University, the gay troopers disbanded and flocked over to the fair grounds on North Boulevard, where the freshmen had gathered a great stack of old boxes, scrap wood, and things for a bonfire. There the students struck up a round of cheers, and the bonfire

celebration was on as the flames flared up.

College spirit was at its height. Alumni, upper classmen and freshmen, with a sprinkling of faculty members, joined in the roaring celebration.

Then they romped back to the University, turned on the nickelodeon (jook organ), and danced, high spirited from the contagious enthusiasm of the early evening.

The freshmen helped to get Homecoming off to a great start.

pretty good prank. Unbeknown to Tom, Johnny Wainwright turned off the ignition on the car and Tom thought he was out of gas. Climbing out of the car he started to walk to try and find a filling station. After walking a mile he found a trailer camp and woke the man up, and asked him if he could get some gas. Just about that time up drove Johnny in the car. And was Tom burned up.

Well, cheerio. See you later at the bonfire, game and dance.

### President Mooney Welcomes Alumni

Tampa University means a great deal to all of us who are associated with its present and who look toward a future of increased service, prestige, and honor.

It means a great deal to you, the Alumni, who have received your training within its walls and who form to a large measure the tradition behind the growth of this institution.

The very fact that you have been associated with its growth during these formative years in the history of the University places you in a position of vast importance during the present and the future.

We recognize the important part you have had in the past and have full confidence that your support and assistance will continue to help the growth of the University.

I feel no need to go into the program of new policies because you are in a large measure familiar with most of them. The supremely important thing for all of us at this time is to "put our shoulders to the wheel" and do all we can to bring about an enriched program of service, looking always toward the larger end of human achievement.

### Dean Sanford Welcomes Alumni

I am glad to join President Mooney and the members of the Faculty in extending a cordial welcome to the Alumni of the University.

Many of them I hope to meet personally at the Homecoming exercises and I shall look forward to becoming acquainted with others in the future.

We hope that the Alumni will visit the University often and renew their interest in the many activities taking place on the campus.

## GREETINGS!

Every year University of Tampa students look forward to the annual visit of alumni—homecoming.

We're glad to see you today, alumni. We are proud of the school you left us, and we welcome you back to see the progress that we have made.

This is the biggest event of the year to us, and we want you to enjoy yourselves as much as we enjoy having you. The parade and game and dance tonight are events we'll all remember.

Once again, here's our hand in greeting. Welcome Alumni, and come back next year.

## ON ASSEMBLY ETIQUETTE

Students have been requested to enter assembly and be seated quietly and promptly. They are asked to rise when the speakers enter and to remain standing until the dignitaries are seated on the platform. The same form is to be followed at the end of the program, when those on the platform are leaving.

In itself, this procedure is only a natural expression of courtesy to our visitors and to our university officials, giving the students an opportunity to express their respect for the University President, Dean and others on the platform, and for the guest speaker.

But an indirect psychological result in all probability will be the creation of a more sober and serious response to the assembly procedure and programs. Both results, the expression of courtesy and the attentive response, will be welcomed.

## THANKS FOR RECREATION ROOM

If ever anyone deserved the hearty thanks and appreciation of the student body, those responsible for the Recreation Room certainly do. This room has been the dream and ideal of the students for years, and now, at last, it's coming true!

This realization is being made possible not only through the efforts of the administration, but also through the combined cooperation of all the organizations on the campus.

Every person involved really rates a big hand.

## WELDING FOR A COMMON BOND

In the life of every alumnus there comes annually an event of great importance—homecoming.

Why is it important? Because homecoming means the renewal of interests common to all alumni. Community of interests is the natural result of years of fellowship together in the same environment, meeting largely the same obstacles, and striving toward a common goal.

It is only natural, therefore, that the scene of these activities should grow dearer to the hearts of all alumni with the passing of the years. That is why we are coming home.

But though the scene is the same, there are many changes. A new fellowship has grown up. Undergraduates and alumni are strangers to each other.

