

SCHOOL'S OUT!

500 TO GRADUATE

More than 500 May and August graduates of the University of Tampa will be recognized during the annual spring commencement exercises of the University Sunday, May 20 at Curtis Hixon Convention Center.

The University's Office of Admissions and Records reports there are 322 candidates for degrees in May and 180 who are expected to complete their graduation requirements during one or two summer sessions. There are five candidates for associate of arts degrees in May and two in August.

Among the candidates, 237 seek the BS degree, 80 the BA, five a bachelor of music and two the bachelor of fine arts degree in May. The August list includes 136 candidates for the BS, 47 for the BA, three candidates

for the BFA and one for the bachelor of music degree.

As usual, business majors comprise the majority of the degree candidates with 90. One woman, Sharon E. Cohan of Kinnelon, N.J., is among the sea of men seeking business degrees.

Women comprise other minority groups too. For instance, Jacquelyn W. Albea of Tampa, is the lone woman among 19 candidates for degrees in industrial arts; two women are among 19 economics majors seeking BS degrees and a trio of coeds join 17 males who have studied criminology.

In other fields where men do not necessarily dominate the picture, there are 31 candidates with education majors, 24 with physical education, 23 history, 21 sociology and 17 who expect to pursue careers in biology. Nine candidates for BS degrees have listed industrial management as their majors.

The University of Tampa conducts commencement exercises in December and May. Candidates for degrees in August are recognized in May since no formal ceremony is held for summer school graduates.

HANSON TO SPEAK TO GRADUATES

Dr. Howard Hanson, Pulitzer Prize winning composer and director-emeritus of the Eastman School of Music in Rochester, will be the commencement speaker at the May 20 graduation exercises for the University of Tampa.

Ceremonies will begin at 2 p.m. at Curtis Hixon Convention Center for approximately 500 May and August graduates.

Hanson, one of the most respected music composers in America today, holds a multitude of honors and awards during a career spanning more than half a century. This will be Dr. Hanson's second trip to the University in less than a year. He was guest conductor at the inauguration of President B. D. Owens last October.

STANDARD OIL GIVES UT FINANCIAL GRANT

A \$1,000 unrestricted grant has been awarded the University of Tampa by Standard Oil Company of Kentucky.

Standard Oil, which annually presents a gift to UT, established a new division in Florida with approximately 200 employees.

Making the Presentation to UT President B. D. Owens was Jules Dervaes, Tampa Division Manager for Standard Oil Company of Kentucky. Accompanying Dervaes was Earl Blomeley of Tampa public relations counsel for the firm.

HONORS CONVOCATION TODAY

Honors Convocation, the day scholastic and leadership achievements during the previous year are recognized at the University

DR. BURR PRESENTS

Dr. Joan R. Burr, assistant professor of psychology at the University of Tampa, presented a research paper at the Southeastern Psychological Association's 19th annual meeting in New Orleans.

Accompanying her were UT students, Harry Moore, Ed Garrison and John Brown, representing the University's Psi Chi chapter. They exchanged ideas with other psychology students from throughout the Southeast United States.

Dr. Burr's study, done with rats, deals with whether rats tune out everything else in their environment when attracted by a specific factor, or whether general stimuli in the area effect their attention.

She also is co-author of a paper presented by her husband, Dr. D. E. Scott Burr, assistant professor of psychology at Florida Technological University, which is concerned with guinea pigs that learn quickly and those that learn slowly.

of Tampa, is scheduled Friday at 10 a.m. in UT's Falk Theatre.

Outstanding students in practically every area of the campus will receive awards and/or be recognized.

Highlight will be the announcement of the outstanding graduating seniors who will receive the Alumni Association Awards from Perry O. Keene Jr., president of UT's National Alumni Association.

Sharing honors with the students will be a faculty member named to receive the G.

