

PRESIDENT HULLEY OF STETSON TO BE UNIVERSITY GUEST

To Occupy Guest Chamber With Wife Tonight

President Lincoln Hulley, of John B. Stetson university in DeLand, will arrive here late this afternoon with the Stetson football team and will be the guest of the University of Tampa at the invitation of President Spaulding. President Hulley and his wife will be the first distinguished guests to occupy the guest chambers of the university here. They will stop over tonight and leave tomorrow for the return to DeLand.

He has been president of Stetson since 1904, previous to which he was a professor at Bucknell university, of which he is now a trustee.

Dr. Hulley was born in Camden, N. J., in 1865, and received A. B. degrees at Bucknell and Harvard in 1888 and '89 respectively. He gained his master's degree at Bucknell in 1891 and his Ph. D. at the University of Chicago in 1895. He has received many other degrees at different institutions, among them being D. Lit., L. L. D., J. D., D. C. L., D. D., L. H. D. and E. D.

Two years ago President Hulley appeared in Tampa as the principal speaker before the Scotch club of Tampa on Burns' night, the annual celebration of the anniversary of Robert Burns, the poet. President Hulley is considered one of America's outstanding authorities on the Scottish dialect.

Panther Vs. Terrier; Tampa's Grid Classic Booked For Thursday

Next Thursday, Thanksgiving day, Tampa will be decked out in her gayest for her great annual grid classic, the meeting of the Plant Panther and Hillsborough's Terrible Terrier. Both teams, having nearly completed their current season and priming themselves for this all-important clash are in their best possible condition, excepting a few minor injuries which should be healed by Turkey day.

Coaches Johnson and Sarra, the best of friends off the field, become bitter antagonists Thanksgiving afternoon, and shoot the complete works at each other through their scrapping elevens.

When these two high school teams face each other, the fans are certain of a bitter, closely contested scrap, and a real scrap it always is. Only once has the score been one sided, that when the Terrier romped to a 33 to 6 victory a few years ago, at all other meetings the margin of victory has rarely been greater than seven points. This year, comparative records would show each team whipping the other by about 13 points, and that doesn't mean a tie.

Hillsborough's big red eleven has the edge in the series, and the consensus, for no reason at all, seems to point to another Terrier triumph. Many premature wrinkles and grey hairs have always been the lot of the dopster attempting to pick a winner in the Turkey day clash, and this year it is even more so. In considering the comparative scores this

(Continued on Page 4)

D'Angelo Preparing Opera

The "Chimes of Normandy," a 3-act opera, directed by Mr. Antonio D'Angelo, will be presented by the university music department after the Christmas holidays, in the municipal auditorium.

The music will be furnished by the university orchestra, Mr. Seaver directing.

One of the many features of the opera will be the ballet dances. The dancers are being trained by Mrs. Steele.

OFFICIAL NOTICES

Students must call at the Dean's office promptly when requested to do so. Notices will be posted on the bulletin board.

All students are urged to see that tuition installments and room rent payments are made as early as possible.

All rooms in the university used for living purposes, whether cared for by occupants or by university help, must be kept clean and orderly, and should be ready for inspection every day by 1:30 p. m.

Ad Club Discusses Plans for Donating Signs to University

Plans to donate a 100-foot block sign to be installed over the roof of the university were discussed by the Tampa Advertising club at its regular meeting last Monday. Thought also was given to a smaller neon sign for the drive entrance of the university at the foot of Hyde Park avenue.

The need of something to take the place of the recently removed hotel sign was brought before the Ad club by the university advertising committee which is composed of B. H. Watts, J. C. Norton and A. K. Hartzell, chairman.

The original plan of the club was to donate a large neon sign only for the roof, but as the erection of an additional smaller sign was considered, final action was withheld pending further investigation by the committee.

President Spaulding also suggested to the committee at its meeting that the Ad club could be of invaluable service to the university and community by formulating a university advertising program to be built into a coordinating movement of publicity carried on through the chamber of commerce, civic clubs, business and professional mediums of the community by the use of seals, stamps, stickers, photographs, pamphlets and letters.

