

CHORUS PREPARES CHRISTMAS PROGRAM

The Music Department of Tampa U. is preparing for a series of Christmas programs. On Dec. 5, at seven o'clock, the chorus sang for the public at Sears Department Store. Plans for a musical convocation which will be given either on Dec. 10 or 15 for the student body, are in progress. In co-operation with the city of Tampa, on Dec. 16 at eight o'clock in the Municipal Auditorium.

Members which the whole chorus will sing for these events will include selections from the Christmas portion of Handel's "Messiah". The pieces are: "And The Glory of The Lord", "For Unto Us a Child Is Born",

"Glory to God", and "The Hallelujah Chorus".

The tenor solos, "Comfort Ye" and "Every Valley will be voiced by Buddy Cole. Bass solos, "But Who May Abide" and "Thus saith the Lord", will be presented by Jack Jenkins. Soprano Linda Couch will also sing solo parts of the "Messiah". "Rejoice Greatly" will be Sally Wallace's soprano solo.

The second portion of these Christmas numbers will include Joiley's "Gloria In Excelsis Deo", Quion's "Mam'selle Marie", and Simeone's " 'Twas the Night Before Christmas". The chorus is under the direction of Professor Lyman Wiltse.

Alpha Chi Omega Holds Scholarship Banquet

The Annual Alpha Chi Omega Scholarship Banquet was held Wednesday night, December 2, at the Cricket Tea Room. A Christmas theme was used for the decorations and a beautiful centerpiece of red Carnations, the flower of Alpha Chi Omega, with green ribbons and small Christmas balls of the same color, adorned the head table.

T.U. Graduates Is Commissioned

William C. Krieg, a graduate of the University of Tampa, was recently graduated from the Navy's Officer Candidate School in Newport, R.I. He was one of 722 Officer Candidates, college graduates and outstanding personnel from the fleet to complete the 18 weeks of intensive training in the Naval Sciences.

Ens. Krieg is the son of Mr. and Mrs. Edward H. Krieg of Route 1, Box 348-K, Valrico, Fla., and husband of the former Miss Sylvia Diaz of 2316 23rd St., Tampa, Florida.

Among the invited guests were Dr. and Mrs. David M. Delo, Dean and Mrs. M. C. Rhodes, Mr. Karl King and Dean Lucille King, Dean and Mrs. Frank Setear, Mr. and Mrs. E. Higgins, Miss Marcella Hanley, and Miss Jacqueline Brimm, alumnae advisor.

Since Dr. Delo was unable to attend, Mrs. Delo addressed the attendance in his stead. Her inspiring speech centered around scholars and scholarship, most apropos for this event. In her talk Mrs. Delo quoted such great men as Emerson, Erskine, Cuzzens, and Webster. In concluding, Mrs. Delo praised the Alpha Chi Omega Sorority for their interest in promoting high academic standards and reminded them that it is the responsibility of every young person today to think, to develop his intellect to the fullest degree, and to use his intelligence to help create a better world, a safer world.

Mrs. Higgins then reiterated the significance and tradition of the scholarship awards for the guests. This award was begun long ago when Alpha Chi Omega was a local sorority, then known as Delta Kappa. Mrs. Higgins was its first advisor. Being promoters of scholarship, she and her well-known husband, Nash E. Higgins, began the awards for the sorority. The awards go to: the active with the highest scholarship, the active who has improved the most over the past year, and the pledge who has improved the most over the past year.

Concluding a stimulating speech, Mrs. Higgins announced the awards:

Highest Scholarship: Pauline
(Continued on page 4)

TRI SIGMAS SPONSOR MAN OF THE YEAR

JERRY BOBIER

DAVE DAVENPORT

BERNIE MCGOVERN

ANTHONY MULEY

Extra! Extra! Read all about it! For the first time in the history of the University of Tampa a male gets the chance to be in the spotlight.

Sigma Sigma Sigma Sorority is sponsoring a contest for Tri-Sigma Man of the Year. This will be an annual affair for the sorority and will give a lucky guy a break in participating in all sorority social affairs. He will of course be honored throughout the year as the Sorority's favorite, but not the only boy deserving of the title. Actually to eliminate any favoritism the voting is being done by the student body in the form of pennies contributed to the candidate of their choice. These pennies are being used for a party to be given by the Tri-Sigmas for the Children's Home. There is a Christmas display bank for each boy in the lobby underneath their respective pictures to give everyone an opportunity to vote and contribute. The boy with the most pennies will be crowned as Tri-Sigma Man at 12 o'clock December 18 in the University Lobby and the winner will be presented with a trophy as proof of his title.

Four candidates were chosen as candidates for Tri-Sigma Man from the four fraternities on campus. Than candidates are Jerry Bobier of Pi Kappa Phi Fraternity, Dave Davenport of Sigma Phi Epsilon Fraternity, Bernie McGovern of Tau Kappa Epsilon Fraternity, and Anthony Muley of Theta Chi Fraternity. In order that you can consider their merits here is a little about each of the candidates.

Jerry Bobier is a graduate of Plant High School. He came to the University of Tampa in February of 1957. He is a major in Business Education.

Jerry is a member of Pi Kappa Phi Fraternity where he holds the office of treasurer. He is a member of the Propeller Club and also a member of the Circle K club, a service organization.

(Continued on page 4)

POLITICAL UNION ELECTS OFFICERS

The fifth meeting of the Political Union got under way Thursday, December 3, with the election to fill the vacancies of president and vice-president. Oliver Elledge was elected to the office of President and

Ralph Lazzara Vice-President. Joe Testasecca remained in the office of Secretary-Treasurer.

The student delegate reported on the meeting of the Florida Citizens Clearing House held at Rollins College on November 21. Now that the Political Union has become operational, in that officers have been elected, there are plans to have political figures from our state and local government speak at future meetings as well as other persons of political knowledge. The meetings will be rather informal, thereby encouraging the discussion of political issues by everyone.

All are invited to attend the next meeting on Thursday, December 18, at 12:30 P.M. in the Dome Theater.

DR. and MRS. DELO
invite all students
to
OPEN HOUSE
and
CAROL SINGING
at the president's home
1815 Bayshore
Dec. 13 - 5-8 p.m.

will be served.
Informal

LIBRARY HOURS

(effective Nov. 30, 1959)

MONDAY - THURSDAY:

8:00 A.M. to 9:30 P.M.

FRIDAY:

8:00 A.M. to 5:00 P.M.

SATURDAY:

9:00 A.M. to 12:00 noon

EDITORIALS

The Minaret editorials represent strictly the views of student members of the staff. Columns in this newspaper represent only the opinions of their authors.

