

State fair to hold free day

Special events at the 1970 Florida State Fair Feb. 3-14, in Tampa have been especially planned with the teenage and college crowd in mind, according to J. McK. Jeter, fair manager.

Jeter said free gate admission, entertainment, as well as the midway, should have special appeal to the "under 25" crowd.

Opening the 1970 gala at 10 a.m., Tuesday, Feb. 3, will be Gentle Ben, the large Wisconsin black bear which appeared in the television series of the same name.

On that day all visitors will be admitted free at the gate and to the afternoon grandstand show which the Egypt Shrine Temple will produce. This

is the first time a day of free gate admission has been generally offered by the fair. Admission hours will be 9 a.m.-10 p.m.

Two local groups will headline the grandstand show "The Live Ones Give the Beat" at 7 p.m., Wednesday, Feb. 4. "The Opposite Sexes" and "Chandler, Smith and Andrews," will perform mu-

sic heralding the sound of soul. Admission for the two-hour show is \$1.

A youth program featuring the Pennsylvania based "The Tijuana Brats" and the Hurricane Hell Drivers Thrill Show of cars has been slated for Monday, Feb. 9, preceeding the Gasparilla Parade in the grandstand and at 2 and 8 p.m., Tuesday,

Feb. 10, Children's Day. All students will be admitted free at the gate until 6 p.m. on this day.

Admission for the Gasparilla Day Parade grandstand events will run from \$1.50-\$3.00 and for "The Tijuana Brats" featured with the Hurricane Hell Drivers Thrill show of cars from \$.50-\$2.00 on Tuesday, Feb. 10.

S.G.A. plans expanded faculty evaluation

by Jan Cook
Assistant Editor

During final exams last semester, the first faculty evaluation was conducted at the University.

"It was a good comprehensive survey," commented Jim Bernhardt, Student Government president. Bernhardt guided the evaluation through Student Government to its realization.

The evaluation forms included questions about the grading and scope of the course. The forms were to be distributed by the professor during the final exam period, and the confidential results would be available to the instructor for his own enlightenment.

Many students reported that professors did not pass out the forms.

"Next year," Bernhardt stated, "we'd like to publish the results and take it out of the professors' hands entirely. It would be entirely a Student Government project. We'll need money to pay a staff," he added.

Bernhardt foresees such an evaluation as an aid to registering students. "Instead of relying on the opinions of a few fraternity brothers," he commented, "a student could buy the evaluation booklet and read a short evaluation. The professor would also be interviewed.

"This first evaluation was a step in the right di-

rection," Bernhardt concluded. "A few questions were too general but a minimum of changes will be made."

Blaess meets council, talks with governor

A recent meeting of the Governor's College Student Advisory Council, in Tallahassee, found University of Tampa's Donna Blaess serving as a member.

This council was set up by Florida's Governor Claude Kirk for debates, discussion, and brainstorming to ensure the needs and problems of all the state's colleges will be known and solved.

Art grants

Susan Croxall, West Hartford, Conn., and Eugene Heibner, St. Petersburg, have been named recipients of the Colony Shops of Florida Inc. Art Scholarship for the spring semester.

The two art majors will share the scholarship offered to art majors with potential each semester.

Recipients are selected by the art department faculty on the merit of their previous work.

Tailored slacks and pantsuits are now accepted classroom attire for women students according to a dress code change announced by Dean of Students, Charles West.

Less formal attire, such as shorts, blue-jeans and sweatshirts is acceptable on campus after 6:30 p.m.

Dean of Women, Marysol Johns, urged all students not to abuse the new code. "If this change should cause coeds to come to class poorly dressed," she stated, "the possibility of further revisions, such as allowing shorts during the summer session, would be defeated."

Both Dean West and Dean Johns expressed concern over the growing number of "shaggy" men students.

"After Christmas vacation, the men looked worse than ever," one official commented.

Specific criticism was leveled at "over-the-collar" length hair, bushy side burns and "Fu-man-chu" beards.

"Continued violation of the male dress code will end further revision negotiations," Dean West stated.

"We're not using 'Gestapo' tactics, West added. "Instead, we've met with many men and sought, through rational persuasion, to instill a sense of pride in their grooming."

"This should be a code we can all live with," concluded West, "and it is my belief that Tampa U. students will be responsive."

Conservation films will be free at Falk

Students are invited free of charge to the two remaining Audubon Wildlife Films sponsored by the Audubon Society and Tampa University. The films will be presented in the Falk Theatre.

Tuesday, Feb. 3, Eben McMillan will present "Land That I Love," exploring the complex community of wildlife that existed in America's West during pioneer settlements. Included in this community are the buffalo, antelope, coyote, moose and prairie dog.

William A. Anderson will explore a conservation problem closer to home in the Tuesday, Feb. 17 presentation of "Our nique Water Wilderness — The Everglades." Cypress swamp, the panther, crocodile, a spoonbill and snowy egret are now threatened by the invasion of man in this wilderness.

Both films begin at 8 p.m.

Editorials

Professors mar evaluation

As Student Government President Jim Bernhardt stated, the first faculty evaluation of last semester was a step in the right direction. The only flaw was the lack of co-operation by professors.

Many instructors did not distribute the forms, thereby not giving a pretense of considering student opinion.

Of course, there is no way of knowing how much real consideration participating professors gave the confidential results.

One legitimate criticism of the evaluation was its scheduling during final exam period. After taking the final, few students are interested in filling out a lengthy form, but selecting an appropriate time for evaluation will always be difficult.

In the future, the evaluation will be taken out of the hands of the professors and the results will be available to all students, creating a much more valuable project.

Code changes mark progress

The newly announced dress code revision allowing women to wear slacks to class is a major advancement for many students and administrators who have backed the change.

It follows last fall's revision in the male dress code permitting the wearing of sandals and making socks optional.

As with all negotiated settlements, concessions are necessary on all sides. It would be prudent not to abuse existing rules.