If this homecoming is to have a lasting effect there must be a mingling of undergraduates and alumni in activities which will build community of interests between the two groups. Then, and only then, will the transition from student to alumnus be merely one of situation. May the activities of this homecoming weld us to a common bond.

—BILLY AILOR.

## ON SMOKING IN LOBBY AND HALLS

Smoking is banned in the lobby and the corridors because it isn't good taste, because there's nowhere but the floor on which to deposit the ashes and stubs, and—for a very practical reason—because of the insurance rates on the building.

This is written for the benefit of those who are not familiar with the insurance ruling. It provides an especially favorable rate for the building, with a clause providing that smoking shall be restricted to places in which protection is provided for fire prevention—such as ash trays for lighted stubs and for ashes that may still hold fire.

We are asking that all students help protect our building, the home of our University, by refraining from smoking at places not properly protected.

## Greetings, Prof

Our most urgent duty is to maintain and extend the human values that are everywhere challenged; respect for human personality and individuality, liberty of conscience, liberty of thought, freedom of the press, the radio, and of the church, liberty of action as long as it is non-violent; opportunity for all for work and education without distinction of sex, creed or race.

A few years ago it seemed unnecessary to defend Democracy; today it survives in but a few countries and is everywhere challenged. Our first duty must be to defend Democracy however imperfect since only under Democracy are essential human values recognized. The new tyranny of the State makes of its citizens slaves. It provides them neither happiness, prosperity, nor security, but demands their sacrifice so that the state may be powerful, arrogant and impregnable.

We should therefore be actively concerned to protest against any lack of liberty, concealed censorship or interference, and should be ready to help actively any movement for education in good and responsible citizenship.

Universities and colleges afford an opportunity for students to participate in helping make self-government and our American Constitution a continued safeguard of the fundamental rights of the individual. The American education can help keep forever the perpetual and inherent benefits of the foundations of Democratic civilization in a world all but destroyed by barbaric and unscrupulous leaders, by vigilant courageous leadership; is not wishful thinking. There is a great need for thoughtful action.

Let us, therefore, keep our vision unclouded by emotionalism, and let us recognize that conditions beyond our borders make ever more compelling the need for understanding, for teaching and for living our American Self-Government.

—JAMES ELLIOTT MOONEY.

## Addresses Dr. Mooney

Speaking before the International Relations club Tuesday night, President Mooney maintained that only through an understanding of mutual problems could a close association of the nations of the western hemisphere be possible.

"It is only through an understanding of mutual problems that it is possible to develop relations necessary to perpetuate a close association of the Americas," he said.

"This means the Americas should make a careful study of the social and cultural phases of society as well as obtain a closer knowledge of their economic problems."

### On Emotional Make-Up

Dr. Mooney pointed out the importance of the emotional make-up of the people of the various countries that constitute the Americas.

"It is particularly important during these critical days," he declared, "that every thoughtful citizen in the Americas should keep emotionally well balanced in order that we may be able to develop an inter-American

spirit of cooperation through a careful evaluation to further the security of our democratic way of life."

The speaker urged his listeners as students to interest themselves in the broad cultural interests of the countries to the south. Studying Spanish, he said, has a combined cultural and utility value.

### Urges Understanding

Declaring that heretofore the United States had adopted the somewhat confused policy of tolerance rather than understanding toward the South American nations, Dr. Mooney emphasized:

"We cannot have a full appreciation of the value of any country and its citizens without having a fairly clear understanding of their cultural accomplishments and traditions as well as its financial and industrial assets. It is different to tolerate a man and another thing to understand him. We should emphasize understanding!"

### CARE OF LIGHT BULBS

To get the best results from electric light bulbs: Dust carefully and occasionally give them a light bath with a damp cloth. Remove bulbs from sockets and do not let any moisture get any place but on the glass. Keep damp cloth away from sockets and make sure that bulbs are perfectly dry before replacing them.

## Undergrads Welcome Alpha Psi Alumni

Alumni members of Alpha Psi Omega, national dramatics fraternity, may obtain copies of the national magazine, "The Playbill" by contacting Mrs. Connally. Pictures of two of the plays presented by the university last season are featured in this issue.

