T. U. Plans 4-Year Naval Program

T. U. TO HAVE TWO SUMMER SESSIONS

Students May Complete 15 Hours Credit

The University of Tampa will have two summer sessions this year in co-operation with the program which will allow students to graduate ahead of schedule. This program has been designed for the duration of the war.

The first term will be from June 15 to July 24 and the second term from July 27 to August 29.

During the two terms a student may complete a maximum of 15 hours credit.

By attendance at summer school, a student may decrease the length of his university course by an entire semester. The student who wishes to complete his course of study leading to one of the university degrees in a shortened period of time may graduate in three years instead of four years if he enrolls for a full program during two summers and three winters.

Courses to be offered are education, naval reserve, aeronautical engineering, secretarial, fine arts and fashion art, flying cadet preparatory, civilian pilot training and other courses as the demand arises.

Dean D. Edison Bunting is the Dean of the summer school.

VARSITY SHOW TO BE BEST GIVEN AT T. U.

Well! It is finally almost here. The annual "Varsity Show," which highlights the effort and achievement of our music and dancing departments. All script and musical arrangements are written by students of our University. Last year's production was far superior to that of the two previous years, yet, the kids have packed into this year's production entertainment that will surpass even last year's show.

This show will contain comedy skits, numbers by the dance band, popular vocals, musical novelties, ballroom and tap dance routines. In the first act those two "Simple Joe" roommates, Jimmy Whitehead and Robert Butch Wilson, will get together with charming Dot Holcom and Daisy Lewis and Virginia Morris to put on an act entitled "A Day In An Army Camp." Jimmy as General Canobier and Butch as Private I, Buster Muscle, show us just how life in an army camp should be. The second act and oh! what an act, features Jimmy in his ever popular Carmen Maranda act. The name of this act is "Girls I Would Like To Have Known." The third act, made up entirely of musical numbers, is entitled "Evolution Of The Dance Band." This act traces the dance band all the way from the old honkey tonk piano, through the Dixieland, rag time, rumba, sweet swing, hot jazz, jitterbug bands, right up to the modern Glen Miller band. Steve Solak has done a wonderful piece of work in assembling and coaching this grand 15-piece orchestra. This third act will feature Miss Moffat's dancing class and vocal numbers by Daisy Lewis, Dot Holcom, Jimmy Whitehead and other surprises.

The whole show moves fast and furious, so get your tickets now and be there on Wednesday night. Don't wait for someone to come up to try and sell you a ticket, look a seller up and buy a pass to a whole evening's entertainment. Tickets are on sale in the bookstore.

D. R. C.

MOONEY NAMES JANE HUGHEY AS MINARET EDITOR

Cites Obligations of Education in War

Miss Jane Hughey, news editor of the Minaret, was appointed Friday, by Dr. James E. Mooney as editor-in-chief of the paper for next year.

Miss Hughey, daughter of Mr. and Mrs. J. C. Hughey, 2101 Watrous ave., was formerly a student of St. Petersburg Junior college. She is a member of Delta Kappa sorority of which she was selected as outstanding pledge.

She is also secretary-treasurer of the Junior class, member of the Moroccan staff, and has been active in 313 Masquers.

In a letter to Miss Hughey announcing her appointment, President Mooney said:

My Dear Miss Hughey:
It is with great pleasure that I have the privilege of appointing you editor-in-chief of the Minaret, the University's paper.

In doing this I am cognizant of your ability to carry forward the work as editor-in-chief of the paper in an orderly, professional and business manner in keeping with the standards of such a publication; and I am conscious also of your outstanding contributions to the University as a student participating as you have in major interests for the general good of the University.

It is needless for me to mention that we must keep in mind our obligations to our country and to its future. This entails wise decisions forged through daily activities and daily actions which contribute to the general good. We have never lived in more difficult times and our greatest aim for education is Education for Victory. However, in our desire to help our country we must not lose sight of the necessity for planning for the future through a careful program of such knowledge and information as may help to make better citizens for the reconstruction period during the years ahead.

Good wishes to you and appreciation.

Sincerely,
James Elliot Mooney
President.