Those of you who have attended the University for the past two years can well remember how the parking situation used to be. After eight o'clock in the morning, it was practically impossible to find a parking space within reasonable walking distance of the school. Although this problem has not been completely relieved, efforts are being made to increase available space as much as possible. New parking lots have been constructed and should greatly reduce the problem.

However this office has, in several instances, noted that the students themselves are greatly responsible for much of the unrest over the parking situation. Although additional space has been made available and properly marked, some students still disregard regulations and park at their own convenience. Late arriving students, hurrying to make that first class, simply park in the first convenient space, with no regard for the person he may be blocking.

A majority of the students arrive in time to find a space, park correctly, and should be commended for their cooperation. These persons should not be inconvenienced by those who park in drive-ways, alleys and behind other vehicles. In several instances, actual property damage may be attributed to these violators.

It should not be the task of authorities to discipline such violators. As university students, we should all have enough respect for others to abide by regulations set up to benefit everyone. Before you park next time, check to see if you are doing it properly. Some day you might be the fellow who is blocked in. Whatever the situation may be, you can be sure that you will save yourself a ticket.

THE EDITOR

ATTENTION SENIORS

January graduates who failed to take the graduate record exam in November may take the exam on January 16. Applications may be obtained in room 239 or 227. Applications must be submitted before Dec. 18. The National Teachers Examination for June graduates will be given on Feb. 13. Seniors desiring to take this examination must make application prior to January 15.

The Minaret

The Minaret is the official publication of the student body of the University of Tampa. It is published bi-weekly during school year.

The editors welcome comment and criticisms. Address all correspondence to the MINARET, Box 28, University of Tampa, Tampa 6, Florida.

Student Congress Minutes

The meeting was called to order by our president, Dick Lovett. The minutes were read, and the roll taken, finding all members present except Billy Turner and Vincent Mandese.

There will be a run-off election for Sophomore Vice President.

Ralph Lazzara moved that run-off elections be held one week from Wednesday, December 1.

Lou Rabassa seconded the motion. Passed and carried.

Committees

*Ralph Lazzara moved that the time for reports to be due be extended for 2 weeks.

Jim Neve seconded the motion. Passed and carried.

New Business

Mr. Bob La Vourne presented his selection of class rings. Also the idea that the class rings be handled by the book store. This would allow better service for repairs and for orders.

San Giunta will be in charge of presenting this plan to the Senior Class, also all information pertaining to this and report on it at the next meeting.

The by-laws will be reviewed at the next meeting having to do with absences from Student Congress Meetings.

Marie Goding suggested that night classes be offered during the summer. Education classes Business Adm., Anatomy and any other needed courses. Yvonne Bretz will write three letters to the President making suggestions for Summer night classes, do away with very early morning classes, and 11:00 -12:00 on Tuesday and Thursday.

The freshman class would like to take as a project the purchasing of an intercom system throughout the entire school. Jim Neve, Frosh. Pres., will be in charge of this project.

It has been suggested that cheerleading practice be moved because they are disturbing the night classes.

Diana Ray will be the new Student Congress Parliamentarian.

Ralph Lazzara moved that the meeting be adjourned.

Jim Neve seconded the motion. Motion passed and carried.

Respectfully submitted,
Sue Phillips
Recording Secretary

IN THE ROLLINS ROOM

The Dreambeat

by Bernie McGovern

After looking over those French Fashions that feature plunging necklines and skirts ending above the knees, I asked a couple of the guys for their opinions and it went something like this:—Bruce Barry: "With the neckline going down and the hemline's going up, its inevitable that they're going to meet and I want to be there when they do" . . . Don Cosat: "Yup." . . . Charlie Henry: "With them lower necklines and shorter skirts, it seems to me like the boys over there are running out of material." . . . The new Sophomore Vice President Lou Mixon: "It makes foreign aid easier to accept. At least, the French are giving us some laughs for our money." . . . Mike Hoperich: "It's a strange world we're living in; one man in France makes a mistake and millions of women in America pay for it."

* * *

Thom Spettel just couldn't help himself while looking at a picture of dancer Cyd Charisse when he said: "Life is Just a Bowl of Charisse." . . . Love letters aren't always the best proof of love outside a courtroom that is . . . There's a campus couple who are so incompatible they can't even agree on what to argue . . . A congressional committee approves of a one cent tax on gasoline for 22 months, or, in plain English, forever . . . I've been going to barber shops for years and I've never heard anyone sing a song in one . . . One of the nicest things to save for your old age is yourself . . . Two well known coeds were playing golf and the conversation went something like this: "Tell me, are you playing with a handicap?" — "I'll say, my girdle is killing me." . . . The author of "How to Get Rich" did . . . There's a new car on the market that's ideal for women drivers. It has the fenders on the inside . . . A leading medical journal says that rock 'n roll is therapeutic. Lots of Luck.

* * *

Government spending is always discussed in billions of dollars, but do you have any idea of how fantastic an amount a billion is? Let's put it this way: Suppose that 779 years before the birth of Christ a friend borrowed a billion from you, with out interest, and started immediately to repay the loan at the rate of \$1,000 a day. You would receive the final payment sometime next month . . . Whenever I look at women's shoes, I can't help but smile. Soles with holes embarrass them, but toes with holes have style . . . Don Blair, how is billed as "Another non-drinking pedestrian," expounds that feeding black coffee to a lush produces nothing but a wide awake drunk.

Contemporary Silhouettes

By R. Neil Reynolds

PETER DE VRIES is one of the most convulsively funny humorists among contemporary writers. As author of *No But I Saw the Movie* (1946), *The Tunnel of Love* (1954), *Comfort Me with Apples* (1956), *The Mackerel Plaza* (1958) and *The Tents of Wickedness* (1959), he has established himself as a top-notch satirist more than just "worthy of the name." He has a keen eye for human frailty (his own as well as others) and sometimes uses this ability to envelope his characters in plots that make their special foibles almost too hilarious.

Oftentimes in his clowning, DeVries resorts to pure boffola but he also contrives comic situations that combine imaginative lunacy with considerable subtlety. In *The Tents of Wickedness*, his literary parodies on other novelists (Marquand, Faulkner, Fitzgerald, Proust, James, Hemingway, Thomas and others) are the main focal point and are accurate to a fault. Some of them are hilariously apt.

With puns, he is again dangerously funny: "So little thyme, Sanctuary much . . . Sister Carrie Me Back to Old Virginibus... Remembrance of things Pabst, that's the story of our life."