To celebrate a complete homecoming the alumni members are urged to make plans to attend the monthly meeting at the home of Ella Beth Laird on the last Tuesday of November.

## Homeward Trek

But The Stetson Dance Was Okay, Even If It Was A Long Ride Home

By EYE CUE

Whereas there was a football game with Stetson Saturday night, and whereas there was a dance afterward, and whereas there were some few students who desired to attend this dance, and where . . . oh, skip it. But, anyway, maybe you wondered why the lobby was full of crimson-coated individuals singing hymns at 7:30 Sunday morn. It's a long story, but we'll try to make it short.

It seems that the Stetsonites liked the band and cheer leaders so much that they extended a mass invitation for their Alumni dance after the game.

Of course there were a number of handsmen who didn't exactly relish the thought of a 150-mile trip during the wee small hours of the morning.

Billy Martin was well aware of this fact, and it took an amazing bit of strategy and politicking on his part to iron out the situation. After a couple of hours of quibbling about who was and who wasn't, however, one bus load started on the homeward trek.

Left behind was a group of footsore but high-spirited musicians and cheer leaders, a school bus (?), and a driver. Left to his own resources, each person set out to kill time before the dance.

Art Burroughs, Billy Martin, Jim Huber and Frank Fagan proceeded to barge into the men's dormitory and enveigle a razor, towel and soap from the Dean of Men. (Nice work, Burroughs). We don't know how he did it, but David Webb managed to whack his beard off too. (Maybe he used a piece of broken glass).

Finally the dance—which was pretty fair, considering that we were rather conspicuous in uniforms and sweaters. Mr. Burroughs was right at home at his old Alma Mater and seemed to get around with the fair ladies quite well. Johnny Wainwright did all right for himself, but we wonder if he got home o.k. Has anybody seen him?

An impromptu breakfast seemed to follow the dance, but there was soon a perceptible movement toward the bus. After Finney and Griffin were rounded up and arguments over seats had been settled, we wearily headed for Tampa at 1 a. m. We wouldn't stake our lives on it, but we think a nightmare ensued.

We stopped every 40 miles or so for

coffee and a stretch. Gosh, those seats were uncomfortable! The four lads who were strapped on top of the bus probable fared better—even if they didn't realize it.

Frank Fagan found the aisle more comfortable than the seats, but he was stepped on every time somebody moved. Floyd Dobbins had a mania for dishing out hot foots—that is, until he ran out of matches.

Beattie and Webb persisted in singing all the way home, but Art and Kitty Ann slept on blissfully. Mary Merle slept all the way too, so we doubt if she gathered anything for her column.

Well, chilluns, this is all probably very boring if you weren't along, but at least you would have appreciated the sight of 24 bleary-eyed people rolling into Tampa just as the sun started peepin' out.

Anyway, we sang hymns on Sunday morn while we waited for parents to take us home. We had a fine time, but we are still wondering when we are going to catch up on the lost sleep.

## Dance Students Form Orchesis Club, Name Miss Berlin President

Interpretative dancing will be the purpose of the Orchesis society formed Wednesday night with Bettie Berlin as president. The title of the organization comes from the Greek word "Orchesis," meaning "dance."

Other members are Nouna Hitchcock, Guilia Botarri, Odessa Dietrich, Mary Collura, Louise Griffin, Eileen Gutierrez.

An auxiliary group for men students will be formed soon.

# Spartans Meet Petrels Tonight

## Tampans Out To Defeat Oglethorpe

### Teams Are Rated Even For Homecoming Game As Big Event Tonight

Rated on even terms, the Tampa U. Spartans will seek to send the Tampa U. Alumni home happy in a victory over the invading Oglethorpe Petrels from Atlanta, in the annual Homecoming tilt, on Phillips' Field tonight at 8:15 o'clock.

Coming out of the Stetson tilt in good condition, the Higgins eleven will be planning to open up its offense again with Champ Williams, senior back who will act as captain, in the driver's seat. The offense has clicked in the last two games, but poor defense lost for Tampa in Stetson 19-13 victory last week.

