

Dizzy Gillespie In Concert

The great Dizzy Gillespie will be in Tampa with his quartet Sunday, Feb. 22 at 8 p.m. in McKay Auditorium for jazz concert with the University of Tampa Lab Band.

Gillespie will present a 2 p.m. clinic in McKay Auditorium following the rehearsal. All purchasers of tickets for the concert that night may attend both the rehearsal and the clinic.

According to the late Ralph J. Gleason of the Rolling Stone Magazine, "To hear him (Gillespie) now is to hear a pure artist at his full powers, able to extend himself if he needs to and confident enough to restrain himself. It doesn't make any difference what he plays. Dizzy could play 'the Star-Spangled Banner' and make it sound good."

The concert is the second of three being sponsored by the Florida West Coast Jazz Committee of the Ybor City Sertoma Club and the University of Tampa, in cooperation with Freedom Federal Savings & Loan Association.

Tickets are available at the McKay Auditorium box office and all Freedom Federal offices. Price is \$5 per person and \$2 for students. Proceeds will be used to set up music scholarships at the University of Tampa and to help support the work of the Robert McCord Oral School for Deaf and Hard of Hearing Children.

The last of the three jazz series will be March 23 with a performance by Don Ellis.

Symposium on Sex Roles

Have you heard about a symposium? Have you been thinking about the very contemporary issue of changing sex roles? What does it mean to be a man or a woman in today's world? Several students and faculty members would like to spend a day presenting their ideas and they would like to discuss them with you.

On Monday, February 23, there will be an all day symposium called "On Being a Woman and Being a Man" in room 3 of the University Union. It will begin at 9:00 a.m. and will feature short talks by a wide variety of speakers from differing perspectives which will continue through out the day. You are invited to attend any or all of the presentations and welcome to discuss the speakers' ideas.

A guest speaker who is well versed on the current confusions of male and female roles will speak at 11:00 a.m. for those who would like to explore ways to feel more comfortable with their own sexuality are invited to a workshop given by Tim Russell at 3:45 p.m.

The symposium will offer a rich variety of stimulating ideas that is useful both in understanding what is happening today and in helping to define how one responds to these issues when confront with them in the future.

Career Planning

A career planning program is scheduled to meet Monday, the 23rd at 9 p.m. in the Howell Hall lobby. This program which will concentrate on various problems regarding careers, is available to all students. It will aim to help students who are unsure of an appropriate career and how to pursue that career.

This program will assist students in how to

Dr. Saatkamp Gains Recognition

Dr. Herman J. Saatkamp, Associate Professor of Philosophy at the University of Tampa, has gained both national and statewide notoriety among academic circles for his scholarly presentations within his area of expertise. As a result of this notoriety, Dr. Saatkamp is currently completing plans for a two day visit to the Florida International University in Miami.

Dr. Saatkamp's visit will culminate on the evening of February the 18th. At that time, Dr. Saatkamp will address select students of Philosophy, Public Administration and faculty members from the university's Economic Department. His presentation will focus on certain published materials of John Rawls.

Dr. Saatkamp will direct his attention to Rawls' Difference Principle or Compensatory Justice and Problems of Pure Distribution. He will enumerate upon the inherent difficulties pertaining to public policy decisions of government or business and their implications for various welfare levels within our society. His major thrust will be directed toward a rationalization of the inequities created for middle and upper welfare levels through

public policy decisions so long as social benefits accrue to the poorer welfare levels within our society. Major emphasis will be placed upon the inherent difficulties associated with public policy decisions as they affect different societal welfare levels rather than individual welfare.

Dr. Saatkamp's latest academic endeavors have been made possible through grants from the National Endowment for the Humanities. This address represents his third presentation within the past eight months. Last summer, Dr. Saatkamp was a participant in the Conference on Social Responsibility in Business, held in Washington, D.C. His participation was made possible through a grant from the General Electric Foundation.

Dr. Saatkamp's future endeavors include appointment as Coordinator for the Santayana Project, for the Society for the Advancement of American Philosophy. This proposed project will be international in scope and require the coordination of French, British and U.S. philosophical inputs. During his leisure hours, Dr. Saatkamp is preparing material for a philosophy textbook which he hopes to have published sometime in the future.