Both Dean Johns and Dean West have worked for the dress code revisions. They ask only that standing regulations not be violated.

Administrators have shown that they are willing to allow change in this area. Now students must demonstrate the maturity and self-restraint to abide by the rules.

Letter to the Editor

Fort Lauderdale welcomes students

Dear Students:

I would like to take this opportunity to welcome you to Ft. Lauderdale and sincerely hope that your stay will be a pleasant experience.

In order that neither you nor the City incur any unpleasantness, the following suggestions and policies have been instituted and will be adhered to unequivocally.

1. Do not come to Fort Lauderdale unless you definitely have a confirmed housing reservation. Our policies and ordinances prohibit sleeping in cars and/or sleeping in the open. Campers or trailers are not permitted to park on the beach. If this type vehicle is to be used as living quarters it must be parked in a trailer park specifically licensed for this purpose.

2. All the laws that govern the conduct of the individual will be enforced. A person must be 21 years of age in order to purchase or consume alcohol. Persons

guilty of intoxication, (it should be noted that drinking in the open is not permitted) narcotics use of false identification, or any other form of disorderly conduct and any other unlawful act will be arrested and prosecuted. Violations of the traffic code will result in apprehension and prosecution of the offender.

3. Parents and school officials of any and all students arrested during this period will be officially notified.

Students should be aware of the fact that persons who are arrested and convicted on any charge will have established a permanent, and sometimes criminal record against themselves which could have a detrimental influence later in life.

It is the feeling of the City Commission, this office and all of the City departments involved that if your conduct while in Fort Lauderdale follows your personal guidelines while on campus, your vacation will indeed be a pleasant and memorable experience.

R. H. BUBIER
City Manager

Establishment causes pollution of the mind

by Abe Solosko

Dozens of books and millions of words are written about the dangers of pollution in the air, our rivers and streams. It gets front page headlines. When the air becomes too polluted, our scientific mechanical engineers will come up with appropriate gas masks. When our wa-

Student opinion

ters become too polluted for drinking or bathing, our sanitation experts are sure to come up with some kind of chemical or filtering device to eliminate the hazards.

There is a more dangerous pollution — pollution of the minds of our youth caused by a revulsion against accepting our present standard of values. Our new generation has lost hope and has no confidence in a future dictated and controlled by the Military - Industrial Complex, and what they refer to as the "Establishment."

The young minds of our new generation cannot accept the permissive-

ness, hypocrisies and brutalities accepted by their elders. We preach Democracy and support Dictatorships, where losing candidates wind up in jail or in exile. We vote billions of dollars for foreign aid and welfare, and instead of food for the hungry, we send them armaments. It takes Congress a year to vote a 15% increase in Social Security for the most needy of our citizens, and our highest Government officials claim that it will endanger our economy, yet hundreds of millionaires don't even pay one cent of income tax through loopholes in our tax laws.

The turmoil on our campuses is a form of protest against insecurity due to Vietnam and a society that allows hunger in the midst of affluency. It is a protest against the religious leaders of our churches and temples who stand by in silence while a Priest who dares to speak out against hunger and injustice, winds up in jail.

There is no equal justice under our laws. Our youth would have more respect for law and order and a better sense of values if a rich man or a criminal with proper connections who commits premeditated murder were

not allowed to go free on a technicality, and a poor man who steals a loaf of bread would not wind up rotting in jail.

Rebellion of our youth is the result of their frustrations, and to show their resentment they turn to drugs and protests, not for any pleasure it may give them, but to sort of "get even" with an environment they cannot absorb.

After World War II, we gave the new generation a hope for a peaceful world by creating the United Nations, and all we have had ever since is continued wars, both hot and cold.

Don't blame or sell the new generation short. They are much more intelligent, informed, and more sensitive to social injustice than we ever were at their ages, and when they rebel and protest, they have a good reason for it. The term "square" our youngsters use so often, has become a part of our language and it is really another word for hypocrisy.

It may be very true, as some apologists state, that at the present time only one percent of our youth are the actual trouble-

makers, only ten percent are dissidents and the rest are okay. Let us not become complacent by the use of the percentage game. I would suggest that you look up the word "contagious" in the dictionary.

The most dreaded disease that mankind suffers

from today is cancer. Medical science will certify that cancer starts with one tiny cell, but it has a power to spread, that medical science has not yet been able to control. Pollution of the minds of our youngsters is comparable to the dangers of a cancer.

LITTLE MAN ON CAMPUS

"COLLEGE IS FORCING HIM TO MAKE CRITICAL DECISIONS: IF HE DRIVES TO THE OTHER SIDE OF THE CAMPUS TO MAKE IT TO CLASS ON TIME — HE LOSES HIS PARKING PLACE."

Draft lottery may be invalid, Wisconsin judge to decide

(CIB) — December 1, 1969. To borrow a phrase from Franklin D. Roosevelt, that date could be considered a "Day of Infamy" for millions of American men of this generation.

On that night, there were many sighs of relief mingled with the groans of the not-so-fortunate.

But now there are indications those sighs of relief may possibly have been premature. With the

January draft call, the national Selective Service System released a guideline to local boards not to exceed the first 30 numbers in the lottery, and many states responded that it was questionable that even 30 numbers would fill their quotas.

If this pattern should hold throughout the year, then it appears no "safe" numbers were drawn in the lottery.

On top of that, there

is now a chance, however slight, that the entire December 1 ordeal may have to be repeated.

District Judge James Doyle of Madison, Wis., has refused to dismiss a legal challenge to the lottery made by David S. Stodlosky, a graduate student at the university of Wisconsin.

Doyle pointed out that while the average of numbers for any month should

be 183, the average for the first six months of the year are all higher than 183, while those of the last six months are all below it.

"I find there is a substantial discrepancy between a perfect selection on the one hand and the selection which resulted from the December 1 drawing on the other," Doyle said.

One clear result of all this is that, lottery or no, the draft still poses a major problem for America's young men.