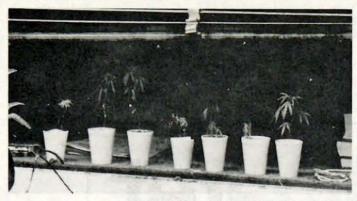

Truman Hunter Award. UT President B. D.

Owens will make the presentation.

Other awards include the Delta Sigma Pi (business) Scholarship Award, the Phi Alpha Theta International History Award, the Chemical Rubber Company Science Achievement Award, the Wall Street Journal Achievement Award, the Phi Gamma Nu Scholarship Key Award, the Blanche Yurka Award in Speech, the Delta Sigma Rho Forensic Award and the Rabbi Zielonka Award.

In addition, there will be ROTC cadet awards, the Interfraternity Council Academic Award, the Greek Man of the Year Award, the Outstanding Fraternity Award, Pan Hellenic Awards and the Dean King Sorority Scholastic Award. Student leaders will be recognized.

"THEY GROW TURTLES, DON'T THEY?"
Photo by Staff

GIVE JOHN A CHANCE

Good-bye John Lennon, you might have made it with a little help from your friends.

The U.S. Imagration Authorities have allowed John's wife, Yoko, to stay in America to look for her daughter, Kyoko, whom she has not talked with in over a year, but John was given 60 days to leave the country.

Mr. Lennon is being forced out by the officials who believe in clauses like "best interest" and "moral turpitude."

Yoko has to make the decision to stay here and try to find her child or leave with her husband. Is this the American Way?

The whole case against John is his being arrested a while back on a marijuana charge. But the man who busted him and George Harrison, Sgt. Norman Pilcher, is under indictment for "conspiring to prevent the course of Justice" in England. Pilcher has recently been arrested in Australia trying to leave that country. And the law in England

that if you own the house where the stuff is found, whether you are there or not you are guilty, has since been changed so he is not even guilty of possession.

Being an ex-Beatle he can at least hold a press conference and have some newsmen showup, but the help he needs is from the people and his friends. Not one of his fellow recording artists seem to care what happens to someone they owe their whole livelyhood to.

It is not like he wanted to blow up the capital, he just wants to live in America and create, music. He can't even ask people to help, but a letter addressed to your congressman in care of Washington, D.C., would be the help this man needs and it would only cost you eight cents. America couldn't have him when he was a Beatle, but in this country he just might be able to do again what he did ten years ago.

Karl Funds

"OD" by Karl Funds

SHORT ORDERED MEAL

I thought all of you out there in Spartan Land might find it interesting to note that the following 67 courses listed in the 1972-73 catalog, were never offered this year.

I think that the Dept. of Military Science is in close competition with the financial aid office for winning "The Peter Principle Award" this year, as they didn't get even one of their catalogue courses in the timetables. Mr. Sawyer need not worry about losing the award

though, as when voting time comes, we all know in our hearts that he has surely risen to his highest level of incompetency. The military; however, has been trying to reach that level for years but still keeps coming up with more and more new ways of being incompetent.

You might also like to know that 41 of these courses appear in the new catalog. I wouldn't plan on taking them, they're just window dressing.

Art 357, 359, 401; Bio 222; Chem 425; Eco 333; Edu 503, 520, 583, 590, 593; Eng 300, 306, 323, 401, 405, 430; Geo 263, 270.

Hea 250; Ped 150, 210, 305, 310, 330, 423; His 308; Psc 312; Iar 411; Mat 410; Msc 101, 102, 201, 202, 301, 302, 401, 402; Fre 402, 403, 450.

Rus 101, 102, 201, 202; Spa 406, 407; Mus 422, 423; Ori 100; Phl 205; Phy 400, 401, 410, 411, 412, 499.

EXCUSE US SPORTS FANS

I would like to extend a note of apology to the Athletic and Phys. Ed. Departments concerning the coverage of sports and intramurals in the Minaret.