T. U. Alumni Are In Training at Maxwell Field

MAXWELL FIELD, Ala., April 14.—The following aviation cadets who were students at Tampa University are now in training at the Replacement Training Center at Maxwell Field:

Cadet Henry Hampton Dunn of 2208 Azeele Street, Tampa, attended the University of Tampa 1935-36. Editor of Minaret, student newspaper. Associate editor, Moroccan, Yearbook, Charter Member of Tau Omega. President of University of Tampa Alumni Association, 40-41. Was employed as a newspaper reporter before being accepted as a cadet in the U. S. Army Air Corps.

Cadet David Lorraine Stamper of McDonald, Penn. Attended University 1941. Had two years in Army Air Corps (21st Recon. Squadron) before he was appointed an aviation cadet.

Cadet Robert Earl Thomas of 3121 San Jose Street, Tampa. Attended University 35-41. Drum major of band, Sigma Kappa Nu. Completed CPTP (CAA) primary last summer. He was a radio announcer and had his own orchestra while in school. Was accepted as a cadet last January.

After completing their pre-flight training at Maxwell Field, these cadets will leave for one of the many primary schools in the southeast, where they will receive the first phase of their flight training under highly skilled instructors.

JANE HUGHEY APPOINTED NEW MINARET EDITOR FOR NEXT YEAR—Dr. James E. Mooney has announced the appointment of Jane Hughey as editor of the Minaret. Under a new plan she and her new staff will take over the publication of the paper for the rest of the year.

Spring Fever Hits T. U. And Joe College

Dr. Maurice Cramer Publishes Article On Browning

In the March issue of the publication of the Modern Language Association of America, is contained an article by Dr. Maurice B. Cramer.

Concerning this article, "Browning's Reputation at Oxford, 1855-59," Dr. Cramer states, "I propose to trace the influence of Rossetti in kindling devotion to Browning poetry, especially 'Men and Women', among certain Oxford undergraduates in the years immediately after the publication of 'Men and Women', and to draw conclusions about the significance of this in the story of Browning's gradual advance to fame."

In 1940, this magazine also published an essay "Browning's Friendships and Fame Before Marriage" by Dr. Cramer. This essay attempts to qualify and supplement the accepted picture of the state of Browning's fame in the years before his marriage by the consideration of material from sources not heretofore sufficiently emphasized.

M. S. O. To Have Meeting Tuesday

There will be an M. S. O. meeting Tuesday at 8 o'clock in the M. S. O. room on the third floor.

Plans will be made for election of officers and a nominating committee will be appointed. During the meeting plans for work to be done next year will be discussed and a budget arranged.

A delegation will also be here from the University of Florida some time in the last of April or first of May.

Social activities are also being planned for the near future.

Spring comes to Tampa U. and to Joe College. The trees turn a lovely green and the flowers bloom around the campus.

Joe finds out he's to go on a house party during vacation. The day finally arrives and Joe gets ready to pack his car with other Joes, co-eds, and all the baggage. The problem is to find room for seven people, ten suit cases, seven blankets, a bag of grapefruit and a kerosene can.

Everyone stands around betting whether all these things can go in at once. After moving everything and everybody five times the situation is well in hand—that is as well as could be expected.

With screams of happiness from all, the car begins to move. Joe finds the house near the water and also near a swell jock place, "Gales."

The kids all unpack and start wandering around from house party to house party. Joe takes a swim in the icy water and later pays twenty-five cents for supper at a sorority house party. Then comes the night! Everyone goes jocking and exchanges dates at least once during the course of the evening.

As for sleep? Well, who ever brought that up? That was something you could do at home, so why bother now?

The days and nights passed quickly—Joe developed a beautiful sun burn in spite of the gooey stuff Betty Coed let him use.

All too soon the week-end ended and Joe, tired but happy, went home for a good night's sleep.

Joe hits school again and "spring fever" gets him. Love also hits Joe, as it usually does at this season.

And so we leave Joe, as he looks upon his rosy world. We wish him luck and hope he'll survive the season.

BOB KASRIEL ATTENDS NAVY CONFERENCE

Courses To Include Under Classes

The university ready to launch full four-year naval reserve officer training program:

The University of Tampa is now taking application for enlistments from freshmen and sophomores, and from high school graduates who will be freshmen with the term beginning either this summer or next September, Dr. James E. Mooney, president of the University of Tampa announced today.