Students to help deprived

University of Tampa students are asked to help the deprived children of Tampa. There is no cost involved and transportation will be provided. Students are asked to spend one hour a week with a deprived child. There is no obligation to the student just as long as he spends an hour a week with his child. The student may do anything he wants walk around, go for a coke, anything to brighten the existence of the deprived. Applications and information are available in the Student Center Office. Please Care!

Rotary Club sponsors Thailand student at University

Samkwan Panomkwan, the Rotary Club sponsored foreign student from Thailand is attending the University of Tampa this year as a special student. He is a special student in that he is only taking courses at Tampa in which he is interested.

Panomkwan has already earned his Bachelor of Science degree in political science while attending Chulalongkorn University in Bangkok.

Chulalongkorn is one of seven universities located throughout Thailand. Most of them are government owned schools. None are privately owned. Sam feels though that in the future, Thailand will incorporate some privately owned schools. There are also technical and vocational schools.

Education is compulsory in Thailand between the ages of 8 and 15. The university in which Sam attended was named after the son of King Mongkut. Sam later intends to go back to Thailand and work in a government office with hopes of eventually getting into business with some type of private firm. But first, he would like to work for his masters degree either in the United States or back in his home country.

When asked about the

sports at the University of Tampa he said, "I like football very much but I'm not sure about baseball, I haven't seen that yet." Sam enjoys all sports and is an enthusiastic fan but since he has been kept pretty busy so far this year he has not had the chance to witness very many of the sporting events we have here in America.

"In Thailand" Sam said, "we have soccer and rugby which is much like football in America." These sports were inherited from Great Britain. Great Britain has also influenced the government for Thailand acts under a parliament and incorpo-

rates a prime minister.

Sam is also an avid fan of American food. He enjoys most American dishes but could not name one specific meal that he would label his favorite. He says, "the food in America does fill me up and is very good."

Sam added his views on the student demonstrations in America, "the students in America are very free people, they want to have their opinions heard. I see nothing wrong with the demonstrations going on as long as they are orderly because they have the right to voice their opinions, it says so in the Constitution."

Moroccan seeks queen

The 1969-70 Moroccan Queen contest will be held Feb. 5 at 8 p.m. in the Student Center. All applications must be turned in to the Moroccan mail box 47 no later than 4 p.m. Feb. 3. Each contestant must have attended the university for one year and be in good academic and social standing.

Contestants will be judged on beauty, contributions to the University, activities, personality, general poise, school and formal attire.

There is a \$10.00 fee with each application. Those still wishing to join may pick up an application in the Moroccan office on the fourth floor of Plant Hall.

183 students graduate

More than 183 University of Tampa seniors received degrees at mid-winter exercises. Baccalaureate services for the seniors were held at 11 a.m. at Falk Memorial Theatre. Commencement exercises began at 3 p.m. in McKay Auditorium.

Rabbi Frank N. Sundheim, M.A.H.L., of Congregation Schaarai Zedek and lecturer in religion at the University, delivered the baccalaureate sermon entitled "The Gates of the Forest."

Rabbi David L. Zie-lonka, chairman of the religion department, gave the invocation.

Freaks plan festival

NEW YORK (CPS) —

With rock festivals now becoming old hat, some Manhattan leather good freaks have decided to try something a little different.

They have rented themselves an ocean liner, the Queen Anna Maria, and are planning an ocean going rock festival for the end of March, when many schools are having spring vacation.

The ocean liner will take 1,000 ticket holders from New York City to Bermuda (and back) with three days on the island. The day and a half trip each way will be filled with music and light shows.

Richard Groff, a leather company owner, came up with the idea for the sea rock festival.

The cost of the six-day venture, from March 20-26, will run between \$210 and \$300 per person. Sleeping accommodations on the ship for the entire week will be included in the price, as well as meals during the cruise.

As Groff says, "We'll be out past the three mile limit . . ." where U.S. law does not apply.

Michigan student burns in fraternity initiation

(Mich. St. U. "State News," CIB) — A former Michigan State University student who allegedly suffered burns while being initiated into Sigma Alpha Epsilon fraternity has filed a suit to collect \$150,000 in damages from the local, state and national chapters of the fraternities.

The suit claims Joseph A. Bonus of Detroit had to discontinue studies at MSU because of the burns he suffered in January, 1967.

A spokesman for the University said that as far as could be determined at that time, there was no evidence that the whole thing had been "anything but accidental."

After the incident, MSU's chapter of SAE was placed on strict disciplinary probation for one

A total of \$8,545 has been awarded in academic scholarships to students for the spring semester at the University of Tampa.

The 11 Tampa student recipients are Barbara Kanaszka, Anne Wright, Mary Ellen Bowen, Mary George, Betty Valdes, Bonnie Flynn, Kenneth Nichols, Douglas DuMont, Georgia Galvin, Raul Garcia and Frank Hood. Patricia Ann O'Farrell of St. Petersburg also received a scholarship.

Scholarships are awarded on the basis of scholastic achievement and availability of funds.

★ ★ ★

Dr. Duane Locke, associate professor of English at the University of Tampa, recently won second prize in the DeKalb Literary Arts Journal Fourth Annual Literary Contest, sponsored by DeKalb College, Clarkston, Ga.

Dr. Locke received the award for his poem entitled "Orpheus Outside His Cave a Few Minutes Before the Maenads Tore Him Apart." There were 3,000 entries in the contest from the United States and foreign countries.

★ ★ ★

The Tampa Audubon Society, in cooperation with the National Audubon Society, will present four motion pictures in January and February at Falk Theatre at the University of Tampa. Admission will be \$5 for season tickets or \$1.50 for single tickets.

★ ★ ★

The University of Tampa has received a \$25,000 grant from the Charles A. Frueauff Foundation Inc. to be used toward renovation and refurbishing a science laboratory, according to President David M. Delo.

Physics majors and students in a new general science course for nonscience majors will use the laboratory primarily, as well as students in pre-medical and medical technology fields and allied health programs. Dr. Delo said the laboratory will be able to accommodate 500 students per week.