The Stormy Petrels with a mediocre team will be in good condition for the contest. Two Florida boys will be in the starting line-up—Jack Mockabee, star center from Dade City, and Gus Hendry, from Arcadia.

Coach Higgins will send his first string into the fray with this probable lineup: Ends, Schleicher and Kolka; tackles, Zaiko and Pittman; guards, Fordyce and Reed; center, Fisher; backs, Williams, Kaulman, Beynon and McCloskey or Buchan.

In last week's loss, the Spartans played good ball, but costly fumbles ruined their chances of victory. Champ Williams proved to be the individual star time and time again and made one brilliant return of the kick-off in the second quarter for a 90-yard touchdown.

## Rollins May Lick Miami To Win Title

**Hurricane Has Yet To Face Gators and Tars To Top State Elevens**

By FRANK MANISCALCO

Football experts have predicted that Rollins will defeat Miami Friday and automatically lay claim to the Florida mythical football championship.

Coach Jack McDowall has turned out one of the best teams in the school's history. The Tars comprise one of the best seasoned, smartly coached and trickiest squad in the state. Their deception in the backfield, coupled with some fine blocking and perfect timing, has made the Tars a menace in the state race.

At present, Florida, Miami and Rollins present unblemished records against state foes. The Gators' sole victory within the little five conference was against the Spartans and they still have the Hurricane to hurdle.

Miami, on the other hand, whipped Stetson and Tampa, but still must tangle with Rollins and Florida. The Tars' schedule calls for return encounters with two previously defeated

**STRANER'S DOWNED**—Tackled after long gain at Stetson.

elevens, Tampa and Stetson, besides Miami this week-end.

As a result of the Tars' walloping handed to Appalachian, 30-0, coupled with the Hurricane intersectional rout by Texas Tech, 61-14, Rollins heads the list as favorites to clinch the title.

If the Tars are successful against Miami, with the former's chances of being upset by Tampa and Stetson unlikely, their ledger would read: Won 5, lost 0; while the Gators, with only two state opponents on their schedule, having conquered the Spartans and providing they drop the Hurricane, would read: Won 2, and lost 0.

## Competition for Quill Club Will Close November 13

Competition for membership in the Quill club, national literary organization will close Wednesday, Nov. 13. Manuscripts may be submitted by sophomores, juniors and seniors only. Applicants may submit a 1000-word essay, a 2000-word short story, 50 lines of poetry or an equivalent work acceptable by the membership committee.

Manuscripts are to be submitted anonymously with the name of the writer in a sealed envelope attached to the contribution, and placed in Dr. Cramer's mailbox or the box in the Minaret office.

Chapters of the organization at different colleges are known as Runes, carrying out the old English theme of the group, the Tampa chapter being known as Tir Rune.

Tampa was installed into the national group last year, the first university in the southeast to be a member, and a representative from Kansas, the nearest chapter, was here to take charge of the ceremonies.

## SKN's Crush TO Eleven

**Skins Pile Up 26-0 Score; Frederick And Vest Star**

The Skins reaffirmed their claim to the intramural football crown today by crushing a scrappy T. O. team 26-0.

S. K. N. scored first in the opening minutes of the game on a long pass by Frederick to Beard who ran 40 yards for the score. A few plays later Goodson tossed a flat pass to Johnson for the second Skin score.

Early in the second half a TO scoring threat was halted on the Skins' 20-yard line. Then Frederick looped a short pass to Goodson who ran from midfield to score.

In the fourth quarter Goodson threw a long pass to Frederick who stepped over the TO line for the final tally of the game.

The contest was marked by excellent blocking of the SKN players and their alert defensive work.

Outstanding for TO was Vest whose kicks kept the Skins in their own territory much of the time and Beattie whose catches kept the SKN team on their toes. Captain Frederick paced the Skins' attack.

## Tampa Frosh Meet Rollins Next Monday

### Manucy's Boys To Play Second Game at Lake Wales Armistice Day

The Tampa U. freshman football team will encounter its second and final rival, the Rollins Frosh, at Lake Wales on Armistice day.