John Harris

Harpsichord Presented

The harpsichord, the predecessor of the piano that created the soft music of the Renaissance and Baroque Periods, will soon become a part of the beauty of University of Tampa's Fletcher Lounge.

Described as a Dowd double manual French harpsichord, the keyboard instrument — so widely used from the 16th to the 18th Century — has been in the making for three years in Cambridge, Mass. It represents a significant contribution to the UT music program.

The harpsichord was ordered from William Dowd, the harpsichord maker in Massachusetts, three years ago. Colonial red with gold bands and a trestle stand, the historic instrument has 61 keys and 62 courses of strings.

Now valued at \$9,000, the harpsichord cost \$8,350. An anonymous donor contributed \$3,000 of the amount with the understanding the University would match it two to one.

With the arrival of the harpsichord next week, the Division of Fine Arts will be able to offer harpsichord as a major in the music department, according to Richard Rodean, division chairman.

For the person who has never heard the music of the harpsichord, the opportunity will come at 8:15 p.m. March 8 when a special dedication concert is held in Fletcher Lounge.

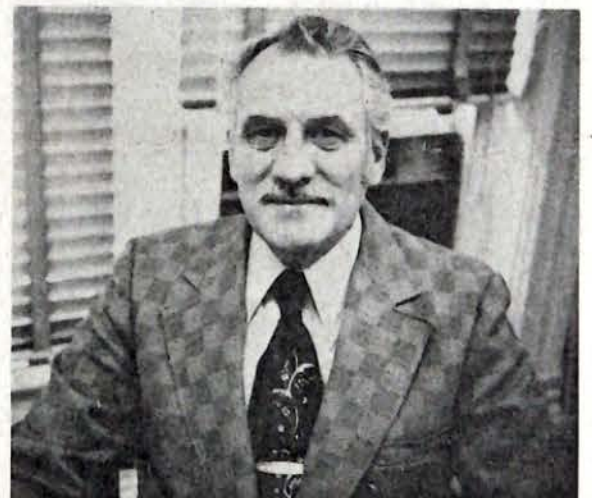

Judith Edberg, assistant professor of music, will perform music of the Baroque Period, assisted by Esther Glazer, violinist; Irwin Hoffman, violinist; Carl Hall, flutist, and string students of the University of Tampa.

Patron reservations for the dedication concert are being reserved now with general admission tickets going on sale after Feb. 20 as seating permits.

Complete information is available by calling the Division of Fine Arts of the University of Tampa, 253-8861, Ext. 217.

evaluating their skills and interests and what career would be best for the individual. Because the job market is so tight these days, it would be wise to attend this session and learn how to look for jobs.

If the students feel they have a need for this type of program and information, the counseling center would convert it into a regular group that would meet on a weekly basis. Plan to attend on Monday at 9 p.m.

DR. SAM BRICK

Campus Forward Fund Starts

The campus division of the 1976 Forward Fund Drive commences tomorrow under the direction of Dr. Sam Brick, chairman of the effort to raise \$16,000 toward the overall goal of \$476,000.

In a letter to faculty and staff, Dr. Brick expressed the hope of exceeding the goal "by a substantial margin."

He remarked: "Support in the past several years has been excellent, but we can and should do better this year."

With business and professional leaders in the community lending their efforts to raise nearly a half-million dollars for the University, Dr. Brick pointed out that "our enthusiasm and loyalty to the University, as demonstrated through generous support of this project, certainly will be a major motivation for the community to attempt to reach the overall goal. Apathy from us could have the opposite effect."

Giving can be done in three special categories this year. The anniversary approach suggests one dollar for each year of the existence of the University, or \$45. A Bicentennial gift would be \$76 (or \$200, if desired) and the Century gift, of course, would be \$100.

What do you do if the funds aren't readily available? Take the painless method — the payroll deduction plan. A set amount is taken from each pay check until the entire amount of the commitment is met.

Says Dr. Brick: "Let's all give some sound reflection to our role in the future of the University of Tampa! You will soon be contacted by a Forward Fund captain."

Dinglefest Theatre Company

(Left to right): Doris Salisbury, Gary Konigsfeld, Robert Fiddler, George Solomon, Alice Molter, and Dean Matthews.