Scholarship available to journalism students

ST. PETERSBURG — Students wishing to apply for the Celebrity Scholarship given by the Florida West Coast Chapter of Theta Sigma Phi, professional society for women in journalism, have until February 20 to send in their forms. Mrs. Betty Orsini, chairman, has announced.

The purpose of the scholarship to interest capable young people in entering the communications and journalism field.

Persons applying for the contest must be high school seniors or beyond and must reside in Pinellas, Hillsborough, Sarasota, Manatee and Polk Counties. The competition is open to women and men interested in making journalism and communications a career.

Persons wishing application forms or additional information may write Mrs. Orsini at 501 79th St. S., St. Petersburg.

year by the Intra-Fraternity Council.

The president of SAE at that time said Bonus "had been burned accidentally during a relay race when a towel containing a chemical varnish stripper was placed on his neck to prevent him from seeing his pledge brothers."

Bonus' suit claims fraternity members were advised not to put salve on the burns, but did so anyhow.

Rebirth of religion at Tampa's Falk

By Barry R. Lydon
Staff Writer

On Wednesday, January 21, there was one of the greatest attempts in recent years to bring back the idea of religion.

Last week was Religious Emphasis Week at Tampa University. Wednesday evening, there was a convocation in Falk Theatre for T.U. students and other interested residents of Tampa.

The Spurrllows', a gospel singing group made up of 21 people, tried to bring about an awakening of the fact that there still is religion in the world. To the 500-600 people that attended, it was more than an awakening, it was a rebirth of religion.

Although the subject of religion is ancient, their show was modern. Their act composed of a little humor, projection of slides on screens behind them, modern dance, and other techniques used today by modern rock groups, except for one thing — their message was of Christ and not of soul.

This gathering of religious people, sad to say, were mostly middle-aged. It is evident from this per-

formance that religion is mostly for the older generation, and it is more evident by the lack of response of T.U. students at this performance. Granted that T.U. students may not have dug what was being said but they certainly would have dug the way it was being sung. And who can argue with the sentiment expressing in this song:

Student opinion

"To love you have to be free

To be free you have to give

And to give you have to Love!

This in summary is what was said at The Spurrllow's Concert. A free evening on insight was rejected by many because the word religion was up on the sign above Falk Theatre.

But when we say love one another, or love, or peace, aren't we really saying religion?

18 Sign up

Last week 18 girls signed up for rush in Plant Lobby. The four national sororities on campus will submit their bids to the Dean of Women's office this week. To be eligible for Rush, girls must have an overall C average and have completed 12 hours at the University.

Rush parties for the sororities were Jan. 29, 30, 31, and Feb. 1. Girls will pick up their bids in the Dean of Women's office Feb. 2.

come as Semester War II has begun.

The girls of ASA with the help of Ethel and Ellen, our national representatives, are busily preparing for the spring formal rush party tomorrow night. We want to wish the other sororities much success in their rush program.

Plans are under way for the second annual Alpha Sigma Alpha bowling tournament in March. All sororities will be extended formal invitations to join early next month. The proceeds of this tournament will go to the MacDonald Training Center for the retarded.

Hey, Chris, what was that again about how you celebrated your 21st birthday? A warning to all who drive on the highways, watch out for Peggy and her new car.

Kathy Roy

Theta Chi

Parties will be the theme of the new administration of Epsilon Zeta Chapter this spring. Ken McKenzie heads the fraternity in his newly elected presidential slot. Ken, a resident of Connecticut, is duly experienced in guerrilla warfare and the conduction of orderly gatherings. He can only be described as a "gentleman."

The vice presidential position has been taken over by Jeff Onore. The brothers were in agreement that Jeff not only had the capabilities, but also the experience to carry out the duties of V. P., for this will be his one-millionth position at the University.

Gary Christy was named the new secretary. Our only hope is that he doesn't take the minutes on his basketball.

Probably everyone would admit that the job of treasurer is one of the most difficult in any organization. We were looking for someone who had a way with figures

and above all someone who was strong enough to absorb the rocks and bricks aimed at his each meeting. We feel we did the right thing electing "rock-man" Bart Travaglio.

The coming semester looks like one of the best for Theta Chi, and we sincerely wish the same for you.

Tau Kappa Epsilon

TKE welcomes all new and returning students back for the spring semester. The fraters would like to thank Dean Benton and the I.F.C. for liberalizing the rules concerned with drinking in the fraternity house.

Congratulations to the new initiates: Phil Fauerbach, Ron Copher, Ron Valle, Wally Jones, Henry Uihlein, Jake Slater, and Bob Dooley. Congratulations are also extended to the new officers: Scott Miller, Vice-President; Linn Carleton, Chaplain; Bill Neumann, Historian; Jim McKenna, Pledge Trainer; and Bruce Crim, Sergeant at Arms.

The Tekes are holding a car wash on Saturday, January 31, at Steve's Standard Station.

Parties will be the main theme of activities with the fraters this semester. This Saturday will be "Mini Night" at the TKE house. A "50's" party is scheduled for February 14.

At the last meeting, the Tekes were faced with a dilemma. A choice had to be made between staying for Gasparilla Day or journeying to New Orleans for the Mardi Gras festivities. Sorry Jose!

Miscellaneous. Is Foley's new motto, "Support Your Local Sheriff?" Does Conti really sleep sounder under the stars? Does Sverdlow use splints, Is "Shot in the Dark," Raisin's favorite book?

Rules to regulate parking during fair

In order to relieve the busy parking situation during the 10-day period of the State Fair, the following rules will be in effect:

1. No parking space on Campus will be sold to the public during the school week, Monday through Friday until 8:00 P.M.
2. Available parking space will be sold to the public Friday evening, all day Saturday and Sunday.
3. Students living in dorms and University personnel, with parking permits, will not be charged for Fair weekend parking, but will use space reserved for them by the Campus police and attendants. The same policy will apply Gasparilla Day.
4. Students who normally park on the public streets and do not have a Campus sticker may apply at the Personnel Office, Room 263, for a temporary permit to park on Campus for the 10-day period, i.e. the school weeks but not including the week-ends.
5. The Delo Hall parking lot will be reserved for parking for students with permits on Gasparilla Day on a "first come, first serve" basis due to the lack of space.