Increase of Scholarships Attributed to Depression

Does the lap of luxury or the hard grind of poverty produce better manhood? This is an age-old discussion which will probably never be settled conclusively one way or the other. Too many exceptions on both sides of the argument make any general conclusion indecisive. Theodore Roosevelt was born to wealth. Abraham Lincoln came up from poverty. Take your choice. But the school-of-hard-knocks advocates would seem to be in the saddle right now if the statement of the dean of Dartmouth on this subject has been correctly quoted. He says students who have entered major colleges and universities since the depression have hung up an all-time record for scholarship. This he attributes to the new seriousness of purpose which motivates the activities of college men and women today. At Dartmouth, for example, in the old days about 70 freshmen flunked out at the end of each year, while last year only five freshmen had to leave school because of failure to make the required grades.

Dr. Hinckley To Speak

At the usual assembly next Tuesday at 11:30 a. m., Dr. Hinckley will address the students on the subject "What It Means To Be Collegiate." His talk follows that of Dr. Laub on college atmosphere given at the last assembly and will be both valuable and interesting to the university students, all of whom are expected to attend.

Baptist Students' Program

A program by the Baptist Student Union in the university is presented every Monday evening over station WDAE. These programs, under the direction of Lesley Sheppard and Marie Sanford, president and radio chairman respectively, are composed of sacred and inspirational talks.

Second Faculty Smoker Is Scheduled Tomorrow

The tutorial system of instruction and methods of advertising the university outside Florida will be discussed at the second faculty smoker to be held tomorrow night at 7:30 p. m., in the faculty parlor of the university.

Dr. G. G. Becknell, chairman for this meeting, has arranged a program including music by Mr. Ingray's faculty string trio. A buffet supper has been arranged by Mr. A. McCurdie.

POSSIBILITIES OF TAMPA AS TANNING CENTER ARE DISCUSSED IN INTERVIEW

Customs Official Outlines City's Advantages

The possibilities of Tampa as a center of the tanning industry were briefly outlined last week in an interview with a prominent official of the local United States Customs and Immigration bureau. The official, name withheld by federal law, was highly enthusiastic concerning this plan which he had had in mind many years, and while it is yet theory, he plans to have it scientifically investigated to ascertain its practical value.

The idea is based on the tannin, or tannic acid, content of the saw palmetto which grows in profusion about this section of the south, and the scheme to give a commercial value to a shrub which is now nothing but a pest and an obstacle to agriculture is startling in itself.

Tannin, or tannic acid, the essential of hide tanning, was originally procured from tan bark, the supply of which became so limited that its use was discontinued. Then great quantities of Quebracho wood, commonly known as iron wood, native of Argentina, were imported into the United States at enormous costs. Of late the acid has been removed and shipped in itself, materially reducing the outlay, but still requiring a higher rate than would be needed to obtain the product from saw palmetto.

Thousands of green hides are imported annually from the West Indies and the Latin Americas to be tanned, manufactured into leather goods and shipped back for retailing. The larger tanning cities are located around St. Louis, Philadelphia, and throughout New York state. There is not a single tanning factory in Florida. To reach these cities the costs of inland freight, processing taxes, etc., added to the original shipping rates raise the price of the finished product. One does not have to consider these facts long to realize the tremendous advantages of Tampa, the nearest principal port to the Latin Americas, and having in her back yard such a huge supply of the necessary tannin.

It only remains for scientific research to reveal whether or not the tannin can be procured from the saw palmetto cheaply enough to compete with the foreign product.

First Freshman Prom Enjoys Huge Success

The first freshman prom, held last Friday in the university ballroom, enjoyed a more than satisfactory success. The prom, first dance to be given entirely by the university without outside sponsorship, was attended by more than 200 students and guests. Players of both Tampa university and Oglethorpe football teams were guests of the class, with freshmen girls acting as hostesses. Manuel Sanchez and his orchestra, one of the south's most popular dance bands, provided music from 9 o'clock on.

The ballroom, hung with new draperies and decorations in university colors made an attractive setting. A gigantic "T" fashioned of colored balloons was released from the dome, and mingling with the other red, gold and black decorations and rat caps helped make the affair one of the most colorful of the season.

Faculty sponsors present were, President and Mrs. Spaulding, Dean and Mrs. Coulson, Dr. and Mrs. Hawkins and Mrs. Steele.

STETSON FAVORED HERE TOMORROW IN SPARTAN'S FIRST S. I. A. A. TILT; BOTH TEAMS PRIMED FOR BATTLE

PLAY ROLLINS

The Spartan eleven will play their second game away from home next Wednesday night when they journey to Orlando to encounter the Rollins Tars on Tinker field under the arc lights. There is no way of comparing the two teams except by records. Both played South Georgia State, Rollins downing them 30 to 0 and the Spartans rolling them over by only 13 to 0. The Tars lost their first game in two years when Miami university defeated them 18 to 0 last week.