On February 27

"Tom Swift and His . . ."

"Tom Swift and His . . ." an hilarious satire on modern technology, is the next entertaining production to be offered by the SGA. This engaging comedy will be performed by the same actors who appeared in the original award-winning Chicago production. "Tom Swift and His . . ." will be presented at the Falk Theatre at 8:30 p.m., Friday, February 27, 1976. Free admission to all UT students, staff and faculty.

Reverend Cave in Washington D.C.

The Reverend George H. Cave, UT professor of philosophy and religion, was one of 25 Episcopal clergymen in the US invited to the College of Preachers' five-day study session which took place at the National Cathedral in Washington, D.C. last week. "The study sessions of the College of Preachers is one of the highlights of a clergyman's study life," said Father Cave. The intense schedule of the seminar includes lectures pertaining to Biblical interpretation, the latest movements in theology, such as new theological books, and the arguments concerning female priests. In addition, diplomats and other non-secular personalities from the international community of Washington speak on other topics. The clergymen are instructed in sermon preparation and delivery and they learn by criticizing each other's sermons. They also discuss ideas and problems concerning communication with their parishioners.

The College of Preachers holds several study sessions each year, and this is the second time

"Tom Swift and His . . ." is a communally-developed theatre piece by the Dinglefest Theatre Company. The Dinglefest is a professional group of twelve young actors which is housed permanently at Chicago's Body Politic, the theatre first made famous by Paul Sills' "Story Theatre." The Dinglefest has a unique approach to the creation of comedy; all of their creations consist of direct quotations from popular literature. "Tom Swift and His . . ." employs turn-of-the-century quotations to comment upon the modern day obsession with technological solutions to human problems. The Dinglefest uses the quotations in a comedy format that incorporates song and dance, kinetic body sculpture, montage effects and gymnastics. The production relies exclusively on the bodies and voices of the actors to create the properties, the settings and the sound effects necessary for the performance. This novel approach to comedy received five "Outstanding" awards from the Chicago Drama Critics League for the 1972-73 season. These awards represent the largest number of awards ever given a single company in a single season.

Cheryl Chamness

that the Reverend Cave has been invited to a session, which was seven years ago. He also attends annual conventions sponsored by the American Academy of Religion for Professors of Religion, and the Florida Philosophical Association.

Robin Siegel

Ryan O'Neal reveals his love to Gay Hamilton in a scene from Stanley Kubrick's "Barry Lyndon," in which O'Neal plays the title role and Marisa Berenson plays Lady Lyndon. The Warner Bros. release was written for the screen, produced and directed by Stanley Kubrick. It is based on the 18th Century romantic novel by William Makepeace Thackeray. It also stars Patrick Magee and Hardy Kruger.

L.A.A. Goes To Haslam's

The Library Assistance Act has gone very well so far. We made our first trip to Haslam's on January 31st. About twenty faculty and students showed up that foggy morning for the trip. The faculty members who went were invaluable as they sorted through the books in less than half of the time that it would have taken the students. These faculty members deserve special recognition for devoting their time to the students. They are Dr. Connie Rynder, Dr. Jack Lohman, Dr. Joe Decker, Dr. Stephen Meats, Dr. David Ford, Dr. Stanton Truxillo, Dr. Herman Saatkamp, Professor Richard Rodean, Ms. Andrea Een, Mr. Dale Newton, Dr. Francis Gillen, and Dr. David Fredricks. Special thanks also go to members of Theta Chi fraternity who made the trip to Haslam's for Library Assistance a fraternity project. We really appreciated all of the people who did show up. Thanks to these people, the Library Assistance Act is finally reaching its potential.

Becky Burnett

TM — A Relaxing Experience

The technique of Transcendental Meditation (TM) was brought to America 13 years ago by the Maharishi Mahesh Yogi of India. Today it is estimated that around 80,000 Americans now practice TM.

What exactly is TM? It is simply a technique of deep relaxation and rest that leads a person into direct experience with himself and his surroundings. Its main characteristics are energy, creative intelligence and fulfillment. Yet, it is unlike sleep because the meditator remains fully aware of his surroundings.