My favorite, of the DeVries list, is *The Mackerel Plaza*. The hero, Andrew Mackerel, is the minister of a very liberal church known as 'People's Liberal.' "Our church is, I believe, the first split-level church in America. It has five rooms and two baths down stairs with a dining area, kitchen and three parlors for committee and group meetings . . . Upstairs is one huge all-purpose interior, divisible into different-sized components by means of sliding walls . . . There is a small worship area at one end."

Mackerel (a widower by less than a year) finds his attempts at re-marriage frustrated by the members of his congregation who want to erect memorials to his first wife. Driven to smoke, drink, and secret meetings with his new love at cheap hotels in Chickenfoot, a neighboring town, Mackerel soon finds that his reputation as a minister is being done serious damage, "The instant I entered the church I saw how far my reputation had fallen. The place was jammed."

The "New Yorker" magazine sums up Peter DeVries perfectly, I shan't try to improve upon it, "Peter DeVries' comic novels depend in large part on a high-powered intellectual slapstick in which words arranged in the form of an inexhaustible supply of puns, athletic paradoxes, wobbly aphorisms, and bad jokes take the place of pies and pratfalls. It is the nerviest kind of comic writing."

EVENING DIVISION HOLDS CONVOCATION STUDENTS EXPRESS DESIRES

The first convocation for students of the Evening Division was held on Thursday, November 12, at 7:30 P.M. Speakers at the convocation were President David M. Delo, Dr. Stephen L. Speronis, who heads the Evening Division, and L. Ewing Esch, a student of the Evening Division. A form drawn up for the purpose of finding the evening students' desires and needs was distributed. Questions and final tabulations are as follows:

1. Would you like to elect Officers? Yes-73 no-37.
2. Would you like an Evening Division student council (with, if possible, one delegate to the regular student council?) Yes-79 no-31.
3. Would you be interested in forming an association and holding a few dances each year? Yes-67 no-53.
4. Would you be interested in forming student professional organizations for Evening Division students only? Yes-73 no-38.

5. Would you be interested in donating to a worthy University of Tampa project annually, as a group, as other organizations do? Yes-64 no-35.
Other suggestions for a special program (in order of frequency) were:

1. Have more frequent evening convocations.
2. Develop an athletic program for the Evening Division.
3. Have social fraternities for Evening Students.
4. A committee of Evening Students to present viewpoints and needs to the administration.
5. Form a debate team.
6. Integrate meeting hours of some present school organizations with free hours of Evening Students.

7. Offer complete social and political program to Evening Students.
8. Issue athletic passes to all Evening Students.
9. Form "discussion clubs" for Evening Students.
Suggestions for expanded facilities outside the area of a social program for evening students included (in order of frequency):

1. Have Business and Registrar's offices open one night a week.
 2. Hold summer evening classes.
 3. Have better library hours for Evening Students.
- There were many, many other suggestions, too numerous to list herein. However, all Evening Students are advised that their suggestions are being studied and the innovations they desire and need will be made, wherein feasible and possible, as rapidly and smoothly as possible.

FROM THE

CRACKER'S BARREL

by THOM SPETTEL

You no doubt read in the last issue of this paper that the University Drama Department is to present *Dial "M" for Murder*. Everyone agrees that this is a good example of play-writing. So do I. However, so many false ideas have been circulated concerning this play that someone will have to speak up immediately to set the record straight.

Especially appalling is the present misconception concerning the plot of the play. Even the Drama Department personnel are all wet on this score! Ask any of them what the play is about, and they'll tell you that it's the story of a man who devises a rather inane way of getting rid of his rich wife—a plan that fails miserably—but the man is, because of a good turn of luck coming out of the murder attempt, able to come up with a perfect murder . . . almost.