This will be the last Spartan game before the important Miami game on Dec. 16.

Local Frat Will Give Dance Tomorrow Nite; Honor Stetson Players

Sigma Kappa Nu, local fraternity, will present a dance in the Legion Casino tomorrow night in honor of the members of the Stetson football team who will be admitted free. Dancing will be from 9 until 12 p. m., to music provided by Baldy Weir's orchestra.

Misses Ruth Kickliter, Martha Campbell and Edna Frances Prince have been elected to sponsor the affair.

The ballroom will be decorated in green and gold, the fraternity colors. This will be the first of a series of such functions to be given by Sigma Kappa Nu. The university faculty has been invited to act as chaperons.

Activities Committee Sets Requirements of Student Organization

The committee on student organizations and activities has ruled that fraternities and sororities must have a charter, stating the following provisions:

- (1) The members must abide by all the rules and regulations of the university.
- (2) A member must be at least a sophomore, as defined in the catalogue.

The committee also ruled that a list of "pledges" must be submitted to the committee, and that such names must be published in the official university paper after Oct. 1 of each year.

It is recommended that card games and other games be discouraged by the student council. This applies to the verandas and places adjacent to the building.

It is also recommended that no more dances be given in the university building until after the final semester exams. (Exception may yet be made for holiday dances.)

The committee further decided that a minimum of 10 charter members (approved) be necessary to the granting of a charter. Such students must be in good financial standing with the university.

Plan To Organize Teams In Wrestling and Boxing

In response to a letter received from E. T. Lindstrom, athletic instructor at Miami university, requesting a dual wrestling and boxing match with the University of Tampa, plans are being made to organize both teams.

Si Osgood will handle the conditioning, training and instruction of the wrestling team and states that he finds a wealth of material here. John Monardi, former Southern Conference bantam weight champ, will coach the boxing team. No definite plans have been made.

Higgins Says Stetson Two Touchdowns Stronger

RODRIGUEZ TO PLAY

Only Game This Week; Large Turnout Expected

The Stetson Hatter's varsity eleven arrives here this afternoon for their game with the University of Tampa Spartans on Plant field tomorrow. The Hatters are favored over the Spartans in what will be the Tampans' first taste of S. I. A. A. competition and perhaps the toughest game on their schedule. The Stetson team, showing great power in bowling over their previous opponents come here hoping to add the Spartan scalp to their belt and pointing for the Miami game next week. The Spartans, on the other hand, are determined to stop the Hatter cold, and they have the confidence to do it.

The 26 Stetson players, under the mentorship of Coach H. B. McQuillan, former Lakeland high school coach, are not taking this game any too lightly which is shown by the fact that their practices have been more than usually grueling this past week, and that they have scouted two of the Spartan games. Nine Stetson players were in the stands last Saturday when the Tampa crew defeated Oglethorpe 12 to 0, and after the game they predicted that they would take the Spartans by five touchdowns. News of this reached the ears of the Tampa players and naturally did not set well. Consequently the spirit is high among Coach Nash Higgins' charges and although Higgins himself is quoted as giving Stetson two touchdowns, the Spartans are going into the game with a confidence and determination that will be hard to down.

Every Stetson player has from one to three years of varsity play behind him, as compared to the 90 percent of the Spartan squad gaining their first year's experience. In comparative scores, which mean less than nothing, Stetson has the advantage. The Hatters romped over Southern Mocs 73 to 0, and over Bowdon by 26-0, while the Spartans gained 21-0, and 28-0 scores over the same teams.

The greatest Stetson asset is a great crop of halfbacks. The Spartan will have a defensive problem in stopping two of their fine red-headed backs, Red Petrie, and Red Elton, half and quarter respectively.

The center of the Hatter line seems to be the weak spot, if such it can be called. At any rate it is the weakest of the team. The teams weigh up just about even, with Higgins' eleven holding the slight edge.

Everything points to it being an offensive ball game. Both teams should show power and function against the other.

Higgins will make only two changes

(Continued on Page 3)

Change Chapel Time To Sunday Afternoon

The university chapel, previously held on Sunday mornings, will now be held on Sunday afternoons from 4:30 to 5:15 p. m., and will be known as vesper service.

The reason for the change is to induce students who were unable to attend the morning services to make their appearance at chapel. The new time interferes with no other religious services.

