

# University of Tampa

## We're Number One

It all started with the stunning Spartan defeat of the University of Miami 31-14 in the Orange Bowl early in October after wins over Delta State, New Mexico Highlands and North Texas State. With this run of victories the Spartans earned national publicity and the number one ranking in the United Press International small college ratings.

Coach Fran Curci's exciting team continued to win week after week. Xavier fell 33-10 at Tampa Stadium. Then the Spartans survived a tough two-week excursion into Louisiana coming out on top 14-10 over Louisiana Tech and 50-38 over Southwest Louisiana.

Home in Tampa Stadium for the final three games the Spartans played before 100,000 fans. Some 20,000 saw the team strengthen its number one rating by stomping Idaho State 68-7.

Then 35,000 saw Vanderbilt eke out a 36-28 win over a weakened Spartan team. Contract agreement with Vanderbilt, a Southeast Conference member, sidelined five Spartan transfer students for the game including defensive stand-outs Sam Gellerstedt and David Tomeo. The defeat tumbled the Spartans from their number one UPI ranking, but the season ended on a high note, as a capacity 46,000 fans watched Tampa dominate Florida A and M 49-7.

The final 10-1 record was the best ever by a University of Tampa football team. It followed 7-3

### Football News Bulletin

Associated Press poll picks Fran Curci, Coach of the Year; Leon McQuay, Player of the Year; Spartans, Team of the Year, for state of Florida.

Sad postscript to an otherwise great season—Coach Curci resigns to accept University of Miami post, takes Coaches Charlie Bailey and Joe Mirilovich with him.

## Record Forward Fund Goal Set at \$400,000

**BUSY PLANNING** the 1971 Forward Fund drive are new officers of the University of Tampa counselors (left to right) Secretary John M. Hammer, Jr., vice president of Florida Insurance Services, Inc.; Vice-Chairman Robert F. Ensslin, Jr., president of Ensslin Advertising Agency; Vice-Chairman William F. Ebsary, of Ebsary-Pinholster and Associates, and President Lee M. Bentley, president of the Second National Bank of Tampa and board chairman of the First National Bank of Clearwater. The 1971 Forward Fund is slated for kick-off, March 3, aiming for an all-time high goal of \$400,000.

## Krusen Building Soon To Open

Some 20 maintenance workers who have huddled in nooks and crannies scattered about the 40-acre University of Tampa campus soon will have a home of their own, thanks to Trustee W. A. Krusen, of Tampa, builder of portable steel structures.

A University counselor prior to his election to the board of trustees last fall, Krusen understood the problems of having no central maintenance headquarters and was concerned. In early 1970, he donated a steel building shell valued at \$35,000 to be named in honor of his father, I. A. Krusen.

The building, now in construction on the northwest corner of

the campus, consists of a basic 147 ft. x 80 ft. steel shell, which the University is finishing and expanding, using its own utility and construction personnel.

When the Krusen building is ready for occupancy in early spring, it will include office facilities for the director of plant, his assistant and staff of six persons and headquarters for carpenters, plumbers, electricians, air-conditioning specialists, etc.

For stronger consolidation of maintenance efforts the Krusen Building also will house a central stores division which will act as a clearing house for all University purchases and provide space for storing equipment and supplies.

## VIEWPOINT

### Prepare for Change

By

Dr. F. E. Allison  
Acting Dean of Faculty

One of the avowed goals of education is the preparation of youth for responsible citizenship in the society to which they will belong. In agrarian societies of the past cultural changes evolved slowly, and education viewed its primary goal as one of passing the existing knowledge, skills and human values from one generation to the next, realizing that some progress would be made by the new generation. Can education adhere to the same goals today?

If as Alvin Toffler suggests in *Future Shock*, man's existence represents about 800 lifetimes, and the overwhelming majority of the material goods of today were developed in the 800th lifetime, then progress in the last lifetime represents one-half of man's total achievement. Perhaps material goods is a poor example of progress, but the same comment applies with slight modification to other measures of human endeavor. Technological and cultural changes are coming at an ever increasing rate. The college curriculum must be carefully examined, lest the youth of today be ill prepared for the future in which they must live.