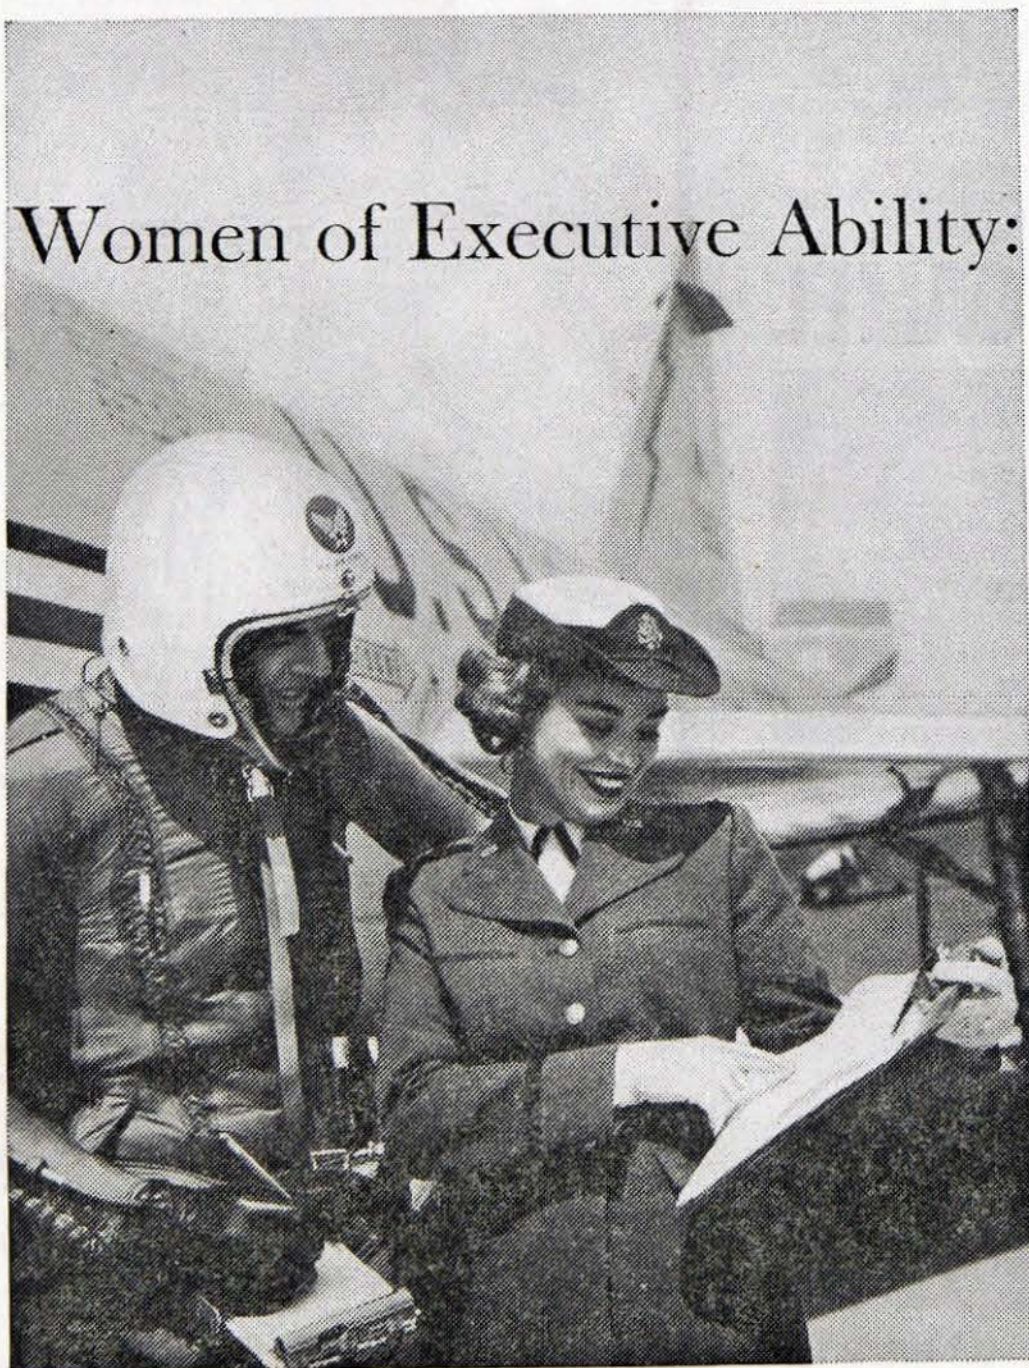

However, when you leave the Dome Theatre after seeing the present production, you'll also know the truth: The poor husband, Tony, is no more than

the hapless victim of the real murderess, Margot, the wife. Margot knew how her husband would react when she made it so evident that she was "running around" with Max, who is really no more than one of the more mature college students, a fugitive from the blood bank, whom she picked up at her local actors' studio in order to pull off this whole trick.

With this revelation in mind, Margot really seems to be quite brave, allowing herself to fall suspect—to be imprisoned and doomed to be hanged. However, our admiration for this last little display of bravery is tossed away when we realize who Margot's real lover is—the inspector.

Well, why not come down to the Dome and see for yourself? Climb through a window and find a seat.

It isn't quite appropriate to close this column with one of the late Ambrose Bierce's definitions: "DRAMATIST, one who adapts plays from the French." — but let's.

Women of Executive Ability:

There is an exciting future for you as an Officer in the U.S. Air Force

If you are a woman who responds to a challenging job...who enjoys stimulating world-wide travel...who finds fun in association with young, imaginative people...you should investigate your opportunities as a WAF officer. Women in the Air Force work side-by-side with male Air Force officers, receive the same pay and privileges, have equal chance for assignment and advancement. Investigate your chances for a commission in the United States Air Force.

WAF WOMEN IN THE AIR FORCE

WAF Information, Dept. W-94
Box 7608, Washington 4, D. C.

Please send me more information on my opportunities for a commission in the U.S. Air Force. I am a U.S. citizen between 20½ and 27½ years of age, have a baccalaureate degree from an accredited college or university, am unmarried and without dependents.

NIGHT BEAT

by L. Ewing Esch

Walter Raymond Bell is a new, but outstanding face around here this semester. A Biology major and Science minor, he is also proficient at Mathematics and a good German student.

Walter is attending the University of Tampa on a State of Florida Educational Scholarship.

A native of Tampa, Walter is 18 years of age, a graduate of Jefferson High School (class of 1959) and is secretly (or was secretly) a poet. I have known him a long time and have read much of his poetry. I hope he will send some of it in to the National Poetry Association's annual collegiate publication, *America Sings*, and also make a contribution to *De Novo* this year. Perhaps he will do so since the "cat is now out of the bag".

Walter is a member of the Florida Collegiate Academy of Science. He has twice won first prize in Archeology in the local Science Fair, 2nd prize in the Florida State Science Fair and the Award of Excellence from the Florida Academy of Science Talent Search.

Walter is planning a teaching career. To earn his college expenses, he is working during each summer vacation for Tampa Ship Repair and Dry Dock Company.

Good luck in all your life's endeavors, Walter, although I am sure that any achievements of yours are going to materialize because of more than just luck!

Man of the Year

(Continued from page 1)

Jerry has received a scholarship from the Florida Banker's Association with which he hopes to finance his junior and senior years at the University of Tampa.

Dave Davenport is a 21 year old junior at the University of Tampa. Dave is a major in Physical Education and a member of the Lettermen's Club.

The sport Dave received his letter in is football. Dave is considered an outstanding member of the Tampa Spartan Football Squad. As such he was recently honored at the Lettermen's Banquet.

Dave is a member of Sigma Phi Epsilon Fraternity. Recently he became engaged to Marie Riley, an alumni of the University of Tampa.

The third candidate is Bernie McGovern of Tau Kappa Epsilon Fraternity. Bernie is a 19 year old junior from Brooklyn, New York. He graduated from St. John University's Prep School.

Bernie is well known for his literary talents. He is the writer of the "Dreambeat" a column which appears regularly in the MINARET, and is also a staff writer for the Tampa Tribune. Some of his works have appeared in various literary magazines in this country.

Bernie's major is history. He is a member of the American Amateur Press Association and Program Director for WTUN. He is also president of the University of Tampa Chapter of Pi Delta Epsilon the National Honorary Journalism Fraternity and president of the University of Tampa Interfraternity Council and a pledge of Alpha Psi Omega the National Honorary Drama Fraternity.

Bernie's most outstanding accomplishment has been that of having been elected Prince

Charming of Sigma Sigma Sigma Sorority at their Cinderella Ball held last year.

To coin a phrase, last but certainly not least is Anthony Muley. Anthony is a member of Theta Chi Fraternity. He is the treasurer for the fraternity and was elected the Outstanding Pledge in 1958. Later on in 1959 he was selected as the Outstanding Member of Theta Chi Fraternity.

The Inter-Fraternity Sorority Council claims him as a member. He was on the Homecoming Committee. He is secretary of the Circle K Club, and was recently elected in to Who's who in American Colleges and Universities.

Anthony's major is Business Education and he is in the Junior Class.

These are the candidates for Tri-Sigma Man of the Year and those are the merits. You may all agree that the year very worthy of the title but there can only be one. The choice is left up to you. As the Tri-Sigma song says "My Tri-Sigma Man is the King of the Campus, And Lord over all he surveys." And the boy elected will be indeed a King!

Scholarship Banquet

(Continued from page 1)

Tourles.