As of the fall semester I have had to handle all sports and phys. ed. activities. Although I have found the work immensely enjoyable, it has been somewhat of a burden trying to cover 8 to 10 activities a week. We would be deeply grateful to both departments if they could possibly appoint a responsible individual who is affiliated in some way with them to write about each sport or intramural activity.

Please contact the Minaret, Box 2757 for future information.

I would at last like to thank the following people who have given me their time and efforts in helping me gather information for my articles. Sincerest appreciations go to Mark Carlson, Dr. Rodriquez, and coaches Vicky Johndrow, Joe Wiendl and Ron Rosenberry.

Linda Luizza

FIVE SELECTED OUTSTANDING EDUCATORS

Five members of the University of Tampa faculty with records as "excellent teachers" and "faculty leadership" have been selected Outstanding Educators of America for 1973.

They are: Dr. J. Ryan Beiser, chairman of the Division of Social Sciences; Dr. Francis Gillen, associate professor of English; Stephen Park, associate professor of music and composer-in-residence; Dr. Herman Saatkamp, associate professor of philosophy and religion, and Dr. Stanton Truxillo, associate professor of physics.

You Missed It!

The recent benefit concert given by Leadfeather at McKay Auditorium was one of the finest shows put on at Tampa U this semester.

Leadfeather is comprised of mostly Tampa U music majors who specialize in both contemporary rock and original compositions.

This concert was designed to aid the scholarship program in the music department but was plagued by organizational difficulties from the start.

Rather than just abandoning the cause and contracting a paying gig, that night Leadfeather came and played till the guitar strings about melted.

In short it was a good time. As is usual, about 30 students showed up for the concert, but instead of feeling dispondent and putting on a mediocre show Leadfeather played with a sincerity and enthrallment which is the true mark of showmanship.

THE MINARET V. 43, No. 24 MAY 10, 1973

UT'S RUSSIAN ADVENTURE

Adventure is a small word to describe the next Travel-Study tour organized by Prof. Garten to Russia and the Scandinavian Countries to be offered to all students for next winter intersession.

In such a case the proper word to use doesn't exist, so by making up a new word for the dictionaries, we will call it a "Fantabulous Adventure."

New horizons to explore, new people and new customs to meet and learn about. The excursion by itself is an incredible bargain.

Starting on Dec. 27, and departing from New York; visiting Amsterdam, Cophenhagen, Helsinki and finally the home land of Tchaikowsky, Russia.

The first city in Russia to be visited will be Leningrad, where the excursionists will see the Museum of Atheism and Religion, the Palace of Quay, the famous Palace of the Czar and the University of Leningrad, where students will have the opportunity to exchange impressions with Soviet Students.

The next city to be visited will be Moscow where the excursion will visit the Kremlin, the Red Square, St. Basil's Cathedral and Moscow's GUM, Russia's biggest dept. store.

Also in Moscow, the excursionists will have the opportunity to make Russian students their friends at the University of Moscow.

Finally the excursion will go to Kiev, capital city of Ukraine and once capital city of Russia. After visiting the Institute of Science and the Shevchecko State University, the students will have the pleasure to admire the monumental Cathedral of St. Sophia, Finally after 28 days of unforgetable experiences, the

excursion will return to New York via Helsinki.

Six students at this University have already indicated their interest in this exciting adventure. However, University of Tampa will join other colleges in this "Fantabulous Adventure." Definite arrangements will be known by October.

This Travel-Study course will also count as three credit hours, that is besides all the personal profit that you will obtain from it.

For further information on this matter, please contact Prof. Garten at his office on the second floor of Plant Hall.

Let him tell you about all the wild experiences you can have by visiting Russia next winter. You will never regret it.

FLOUNDER OR GEFILTEFISH

My hat is off again to another useful committee on our campus. Other students and I worked with the food project's office for a week to make a Tuesday Special Dinner a little more meaningful in the cafeteria

We planned a Jewish dinner to promote a little more

enthusiasm with a good percentage of the University. But that wonderful food committee met the previous Friday and decided it was unnecessary. Well to those students, all I can say is you've got HUTSPA.