STUDENTS AND MEMBERS OF THE FACULTY AND STAFF ARE REQUESTED TO CO-OPERATE DURING FAIR WEEK. ONLY A CERTAIN NUMBER OF CARS CAN BE ACCOMMODATED AND, THEREFORE, IT IS IMPORTANT FOR ALL TO ABIDE BY THE RULES AND REGULATIONS WHICH GOVERN OUR CAMPUS PARKING.

New academic policy causes dismissal of 132

By Barry R. Lydon
Staff Writer

The new academic policy of the school was put into effect for the first time during the Christmas vacation. As a result 132 students were academically dismissed. This new policy requires each student to maintain a somewhat higher academic average than previously needed.

The university is attempting to establish a better academic atmosphere.

Utilizing the new policy, the university is weeding out the students who are here mostly for an extended vacation. However, the

university is not trying to get rid of serious, motivated students. Seventy-two students are presently continuing at Tampa in a state of academic dismissal; that is, these students did not maintain the required average but were close enough to warrant an additional semester to achieve the average.

Each of the 203 cases were handled individually. Dr. Grutzmacher, Vice-President for Academic Affairs, pointed out that our school is small enough to give special consideration to each case.

All possible means of determining each case were used; this included resorting back to the

student's test scores and high school grades in some instances, as well as considering personal problems that might have affected the student.

Since last spring 325 T.U. students have been counseled out of the school. This was done as a service to the student.

This counseling was the beginning of the new system. Dr. Grutzmacher explained the new system in detail. Those students who were down six quality points or less and who were approved by the academic committee were allowed to continue under close supervision.

The remaining 90 students were placed into two categories: those who had 60 or more hours, and who wished to continue their education and were acceptable to other colleges, were placed in schools who had special rehabilitation courses. Students, who had less than 60 hours, were counseled to go to Junior Colleges. Dr. Grutzmacher's office helped place 24 of these students.

Each student who was dismissed is eligible to re-apply to summer school; these students should apply directly to Dr. Grutzmacher's office, where their cases will be reviewed again. If they are accepted, they will be given a chance during the two semester summer school to get in good standing with the university.

Every effort was made by Dr. Grutzmacher, Dean West, Dean Benton, Dean Johns, and Dr. Dunn to help each one of these 132 students who were dismissed. The biggest problem for each of these students, Dr. Grutzmacher said was realizing the extent of the problem and facing the fact of dismissal. After that the student, his parents, and the school could decide what was best for the student.

This is the first year for this policy, and the administration is paying close attention to its effectiveness to see whether they will continue with the present policy. Dr. Grutzmacher feels that so far this is a fair policy, in that if these 132 students were allowed to continue then they would only be putting off the inevitable.

**If you don't like the way people talk to each other,
we'll pay you to change it.**

We're in the communications business.

And during the next 30 years we're going to upgrade all the equipment we now have in order to provide even better service to our 6 million existing customers.

As if that weren't enough we're also going to have to come up with enough new equipment to provide telephone service to about 26 million more people. As well as equipment for a much more extensive data communications program.

We need enough people (electrical, civil, mechanical and industrial engineers, designers, accountants and economists) to plan, design, build and operate a company that will be four times bigger than we are today. We also need engineers, researchers and scientists to develop electronic switching equipment, laser and other communications systems we'll be using 10, 25 and 50 years from now.

But this is only one part of our communications business.

Our Sylvania people, for example, are involved in other types of communications. Like color television sets, satellite tracking stations and educational television systems.

Automatic Electric, Lenkurt, Ultronic Systems and some of our other companies, subsidiaries and divisions are working on advanced types of integrated circuitry, electro-opticals and communications systems between people and computers and between computers and computers.

So if you think you have something to say about the way people talk to each other... we're ready to listen.

Some office jobs are more interesting than others.

In the old days if a man wanted to be an executive and craved adventure too, he could skipper a clipper ship.

Today...the clippers are gone... but the supersonics are here. And swashbuckling executives still get their chance.

That's maybe a million bucks worth of plane. And when you fly it the responsibility's all yours.

If you'd like to mull that over every time you bank

or roll at 1,400+ mph, try for Officer Training School after you graduate from college. Also, remember the nice idea of yourself, an Air Force pilot, captain of all you command, getting to visit foreign ports like the clipper captain of yore.

An Air Force officer's life is a great life!

Why just be skipper of a desk?

Problems still plague Tampa pool opening

By Barry R. Lydon
Staff Writer

Branch answers McCalls

A response by a University of Tampa student to a McCall's Magazine query on "What Is The Good Life?" is published in the January issue of the woman's publication.

Miss Dorothy Branch, whose answer is carried on page 94, was one of 20 students at the University who answered the inquiry in October.

In the article, "The Good Life-How do 10, 15, and 20-Year-Olds See it?", Miss Branch defined the Good Life as a world where there was no malice, hate and prejudice.

Written by Sylvie Reice, youth editor, the story said "Twenty-year-olds have a ruthlessly clear vision of our society today, its materialist lures, its racial and social injustices, as well as its greatness and even greater potential."

Miss Branch's full answer said:

"The Good Life will be when there is a world without malice, hate and prejudice - and in every city we can raise our heads and hear freedom ring. This can only happen when white America can see and understand that the black society does not want to be white and that when we say let freedom ring we mean the freedom to be black, red, yellow or white living together in a free society. This world would be an awfully dull place if everyone wore the same color, had the same dreams, the same ideas and wore the same green hat. We'll continue to hum our slave songs, sing our spirituals and smile when we're unhappy, but never again will we be the oppressed black people we once were."