Active with the most improvement: Elaine Becker.

Pledge with the most improvement: Sharon Hoopingarner.

Mr. Higgins, a firm believer in good scholarship, echoed Mrs. Delo's emphasis on scholarships, then congratulated and commended all members of the Alpha Chi Omega Sorority for their sincere interest in scholarship and congratulated the winners of the coveted awards.

The banquet came to a lovely and harmonious close as the Alpha Chis sang their beloved sorority song "Alpha Chi."

This World of Art

by Al Harwood

You don't have to be a "radic" to be a successful artist! (This statement may come as a blow to some of my friends who never expected me to make such a blasphemous remark.) There are many successful artists who never grew a beard, wore a sweat shirt and dirty khakis, or starved in a garret. Most of these were women whose husbands supplied the money for the basic needs of existence. The suffering does not make an artist but it does help. It helps in that it is an experience which usually does not fall into the experience span of the normal person. This suffering usually has opened up the doorway to understanding other people in a more intimate manner . . . in other words it enables the artist to see more easily what makes the world really tick.

In justification of this, take a look at the personal history of almost any famous artist and see when his work reached a real maturity . . . I believe that you will see that this happy event (happy for art, not the artist) usually happens during or after a period of great emotional stress. After this, only one problem remains for the embryonic successful artist . . . does he have the skill, mentally as well as technically, to interpret what he feels and sees?

This interpretation or "translation" from the mental image to a visual one in a manner which can be understood by others is the mark of the successful artist. Communication is the transmission of an idea through some medium, be it speech, music, dance, literature, or an art technique. Thus it can be seen that to be really successful art must "communicate."

The failure of art students to communicate their ideas then lies in their lack of experience . . . skill will be developed by work, understanding and awareness come through the observation of the people who

surround us and the world in which we live.

The art show in the hallways has drawn a great deal of interest and comment from the students as well as the faculty . . . some of it is very complimentary . . . some of it is critical. Those who like the show have passed their approval on the basis that there is more good work than bad on exhibit, while the discontented ones seem to be of the opinion that there are only one or two (possibly three) paintings worth any attention at all.

In my last column I stated that I was disappointed in the show because most of the contributors had not shown any original thinking in the approach to the solution of how, or rather in what manner, to present what they had to say. If you are going to say something, know what you are talking about . . . if you can't play football or fight bulls for some reason then go to these events . . . talk to the participants . . . try to live with them as much as possible . . . in other words get the true spirit or understanding of what you are going to paint before you do it. If this thing is impossible then you are in the wrong field . . . give up painting, you will never be more than a person who paints for any reason other than recreational purposes.

INDUSTRIAL ARTS DEPARTMENT OFFERS INTERESTING PROGRAM

The Industrial Arts Department is the youngest department in the school yet it has an alumni following to be proud of. About 65 or 70 people attended the Industrial Arts Home Coming Breakfast.

The following are a few of the alumni and where they are located today:

George Blanco, Spring Graduate in Industrial Arts—Brewster.

Earl Cason, Spring Graduate in Industrial Arts—Brewster.

Santo Randazzo — Just received new job in Vocational Education in Pinellas County.

Richard Bailey — Stovall Cabinet Shop.

Phil Rotolo — Micro Film Service in Tampa

James McAllister — Jefferson.

Earl Caton — Hillsborough.

Harold Weesner—Chamberlain.

Harry Walston—Oak Grove.

Edward Perez—Tiffany Tile.

Robert Mohler — Riverview.

Stanley Shorey — Washington Junior High.

Fernando Vizzi — Washington Junior High.

Manuel Linares—West Tampa Senior High.

Pete Labruzzo — Monroe Junior High.

Paul Gatta — Contracting.

Mike Rubio — Contracting.

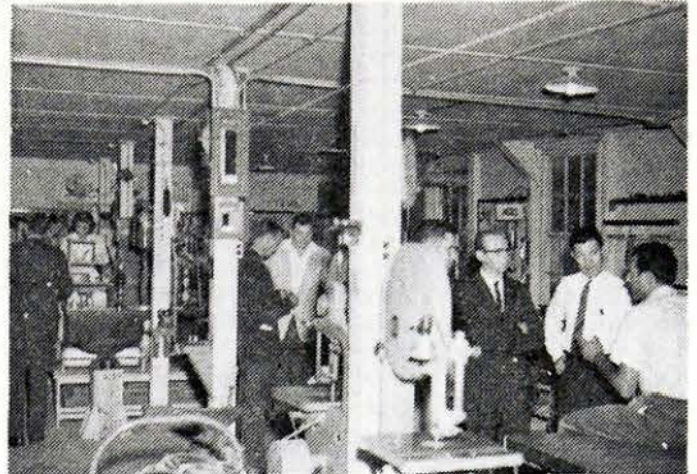

James Jones — Ybor City.

Jackie Skipper — a sophomore, is a draftsman in the planning and design department for Clair Mel Housing Development.

Former Tampa University students are in about every Engineering Company and drafting room in the city.

Most of our Pre-Engineering students go to Florida State at Gainesville, however, some go to Georgia Tech and some to the University of Miami.

Dan Ho, son of Dr. Ho, on our faculty, is an example of

Tampa University Pre-Engineering who went to Georgia Tech and is now employed in Tampa.

Another faculty member's son, Mohr's son, Drew Mohr, is a sophomore in Industrial Arts and as a result of the knowledge he acquired in drafting has been making extra money in his spare time drawing house plans.

Have you noticed the wood carved Horses on the star posts in the lobby? These were carved from a block of mahogany by a junior in Industrial Arts. His name is Fred Riley. Aric Ralle is working on a similar project for the third floor.

One course where excellent movies are available and we use

them. The Industrial Arts Department is the only one that hold classes six days a week and about the only thing you'll hear Friday afternoons and Saturdays at Tampa University is the loud speakers of movies and the loud noise of the many shop machines. The Industrial Arts Department has an up-to-date shop equipped with the very latest of all types of all modern tools. The only handicap is space. The Industrial Arts Department needs a much larger building.

It'll not be long until you'll see a Christmas Tree in the lobby and a Merry Christmas sign in front of the school put up by the Industrial Arts students. And that's Industrial Arts.

VOCAB CONFAB

In the affairs of man, the 'power' of the word has been emphasized for a long time. The intimate relationships between vocabulary growth and reading proficiency, functional intelligence, academic and professional success are supported by ample scientific evidence. Further provocative connections are indicated between vocabulary richness and wholesome mental health, human relations improvement, human communicative effectiveness and mass propaganda efforts to influence the minds of men.