Gold In My Ear

ATHLETE NEVER GIVES UP

When Hank Joslin won fifth place in the national Dominican Republic motorcross, he felt pretty good.

The next morning as he rode his Honda 350 trial bike to school he was looking forward to being greeted as something of a local hero when a pick-up truck pulled out of an intersection directly in front of him without stopping.

He laid the bike over on its side and skidded it into the side of the truck — approved biking procedure when faced with that kind of a situation. He only broke one bone.

Unfortunately it was his back.

"I never got to school — missed out on all that glory," the 18-year-old University of Tampa (UT) freshman says wryly.

That was last year and that motorcross stands out in Joslin's mind as the last time he felt really good about excelling in any sport. But now he says he plans to play on the Spartan football team.

Not any time soon, of course. He still walks with a foot drop brace because the paralysis (that used to be from the waist down) is not quite all gone, and he still can't sit up straight without dislocating a vertebra (which is very painful), but he has three more years to go here and he wants to get into the line-up before he leaves.

"Inside I say 'yeah, I'm going to get well,' 'Joslin says, "But there's always a doubt, you know."

His plans for football at UT depend largely on his back. While there is a possibility that the supporting bone that was shattered may grow back, if it doesn't he will have to have another operation — that means more recovery time and less chance of getting into shape for the team before he graduates.

He's hoping for the bone to grow back. "I tried everything" he said. "I even went to church."

Before the injury which left his legs totally paralyzed, Joslin played basketball, soccer,

football and was on the wrestling team in the high schools he attended in Virginia, Arizona and Santo Domingo, Dominican Republic.

Joslin came to UT because it was close to his island home and because "Spartans" was the same emblem of his Arizona high school.

He played football there his junior year and says he was in line for an athletic scholarship before moving to Santo Domingo.

His family lived there for several years when his father, Marine Col. (ret.) Henry Van Joslin, was stationed there after the 1965 revolution. He and his brother palled around with the same kids that greeted the Americans with bottles and stones.

"Latin people are real nice when you get to know them," he said.

The family liked the island so much that when his father retired from the service, he got a job in Santo Domingo and they went back.

Because of the dislocatable vertebra, Joslin takes a pillow with him to class and listens to lectures and takes notes lying on the floor.

"I felt wierd first semester, but I got over it. People who have what I have are recovering at home or in the hospital, but I wanted to be out doing something, so I'm going to school."

He bemoans the fact that his exercising is so limited and that his 188-pound body on a six-foot frame before the accident has dwindled away to 160 pounds on a six-foot one-inch skeleton. At one time he was down to 150 pounds.

"My legs are so skinny now," he said with a grimace, "That I look in the mirror and it scares me."

After three weeks of paralysis and five weeks on crutches, the spunky freshman began walking with a cane. That was six months before the doctors predicted he would. He walks with no assistance now except the foot brace.

Perhaps because he lived in the tropics for so

long, Joslin has picked herpetology as his major. That is the study of reptiles.

In the Dominican Republic he had a zoo in the backyard . . . monkeys, iguanas, boas." In Argentina, he kept alligators, turtles and, "a dog, of course." His spare time while in Virginia was spent collecting snakes and turtles, and in Panama he also kept snakes.

Actually he says, "It all started with dinosaurs out of Kelloggs Corn Flakes boxes."

At UT, Joslin is very active in Circle K, a service group affiliated with Kiwanis, and he sells hot dogs in his dorm to help pay for long distance calls to his girlfriend back home.

"Put in a plug for Circle K," he said when being interviewed. "They do a lot of good stuff."

Joslin has no plans for graduate school, he says, saying he wants to get a job in four years and do something about the medical bills he has incurred. But some day he'd like to go back to the Dominican Republic to live—and race trail bikes.