Loser in their first game against the Miami Frosh, 26-0, earlier in the season, the Baby Spartans have been carefully drilled under the watchful eyes of Coach Fred Manucy and should be able to hold their own. The last encounter between these two freshman rivals was back in 1938 which resulted in a scoreless tie.

Armistice day will mark the renewal of freshman football between Tampa U. and Rollins. The Baby Spartans, although lacking in quantity have plenty of quality. The squad is composed of only 18 members but what they lack in numbers they make up with rugged, high spirited individualism. They have shown undying spirit and endurance throughout the practice sessions.

#### Starting Line-up

Coach Manucy probably will start Bob "Feet" Bowen at one end and "Slash" Lassen at the other. Bowen has an uncanny way of using his feet, thus earning the moniker "Feet". Big and rugged, he should be a lion both on the offense and defense. Lassen, although slender, is very sinewy and willing.

At the tackle position "Plough Boy" Thornton and John Ippalino should prove a stumbling block for the Rollins' backs.

"Plough Boy" is the muscle man of the crew. Short and bulging with muscle, he has been a continual nuisance to the varsity in scrimmages.

Jim Daniels and Myers, watch charm guards, are the key men in the frosh offense. Jules "Bull" Fantel, big and aggressive, will probably stand out at center like a beacon light.

#### Power in Backfield

In the backfield will be "Ginny" Hardin, elusive back from Clearwater, and Gene Young, hard plunging, fleet-footed back from Michigan.

Young lost two front teeth in the Miami game and when asked what he was going to do about it he replied, "I'll never smile again."

John Clemens will do the passing and kicking. Olin "Love" Cooksey will round out the backfield. Cooksey is rated as varsity material and should help the Spartan cause greatly.

With this lineup Coach Manucy predicts a wide open, powerful, deceptive game.

## Five Spartans Play in Brandon Baseball League

Five Spartan athletes, Arnie Holmes, John Comparato, Paul McCloskey, Frank Straner and Frankie Villarosa comprise two-thirds of the Brandon West Coast baseball team.

The Brandon outfit is leading the playoff for the championship, having whipped Lakeland in the first two games of the five game series. They need one more victory to clinch the title.

Holmes occupies the shortstop position; Comparato handles the hot corner, third-base; McCloskey is at first; Straner holds second and Villarosa has the left-field post assignment.

If Brandon takes the series they will challenge the Loyal Knights, champions of the Inter-Social league of Cusaden park.

## Bill Gaventa Named President Of State B. S. U.

Bill Gaventa, president of the University of Tampa B. S. U. was elected state president of the Baptist Student Union for 1940-41 at the B. S. U. convention in Deland last week-end, and Tampa was selected as the place for the meeting next year.

He will succeed Lloyd Whyte, of the University of Miami, and will go into office immediately, working in cooperation with Sabin Landry, state B. S. U. secretary, in planning all state events, and in coordinating the B. S. U. program on every campus. A state officers' meeting will be held the latter part of December.

Highlights of the convention program were the subject of a special B. S. U. meeting Tuesday night. Eleven University of Tampa students at-

tended the convention with five others from Tampa.

Those in the Tampa delegation were Hilda Sweat, Margaret Davis, Eleanor Baillie, Willie Ione Mercer, Florence Moore, Betty Mae Johnson, Maelma Cawley, Betty McCord, Alice June Wright, Mary Laura Lindsay and Bill Gaventa.

Plans are now underway for the annual sunrise Thanksgiving service and breakfast and for a student night at Christmas.

"We want every Baptist to take part in the activities of our B. S. U. this year," Gaventa said, "so we may be well organized when we are hosts next year to about 200 students from every part of the state."

Monday night the Baptist nurses in the Gordon Keller nurses school at the Tampa Municipal hospital met to hear the president of the Tampa University B. S. U. tell of the purpose of the organization.

## Air School At Tampa U. Is New Unit

### New Course Leads to Degree of B. S. in Field of Aeronautics

The University of Tampa has established for the first time this year a program of study leading to the Bachelor of Science degree in aeronautics.