Miss Branch, recently named the first Negro to the University's Homecoming Court, is a dean's list student, a speech major and has been recipient of the Blanche Yurka Speech Award for the best speech by a student on the Spartan campus.

(Continued on page 8)

The new pool is almost set to go, except for a few minor problems: The heater has not yet been turned on, and the street adjacent to the pool is presently under construction and the dust from the road is clogging the filters.

Outside of these few minor technicalities, mother nature is just not willing to behave herself and let the T. U. students go for a dunk on a warm day.

According to Dr. Adams, as soon as the temperature climbs above 70, the pool will be open days to the students. And if it stays warm then it will be open nights. Posters will be placed around the lobby notifying the students on the exact days.

The pool is of standard size (25 yards-6 lanes).

It is equipped with a high and a low diving board. The standard size pool is used by most schools for swim meets and will be used for the first time for the inter-mural swim meet to be held later in the semester. Dr. Adams is hopeful that in the near future Athletic Director Sam Bailey will form a T. U. swimming team.

Students are admitted to the pool if they present their ID card. Students will be allowed to bring with them 2 guests, but are asked not to abuse this privilege or else this policy will have to be discontinued.

This pool is the gift of two graduated classes and is for use by the students only. Faculty and other university personnel are not permitted in the pool unless they are guests of the students or make a reservation with the physical education department.

Dr. Adams is asking donations from the faculty or any other campus organization for lawn or patio furniture, whether new or used or in need of repair.

At present there are no refreshments available at the pool, however, any organization wishing to have a barbecue, picnic, ect. may make arrangements with Mr. Lovely in the Student Center.

Students using the pool are reminded of the dress code concerning bathing apparel as stated on page 81 in the student handbook. Students are requested to wear something over their bathing suits going and returning from the pool. Students are also reminded to obey all orders given by the lifeguards. Repeated warnings from the guard will result in losing your pool privileges.

Pollution Kills

Fish have to swim and birds gotta fly but now they don't last long if they try

Every minute of every day, the dangers of pollution increases as it continues, it's assaults on land, water, air and ears. Man has always been a messy animal from the time of the Romans to the 20th century. It is through mankind's carelessness that our land, lakes, animals and man himself are dying.

Just what lies between "from Sea to Shining Sea?" According to Senator Gaylord Nelson, a firm believer in anti-pollu-

tion, he states that "Progress — American Style — adds up each year to 200 million tons of smoke and fumes, 7 million junked cars, 20 million tons of paper, 48 billion cans and 28 billion bottles." With those figures in mind, man is practically swallowed in an atmosphere of cans, cars and a population of 206 million people.

Also in the path of man's destruction are the waterways. Our rivers, lakes, and seas are being used for sewage drainage,

dumping of trash, chemicals and even for swimming. Tampa's most beautiful river, the Hillsborough River, a main source of drinking water, is slowly being polluted with some escape of sewage discharge and the dumping of people's trash.

The air is man's next victim, the most costly price is paid for this neglect as the lung disease emphysema has become the fastest growing cause of death. The air filled with carbon monoxide,

sulphur oxides, hydrocarbons, nitrogen oxides and particles of lead, has increased the number of cases of asthma, bronchitis, lung cancer and emphysema.

This world which has always been noisy has become even more so with rock and roll blasting away, buses and cars on the highways, construction of buildings, and airplanes flying overhead. Scientists have found that a rumble of a truck piercing the 85 decibel level, the safe level of sound, can cause dam-

age to the ear. Thus the ears are man's fourth victim of destruction.

The American college students have presently begun a program of anti-pollution with the same degree of excitement that they had brought for the civil rights campaign and the anti-war movement. But the students need help from all mankind to carry on a battle to reverse the trend of man's destruction. So let's make this the land of the free — free air, land, water and of noise.

Branch answers McCalls

(Continued from page 7)

Miss Branch's reply with the answers of 19 other students were forwarded to McCall's by Mrs. Lisa Gorham, who was then director of the news bureau and assistant director of public relations.

Mrs. Gorham said she was contacted by Miss Reice and asked to get students to respond to the question. Students in Mrs. Gorham's journalism class, and English classes taught by William Culver, instructor, and Dr. J. Duane Locke, associate professor, replied to the query.

"Miss Reice instructed us to ask students reflecting every segment of campus life to respond, and they did," Mrs. Gorham said, "regardless of philosophy, interests, religion or race."

Student replies from only four other colleges were run.

Students: summer employment with leading British Hotels. Charter flights from \$172.00 New York-London-New York.

STATE WESTLING CHAMPIONS—1964, '65, '66
Bob Lovely, Coach

1960 to 1970; A decade of success

By Larry Kutney

The past 10 years from 1960 to 1970 have brought the University of Tampa from a "Who?" school to the ranks of a major small college independent.

The early years of the '60's found Marcelino Huerta, Jr. head football coach. In 1960 the Spartans played the powers of the south. UT lost horribly the Tennessee 62-7 although Spartan back Charlie McCullers did run 88 yards for the TD, that's the longest run ever against a Tennessee defense. The Spartans finished 2-7-1 and scoring only 88 points for the season.

In 1960 the University of Tampa baseball team placed one player, Bill Rouse on the All State team. Crew under coach Bill Stalnaker found itself competing with major colleges, while basketball coached by Bob Lavoy played an expanded schedule of 27 games.

1962 saw the Spartans play an easier schedule and ending with an 8-1 record, but real growth was still a few years away and the question was yet to come.

The next three years found the Spartans winning only 11 games, and the football program was in a serious situation. A decision had to be made whether to keep football or disband.

But even while football was in question other sports took up the slack. In 1963 the UT wrestling team under Bob Lovely, now Student Center Director, captured the Florida Collegiate Wrestling Championship. '64 produced an All American Basketball Player as George Shary was awarded the honor at one of the guard positions.

In 1965 the decision was made for football. So un-

der the second year of head Coach Sam Bailey, an upgrading program was begun. The team finished 6-2-1 with a win over then tough U. of Maine, and back John Perry was named Little-All American.