This information was brought back to Tampa today by Mr. Robert H. Kasriel, coordinator for defense courses at the University of Tampa, and assistant to Dr. Mooney. Mr. Kasriel represented President Mooney at the regional navy conference which was held Tuesday in Atlanta. The purpose of the meeting was a discussion of plans for the new naval program. The meeting was under the direction of Lieut. Comd. Ralph A. Sentman who had been designated by Washington for that purpose.

Under the new set-up, freshmen and sophomores may enlist as apprentice seamen; they will then be assigned to the University of Tampa to continue on their regular college work, in addition to the taking of special naval subjects taught at the university.

At the end of one and a half calendar years of work, a student will be given a comprehensive examination. After passing the examination, the student will either be transferred into V-7, and assigned to the university until he received his degree, or if he so chooses, he may transfer to V-5 and be sent to naval flying school at the end of his second year.

Students class V-7 will become midshipmen upon graduation. After three months further training they will be commissioned ensign in the United States naval reserve. Those who choose flying will be commissioned ensigns in the United States naval reserve flying corps.

Emphasis, "It is exceedingly important for us to obtain college men, and keep them in college, Lieutenant Commander Sentman pointed out. We

(Continued on Page 4—Column 1)

Army Air Force To Make Public New Cadet Program

"The Army Air Force will make public next week a new program for the procurement of aviation cadets. The successful prosecution of this war demands the creation of an air force second to none on earth, and this in turn requires the eventual enlistment as an Aviation Cadet of every young man who can qualify for service with the U. S. Army Air Force," said General Arnold in his communication to President Mooney.

The Army Air Force Enlisted Reserve was authorized on April 4, and the Army Air Force will soon be able to offer college men the opportunity of enlisting to serve their country in the Air Forces without immediately discontinuing their formal education.

General Arnold has asked President Mooney to appoint a member of the faculty staff as Faculty Air Force Advisor. Dr. Mooney has appointed Miller K. Adams, present Coordinator of Civilian Pilot Training. Mr. Adams will be called to attend a meeting with the Senior Officer of the Army Air Force to receive full instructions regarding the plan for creating a group of enlisted Reserves from the University of Tampa.

HOLD TIGHT; LOOK TO THE FUTURE

Your best bet for a secure future, after this war, is education now. You boys, who fear the draft or want to join some other branch of the service, and you girls who want to join the nurses' corps or volunteer for defense work, because you think it's your duty; stick to your present and best post, school! We are not trying to be unpatriotic or radical, but this is the sane way to look at the matter. Our Uncle Same is a very wise and lenient fellow and he isn't going to call on us University students until he really needs us, because he knows what I am talking about. If we are eligible for some branch of the service that will permit us to remain in school, such as the Navy V-1, V-5 or V-7, and we like that branch, then that is what we should do, sign now. If we are not sure whether or not we are eligible or if we like the program we should investigate right away. On the other hand if you are waiting for the draft board to call you, the best place in the world for you is right here at the University of Tampa. Why, because every week, every day you spend now in school counts a long way towards your future. The next few years are not going to be easy ones for any of us and this war is going to last much longer than just over night. When it's all over, of course, there will be a big booming prosperity, but for just a short time, and then the financial experts of this nation fear a slump, a depression such as we have never imagined or dreamed of. Don't take this wrong; this is not a pessimistic outlook on the world conditions; it is the truth, the level-headed way of approach. We are not saying that things are at all hopeless but we are saying that education, now, will lick those conditions then. It is going to take plenty of brains, plenty of headaches, and higher intelligence to lick it. College diplomas will survive. So if you will take a word of advice and help win the second war, against poverty and depression, you will remain in college just as long as you possibly can.

DON CAMERON.

EVENING SOCIALS

The university cafeteria is now open each evening for student recreation and entertainment. The tables and chairs have been thrown back and with music from the juke organ we may use this space for dancing. Manager Harry Braswell and his help each night prepare refreshments for the comers. Ice cold soft drinks, ice cream, pastries and sandwiches are sold at moderate prices. If this plan is continued, we will all have a place to go at night and enjoy cheap wholesome fun. Only with student participation and cooperation can this continue. We think this plan would go over bigger and last longer if, instead of having the cafeteria open every night it were open just two or three nights. All of us students like to dance and chat and be with one another, so let's all give it a try. If we can't go down there all of the time our presence will be appreciated as long as we can stay and enjoy the fun. We want to see all of you dormitory girls and town girls there because it is positively not a stag party. We in closing will say "see you there between eight and ten."