TM is natural and automatic. If one were to practice this method 20 minutes, twice each day, sitting in a comfortable position, many wonderful results could happen. But before one experiences the effects of TM after participating in the act, changes occur during the activity as well. These involve such feelings as: the use of full mental potential; a faster reaction time; an increased perceptual ability; increased inner control; decreased anxiety and increased productivity.

Practitioners of TM can encounter profound effects which is said to produce on the quality of every-day life. They include increased energy and efficiency in performing any kind of work; increased tranquillity of mind coupled with decreased physical and mental tension; partial or complete loss of desire for hallucinogenic and similar drugs, including alcohol; increased creativity, productivity, intuitiveness; improvement in functional disorders such as insomnia; and better mobilization of body resources to meet adverse circumstances such as sensory monotony, and surgery.

TM is not however; a religion, philosophy, or faith; physical postures; hypnosis; or a change of lifestyle or diet. It can be learned in seven easy lessons that produce immediate benefits.

Initiation into meditation costs \$65. for students and \$125. for adults. Many people are skeptical about "cure-alls" like TM, especially when money is involved. The money is used to open offices, rent lecture halls and pay teachers. There are two introductory courses offered which are free and open to the public. The next step is a personal interview with the course instructor and then you begin a four day program that involves personal instruction, seminars and discussions.

Rat Droppings

For those who wish to have a private party at home and need a good price on bottle wine and beer by the case; stop by and speak to Barry. Once your order is placed with our distributors, you can pick it up in the Rat after our next regularly scheduled delivery.

Just for the information of those who don't already know: your Rathskeller is entirely owned and operated by the University of Tampa for the enjoyment of this university's community. Minors enrolled at UT are invited to use our facilities but under no circumstances are they allowed to be in possession of, or consuming, alcoholic beverages.

In addition, Florida law requires all persons within an establishment serving alcoholic beverages to carry identifications with the individual's date of birth on it. So, please don't feel offended if you are approached by one of our employees and asked for your ID. We're not trying to hassle; we're trying to protect the interests of all concerned.

If your group or organization is looking for a place to have a private party or meeting, why not stop by the Rat and check out the advantages of having it here? We'll try our best to accommodate your event—7 days a week.

Our new "ratology" majors this semester are: Linda Schneider, Becca Adams, Jane Durkee, and Tim Mazzei. From them and the rest of us, cheers!

Films In Full Sail

This Thursday evening (February 19), at 9:00 in room 6 of the Student Union you are invited to partake of select hors d'oeuvres and enjoy a movie. This will be the first in a series of films about sailing in the beautiful northern Great Lakes region. This fascinating series is being brought to you by the Sailing Club and Mr. Leo Thyen, who is instructing part-time in the Industrial Crafts division of UT. The Sailing Club meets every Thursday in room 4 of the University Union at 5:00. To receive information about current events simply leave your name and box number in The Sailing Club Box 2797.

Applications For Fall Internship Due February 20

It would be most helpful to this department if you could inform your students and advisees who are planning a student teaching program as part of their graduation plans that applications for the Fall 1976 Semester are available in the office of the Division of Education. Students should pick them up as soon as possible. The due date of the complete packet is February 20.

A. S. P. A.

The title stands for "AMERICAN SOCIETY FOR PERSONNEL ADMINISTRATORS." The purpose of our chapter is to increase our knowledge and development of human resource management skills and further the advancement of students in the business world.

The meetings are held on the first Monday of every month at 9 p.m. in room 127 of the library. Our first meeting was sparked by guest speaker, Mr. Morris Jenkins, personnel manager of the Shuron Continental Co. Mr. Jenkins lectured on the federal and state laws and regulations concerning the health and safety requirements for employees by the employers. It was an interesting as well as an educational speech, and we all extend our gratitude and thanks to Mr. Jenkins.

The U.T. chapter of ASPA hosts a membership of 40 which is larger than the chapter at U.S.F. Our membership is still growing and we hope it will double by next year. The only requirement for membership is that you must be majoring in any of the business fields taught at the University of Tampa.

If you have any questions feel free to contact either DICK COOLEY (PRES.) or ANTHONY (Chico) CAPRIO (Vice Pres. for chapter development), and McKay Hall dorm director.