SPECIAL EVENTS SLATED

The Special Events Committee is currently considering the 1973-74 calendar of events. Once again there will be four series: Impact Series, Performing Arts Series, University Lecture Series, and Film Series.

One speaker for the Impact Series will be W. H. Auden one of the great literary figures of our time who will be making a short visit to the U.S. from Oxford University. One other speaker will be co-sponsored by the SGA; persons such as W. F. Buckley, Sen. Charles Percy, Dan Rather, and others are being considered. A student poll will help to determine who this speaker will be.

The Performing Arts Series has been expanded and will include a guitar and flute concert as well as the Hoffman String Quartet, Duane Locke's Poetry Recital, and other events. The University Lecture series is beginning to look for speakers in areas related to the six divisions of the university.

The Film Series will be expanded to include a popular series co-sponsored by the SPC. In addition, Kenneth Clark's "Civilization"

will be shown on campus in the early fall and late spring.

ZETA BETA TAU

Friday, May 4, we had our banquet at the Sheraton in Tampa. Highlights of the evening were: The passing of the president's gavel to Arthur Peffer by William Alvis. A special service award was given to Robert Dukker, who is graduating, but not without the expressed thanks of his brothers for his dedication.

Also special mention was given to the outgoing president, William Alvis, who gave the fraternity the leadership we expected.

Last, but not least of the graduates, Danny Athanasan; good luck, Dan and thanks. We wish all three men good luck with their respective careers, and all the good fortune life can bring.

Another feature of the banquet was a look to the future.

First off, we initiated Susan Anfanger as a little sister, and it is our pleasure to welcome Sue. With new officers, and a prospectively growing future, we are looking forward to next year.

I would like to recognize everyone in ZBT. They are: John Albea, William Alvis, Danny Athanasan, John "Swiss" Businger, Lee Carlton, Lawrence Chermol, Robert "Duke" Dukker, Samuel Greenblatt (in England), Julius Nagy, Arthur Peffer, Scott Seiler, Clifford Taft; and the sisters; Susan Anfanger, Lorrie Coleman, Anne Guzzardo and Michelle Lepore. Good Luck and happiness to Anne who is graduating.

Well that is all, see you next year, and have a nice summer.

L. C.

THETA CHI

The brothers of Theta Chi: Vinny Abaleo, George Sulock, Tim Lombard, Mike ZaVigue, Tim Smetana, Rich Gaudio, Wyck Furcron, Ralph Kline, Don Healy, Tom Gillick, Jerry Reigger, Randy Neucomb, Tim Mazzei, Carl Hatem, Bob Morris, Steve Kirshner, Pat Boyle, John McKenna, Lou Bezich, March Kelman, Barry Lipsky, Roger Weiss, Jeff Sweitzer and feed me.

And the little sisters: Cathy Rosenfeld, Kim Farrell, Carolyn Kaufman, Sue (what a body) Boyle, Debbie Walker, Rochelle Repka, Cassie Burroughs and Cathy Jackson want to wish everyone a happy summer. Also congratulations to March Kelman and Kim Farrell on becoming lavaliered.

Mad

OMICRON DELTA KAPPA

The following officers were installed at the initiation ceremonies of the University of Tampa Circle of Omicron Delta Kappa in the River Room of the University Union, May 2, 1973.

President—Stephen Alan Goldstein Vice President—John W. Ehmer Treasurer—Robert Petrisko Faculty Secretary—Dean John Meyer Faculty Adviser—Dr. Herman Saatkamp

Along with Dr. Ed Ward, National Administrative Secretary for Circle Relations of ODK, President Stephen Goldstein will attend the Province III Conference in Miami, May 4-5, 1973.

Its nice to take time to have an ice cream cone with a friend, pass the time, and tightenup with society.

Photo by Toni Furst

DELTA SIGS REPORT

The Epsilon Rho Chapter of Delta Sigma Pi sponsored the second annual U.T. golf tournament played at the USF golf course on April 29. Congratulations to Brothers Dan Brooks, committee chairman, George Sweat, and Bob Adams for achieving a highly successful tourney.