D. R. C.

THE UNIVERSITY HAS A DUAL ROLE IN EDUCATION

The recognized policy of the University of Tampa is dedicated to a dual role in higher education. It recognizes the importance of a cultural education and it recognizes the obligation which the University must offer in programs and courses to equip the student more directly and fully for the needs in a work-a-day and war-torn world.

To round out the meaning of the University's responsibilities: It must serve its community academically, culturally and socially, and its programs must be so keyed as to meet the great needs nationally for the perpetuation of our democracy and the general welfare of mankind, particularly, of course, as this effort may fall within the influence of the University of Tampa even if this be small in comparison with the great agencies now working in this country.

JAMES ELLIOTT MOONEY.

Not In The Books

Glimpses of Fashion

Believe it or not spring has really sprung or well anyway one day maybe out of the week the gals around Tampa U. can don their latest summer clothes, or rather cottons and other light colored outfits.

To really start the breath of spring off Nouna came out in her super-duper black and white dress; she looks like a regular ole glamor gal in it. There's really no need in my goin' into detail about it because I know I'm not wrong in saying that not an eye around here has failed to take her all in and include a few whistles in their exclamations.

Then came a lull because the little man with the cold weather decided to take another bow amidst our Florida weather and the gals were compelled to put their sweater appeal back on! I don't think anyone minded too much! Now that the sun can be seen again, I notice Katherine Whiteside in a cute blue printed dress with a darker shade of blue coat. But hat's off to her 'cause she's really got the clothes.

Our sweet little Betty Savu looked like she was the age of the pupils she teaches in a green and white wash dress, with her luscious tan. She looks like the perfect advertisement for Florida. The gals are doin' the school up right and they really know how to pick their summer clothes.

The lads also look much more relieved since they have cast off their heavy sweaters. It looks as though they are having a contest to find out who can wear the loudest T-shirts. It seems all pretty close to me.

Then too the crew boys have added somethin' new around here wearing shirts with all kinds of peculiar writing on them. Well I guess they want to be distinguished and let people know who they are!

F. E. A. Visitors Guests at Reception

The Hillsborough County Teachers' Federation entertained members of the Florida Education association and their distinguished guests Friday evening, the 10th, in the University ballroom. The reception and dance was held immediately after the evening meeting of the F. E. A.

The Royal Swingers orchestra played for dancing.

Special guests were Governor and Mrs. Spessard Holland, Dr. J. E. Mooney, Hon. and Mrs. Colin English, and Dr. Doak Campbell, president of Florida State College for Women.

RECEPTION AND DANCE HONOR STUDENT BODY

Faculty, Administration Give Annual Event

In honor of the student body the administration and faculty of the University gave a reception and dance last Friday night in the ballroom.

Beginning at 8:30 o'clock the affair opened with a reception in the recreation room, where all the faculty, faculty wives, and instructors in the defense classes formed a receiving line for the students.

Orange blossoms and mixed spring flowers formed a background for the two serving tables, which were covered with lace cloths, and adorned with silver candlesticks.

A fruit and sherbet punch was served by Mrs. Willard Phelps, Dr. Amalia Lautz, Miss Ruby Morse, Mrs. Delore Dyvad, Mrs. Roemheld, Mrs. Rhodes, and Miss Juanita Gibson.

Miss Melber was in charge of arrangements with Miss Blanche Cannon assisting in decorations; Miss Ruth Moffatt in charge of invitations; Miss Charlotte Thompson as head of the serving committee; and Mrs. Joseph Leinbach assisting on the refreshment committee.

After the reception, students and faculty attended the dance which was given in the ballroom with Manuel Sanchez's orchestra providing the music.

S. T. P. Sorority Plans Alumnae Mother's Day Tea

The Sigma Theta Phi sorority held its annual house-party at Clearwater Beach during the Easter holidays. Members enjoyed swimming and picnic parties throughout their stay. Open house was held Sunday evening and visitors were entertained at a wiener roast.