With these thoughts in mind, consider the following facts. The average college sophomore has a vocabulary of approximately two hundred thousand words. The average American adult has a vocabulary one-fourth that size and one-and-one-half times as large as that of a typical of ten. Normal children between the ages of six and ten learn new words at

a rate of five thousand a year. The typical adult increases his vocabulary approximately fifty words a year. Certainly, the need for better cultivation of man's intellectual resources is obvious. What is, perhaps, obscure to the casual observer is the dynamic interplay and interdependence between vocabulary growth, concept formation, sound thinking and the acquisition and digestion of knowledge.

The dedicated teachers of vocabulary growth rely on a variety of techniques. The technique relevant to our "Vocab Confab" puzzle is known as "Word Attack". Since most words are built out of roots, prefixes and the meanings of words. (e.g. Knowing 'omni' is a prefix which means 'all' helps one to understand the meanings and common relatedness between omnipotent, omnivorous, omnifarious, omniscience, omnibus, etc.)

At this point, it would be in-

ded pretentious for us to argue a strong connection between our word puzzle and the remediation of the vocabulary limitations of Americans. Instead, we have strived to bring about an enjoyable compromise between the efforts of sincere vocabulary teachers and those of the entrepreneurs who capitalize on the American fascination for word puzzles. The former rely on disciplined study, the latter rely on the recreation motive. The former contributes to vocabulary growth, the latter develops memory for gnu, irrelevant mythological figures and short-voweled utterances from strange languages. It is always a formidable challenge to attempt to bring serious study in alignment with recreation and enjoyment. In our opinion, it was worth a try.

We hope the readers of the Minaret will find our puzzle both enjoyable and educational or vice versa. Our thanks to the Editor of the Minaret for his cooperation in a trial run of our puzzle and the future use of two additional variations of this puzzle approach in the next two issues.

Prof. Michael Doran and
James Pietrangeli

INTRODUCING THE ALPHA CHIS

Starting a new idea this week, we proudly present the members of Alpha Chi Omega sorority. As well as being active on campus, our girls are also active in the outside world. This week, the members are (from left to right), 1st Vice President, Sue Phillips; President, Angela Hunter; and 2nd Vice President, Ramona Hernandez.

Sue Phillips is one of our most active girls. Sue was the beauty who decorated the platform of Homecoming Queen of Tampa University. She is a junior, and recently elected to Whos Who, and also is one of the majorettes. Wolf Brothers is the scene of her outside job and she also holds a work scholarship here at the University.

Angela Hunter, a senior, can always be seen running around on Alpha Chi business or exchanging a friendly word with anyone she happens to meet. Her outside interests include: Alpha Chi Omega, Alpha Chi Omega, and Alpha Chi Omega. She is originally from Pittsburgh and now hails from Fort Lauderdale.

Ramona Hernandez, also a senior was the head cheerleader last year and has been very active ever since. She also holds an outside job and lives in Tampa. Her job in Alpha Chi is to train the new pledges and guide them into the sorority.

A roaring time was had by all at the party which the Alpha Chi held for Pi Kappa Phi fraternity. It was a coming-out party celebrating their liberation from the yoke of probation. The party was one of those in which even the chaperones had fun. It was held at Colonial Beach and a small display of fireworks culminated a perfect evening. Congratulations to all the members of Pi Kappa Phi, and their newly initiates.

The pledges had a coming-out of their own. They were seen parading in the halls of Tampa U., dressed in Pilgrim outfits collecting money for our annual gift to cerebral palsy. Happy Thanksgiving wishes went to a needy family along with a basket of food for a

Thanksgiving Dinner for four.

Just recently, we entertained one of the most delightful persons it was ever our privilege to meet. It was our National Vice President—Mrs. Grahm. During her visit, she was entertained by various members of the sorority at breakfast, lunch, and dinner, and visited by every member while she stayed at the Crescent Hotel. Culminating her visit, she gave an inspiring talk to the members of Alpha Chi at their regular Wednesday meeting.

We are very proud of the honors recently bestowed on three of our girls. Sue Phillips, Mary Frances Rhodes, and Pauline Tourles were elected to Who's Who for the year 1959-60, congratulations.

Our scholarship banquet was held Wednesday, Dec. 2 at the Cricket Tea Room. Yearly, Alpha Chi gives awards to three members, two who have made the most improvement in grades from the preceding semester, and one who has made the over-all highest average in the sorority. The recipients of the award this year were Elaine Becker and Sharon Hoopengartner, and Pauline Tourles took the highest grade average award. Honored guests at the banquet were Mr. Higgins, past coach of the University of Tampa, and his wife, Mrs. Higgins, past sponsor of our organization, Mrs. Delo, Miss Hanley, and our Alumnae advisor, Jackie Brimm. It is largely in this way of awarding outstanding achievement that Alpha Chi has held the highest average of scholarship in sororities on campus for so long.

Saturday, December 5, we held our annual Carnation breakfast. We honored at this time, two active members who have done the most for the sorority the past month. They were Ramona Hernandez, and Elaine Becker. Following the breakfast the members enjoyed a social get-together at the bowling alleys.

Alpha Chi plans for many get-togethers during the coming Christmas Holidays, and already has irons in the fire for our Spring Rush parties.

VOCAB CONFAB

THE VOCABULARY GROWING GAME

by PIDORA

The Solution to this game is two-fold. First fill in each puzzle answer and unscramble the scrambled words from the Line Clues. Then find the clue word Meanings in the box above the puzzle. To do this transfer the letters from the circled squares in the puzzle. (Top to bottom order) The meanings will make an interesting phrase to help you remember the clue words. These clue words are roots and prefixes. Notice that each puzzle answer contains one of them. Knowing roots, prefixes, and their meanings helps to build vocabulary for they often provide hints to word-definitions.

LINE CLUES

1. ESSENTIAL.
2. CAUTIOUS, CAREFUL
3. DISTANCE AROUND

4. POLITE AND SUAVE.
5. GIVE LIFE TO.
6. CITY OR TOWN
7. LIMIT OR CONFINES.
8. LENGTHY EXPLANATION.
9. INCIDENTAL.

10. NECESSARY LIFE INSURANCE
11. ROB OF VIGOR.
12. COURTESY, AMENITY.
13. CONDITION.

14. CUT FORESKIN.
15. SURROUND, CATCH IN TRAP.
16. ENERGY.
17. CITY DWELLER.

TAU KAPPA EPSILON

A tip of the Teke Hat to Frater Louis Mixon, recently elected Sophomore Class Vice-President. Frater Mixon has asked us to extend his sincerest appreciation to the students and friends who supported him in his campaign.