Concerning the tourney, the Deltasigs captured the third place trophy just two strokes out of first place. Team members were Brothers Wes Green III, Jim Cannon, Tom Gilliams, and Doug Evaul. . . . Congratulations Brothers!

The Deltasigs would like to express their gratitude to our little sisters of Phi Gamma Nu for their assistance in the recent U.T. golf tourney. Their efforts contributed immeasurably towards the success of the tournament.

Special Project Chairman, Brother "Hey-Huh-Okay" and his committee of one, Brother Dickerson have reported that the calendar for school year 73-74 has reached the

PI KAPPA PHI

Our new daughters and rosebuds for this semester are daughters: Pat Dantona, Linda Luizza, Laurie Fiederowitz, Betsy Klieger, and Jamie Severy, and the rosebuds are Kathy Evert, Carol Jannavone, Debbie Kilmer, Mary Ann Levins, and Mary Tully.

The brothers would like to thank all of you for starting our weekend off Thursday night with a keg. The weekend gave everyone a chance to relax and soak up the sun and some beer on the white sand of Indian Rocks. The Gulflanes Hotel provided a place to crash and everyone had a wild time but it was hard to leave and come back to Tampa for finals.

Congratulations are in order for Steve Kidd for winning V.P. of I.F.C. Also Butch Macri was elected our new Archon and Bruce Losee our new treasurer. Congratulations are also in order for Rudy Toth on being engaged to Debbie Kilmer. Alright Snidley! Good luck on finals, and have a good summer. You can be sure we'll be back next September for another successful year.

final completion phase and will be ready for free distribution during fall registration.... Fine job, Jay!

The Brotherhood gathered for a tremendous end of semester party at Brother Harper's spacious estate last weekend. Miraculously, Brother Harper's estate retained its appraised value throughout the ordeal. . . . Thanks Gene.

In closing, the Brothers would like to express their sincere thanks to the student body for their efforts in enabling the Deltasig check cashing facility to operate "in the black" bad checks were at a minimum.

Denny Lane

I. F. C.

The newly-elected officers for the forthcoming semester are: Rod Piatt, President—Tau Kappa Epsilon; Steve Kidd, Vice-President—Pi Kappa Phi; and Jeff Willis, Secretary—Sigma Phi Epsilon.

Continuing in their yearly office will be Tom Harrington—Tau Epsilon Phi; and Mike Cohen—Tau Kappa Epsilon, holding the jobs of Treasurer and Historian, respectively.

In this closing issue of the Minaret, I'd like to take this space to publicly thank this past year's leaders of I.F.C. for their guidance and hard work in achieving the goals set forth, during the previous nine months. All fraternities benefitted from their hard work.

I wish everyone a happy vacation, and all seniors the best, in their future endeavors. And, to all organizations, may you benefit from a fruitful rush within the coming year. Until September.

I.M.C.

SOCCER

Practice for 1973 season will start day prior to Registration. Contact Coach Wiendl.

PLAYOFF HIGHLIGHTS

Highlighted by a sudden-death playoff, the second annual UT golf tourney, sponsored by the Deltasigs was played under clear skies and a scorching sun on the USF golf course April 29.

The tournament, even more successful than last years inaugural, received high praise from both players and observers. Eligible participants included staff, faculty, students, and alumni.

Capturing the low gross trophy was Rick Yuhas who toured the course with a 78. Finding themselves locked in first place with a pair of net 76s, Don Sheerin and Jack Scott decided the issue on the second hole of the sudden-death playoff with Sheerin emerging the winner by a stroke.

The team championship couldn't have been closer with only two strokes separating the

first three places. Pen and Sword #3 captured the perpetual trophy with a score of 314, followed by Theta Chi (315), the defending team champion, and Delta Sigma Pi #2 (316).