A choir, consisting of 10 girls and 10 boys who attend the university, will provide music. The talks, which are made by Chaplain Jones will be non-sectarian.

Mr. Jones said that later he is expecting some winter visitors to attend chapel, but that the services are primarily for the students.

More on Chapel

The excuses and alibis which students have been offering for not attending chapel are no longer valid, since services will hereafter be held on Sunday afternoons from 4:30 to 5:15. This time will not conflict with other church services; it is late enough so that those who stayed up late the night before will not have to cut short their sleep in order to attend; and the program provides a worth-while way to spend Sunday afternoons.

The chapel services are being held for the students, the talks are on subjects interesting and valuable to students, yet very few students attend. Perhaps the time of the meeting has had a great deal to do with their conspicuous absence, but now that the time is ideal there is no reason why that assembly room shouldn't be filled Sunday.

How about, it, students? Chaplain Jones is putting a good deal of effort into preparing those talks for you. Come Sunday, if for no other reason than that of gratitude; you'll come again because of the appeal his words will have for you.

THEN AND NOW

"One of the duties of the first professor at Rochester university was to chase cows off the campus" says a news dispatch. Following in this tradition, the men students at this co-educational school now spend considerable time chasing calves across the same hallowed ground.

Congratulations

We wish to congratulate the students on their conduct at the last dance. We don't know whether our editorial had any effect or not, but certainly a group of ladies and gentlemen appeared at that dance instead of the customary high-schoolish cut-ups. An atmosphere of dignity and reserve combined with cordiality pervaded the gathering, and the manner of dancing was above reproach. The music was of the type that appeals to college men and women.

We have only one criticism. When you frighten a person into attending a dance by making threats about the consequences of absence, you should certainly see that the person is aptly entertained and not almost overlooked.

EXPENSIVE CUTTING

University of Maryland students last year were fined three dollars for every unexcused absence from class. State universities would do well to follow this lead and tax students who, without good and sufficient reasons, stay away from lectures. Why should taxpayers pay good money to maintain classes for students who do not think enough of these classes to attend regularly? The least the indifferent student should be asked to do under the circumstances is to return to the school some of the money fruitlessly expended upon him.

From Worse to Worser

Objections to bridge have apparently been so strong that the addicts have retired to the bandshell to pursue their favorite occupation. They were even forced to make their own cards out of some old tickets because some ambitious soul hid their regular decks.

Some people may consider that good riddance, but the old proverb "from the frying pan to the fire" seems to hold good in this case—the band has now taken over the space previously occupied by the bridge players and fills the air with horribly discordant noises before it finally settles down to actual music. At least the bridge fiends were fairly quiet!

More on Football

Football may not be higher education in the strictly cultural sense, but it is he-man stuff, and we need a strong admixture of that in this age and generation.

Over in Europe the surplus energy is diverted largely to military purposes. Here it is football, baseball, basketball, hockey, boxing wrestling and similar pastimes. It is a comparatively safe outlet for our excess danger and enthusiasm.

There is a lot to be said in favor of training young men to hit the line without losing their temper; to get knocked down without whining; to see a chance for dirty play without taking advantage of it.

Education without athletics contains little to challenge the spirit of youth. It too often makes for a flabby mind in a flabby body.

Football forces its exponents to fight their own battles and stand on their own merits. That which young men and boys learn to do by themselves, and for themselves, is every bit as important to them as all that they learn from others.

Scientists say that large families are more apt to produce genius than small ones. In small families the children are likely to be sheltered and cared for to the point of repression, while in larger ones they have to shift for themselves.

Something in that, when you think it over.—"Nuggets."

Which?

If you have a well-developed sense of humor you will find the world full of absurdities. If you are a realist you will find it a world of cold, hard facts. If you are a money-maker you will find a world of opportunities. If you are a pessimist you will find it just a climb up a sand dune. And if you are a poet you will find it a realm of gold.

It is a fact of experience that truth lies among men like so many scattered particles of a precious stone. The search itself is important; to some it seems more vital than the reward.

First think life out for yourself to the best of your ability, and then go ahead on those principles you decide are greatest, toward those objects you decide are most worth while. In other words, first find your particle of Truth's brilliant stone, then build upon it, fight for it, and keep it unsullied.—Ediphone Voice-Writing.