Domenick Ioli

Scuba Club News

The Gasparilla weekend turned out to be a memorable experience for the members of the Scuba Club. A party of seven, six Tampa U. students and a U.S.F. student, embarked to the Florida Keys on Friday afternoon and did a total of four dives between Saturday and Sunday. Each dive was unique in marine and plant life, with good weather and warm water. Everybody enjoyed the diving, sun, and partying that took place during the dark hours.

We encourage anyone who enjoys diving to look into the Scuba Club. There are many dives being planned for the months ahead, either to the East coast or to some local spots. Just look for the signs on the Post Office and Plant Hall for the next meeting or contact Jim Gordon - Delo Hall

Rm. 706.

Admission To The Teacher Education Professional Program

All students planning to teach must submit an application for admission to the Teacher Education Professional Program. The application is due early in the junior year (60 hours), and should not be confused with the application for internship, which is submitted later. Forms are available in the Division of Education, Room 334.

A Place To Put Your Boat

Locked storage space is now available to any member of the campus community. The boats should be either sail powered or of the row boat or canoe variety; gasoline engines cannot be stored. Leave your name and box number in Box 1806 for more information.

Two Awarded Scholarships For Antique Survey

Leroy Mitchell and Sandra Pritchard, arts management majors, were recently awarded tuition scholarships to attend a twelve week seminar entitled "Survey of Antiques and Collectables," sponsored by the Tampa Plant Museum.

Miss Pritchard and Mr. Mitchell were acknowledged by the Board of Directors of the Plant Museum through Museum Director Pat Moller for their outstanding internship work within the Museum.

Ybor Square Open To Artists

Artists and craftsmen in the Tampa bay area have been invited to exhibit free their works every weekend in February in the Ybor Square Patios. The original works will be shown from 10 A.M. to 5 P.M. Saturday and Sunday at 13th Street and 8th Avenue. For more information dial Tampa, 247-5411.

Pippins Outstanding Cadet

Brigadier General Ross Thompson, U.S. Readiness Command, presented the first annual Outstanding Cadet Award to Cadet Col. Larry A. Pippins, Brigade Commander of the Tampa Bay Army ROTC Brigade which has its headquarters at the University of Tampa.

Pippins, a University of South Florida student enrolled in the University of Tampa ROTC program, was recognized for his achievement in military science, general academics and leadership potential. Pippins received a plaque which will be on permanent display at the University of Tampa, and a medal for himself.

NOTE: The corridor between the main lobby and the post office is the administration offices and noise should be kept to a minimum.

NOTE: The story that appeared in the January 28, 1976 (No. 16) issue of the Minaret titled "Is Your Student Government Legal?" was supplied by the College Press Service (CPS).

\$20 Reward

ORGANIZATIONS

Interfraternity Council

Greek weekend is definitely going to be a success. The planning committee has come up with a lot of great ideas which should make the weekend a good time for all of the fraternities. Homecoming weekend has been chosen as the weekend for all of the fraternities to party together, with something going on all three days.

A type of Superstar games are in the making. All of the varsity and intramural teams would be invited to compete in a type of crazy olympics.

Spky.

Pi Kappa Phi

The brothers of Pi Kappa Phi are still in rare form, and we haven't even begun to party yet. All three of our parties have been TREMENDOUS successes, but then we have to show the others how it's done. In case you haven't been enlightened yet, we had a Gasparilla Eve party that had to be the best party thrown by a fraternity in years at U.T. It started at 10 Sunday night, and with the help of beer, hard stuff, Tampa Tony and hundreds of students, it lasted until 5:30 Gasparilla Day morning. Did you ever have a better time getting wasted?? For those who survived our party to see and experience it, Gasparilla Day gave us (and the whole town) ANOTHER day to party! I'm proud to say the dauntless Pi Kapps kept on drinking through the whole day, even if a few got hung out to dry early. After all, we taught this campus how to party! Let us teach YOU!! Guys, Pi Kapp wants you! Girls, Sheldon wants you! Tom, going solo? You had me fooled. In case anyone forgot, we're STILL #1.

The Big Apple
(Who else?)

Theta Chi

The brothers of Theta Chi would like to once again thank everyone who attended and enjoyed our last open house party. Special thanks to the student government leaders who whooped it up, broke the ice, and started the fun. Stay tuned for more great Theta Chi events coming up in the future.