Tentative plans have been made for the Alumnae Mother's Day Tea to be held at the Hellenic center on May 10. Plans too were discussed at the sorority's last meeting for a beach party to be held in the near future.

STATIC

There was quite an upset at the Shipwreck Dance when Carroll Thomas, who has been seen recently with Johnny Read, appeared with Big Brother Bill. Well maybe Carroll decided a Sr. was more her style than a Freshman, but she's still loyal to the Reads. Meanwhile Dot Giles is taking up where she left off with Doyle.

Didn't it seem funny to have E. J. Sacrey, who was so familiar as a student around these halls, appear as dignified, school-teaching Mrs. Beynon? But still as beautiful and friendly as ever.

We had to live through another invasion last week of high school singers. The boys love it because they can get away with flirting with high school girls—but just let one of our co-eds look at a high school boy!

Tom Albers is just out of the hospital out at Santa Ana. His injured shoulder is a hold-over from his college football days.

Joe Mills is the last gridiron hero who has decided to hero for Uncle Sam instead. Joe is leaving soon to join the navy.

The Varsity show has been pre-viewed at three luncheons already and if it goes as well Wednesday night as it was at the luncheons, it's one of those things that can't be missed.

Rumor has it that Bob Hach is the next Tampa U. student to announce wedding plans. The lucky girl is the heart-throb he left behind him in Miss. How about letting us in on it?

Dot Hill has acquired a pin—and so has Tom Johnson. Dot's is B. X. and we're sure glad to see it—hope it's the real thing. Thomas J.'s is Skin and it seems the fair Doris doesn't want it any more. Doris's loss is sure to be some lucky girl's gain. But we hope he stays closer to home this time.

T. O.'s Plan Supper And Theater Party

The Tau Omega fraternity will entertain this week at a buffet supper at the home of Mrs. C. W. Whitehead, 1719 Richardson Place and a picture show party immediately afterward.

Honor guests will be the girls who received rings at the Tau Omega Ring Dance. Chaperons will be Mrs. Mary Haverstick Givens, Harry Dobson and Prof. and Mrs. W. B. Phelps.

The fraternity held its weekly luncheon Tuesday in the school cafeteria and presented a gift to Lieut. Clarence Lovejoy who left for Texas Tuesday night.

SPARTAN SPORTLIGHT

By ART SPOLTORE

The crew just finished a very successful season by winning two out of three racing starts. Their lone defeat came from Rollins' strong crew, who had to break the course record to win over our crew. Things along the crew line look promising for next year.

Bill Lassar is the boy to keep your eyes on next football season. Bill, chiefly noted for his defensive ability, has been developing into quite an offensive threat, and will offer a good target for those losses of Knight, Straub and Clements, come next season.

Spring practice is in full swing again. Coach Justice has 26 boys out now and this group will be bolstered by several high school boys soon. Scrimmage sessions have been listed for Friday of each week and the public is invited to attend.

Joe Mills is the fourth member of the football fellows to join the Air Force. Joe will report to Atlanta next Wednesday for preliminary training for the Naval Air Corps. Preceding him were Bill Brennan, Tom Albers and Bill Clevenger, who are in the Army Air Corps. Lots of luck Joe—"Keep 'em Flying."

The Intramural campaign is definitely a three-way race among B. X., T. O., and the Sigma Eps. The diamond ball campaign will settle the issue and from the looks of things, it's going to be a dog-fight. R. B. "Wolf" Fordyce, pitching for T. O.'s, John Kaufman for B. X., and "Joe" Victor Hatch for Sigma Eps, are all good and will be tough to beat. Knight's punch will decide the issue in favor of Beta Chi.

The boys around school want a track meet—Mr. Adams. It's the one thing they've been looking for all year. The general opinion is "Let's have a track meet" and "soon."

Dean Bunting Made Chairman Of Teachers' Group

At the recent meeting of the F. E. A. Dean Bunting was made chairman of the Teachers' Education group. This group was composed of teachers interested in the training of teachers.

It was one of the larger groups of the convention and representatives of several colleges of the state gave reports on internship. The representative from Miami University was made vice chairman and one from Southern was appointed secretary.