Also of great importance to Epsilon-Beta Tekes was the recent Province Leadership School held at Rollins College, Winter Park, Florida, where Teke chapters from all points of the Florida Province were hosted by the recently installed Zeta Phi Chapter. Tampa U. TKE's were very active in the most informative program which dealt with various aspects of fraternity lore and life. STOP! LOOK! LISTEN! It's coming soon. That fabulous singing group known as The Teke Men will soon return to Epsilon-Beta. The fraters will be gathering for special song fests very shortly.

The Teke Gold Men gather every Monday in the cafeteria for the Teke Luncheon. You are cordially invited to join us and meet the fraters, who will be in the special section reserved for them by Mr. Hall.

A special salute to Teke Gold Man "Coach" Charlie Henry, Teke's athletic director, who is now engaged in the rigorous and somewhat unheralded task of organizing a superlative group of cagers to compete in intramural basketball. Charlie is doing a fine job, and hopes are high for a successful showing in this fast approaching team sport. Tekesters have also performed well in many of the recent minor sports thanks to the guiding hand of "Coach" Charlie!

Versatile Teke Frater Alan Harwood, has visions of a summer in his old stomping grounds south of the border. Al has attended the University of Mexico with Epsilon-Beta alumnus Phil Hamer, well known campus personality of a few years ago. Al plans to spend the majority of his stay painting in his very distinctive style. His artistic touch has reached the University campus in various forms. Two of his most striking paintings are displayed in the main hall and it was Frater Harwood's creative ability that lead to Epsilon-Beta's award winning skit presented as a tribute to the University's 25th Annual Homecoming. Unfortunately, as was recently witnessed by a few close friends (and some not so close) Frater Harwood's talent does not lie in his singing abilities!

The top spot in the Teke program of coming events is reserved for the gracious and very lovely President of Delta Zeta Sorority, Miss Diana Ray! This leading campus figure has accepted the sponsorship of Tau Kappa Epsilon Fraternity for the coming Moroccan Queen election. It has also been recently announced that this beautiful co-ed will be representing our University in the Latin Fiesta Queen competition. Diana's winning smile, pleasing personality, and outstanding performance have resulted in her selection as Head Dancerette.

Campus Highlights

ZETA TAU ALPHA

The Zetas would like to take this time to wish everyone a Very Merry Christmas and a Happy New Year.

We are all very proud of our sister, Sally Correll, for her successful performance in the University Theatre's production, "Dial M For Murder". Congratulations, Sally.

Yvonne Bretz and Sandra Perez are candidates for National Guard Queen. They will be honored with a dance at the Fort Homer Hesterly Armory on December 12, at which time the queen will be crowned. Good luck, Sisters.

Gamma Sigma Chapter of Zeta Tau Alpha was honored by a visit from Mrs. Henry, our Province President. She was entertained and taken out to dinner by the active members and pledges.

The Volleyball intramurals are over and the Zetas were very successful. They placed third of all the organizations and first among sororities.

The annual Zeta Christmas party will be held on December 15, at Cathy Labruzzo's house. Christmas gifts will be exchanged by the girls.

On December 16, the Zetas will give a Christmas Party for the children at the Tampa Day Nursery. Punch and Cookies will be served for refreshments and Christmas gifts will be given out by Santa Claus.

NEWMAN CLUB

Newmanites held their regular Thursday night meeting on December 3rd. Plans for a full social calendar for the months to come were discussed by the club members. First on the agenda is a project to collect essential food items for Christmas for a needy Tampa family. Plans are in order to place a box in a convenient place in the school so that students may contribute to the project.

Initiations of Newman Club members will take place on the first Sunday after Christmas holidays, December 10th. All paid up members will be initiated.

Christmas Caroling will be the program for the meeting scheduled for December 17th. Members will meet at school and "journey" through the city singing the traditional carols. At the end of the meeting there will be a get-together and members will enjoy hot chocolate and cookies. All are cordially invited to come and join in the fun.

Teke's social calendar has been chock full this Fall of good times for all Fraters and their guests. To culminate this year's social activities, the Teke Gold Men will entertain needy children at a special Christmas party and will usher the old year out and the new year in, with a large New Year's Eve get-together.

SIGMA SIGMA SIGMA

As the Christmas season approaches, we can't help but feel a little more Christmasy and gayer than usual. You can almost smell the firs and the mistletoe and your heart swells with the spirit of giving, both to your loved ones and to those less fortunate than yourself.

In Tri-Sigma Land were hoping that this spirit of giving has extended to our Toy Drive for the Children's Home. We've been busy learning Christmas Carols for our Children's Home Party and for our own Christmas party at which Big Sisters and Little Sisters will exchange Christmas gifts.

As a special project this Christmas we're planning caroling for an elderly lady which was encountered by our sisters quite by chance. On the way to sorority meeting recently, Sisters Josie Alvarez, Sylvia Penzato and Gloria Rodriguez had stopped for a red light when a bent and haggard lady asked them if they were going in her direction. Acting on a spur of the moment decision they took her home and on the way there, discovered that our friend was about 68 and alone in the world. She had the misfortune of losing her mother 5 years ago. She washes and irons clothes for a living and hitchhikes most of the time or walks to wherever she was to go. Feeling that someone who is alone is more unfortunate than most, we decided to do something in our own small way to make her life a little brighter, so we decided to buy her a useful Christmas gift and keep her company a while with some carols.

Tri-Sigma life is never boring, although it isn't all fun and laughter. To really feel true sisterhood, you have to share sorrows too, and one way to come closer together is to share the sorrows of others.

Yours truly is beginning to feel a little sad at this point, so let's look at the bright side for awhile. And there are very, very bright things to look at on the horizon.

Today at twelve we're looking forward to the crowning of Aur Tri-Sigma Man. Who will be the Lucky Guy? Your guess is as good as ours, but one thing for sure, he'll be deserving of the title for you the Student Body have made it possible, with your Penny votes for the Children's Home Party and Toys. We chose the candidates, but now we leave it up to you to make the final choice, because we're equally proud of all our candidates and know that they're the greatest!

Remember, you have till 11 o'clock to vote and at the same time to contribute to a worth while cause.

In Sigma Newsland, we'd like to congratulate Shirley

DELTA ZETA

Chosen by Tau Kappa Epsilon Fraternity as their Moroccan Queen Candidate is our President, Miss Daina Ray. We know that Diana will represent us well as she always has in the past.

As one of their pledge projects, Delta Zeta Fall Pledges are holding a deviled crab sale in the lobby today. They may be bought anytime between 8:00 A.M. and 1:00 P.M. They will also be sold upstairs on the second floor.