Special thanks to the people who supported and attended our last car wash on Saturday, the proceeds of which will be donated to a private orphanage in the Tampa area. The children are certainly better-off for your support!

Congratulations to brother Robert Blagojevich for his selection as the University of Tampa's representative to the Reserve Officers Association Convention, to be held in Washington, D.C. February 18-21.

Also in the future is the "special olympics", in which the "OX MEN" will assist in operating, being held for handicapped children in March. Theta Chi's brothers are not only tops on campus, but tops in community projects too!

Special congratulations also to Theta Chi brothers Rob Blagojevich, Rod Blagojevich, and Jeff Emanuel for making the dean's list last semester, in keeping with Theta Chi's standards of high scholarship. Good job, men!
A Ronald Reagan Supporter

Phi Gamma Nu

Although our Gasparilla sale was not as successful as expected, much thanks to everyone who showed up to help with the sale. Your cooperation was terrific.

The rush period for the sorority has ended and the sisters are pleased to announce that there are seven girls who have pledged the sorority this spring. They include, Kathy Noone, Julie Bodmer, Gloria Marin, Susan Jessop, Anita Bosco and Wilma Schoff. The sisters congratulate the pledges and wish them much success in the next few weeks.

The sisters will be celebrating Founder's Day on Saturday, February 21, 1976, this year. A dinner party at the Swiss House at Busch Gardens is planned for 7:00 P.M. A reminder to the sisters that this is a mandatory occasion and there will be a fine for absenteeism. Don't forget to bring your 52 pennies with you to celebrate our anniversary.

Robyn Hanas

Tau Kappa Epsilon

Well, it looks like Friday night's party was another big hit. Everyone seemed to be ripe and ready to kick off the weekend in really high spirits. Anhauser tells me that Busch Gardens will never be the same. The brothers converged on the place all day Saturday and between the brew and the attractions had a fantastic time. Our hoop men are still in there plugging and doing all right.

Tommy Teke

Alpha Epsilon Pi

Saturday afternoon, February 14th, the AEPI House was the scene of the Valentine's Day Backgammon Tournament.

We're all looking forward to our annual Big Brother's Day Picnic which will be held February 29th. Plans for it are in the making. Someone also said, "A girl can..." Remember — that's what B. (she) said.

Lambda Alpha Epsilon Meeting
Room 3, Student Union,
Thursday, February 26, 11:00 a.m.

Spartan Wrestlers Win At Championships

The Florida Collegiate Wrestling Championships proved to be fair weather for the Spartan wrestling team. Three of the grapplers placed in the state tourney and the team took fifth. Dave Hauser, Shawn Connors, and Steve Starzenski all placed in their respective weight classes. Hauser and Connors took first in their weight classes and Starzenski took third in his class.

The state title was especially meaningful to Hauser. This was his third state championship and it will be his last. Hauser won in the semifinals 13-5 and then won in the finals over a University of Florida wrestler. Hauser has had an exceptional college career and will "leave with my head high."

The other Spartan wrestler to win a state title in the tournament held here was Shawn Connors. Connors won his first two matches by pinfalls, outdoing even the University of Florida wrestlers. He went on to win in the semifinals 13-5. Connors had the most exciting match in the finals going into overtime and finally winning 5-1 over a wrestler from FIU, a junior with a 23-9 record. Both Hauser and Connors will go to North Dakota to wrestle in the Division Two National Championships.

Coach Wiendl would like to extend his appreciation to all those people who helped in the State Tournament. Congratulations to ZBT fraternity for winning a keg of beer in the attendance contest.