The wrestling team finished with another winning season, while baseball and the water skiing program continued with expansion as teams such as Tulsa, Houston and North Texas State were on the schedule.

The 1967-68 basketball season was the best in 21 years. The Spartans finished with a 15-7 record and finished as the Florida Intercollegiate Champions.

Football had now established itself as the sport at the University of Tampa, and Tampa Stadium would keep it that way. In order to expand its program, to be able to play major colleges, and it be financially successful UT needed such a place.

The following year a new era began as Fran Curci became Head Football Coach. The Spartans finished 7-3 defeating such teams as Tulane, Mississippi State and East Carolina.

Basketball under Coach Dana Kirk continued to have winning seasons, but the University needed money thus other sports suffered, even though major colleges were scheduled.

In 1969 the Spartan football team finished with an 8-2 mark as major college attention was now being paid the University.

The '70's are now here and so is the University of Tampa. Football is now on its own and plans are in the making for expansion in all other sports. The

(Continued on page 10)

Baseball team begins spring practice

The University of Tampa baseball team has begun practice under the helm of new head coach Dan Sikes. Sikes is a former University of Tampa football and baseball player.

The Spartans return with 9 starters from last season's 15-9 squad. Carl Cavanaugh, the flame throwing right hander, returns to try and improve his 11-2 record. Cavanaugh is one of the most sought after college players in the south by the major league teams. Wah Jones, the other returning mound ace, had injury problems last season, but should be in good condition by the start of the season.

Led by shortstop Billy Atkins, last season's leading hitter .323, the entire infield returns. Ray Roderick who batted .305 last year returns at second. Roderick has been named this season's team captain. Completing the infield are Jerry "Blurr" Margolis .295 at first and Leo Oshinski .289 at third.

Last season's power hitting catcher Scott Cushing returns behind the plate. Chuck "wounded wing" Conti is the only returner from the outfield. Conti batted a solid .310 last season and was the home run leader with three.

Two bright additions thus far in practice have been Dennis Mence and

Ken Nunez. Mence, a transfer from Miami Dade, is an outstanding fielder and good hitter and should land a starting position. Nunez, a local high school graduate, is a right handed hurler and will help in the pitching rotation.

The baseball season opens on March 2 at home against Union College. Athletic Director Sam Bailey said that the Spartans will again play at the Florida State Fair grounds and that immediately after the Fair, renovations will be made for the playing field.

Tampa faces teams this season such as University of Georgia, Vanderbilt, Holy Cross, Buffalo and Harvard.

Spartan Sports
by LARRY KUTNEY

Welcome to a new year and a new decade of Sports at the University of Tampa.

I hope that you all watched the American Bowl game from Tampa over the holidays. The U of Tampa was well represented as Steve Starnes and Dick Nittinger impressed many pro scouts. All American quarterback Jim Del Gaizo had a little trouble but all three played as real stars. Starnes also played in the North-South Shrine game in Miami.

Here's a little bit of information for those that watched all the post season games. Nick Kerbawy, a former Detroit Lions executive, has recently completed a survey by clocking 12 football games and found that the ball is in play an average of 13 minutes, 20.1 seconds per 60-minute game. In other sports such as hockey and basketball the ball is in play during the entire game. Kerbawy plans to clock a few baseball games.

How many have been out to see the Spartan cagers? The Spartans captured the Sunshine Basketball tournament with victories over West Chester and East Carolina. For those who like fast, hard playing basketball, see the Spartans at Howell Gym. Student support is the backbone of a winning team and the field house should be filled for every game. Let's try at least one time during the season. All games are free, just show your ID.

Has anyone seen assistant football coach Charlie Bailey recently? If you do be sure to ask about that cast on his hand.

Everyone is sorry to see Coach George MacIntyre leave for Clemson; he did a fine job while on the Tampa staff.

Has everyone heard of the game with the University of Miami on Oct. 17. The game would fill Tampa Stadium if held here.

Rocky Marciano won the computer decision as the All-Time heavyweight champ. Marciano after being battered early rallied to knock out Cassius Clay, "Muhammad Ali," in the 13th round in the computer decision fight between the two undefeated heavyweight champs. Many writers felt that the "Rock" would have stopped Clay earlier in the fight.

The U of Tampa golf team opens up it's season on Feb. 2 with a tri-meet including USF and Rollins College.

Due to the time factor in the printing of the Minaret it is impossible to have up to the minute coverage on many sports events, but Bob Smith of the Tampa Tribune and Ed Gamble of the Times cover all sports events at the University.

Come to the Basketball game Saturday night, tip off is at 8 P.M.

Anyone interested in writing Sports for the Minaret please contact Larry Kutney at the TKE House, 251-9962.

Intramural features basketball

Due to the success of last semester's football jamboree, Intramural Director Coach Charles Kutrumbus is planning a basketball tournament of the same sort. The games will last for ten minutes with running time, games are expected to begin shortly after the State Fair.

The Intramural football

Letters to the editor must be signed, but the name of the author will be withheld on request. Letters should not exceed 300 words.

T. U. Hoopsters in hot streak

The University of Tampa cagers have been playing hot and cold all season, but recently the Spartans have been ripping up the courts.

During the Christmas holidays the caers captured the Sunshine Holiday Tournament with victories over West Chester State of Pa. 92-73 and East Carolina 89-78.

The Spartans hit the century mark for the first time since early last season as Tampa knocked off Boston University 109-96. John Napier led all scorers with 36 points, while Pat Biber pumped in 21 and Lester Henley hit for 20.

Tampa found trouble awaiting in Valdosta, Ga. as the Spartans lost 86-72. Little All American John Napier was held to 15 points, and Pat Biber, who had been averaging 16 per game, could only manage one point from the foul line. Chip Nelson picked up some of the scoring slack with 28 points but it was not enough as the Spartans fell to defeat.

The Spartans returned home to win a real thriller 82-81 as 6-8 junior Frank Robinson hit two foul shots with no time remaining on the clock as the cagers defeated Georgetown College.