The Panther Muezzin

By CARL OPP

After the Hurricane's Passage
Saturday the Panthers, still suffering from the effects of the battering received from the Clearwater "Purple Tornado," unsuccessfully tried to weather the onslaught of the Gainesville "Purple Hurricane." That was the third time this season that the Panthers have faced strong winds, and in this last, the culminating storm, they were toppled over in the first defeat of the year. By their 6-0 victory the Gainesville boys reduced Plant's chances of winning the Big Ten championship, but they did not ruin them altogether. The Panthers learned several valuable, though bitter, lessons as a result of the game and they are now girding themselves for the fray with Hillsborough and are resolved to vanquish their traditional enemy.

Senior A Activities

Armistice Day Program
Since the American Legion furnished no speaker for the Armistice day program this year the Plant students were obliged to make up their own program. The following members of the public speaking class addressed the assembly: Sara Moore, Roderick Harpe and Mary Martha Frazier.

Mr. Chester Humphries sang for the assembly and the boys' chorus rendered a selection from "II Trovatore."

The assembly was concluded by the singing of the "Star Spangled Banner." The students were directed to sing the first and the third stanzas of the national anthem, but when the third stanza was reached there was a sudden silence broken only by a low humming and a few scattered voices singing aloud. Later in the day some of the teachers wrote the unknown part on the boards and directed the students to set about learning it.

Preparations for the Big Game

The student council has been busy laying plans concerning the activities before and at the Thanksgiving day game with Hillsborough. Jean Lykes has been given charge of the arrangements for the big pep meeting which is to be held on the night of Tuesday, Nov. 28 at Plant. The plans have not been perfected yet but so far it has been announced that Ray Brown and Sol Fleischmann, members of the alumnus, would be speakers on the program. The father of some present or former member of the team will also speak.

Pyramid Ladder Tourney For Intramural Tennis

A Pyramid Ladder tournament, which will mean a perpetual playoff is planned for the intramural tennis department. This system gives each player a much wider chance, for unlike the regulation ladder tourney, where each man must challenge the one immediately above him, the pyramid ladder gives each player one above and three below, with continual changing of position.

The stronger players will be placed at the base to work their way upward in the pyramid by challenging, gradually sifting the weaker players down.

Advisory System Is Instituted Adviser, Student Groups Listed

A new advisory system, much like those already in operation in many of the better schools and colleges throughout the country, has been instituted here this week. The entire student body has been broken up into groups and a competent faculty adviser placed in charge of each.

The function of this system is to discover where a student is failing in his work and to aid him in repairing the difficulty before it is too late. It will be the duty of the faculty adviser to guide the student as far as possible into the branch of study for which he is best suited.

Advisers will be supplied a record of the grades of every student in his group. He will call students into conference when the need demands. Students may consult the adviser at any time they wish within the hours posted by him.

A list of names comprising each group, and its faculty adviser, follows:

Adviser: Dr. Hawkins

Stetson Favored Here Tomorrow

(Continued from Page 1)

in his starting line up. Newcomb will replace Carter at quarterback in the heaviest backfield, Carter being out with a leg injury. Rudy Rodriguez, injured in practice three weeks ago will be in the pony backfield today, and should add the much needed spark to the offense. King Kong Hurn will replace Gunnoe at guard.

The probable starting lineups will

be: For the Spartans, Hoy and Edson, ends; Lee and Muench, tackles; Hurn and Mastry, guards; Godwin, center; Newcomb, quarterback; White and Torres, halfbacks; and Whitlock, fullback.

For the Stetson Hatters: Paul and Henock, ends; Candill and Ingram, tackles; Diamond and Nelson, guards; Weaver, center; Elton, quarterback; Petrie and Shemer, halfbacks; and Lauton, fullback.

Character is what you have left when you have been stripped of everything else you can lose.

Oglethorpe Victim in Fourth Whitewash Win

Oglethorpe's Baby Petrels were the victims last Friday when the Spartans regained the winning habit with a 12 to 0 victory, their fourth whitewash win of the season. Coach Higgins' aggregation showed a considerably improved attack, but lacked the necessary scoring punch to bring the tally above two touchdowns. Many times during the wide open battle, they worked themselves well into enemy territory, but only twice did they avail themselves of the opportunities. Both attempts for extra point went awry.

The publicised "light, fast" backfield, composed of Chancey, O'Reilly, Newcomb and Hance were rushed into the game to push across the two scores after the heavier set of ball-carriers, White, Torres, Carter and Whitlock, had kept the Baby Petrels well bottled up in their own territory during the first period, but lacked the power to cross the final stripe.