Lieut. James L. Lee, flight commander of MacDill field and aeronautical engineering graduate, is in charge of the aeronautical program and is assisted by Lieut. James H. Harper.

This program has been designed to give a broad semi-professional background in Aeronautics. At the same time it aims to meet most of the educational requirements which will best fit a cadet to complete the work of the air service school successfully.

The semi-professional course will give instruction outlined as essential by the Civil Aeronautics Authority for entrance into the field of commercial aviation.

Individuals who have completed the primary and secondary student flying program may undertake apprentice instructorship work, and upon its completion may take a course in master instructorship supervised by the C. A. A. as an adjunct to the regular courses offered in aviation as a major.

It is possible for the student who has completed this work to enter the field of commercial aviation as an instructor in flying.

By FRANK MANISCALCO

Even though our Spartans suffered their fifth defeat of the season in a return engagement with Stetson, Tampa exhibited one of its best performances this season.

As the season enters its closing stage, the Spartans in the last two games have displayed something lacking all year . . . better offense and greatly improved blocking. Although, both still hold plenty of room for improvement.

Now that Tampa has acquired a good taste of touchdowns from the Georgia Teachers and Stetson games and know how it feels to cross an opponent's goal line, we are confident they will provide local followers with victories over the next two foes, Oglethorpe and Rollins. Surely they can't let us and the alumni down for the homecoming battle against Oglethorpe tomorrow night.

Players who have shown marked improvement as the season matured are John Comparato, Ted Bravakis, Stanley Moore, Frank Straner, Champ Williams and Howie Beynon, backfield.

On the line, Bill and Pug Reed, Tony Kolka, Dixie Howell, Bill Fisher and Pappy Newlands have come across with credible progress.

Comparato, one of the most underrated players, and Frank Straner, swift halfback who had been forced on the sideline until recently by an early season injury, should provide adequate replacement for the loss of our all-state candidate, Champ Williams, next year. Comparato and Bravakis are two of the finest blockers and hardest plungers in the squad.

Straner, on the other hand, can follow his interference with the greatest of ease . . . looking best on open field running. Keep an eye on this chap next year.

Howie Beynon and Vic Hatch, two of our better backs, have been tied up with injuries throughout the whole season and have not been able to demonstrate their best forms.

The line merits praise for some gallant defensive work at times. Perhaps most of the scores chalked up against our boys have been overwhelming, but we can safely say that 80 percent of the opponent's points were scored directly or indirectly through passes.

Undoubtedly this has been the weakest department. If this could be corrected in time for the remaining games, victory would not prove so difficult.

## Beta Chi's Upset RND

### Jeter Again Stars For BX; Makes Both Touchdowns, 13-0

The up and coming Beta Chi team scored a 13-0 upset victory over the strong Rho Nu team in a bitterly fought contest at Plant field yesterday.

Dana Jeter raced 20 yards for the first score after receiving a long pass from Tanner. A pass from Tanner to Antuono was good for the extra point. The second score was added in the closing minutes of the game when Jeter again raced around end for the score.

The forward line played superb ball, again and again rushing the Rho Nu passer. Webb, Solak, Hague, Smith, Ryals and Schiro on the line and Antuono, Ripa and Jeter in the backfield starred on defense.

Coach Johnny Kaufmann should receive much praise for the fine work he has done with these boys. He has brought them from the bottom of the league to leading contenders for the title.

Dr. Ellis Freeman, Tampa U. psychology professor, has been appointed a psychological consultant to the Council for Democracy, it was announced by the council's executive chairman, Dr. Carl J. Friedrich, professor of government, at Harvard university.

The Council for Democracy which includes such sponsors as Chief Justice Charles E. Hughes, William Allen White, editor; Dorothy Canfield Fisher, author; Alexander Woolcott, writer, and Walter Wanger, motion picture producer, has its national headquarters in New York City.

The aim of the council is to unite the country for the strengthening and maintenance of its democratic institutions. It will work towards the stimulation of active participation on the part of thoughtful citizens in the molding of activities now made imperative by American defense needs.