Tampa had little trouble in handling Baptist College of Charlestown, S.C. 80-65. The Spartans built an early half time lead 45-27 and then coasted to the victory. Pat Biber was leading scorer with 24 points.

The Spartans again found trouble on an away court, as the Stetson Haters handed the Spartans 101-78 trouncing. This was the first time in over two years that 100 points had been scored against a Spartan team. John Napier led the UT scorers with 19 points.

The Spartans then lost their first home game 90-81 to August State. Chip Nelson led the Tampa scoring with 24 points.

Tampa bounced back the following game to crush Florida Presbyterian 62-45. Lester Henley hit for 15 points to put the Spartans back on the winning track.

Against Samford University from Birmingham, Ala., Henley scored on a driving layup to give the Spartans a 92-90 win. John Napier led all scorers with 30 points and Pat Biber hit for 26.

The Spartans won their third game in a row as they defeated Rhode Island College 94-79. Napier again led the scoring with 30 points followed by Biber, 20 and Nelson, 81.

The cagers stretched their winning streak to four with a 101-76 victory over Rollins College. This is the first time in many years that a Spartan team has scored 100 points in two games. John Napier had a season high of 34 points while Pat Biber tossed in 23. Biber, after converting 27 straight foul attempts, the 6-6 junior went 9 for 10 from the line.

Due to printing deadlines the Iona College game is unavailable to be covered.

The Spartans have 5 remaining home games:

January 31, University of South Alabama.

February 2, Armstrong State College.

February 7, Stetson University (No. 11 small college team)

February 14, University of Dayton.

February 23, Valdosta State College.

Tip-off is at 8 P.M., at Howell Field House.

Decade of success

(Continued from page 9)

wrestling team has one of the finest schedules of any college as does the baseball team.

The Perry's, Kaye's, Del-Gaizo's of football, and the Steven's, Andrew's, Shary's are gone from basketball, but the '70's with the Carr's, Jones's, Brown's and the Biber's and Robinson's athletics at the University of Tampa will continue to grow.

Basketball Intramurals

(Continued from page 9)

All-Star team has finally been released. SPE placed the most on the offensive unit, 3 including Delvecchio, Henkle and Lagi. TKE had two positions with Sverdlow and Patroni, MC also had 2, Stawicki and Bryant and one TC, Chalan, rounded out the squad.

The defense included 3 TC's Boone, Lilley and Chlan, 2 SPE's Lagi and Walker, a PKP Davis, an AEP Tuthill and Weichelbaum of TEP.

The volleyball championship will be decided on Feb. 2 when the Mahors Club meets Theta Chi.

Other results:

For the second consecutive year Bob Gumrot of the independents captured the intramural horseshoe tournament.

The baitcasting contest was captured this year by Jack O'Grady, Mike Posch, MC came in second, and Ed Delvecchio, SPE, finished third.

As of the end of Bait-casting the standings were MC-152, SPE-139, TC-126, TEP-109, PKP-88, and TKE-83.

The Intramural Department would like to thank Dr. Bob Harder, Chairman of the Philosophy Dept., and his fencing club members in assisting with the officiating of the fencing tournament.

Fletcher Carr Leads Spartan wrestlers

The University of Tampa grapplers are having a tough time this season. The matmen have yet to pick up a team victory, but the Spartans are rapidly improving.

Coach Epsy's matmen are led by the best collegiate wrestler in the country, Fletcher Carr. Carr has won 24 straight matches while at the University of Tampa.

Joining Carr on the winning trail is Tom Canavan, a recent transfer from Clarion State College in Pa. Canavan who wrestles in the 126 pound class has yet to be beaten in three matches, winning over wrestlers from Miami Dade, Pensacola Navy and the University of Alabama.

Dave Kelley who in a past wrestling trip has shown signs of greatness. In an away meet with the University of Florida, the Gators forfeited to Carr and put their best against Kelley, but the "red

shirted football player" pulled a big surprise and pinned the Gator grappler.

Carr in a recent meet with the University of Alabama set an Alabama Field House record by pinning a Tide matman in an unbelievable 38 seconds.

During a recent road trip the Spartans lost all close matches to Miami Dade, Pensacola Navy and U. of Alabama.

The Spartans with the exception of Carr and Canavan have not been able to win together. Louis Mancusi, a very improving wrestler, has won matches at Pensacola and Florida State while Chuck Cash, a 118 pounder, has won at Tuscaloosa, Ala.

The next home mat match will be on Feb. 14 against Florida A&M. The Spartans travel to LSU this week end, to meet new top collegiate competition.

Tennis team to play Duke University

Practice began last week for the Spartan Varsity Tennis Team.

Tampa faces a very ambitious 18 match schedule this season, highlighted by competition with Duke University, Davidson, Florida State, and Rollins College. All of these schools are nationally prominent teams. This apparent upgrading of the tennis schedule is coupled with the construction of four new tennis courts on North Blvd.

Tampa is very fortunate this season to acquire the services of a new coach, Joe Brandi. Coach Brandi, who hails from Rio Piedras, Puerto Rico, is well known in tennis circles in this state. He has previously played college tennis at Oral Rob-

erts University in Tulsa, and Southern Illinois University. For the past nine summers he has played on the U. S. tennis circuit, and twice played the Canadian tour.

In October, Joe won the Tampa Men's Invitational, a very highly contested tournament. When asked what he thinks of his new job, Brandi replied, "Tampa has all the facilities now, good courts and excellent weather. The potential exists for a fine team, all that is needed is more financial backing and a scholarship program". He further said, "While I have certain reservations about this season, the team is well balanced and with another month of practice we should be ready".

HOW TO GET A

DOCTOR OF DIVINITY DEGREE

Doctor of Divinity degrees are issued by Universal Life Church, along with a 10-lesson course in the procedure of setting up and operating a non-profit organization. For a free will offering of \$20 we will send you, immediately, all 10 lessons in one package along with the D.D. certificate.