Saturday, December 5, the DZ's gave a party for all the people who helped us in any way during Homecoming Festivities. Held at Antoinette Messina's house, the party was an overall success.

TEKE's and DZ's will combine forces on December 13 and have a big party at Hillsborough State Park. It will be an all day affair and should prove to be lots of fun.

Last minute news received while writing this article was the wonderful news of Yolanda Martinez "Brown" and Jeraldine Bledsoe being inducted into Sigma Tau Delta, honorary English fraternity. This is a great achievement as their grades had to be up to par before they could be inducted. Congratulations, girls!

Remember everyone, buy Remember everyone, buy your deviled crabs today!!

TOY DRIVE

Sigma Sigma Sigma Sorority is presently conducting a toy drive for the children at the Children's Home on Christmas. We placed a chimney in the lobby and we ask you to support us and make some child very happy at Christmas.

We will appreciate any contribution you can make, whether old or new toys. We'll be glad to fix them.

The toys will be distributed by "our Santa Clause", on Monday, Dec. 24, at our Christmas party at the Children's Home.

Thank you very much for your support.

Smith on her engagement to Robert Hudson. Congratulations Shirley!

At the same time your reporter (Lupe Cuervo) would like to say that she feels very proud and honored to have been asked to join the Professional English Fraternity Sigma Tau Delta, and I'd like to thank my sisters for their congratulatory song in the lobby.

From Sigma Sigma Sigma Sorority come the heartiest and most hopeful wishes for a wonderful Sigma Christmas and the very best Sigma New Year ever. Till we meet again in 1960 the best to you and yours. Merry, merry Sigmas.

THETA CHI

A few weeks ago the students of Tampa University were asked to cast a vote for whom they considered worthy of being placed on the list known as "Who's Who". To be considered means that the student body feels that you are an outstanding student neat and well groomed and an all around nice guy. However, it goes far deeper, for in being elected into "Who's Who", you are placed in a position of higher standing. For this reason, Theta Chi Fraternity wishes to thank the student body for considering our brothers for such an honor, and we congratulate Sammy Giunta, Anthony Muley, Rene' Carrera, Ralph Lazzara, Charlie McCullers and Wayne Wilson.

Every now and then a fraternity will be in a position to present solid entertainment and Theta Chi wishes to announce that a dance worthy of all who enjoy the art of stepping on each others toes will be presented January 9th, 1960. More details will be given at a later date, but if you should fail to read the Minaret, just remember January 9th.

Theta Chi Fraternity is also planning to form a debate team in the very near future. We firmly believe that many interesting ideas can be discussed and developed. Keeping ideas and opinions to oneself makes them worthless, therefore as soon as our debate team is established we will notify the student body. We sincerely wish other groups will wollow suit and form their own debate teams. Until next issue then, remember that in this University it's not Tampa U. vs. Student nor Student vs. Tampa U., but rather Tampa U.—Student and Vice Versa.

PI KAPPA PHI

Christmas vacation and the annual Christmas Dance rate number 1 on the Pi Kapp social calendar. The last dance of the "year" is one of two formal events which the Pi Kapps hold. Something new is to be added to the dance this year. This will result in a break of long standing tradition but for those concerned the event will be of greater meaning. Plans for a bang up affair are in the offering.

The Pi Kapps wish to thank our (glue fingered friends) for returning the Spartan head.

Starting a new basketball season with the new Spartan team are brothers, Bob Swergirt, Billy Turner and Marlin Clark. We wish them and the team the best season yet.

Crew season is just around the corner and brothers, Angel (the beak) Arenas, Vick Pezzula, Isley Barnes, Larry Arnold, Howard Gregory social affiliate Tom Addison are looking forward to those short hours, of easy living practice. Also a few brothers are looking for those letter jackets from last year. Any new students who are interested in a top flight collegiate sport for "men" can get information about crew from any of the Pi Kapps mentioned.

Manager—Dick Plom, Sarasota, Florida
Coach—Bob Lavoy
*Denotes returning lettermen
†Denotes returning Numeral award winner

After a somewhat dismal season as far as the won and lost record is affected in the 1958-1959 season, it is felt that Basketball is due for a jolt to at Tampa in the coming season. Coach Lavoy has another fine schedule to look forward to including such teams as Wheaton College, Wheaton, Illinois who were the winners of the N.C.A.A. small college tournament in 1957-1958; St. Peters College from Jersey City, New Jersey, a team who has appeared in the N.I.T. in the past two out of three years; Florida State University is back on the schedule as is the University of Florida. Transylvania College who has to take a back seat to the University of Kentucky but as far as basketball is concerned they take a back seat to no one plus the Florida Intercollegiate Conference which is improving with the caliber of players and contests each year. Georgia Teachers College, representatives of the 25th District to the N.A.I.A. Tournament in Kansas City will also be found a couple of times on the Spartan schedule. These and many others go to make up a schedule that could hardly be called a push-over for any team.

Coach Lavoy has six returning lettermen around which a nucleus can be formed plus 2 freshman numeral winners and 2 boys returning from service, another two returning to school after a layoff of one year, plus the addition of two freshmen acquired this year.

The returning lettermen are: Marlin Clark, Sophomore Forward and Guard; LaMont Craft, 6'7" Senior Center; John

by Mel Baumel
Sports Editor

Meim 6'5" Sophomore Center-Forward; Bob Swigert 6'4" Senior Forward; Billy Turner 6'2" Senior Guard and All-State player; plus numeral award winners John Wintermeier 6'8" Sophomore Center and Harold Scott 6'2" Sophomore Guard. Returning players who have played for Tampa in the past years but not this past season are John McNamara 6'4" Senior Forward and Robert Bengter 6'6" Senter-Forward, also a sophomore. With the addition of three new players, Don Boyt, and All Navy Center from the Coast Guard, Chuck Engelking, an All Navy Forward with Don Boyt, and Tony Garner, a highly sought after high school player from Swannanoa, North Carolina. Both Boyt and Gardner are extremely tall players — Gardner goes 6'7" and Boyt is 6'8".

The Spartans have lost one of their smarter players with the graduation of Fred Guzielek. The "Old Man" as he was affectionately called was 28 years old when he left the Spartans and was an exceptional two handed set shooter.

The Spartans will have better team speed, be much stronger off the boards and will have the year of experience behind them and their new coach. All in all it is felt that the 1959-1960 season will be an indication that the Spartans will no longer be statistics for other teams to get fat on but when the worm turns it sometimes turns for the better and in this case it is anticipated that the Spartans will make themselves heard from not only in the State of Florida, but Nationally as well.