Compliments of

**JACK
SHEPPARD'S
GARAGE**

Bowery Brawl Planned by Beta Chi

Members of the Beta Chi fraternity were entertained at a beach party during the spring holidays at Haven Beach.

At a recent meeting plans for the annual Bowery Brawl were discussed. This dance will be held on May 15 and sponsors will be the dates of the seniors who are members of the fraternity.

Under Classmen To Be Accepted For Naval Reserve

(Continued from Page 1)

want these boys to realize that they will be of most service by serving where their college training will do the most good. This new naval program is designed for that purpose."

Commander Sentman also pointed out in the meeting the importance of the teacher in the college today, and the fact that there was a shortage of teachers in such subjects as mathematics.

Lieut. D. P. Welch of the recruiting division of the southeastern division, informed the university's representative at the meeting that he would visit Tampa shortly to help in the recruiting of enlistees. Lieut. Welch commended on the fact that "the university was way ahead in this matter because of the fact that they had already set up a naval reserve office, and had previously begun giving pre-naval training."

Requirements for V-1 enlistees as announced at the regional meeting are as follows:

1. Citizen of the United States.
 2. Unmarried.
 3. Age. Not less than 17 and under 20. However, if you are now a sophomore, age 20, you may still enlist, provided you finish your sophomore year within 60 days after your 20th birthday.
 4. Freshman or sophomore in good standing at an accredited college. Or a high school graduate who has been accepted for admission to such a college.
 5. Be of good standing in your community.
 6. Physical standards:
 - (a) Height. At least 5 feet 2 inches.
 - (b) Weight. At least 100 pounds.
 - (c) Eyes. Good normal vision as determined by eye tests. The fact that you wear glasses need not disqualify you.
 - (d) Teeth. At least 18 good teeth with 2 molars and 4 front teeth opposing.
 - (e) Feet. Good condition. Flat feet need not disqualify you if you are active, and your feet show no sign of breaking down.
 - (f) Hearing. Whispered voice at 15 feet, both ears.
 - (g) Color blindness. Be able to distinguish primary colors of red and green.
 - (h) Chest expansion. At least two inches.
 - (i) Blood pressure. Within normal limits as determined by standard tests.
 - (j) Pulse rate. 100 maximum, average 85 or less.
- For further information concerning this program, please contact University of Tampa, Defense Office.

313 Masquers Hold Bi-Monthly Meeting Tuesday

The 313 Masquers held their bi-monthly meeting Tuesday night in the dramatics room. Mrs. R. P. Connally introduced the guest speakers for the evening, Privates O. C. Whitehead and Alex Markowitz, who have had wide stage experience.

Private Whitehead, who recently appeared in "Grapes of Wrath" in films and "Life With Father" on the stage, told in a very interesting manner of his youthful ambition to become an actor in spite of ill health. He overcame this handicap and through determination and ambition, attained various successes.

Private Markowitz talked on his experiences as a director and gave elemental facts that dramatic students found were not new to them.

The club was fortunate in having these talented young men as guests and looks forward to another visit in the future.

Dean's Assoc. of F. E. A. Elects Sanford Treas.

The annual F. E. A. convention was held in Tampa last Thursday, Friday and Saturday.

The highlight was a supper held in the University Cafeteria Friday night at 6 p. m.

Bill Moody, president of the Alumni Association introduced the interesting speakers of the hour. The principal speaker, W. L. Quinlan, recreation director of Tampa Shipbuilding Company, outlined a plan whereby a gymnasium would be built on the University Stadium parking lot to be used by employees of the shipyards and for intramural activities at the University. The tentative plan is to turn the gymnasium over to the University at the close of the war.

Other speakers of importance were Dr. James E. Mooney, Dean Edison Bunting and Dean Daniel Sanford.

Crockett Farnell was chairman of arrangements and toastmaster.

Dean Daniel Sanford was elected treasurer of the Deans' Association of the F. E. A. at a luncheon which was held Friday noon at the Tampa Terrace hotel. Deans from colleges, junior colleges and high schools over the state of Florida attended this luncheon.

S. K. N.'s Elect Dan Shaw President

Dan Shaw has been elected president of Sigma Kappa Nu fraternity to succeed Jack Williams, who withdrew from school to enter the Air Corps.