The council sponsored a meeting at Carnegie hall, New York, last night, at which prominent speakers of both political parties urged Americans to forget their partisan differences and work together under their next president. Portions of this meeting were broadcast over a coast-to-coast CBS hook-up.

The program featured speeches by Attorney General Robert Jackson, speaking for the Democratic side, and ex-Governor Landon, from the Republican party. Newbold Morris, president of the New York City council, was master of ceremonies and Raymond Gram Swing, chairman of the Board of the Council for Democracy, also spoke. Recordings of the most significant speeches of the broadcast were made and will be distributed free to local stations throughout the country by the council.

## Library Has New Books

**Volumes and Magazines On Latin America Are Included on List**

As evidence of the current interest in Latin American relations, the American Library Association has just issued as a separate part of its monthly "Booklist," a list of books for North American readers on Latin American history, economic and cultural life.

The Tampa U library has some titles in practically all of the subdivisions contained in the list.

Among the magazines currently received in the library are the Bulletin of the Pan American Union and the Inter-American Quarterly. In addition, there are on file others, not included in the list, but of interest in this field, Cervantes, America, Comments on Argentine trade, and Commercial Pan-America.

The library includes these listed books: (1) Robertson, W. S.—History of Latin-America, (2) South American Handbook, (3) Prescott, W. H.—History of the Conquest of Mexico and History of the Conquest of Peru, (4) Vandercook, J. W.—Black Majesty, the life of Christophe, King of Haiti, (5) Seabrook, W. B.—The Magic Island, (6) Belbenoit, Rene—Dry Guiltline, (7) Franck H. A.—Vagabonding Down the Andes, (8) Roosevelt, Theodore—Through the Brazilian Wilderness, (9) Smith, H. L. & Littell Harold — Education in Latin America, (10) Kelly, F. C.—Blood Drenched Altars.

In addition, the library received numerous pamphlet material through the legations of the South American countries and through the Pan-American Union.

## Paul Hance Shows Improvement in Hospital at Miami

Paul Hance is showing definite recovery in Jackson Memorial hospital at Miami, after his injury in the Miami football game when he received a misplaced, fractured vertebra—it's really a broken neck. He will be forced to remain in the hospital for probably three weeks, though, it was reported here last night.

It is necessary for him to stay in an immovable position, and a nine-pound weight is held in position to keep his head from moving, but a mirror has been placed for him to have a view of the room.

Uncomfortable though he is, friends who have visited him say he is standing the strain in the ancient Spartan tradition, without complaint and without showing signs of nervous strain from not being able to move.

He—If I break some disturbing news to you will you keep your chin up?

She—Certainly. What is it?

He—That's fine! I'm going to kiss you.

## Blub! Blub! From The Sub-Cub

### Hello People:

Then there's the one about the little glamor girl co-edquette who tells all she can get her ears on. Well now that we have broken the ice, I'll let you in on a little pome:

He loves me, he loves me not—

What do I care, he's not so hot.

In times like these, the ocean seems to be a large body of water surrounded by trouble. For those who find it hard to read this column (?), let me enlighten you as to how we who write, feel!

1. The art of writing is the art of applying the seat of the trousers to the seat of the chair.

2. The news column (the slurp

column) is the place used to get rid of your personal prejudice so that the adviser has to rewrite it and then you get the credit for it (or the discredit).

3. We love to put our problems aside for a rainy day, so the result is—\$"&68()\*\*\*!

5. Tempus Fugits and we all scurry around trying to find out the lowdown on the gossip in a second or so that has taken the characters a little eternity to build up.

6. We all assume the attitude, "I like work. I could sit and look at it for hours." When we should have the "Do or die" attitude.

### Advice to the Lornlovers—

Men are like cellophane—transparent and hard to remove, once you get wrapped up in them. Also, remember, it takes two to make up after a quarrel.

### Advice in general—

To Dr. Freeman, please: Psychology is the science which tells us things that we already known about human personality, in language which few of us can understand.

Remember—A cheap skate doesn't cut much ice.