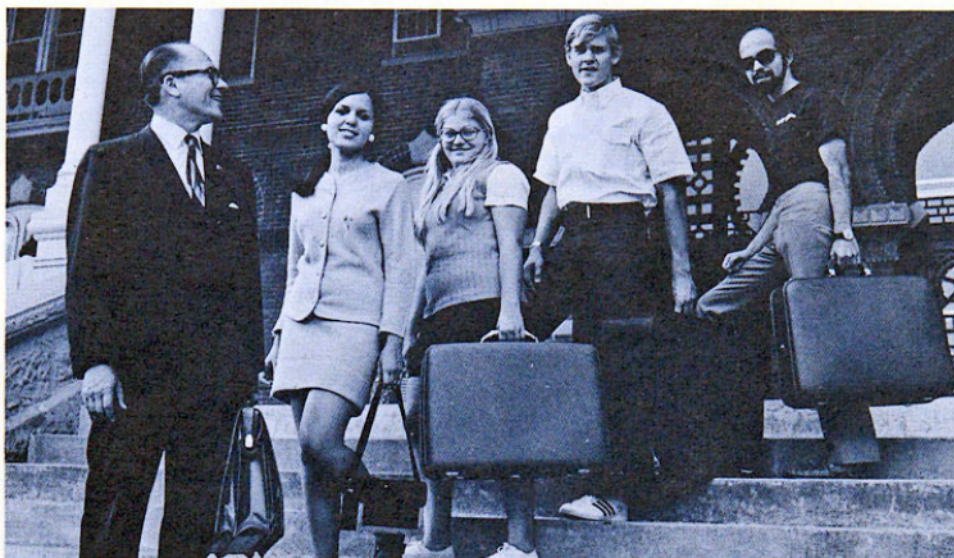

Educational institutions must now prepare citizens who can adapt to rapid change. Colleges and universities must learn to cope with an ever-increasing problem of career obsolescence. The magnitude of the problem can be emphasized by the following personal observation.

As an undergraduate student I studied an electronic-communications technology based on the vacuum tube; as a graduate student I taught a technology based on the transistor; and today even that technology has been made obsolete by miniature integrated circuits. Students of today must be made aware of the need for continuing education, and colleges must strengthen programs in continuing education.

The undergraduate curriculum must offer training along many

## They're Learning About Mexico--On Location

**OFF TO MEXICO** during the University of Tampa's first work-study intercession are (left to right) Dr. Eustasio Fernandez, Modern Language chairman, and students Lourdes Martin, Robin Pitman, Chuck Smith and Jose Vehgoechea. More than 20 students signed up for the trip (January 10-17), which along with intensive study, journals, term papers and exams will give them three hours college credit.

## Basketball, Wrestling Look Good

Basketball is off to a promising start with three wins out of four home games in December. So far the Spartan cagers have downed Florida A & M 90-76, Valdosta State College 109-89 and St. Leo College 68-65. The single loss fell to Florida Southern.

Wrestling fans saw UT's Mike Brown named outstanding freshman at the December Georgia Tech invitational. The undefeated Fletcher Carr makes a bid for the Olympics as an independent representing UT. Carr will not enter intercollegiate events this year to save his last two years of eligibility time in hopes the team will make NCAA next year.

Season's remaining basketball and wrestling events are slated as follows:

### BASKETBALL 1970-71

#### January

6	Florida A & M	Away
9	Lafayette University	Home*
11	Loyola	Home*
16	Rollins College	Away
18	Georgia Southern	Home**
21	St. Leo	Away
23	Citadel	Home**
25	Rollins College	Home*
27	Southeastern La.	Home**
30	Chattanooga	Home*

\* Fort Homer Hesterly Armory

\*\*Howell Field House

Game Time: 8 p.m.

#### February

1	U. of South Ala.	Away
2	Samford U.	Away
8	Georgia Southern	Away
9	Valdosta State	Away
13	Presbyterian	Away
15	V.P.I.	Home*
20	U. of South Ala.	Home*
22	Tulane	Home*
24	U. of Dayton	Away
26	Georgia Tech	Away

### WRESTLING

#### January

26	La. State U.	7:30 p.m. Home
30	U. of Ala.	7:30 p.m. Home

#### February

3	F.I.T.	Away
8	Pensacola Navy	7:30 p.m. Home
13	Fla. A & M	Away
	FSU	Away
19	Broward Jr.	Away
20	Miami Dade N. and	
	Miami Dade S.	Away
22	U. of Fla.	Away
27	Fla. Collegiate	Miami

(Invitational)

Home Matches at Howell Field House

# President's Report

This month marks another forward step in development of our curriculum with initiation of the first formal Winter Intersession from January 4 to 22. Fifteen courses, representing a wide variety of fields, will be offered. These short, concentrated programs enable students to earn three semester hours of credit.

The Intersession has also given us the opportunity to introduce unusual programs or new courses on a trial basis. Thus, Dr. Eustasio Fernandez has taken twenty-five students to Mexico City to study Spanish language and culture. Advanced students in Chemistry are carrying out research projects and learning research techniques. Using Tampa Bay as its laboratory, the Biology Department is offering a combined field and lecture course in Marine Biology. Dr. Speronis is conducting an analysis of the confused situation in the Middle East. The new Senior Seminar, conducted by Dr. James Covington, will be offered for the first time.