Other officers elected were vice president, Dick Wozniak; secretary, Merriweather Williams; treasurer, Hazen Carleton.

Plans are being made for the Annual Gardenia Ball, an outstanding event which will be held May 22. This dance is an invitation formal affair, the highlight of the evening being the lead-out dance, when members of the fraternity present gardenias to their dates.

Tampa U. Offers Refresher Course For Teachers

The education department of the University will offer a full program of courses for prospective teachers and those already in the field. Upon the suggestion of the State Department of Education at Tallahassee, the University plans to offer refresher courses for elementary teachers. The purpose of these courses is to help teachers become better trained and therefore be certified to teach courses to meet the shortage occasioned by war demands.

D. K.'s Entertain At Shipwreck Dance Here

The Delta Kappa sorority entertained Saturday night at their annual shipwreck dance in the University ballroom. The hall was decorated to represent a deserted island and guests came in costume.

Hostesses for the dance were the Misses Beth Hotchkiss, Suzanne Jackson, Mary Merle Jones and Carrol Thomas. Chaperons were Dr. C. H. Laub, Harry Dobson, and Mr. and Mrs. Jesse Keene.

Elsie Gill, in charge of decorations, was assisted by Jane Hughey, Hilda Bethea and Dorothy Hill.

The sorority held a bi-monthly luncheon Friday at the Jacaranda tea-room. Mrs. R. P. Connally, faculty advisor, was a special guest of the sorority.

GETS WHOOPING COUGH AT 86
DOVER, Ohio—(U.P.)—You're never too young nor too old for anything, it seems. Recently Mrs. John Berkshire, 86, became ill with whooping cough—believed contracted from her five-year-old grandson.

Hostesses for the annual Delta Kappa Shipwreck dance held Saturday were, left to right, Misses Mary Merle Jones, Suzanne Jackson, Carrol Thomas, and Beth Hotchkiss.

DON'T QUIT COLLEGE

if you are 17^{THRU} 19 and want to
become a Naval Officer!

**You can be of greatest service
to your country by acting on
this New Navy Plan right now!**

YOU WANT to fight for your country! Are you willing to work for it? To toughen yourself physically? To train yourself mentally for a real job in the United States Navy? If you are, the Navy wants you to enlist now—but to stay in college, to continue your studies, to prepare yourself for active duty in the air or on the sea.

And your college will help you do it! In cooperation with the Navy, it offers all freshmen and sophomores who are seventeen and not yet twenty, special training that may win for you the coveted Wings of Gold of a Naval Aviation Officer or a commission as a Deck or Engineering Officer.

How to Become an Officer

To get this special Navy training, you enlist now as an Apprentice Seaman. Then you continue in college, but you will include special courses stressing physical development, mathematics and

physics. After you successfully complete 1½ calendar years of college, you will be given a general examination prepared by the Navy.

Stay in College 2 Years

If you qualify by examination, you may volunteer to become a Naval Aviation Officer. In this case you will be permitted to finish the second calendar year of college work before you start your training to become a flying officer.

Or you will be selected for training to become a Deck or Engineering Officer. In that case, you will continue your college program until you receive your bachelor's

degree, provided you maintain the established university standards.

Those whose grades are not high enough to qualify them for officers' training will be permitted to finish their second calendar year before they are ordered to duty at a Naval Training Station as Apprentice Seamen.

At any time during this special college training program, if a student should fail in his prescribed subjects, he may be ordered to active duty as an Apprentice Seaman.

Pay starts with active duty.

All courses will be given and graded by your regular college faculty. The Navy asks that you devote your time and energy along certain channels that will equip you to serve your country to the very best of your ability.

It's a real challenge! It's a real opportunity! Make every minute count by doing something about this new Navy Plan today.

DON'T WAIT...ACT TODAY

1. Take this announcement to the Dean of your college.
2. Or go to the nearest Navy Recruiting Station.
3. Or mail coupon below for FREE BOOK giving full details.

U. S. Navy Recruiting Bureau, Div. V-1
30th Street and 3rd Avenue, Brooklyn, N. Y.

Please send me your free book on the Navy Officer training plan for college freshmen and sophomores. I am a student ☐, a parent of a student ☐ who is _____ years old attending _____ College at _____.