The initial touchdown came early in the second quarter when a poor Oglethorpe punt gave the Spartans the ball on the Petrel's 46-yard line. Hance and O'Reilly, leading ground-gainers of the day, took turns with the ball with six tries and placed it on the 10-yard line. Then Marvin Chancey bounded prettily off left tackle for the score. O'Reilly's kick for point was wide.

Another O'Reilly-Hance march, starting from the 35-yard line where Chancey had intercepted pass, gave Higgins' eleven a first down on the Oglethorpe two-yard line. O'Reilly plunged twice to the 10-inch marker, but a bad pass from center rolled back to the 11 where Chancey recovered. On fourth down an impos-

"Oh, boy! I am full of those HEAVY PLATES and have a Genuine Hard Rubber Case that Yocam makes, and say, the kick is in me stronger than any mule you ever saw. The boys are sure pleased with me now. I simply can't miss when he steps on the button. Over she goes every time. It is great to feel good."

sible pass, Hance to Newcomb, finally put across the tally. Carr was back to kick for the point but Newcomb fumbled momentarily, then passed to Hance, the quick thinking attempt being batted down.

Both teams favored the air lines, 37 aerials being tried, with only 13 completed. The Spartans excelled tremendously in every department, especially in ground gained from scrimmage, with 195 yards gained to six for the Baby Petrels, and with 17 first downs against five.

Little Jack Puryear, 145-pound Petrel halfback, was easily the outstanding player of the game. His running back of punts, passing and punting gave Spartan followers many a scare. One of his kicks, from behind his own goal line, traveled 64 yards up the field.

O'Reilly shone in the Spartan backfield, with Munench again predominating in the line, along with Mastry and Godwin.

Panther Vs. Terrier Battle Thursday (Continued from Page 1)

is easily understandable. The Terriers galloped off with a 25 to 0 win over Clearwater, a little later gaining a close victory over Gainesville, then a scoreless tie with St. Pete's Green Devils, and eventually a loss to Plant City. In meeting these same teams the Panther aggregation was able to gather only 13 points over Clearwater, lost their tilt with Gainesville, and scored wins over both Plant City and St. Petersburg.

All of which totals a six to nothing advantage for the Terrier. But the comparing of scores is just so many mashed potatoes when the game begins, and the best method of choosing the victor is to flip a coin and forget to watch it.

Organize New Fraternity

A new local fraternity, Sigma Kappa Nu, has been recently organized among students at the university and plans to begin a series of active functions soon, the first being a dance tomorrow night. The members say that unity is lacking among the students and that they plan to bring them together in a spirit of amity by giving social functions.

Members and pledges of the fraternity have a luncheon every Wednesday at noon at a nearby restaurant. They expect to rush approximately 15 freshmen soon.

Those members who are students at the university are Marcus Hall, president, Miller Adams, Winston Fowler, Theodore Lesley, Bert McCollum, Marion Lee, Bill Moody, C. L. Craft, Jimmy Pollard, Jack King, John Flannery, Joe Scruggs and Joe Clawson. Dr. Metts is acting as adviser.

Child: God gives us our daily bread, doesn't He, mamma?
Mother: Yes, dear.
Child: And Santa Claus brings the presents?
Mother: Yes, dear.
Child: And the stork brings the babies?
Mother: Yes, dear.
Child: Then, tell me, mamma, just what is the use of having papa hang around?—Arizona Kitty-Kat.

CONCERNING THE SPARTANETTE

The Spartanettes played their last game of league volley ball competition Tuesday night on the Civic playground, losing the close contest to the Civic team by the scores of 8-15, 4-15, 15-9. Civic had previously been in a tie with Lee and the Spartanettes for the league championship, and by defeating the latter Civic became the undisputed City League champ.

The Spartanettes won three and lost five in the two rounds of play, which is not a bad record, for the girls had no practice previous to match play.

An intramural volley ball tourney will be held, and every girl wishing to play for her class is requested to sign up today on the sheet placed on the bulletin board for that purpose.

The girls' tennis eliminations have not progressed greatly this week. Freshman play is still in the quarterfinals, the sophs in the semi-finals, with Dot Pou having triumphed in the Junior play and awaiting the championship playoff next week.

Mr. Jack Dillon, tennis professional, began a series of three lectures, on the primary fundamentals of court play, to the girls' physical ed classes Tuesday. He gave another yesterday, and will complete the series next Tuesday.

Girls' basketball practice will start next week if a court is available. A basketball bulletin will be placed on the physical ed board at the desk in