Other trophy winners were as follows: second, Jack Scott; third, Joe Lacey; fourth, Dave Halper; fifth, Dave Meaders; sixth, Chuck Lewis; seventh, Rod Tilman; eight, Bob Donahue; ninth, Dr. Truscott; and tenth, George Sweat. High gross honors were captured by (name not mentioned) with a gross score of 131.... however, his initials are Ross Markle. If this reporter would have entered, the high gross prize would no doubt be right alongside this typewriter. Wes Green III and Jack Dowden won the "closest to hole" trophies and Rich Gaudio took a trophy for the longest drive.

The tournament was played under a modified Peoria handicap system with Dan Brooks,

CLUB GETS

TOURNEY

committee chairman, employing the talents of not only his wife, Maggie, but also the Deltasig little sisters of Phi Gamma Nu. The combined talents resulted in a highly efficient organization which received noteworthy praise from everyone associated with the tournament.

Serving as scorekeepers, the Phi Gamma Nu girls were "on the ball." In fact, this reporter overheard one of them very tactfully query a player "How did you get a five on that hole when you got out of the golf cart eight times?" Dr. Truscott started the day off in fine fashion on the first hole as he made a "hole-in-one," that is, on his sixth stroke.

Official photographer for the tournament was Paul Fronczek. Individuals desiring photographs may contact Paul via U.T., P.O. Box 2382.

Local area merchants supporting the U.T. tourney were: Dale Mabry Real Estate; Pants Towne; Stuff to Wear; and Kirby's Men's Wear.

Denny Lane

GYMNASTICS

Every Thursday night at 7:00 the gymnastics club met in the gym for two hours of tumbling and gymnastics.

The club organized in the fall of '72 by Coach Ronald W. Rosenberry, aims to promote the following purposes:

SKI TEAM IN LAKELAND

There were some very unique individuals highlighting our Lakeland and Gainesville tournaments.

At Lakeland Kathianne Evans took second place in womens tricks with 1340 points and also second place in womens jumping with 72 feet.

In both Gainesville and Lakeland Robbie Kempton took first places in mens tricks with 2893 points and 3014 points. In mens jumping he jumped 126 ft. and 136 ft.

This team has done well this semester and has even improved in their already phenomenal skiing abilities.

Our last tournament is scheduled for May 12 and 13 at Lake Worth on the east coast.

IT ON 1 An interest in gymnastics among men and

women of all ages.

2 To provide an opportunity for people to meet psychological and physiological

challenges.

3 To explore gymnastics as a lifetime activity.

4 To help people understand the physiological

values of improving their levels of physical fitness.

To provide opportunities for social

interaction.

6 To explore gymnastics as an aesthetic experience.

Some 50-70 people participate in using the trampoline, parallel bars, balance beam, chin-up bar and other apparatus facilities. Excellent instruction is also given by Coach Rosenberry in vaulting and florex exercises.

A project is underway to produce a film in Gymnastics concerning Problem Solving-Teaching style. This is to be completed by December.

The club is open to the entire student body with a required annual dues of \$1.00. This insures payment for handguards and magnesium chalk used on the equipment.

Officer elections are held every fall semester. Present officers are President: Coach David Jenkins; Vice-President: Bobbi Edison and Sec.-Treas.: Judy Scott.

UT BASEBALL OVER

The Spartan baseball team ended their spring roadtrip with very unfortunate results of all losses. Senior catcher Mike Rubio was hurt and unable to play in the last four games of the trip.

The major problem of the team lies in their lack of experience and depth. Pitching has been good but their batting average is compositely poor.

There are, however, some outstanding members on the team. Good performances in pitching are still being given by Sam Howell, Cecil Kent, and Hank Propper. Sam, Cecil, second baseman Tommy Thomas and first baseman Bert Ramas are still being scouted by professionals. Bert has been the offensive leader in every category this season.

The competition has been tough and the Spartans have learned alot. Whether their experience proved to be beneficial or not remains to be seen next season.

Linda Luizza