We believe that the Winter Intersession will continue to be a testing ground for innovation, and will present a healthy departure from the regimen of the regular semesters.

During the second semester this spring we hope to initiate a cooperative program on a small scale. In such a program students alternate class attendance with periods of employment in the areas of their major interest. We expect to begin with the field of accounting.

Alumni who once enrolled in Chemistry or Physics would now be surprised and pleased to see the new laboratories and the air conditioning in the Chemistry Department. We plan to construct additional new laboratories in this general area this spring and to renovate the Chemistry laboratories completely next summer.

The price of academic excellence is constant improvement. This is our goal with the help of alumni and friends.

DAVID M. DELO  
President

## What's New in Old Plant Hall Library Area

**SOMETHING NEW** is happening in the old Plant Hall library area. On the west side the Fletcher Lounge for gala receptions and parties, restored by the Chiselers at cost of more than \$50,000, has officially opened. Admiring the handiworks of their organization are Chiselers (left to right) Mrs. Willard D. Miller, Mrs. Paul D. Adams, Mrs. C. Verne Klintworth and Mrs. William E. Davis. Across the hall from Fletcher Lounge is the University's first complete post office and communications center, including student-faculty lounge.

## Degrees Awarded

Some 195 students received degrees at December Commencement.

Speaker Dr. Billy O. Wireman, president of Florida Presbyterian College, St. Petersburg, was awarded the honorary Doctor of Humane Letters degree during Commencement Exercises at McKay Auditorium.

Cited with the honorary Doctor of Laws degree also during Commencement was Dr. Hugh F. McKean, Rollins president for 18 years, now chancellor.

Degree citations were read by UT Trustee Sam F. Davis (Dr. Wireman) and Trustee Harris H. Mullen (Dr. McKean). President DeLo conferred the degrees.

## CAMPUS AND COMMUNITY

Dr. D. M. Delo

M. Gill

Congratulations to Frederic J. Woods, Sr., trustee, who recently received the ICUF C.H.I.E.F. Award for his outstanding contributions to private higher education in Florida.

President David M. Delo has just been appointed chairman of the Florida Committee for Selection of Rhodes Scholars. Currently Dr. Delo is serving as president of the Florida Independent Colleges Foundation, Inc., and as a member of the State Planning Council, he serves on the Council's Florida Independent Higher Education Committee

R. B. Gronlund

Robert B. Gronlund, vice president for development and public relations, has been named to the Committee on Taxation and Philanthropy of the American College Public Re-

lations Association.

The Committee's current aim is relating the new federal tax legislation to the needs of higher education.

\* \*

Bon voyage to John Barker, who left his position as director of publicity for the Athletic Department to take over publicity and public relations for the Tampa Jai Alai Fronton. Mike Gill has joined the Athletic Department as publicity director.

\* \*

The University welcomes Mrs. Byron Crowder to the staff as secretary to Robert Gronlund. Mrs. Crowder succeeds Claire Cason, who recently left her job at the University to accept a secretarial position with National Life Insurance.

### Number One

(Continued from Page 3)

he ran up a total of 1,362 yards and 120 points.

Also copping All-America honors were John Mooring, Sam Gellerstedt and Ronald Mikolajczyk. And the Harmon Football Index rated the Spartans first in the country among small colleges for the season.

Next year the squad will face Mississippi, Vanderbilt, Villanova, Dayton, Drake, Florida A&M, Chattanooga and Louisville.

## Nance Scholar Named

Freshman Edward L. Treen, III, this fall became the first recipient of the Ellwood C. Nance Scholarship, to be awarded annually in the amount of \$500 to a deserving boy or girl.

The Nance Memorial Scholarship Fund was initiated last spring by Mr. and Mrs. Jefferson G. Artz, of Columbus, Mississippi.

The existing Nance Memorial Fund, originated by Daniel V. McEachern, of Seattle, Washington, was converted to the Scholarship Fund, and total capitalization now exceeds \$13,000.

Other friends of the late Dr. Ellwood C. Nance have been adding to the Fund.

## Prepare for Change

(Continued from Page 2)

paths of intellectual pursuit in order to provide educated citizens for positions in a society that demands an ever increasing diversity of human participation. Because an institution's inventory of course offerings is limited by financial resources, the institution must offer the student a wider selection of combinations of courses leading to the baccalaureate.

The University of Tampa Curriculum Committee is studying two new degree programs geared to the increasing momentum of change. One of these is a broad-based program in communications, and the second is an undergraduate program in industrial management. Neither degree program contains a major concentration in recognized classical areas.