I'll be seein' you in the Payama Parade, Bonfire, Jook, (or, I'll beg your most humble pardon) the dance at the Palm room by the ALumnuses, the Thursday Knite brawl—aw you guessed it, it's HOMECOMING, KIDS! —Your stub, the Sub-Cub.

Then there's the story about the poor girl who wanted to burn her boy friend's letters but didn't have the hearth to do it.

## The Dorm Gals

They Present a Versatile  
And Talented Array—  
Look 'Em Over

Meet the girls in the dorm! Have you had the pleasure of meeting the gals formally or informally in the dorm? Say, they're swell this year. Talented, too!

Now take Marie Mitchell for instance, driving and striving hard to make a first class school teacher. Incidentally, she's a senior this year.

Helen Elsberry, a soph transfer from Southern College, has possibilities of becoming an "okey" model, which is her greatest ambition.

Frances Mathis and well known Frances "one man" Alderman, noted for their loyalty toward the ole' Alma Mater, will be on their own next year, and if you turn the pages of time you probably will see some Philharmonic Symphony Orch. under the direction of Alderman. Mathis can do just everything and anything.

Everyone knows Bunny Wolfe, a girl who's always the same when you see her and will make a good job of what she goes after.

Maxine Graf, better known as Max, can be recognized by her long blonde hair and reserved way.

Ruth Morgan, next in line, has one of the sweetest personalities that any gal could ask for and can play more than chop sticks on her fiddle!

Fanfare on this introduction, none other than the Lewis sisters. Marie is an oldie here, and is concert mistress in the Tampa University Symphony orch. Daisy (little sister) can be heard all around the school by her beautiful voice, singing, I mean, and if you don't think she's good just listen in on Tuesday's and Thursdays, to the glee club, and hear her hit high x above c er' something.

Mary "Cutie" Cantrell is taking a wide selection of courses and she won't come across with her ambitions. Her roommate, Billie Wilkinson, has ideas too, but she'll keep them to herself for the present.

Virginia Richlieu, made to order, with blonde hair and brown eyes, was transferred from a girls' school in Maryland.

Oh, yes, there are more. Little Eleanore Baillie doesn't spend her time in the lobby meeting people but studying in her room. No need to even bring up Miriam Quarles, who is a "sister" to all the Beta Chi's. Kitty Grant sits and holds her cello in the orch.—notice the sits, not plays?

You've seen Carroll Thomas time and time again working on the switch board—she's a junior this year.

Polly Robinson, Yolonda Finney and a new girl in the dorm, Alms Hanzan, are the last of the girls.

Polly spends most of her time reading thoughts, Yolonda drawing for the Minaret, and Alma plans to make a success of business administration.

Now that we've given you a brief outline of each one, come on, kids meet the girls in the dorm!

## One-Act Plays To Be Given for "313" At Tuesday Meeting

The regular monthly meeting of the 313 Masquers will be held Tuesday night. Times for tryouts for parts in the three-act play, "First Lady," and the play itself will be discussed. The play will go into rehearsal soon and will be presented on Dec. 11.

Mrs. Connally will hold a reading of "First Lady" in her room this afternoon at 1:30 o'clock. All who are interested in the play are urged to be present and prompt.

Nine one-act plays are under production by members of the dramatics technique class. Only three, however, can be given for public entertainment.

The dramatics club will serve as judges and select the three plays to be presented. Under this plan, three one-act plays will be presented at each meeting of the club.

The members will select the best play presented at each meeting and the three selected plays will be given after the Christmas holidays.

Tuesday night Lucie Lee Marsh will present "Dust of the Road," Ann Simpson, "Five for Bad Luck," and Bill Fricke, "Elephant."

## Art Club Plans Hamburger Fry

Twelve university students were extended invitations by the Brush and Palette club last week to become members. They are Jewel Fernandez, Ena Robb, Malma Cowley, Jack Lunden, Lorraine Wertheim, Elvera Mooney, Mary Evelyn McClung, Alice Lee Sewell, John Flanders, Odessa Dietrick, Miriam Quarles, and Marion Neil.

Meetings will be held on the second and fourth Thursday of every month, at 7 o'clock.