Baseball Season Opens February 24

The U.T. baseball team is almost underway to start their 1976 season. With a 38 game schedule, this year's Spartans will face their toughest schedule ever. With teams like Univ. of Miami, Florida State, Florida A&M, U.S.F., Eckerd College, Florida International, Temple, Univ. of Lowell, Villanova, Kentucky, Austin Peay State, Biscayne, Oakland Univ., Saint Leo, Hillsborough Comm. College, Amherst, Write State, Sacred Heart, Henry Ford College and Cornell, the Spartans are hoping for a lot of pitching. With only two returning experienced starting pitchers, Gary Lowen and John DeVincenzo, head coach Frank Permuy feels that this is his only weak spot. He also said, "the acquisition of second baseman Bobby Diaz and shortstop Danny Vasques makes the infield solid. With returning ball players like center fielder John Sylvester a two year All American and batted .417 last season, and third baseman Paul Russo .317 last season, Jerry Matisak right fielder who batted .280 last season, the Spartans are sure about their hitting potential. Some new bright spots to the Spartan club are, left fielders Eddie Camunas & Tony Ciccarello, center fielder Gary Richardson, first baseman Robby "Jai Alai" Alvarez, pitchers Rich Buchanan and Bruce Hiers. The three freshmen to make the Spartans club are infielder Brew Hanser, outfield and pitcher Harold Lewis and pitcher Mark Kelley. With these new U.T. ballplayers and veterans like, infielder Mike Randell, first baseman Bob Wolf, catchers Claud Caruso, Danny Bazarte, and Dennis Lopez pitchers like Brian Doyle, Dave Pulver, and Alex Riseman, it looks like the club will be going places.

With a last year's record of 14-20, head coach Frank Permuy feels that this year's team will break over .500. New assistant coach K. R. Lombardia has helped the club out tremendously. He has worked hard with head coach Frank Permuy to bring this year's club to the top.

27	Miami	Miami 7:30
28	Miami	Miami 7:30
29	Florida International Univ.	Miami 2:00

SGA News

An apology is definitely in order to Kathy Hoyne who I did not fully quote in my last column. When she referred to UT as a cultural desert, she meant this statement to mean that there was a high level of student apathy and not that there were not enough cultural events on campus. Sorry once again and honestly, Kathy is a hard-working SGA president and she deserves praise from everyone.

Merle Miller, the author of the biography ON Truman spoke in the Union's International Room on Feb. 10. The SGA voted to appropriate \$800.00 for the Dinglefest Company's performance which is scheduled for Feb. 27 at 8:30 P.M. The performance is free to all students.

Bicentennial weekend plans are being drawn up. Tentatively, March 12 will be a free day without classes. A faculty-student softball game is planned and that night a fine arts program will be held over at the pool. There will be happy hours at the Rat both days from 4 to 6 P.M. and there will be a rock-square dance that Saturday night. Also bicentennial T-shirts will be sold for a dollar.

SHORTS***** Dale Friend has avoided seeing SGA members so that they can discuss complaints about the bookstore. The Karate Club, consisting of 30 members, will give anti-rape instructions to girls over at Howell and Smiley's lobbies in the near future. On Feb. 18, Dr. Owens will bravely conduct an SGA question and answer session - bring probing questions! And on a senior's request, I will announce that commencement will be held on April 25 at 2:00. A brunch will be held before from 10-12:00 and President Ford may be the speaker.

The House-Senate meeting passed a \$216.92 appropriated for the re-opening of the pool. There are three stipulations that go with these SGA funds — the SGA must be given due recognition by the school; UT must pay for the following months, and SGA is drafting a letter to Dr. Owens bluntly stating this opinion. Now all we need is consistently sunny weather.

Other money bills which were passed included \$150.00 for the Karate Club (which passed by a slimmer margin) and \$200.00 for Alpha Chi so that designated members can attend the national convention in Atlanta. A much smaller amount of \$25.00 was given toward the sunshine amendment booth which UT is setting up at the State Fair on Feb. 13 and 14. The grand total comes to \$566.92, money which is being well spent.

Shorts — to the dismay of all concerned liberals and moderates, if any exist on campus, Ronald Reagan handily won 37% of the vote in UT's mock presidential poll. President Ford came in second with 18% and non-candidate Ted Kennedy won 11% of the vote. UT is more conservative than I thought! The food committee is jumping along with only an average of two members showing up at meetings! Everyone complains, yet no one cares. As far as ARA cafeteria service is concerned, UT should break their contract and hire a reputable firm who is not so profit oriented. Why do you think they skimp where ever possible?

Incidentally, the new pool hours will probably be 1-5 on weekdays and 11-5 on weekends. Afternoons of course, just in case you thought that you'd never get a tan. And the radio station must really exist — it even has its own post office box but I don't know the number!
