

Mitchell Is Student Body President

BERNIE MCGOVERN

MICKEY JACKSON

STUDENT BODY VEEP RUNOFF HELD TODAY

There will be a run-off for the office of Vice President of the Student Body. The candidates are Mickey Jackson and Bernie McGovern. Dan Rodriguez bowed to the two run-off candidates.

Bernie McGovern feels that his qualifications and platform have already been set forth. As for his reaction to the election, he has one statement to make: "I am pleased."

Mickey Bernie's opponent was interviewed and stated

that: "I feel honored to be one of the two in the run-off. I'd like to extend my appreciation to those who supported me throughout the first election and I hope they will still place their faith in me along with many others who may have voted another way the first time. If I'm elected, I'll work as closely as possible with the Student Body President to make the University of Tampa a greater university."

John Wins Election; Receives 344 Votes

John Mitchell, Senior from Princeton, Kentucky, has been elected president of the student body over his opponent Wayne Wilson with a total of 344 votes. John is president of Sigma Phi Epsilon social fraternity, captain of the football team as well as a member of the Circle K and Lettermen's Clubs.

When asked to outline his future plans and to comment on the overwhelming support he received, John made the following statement:

"I would like to thank you, the student body, for electing me as your president. I accept this position realizing that the obligation is a dual one (1) It is the greatest honor an individual could receive, and (2) It carries with it a degree of responsibility unequalled by any other office. I am looking forward with a great sense of anticipation to the start of my work as your student body president."

In preparing myself for this position, I am attending a Student Congress Convention in Mississippi. I will have a full report to make to you upon my return. Attending the convention with me will be Wayne Wilson and Rene Carrera. Our purpose for attending this meeting is to secure new ideas that will further motivate the progressive program of the University and also aid us in our job as your representatives."

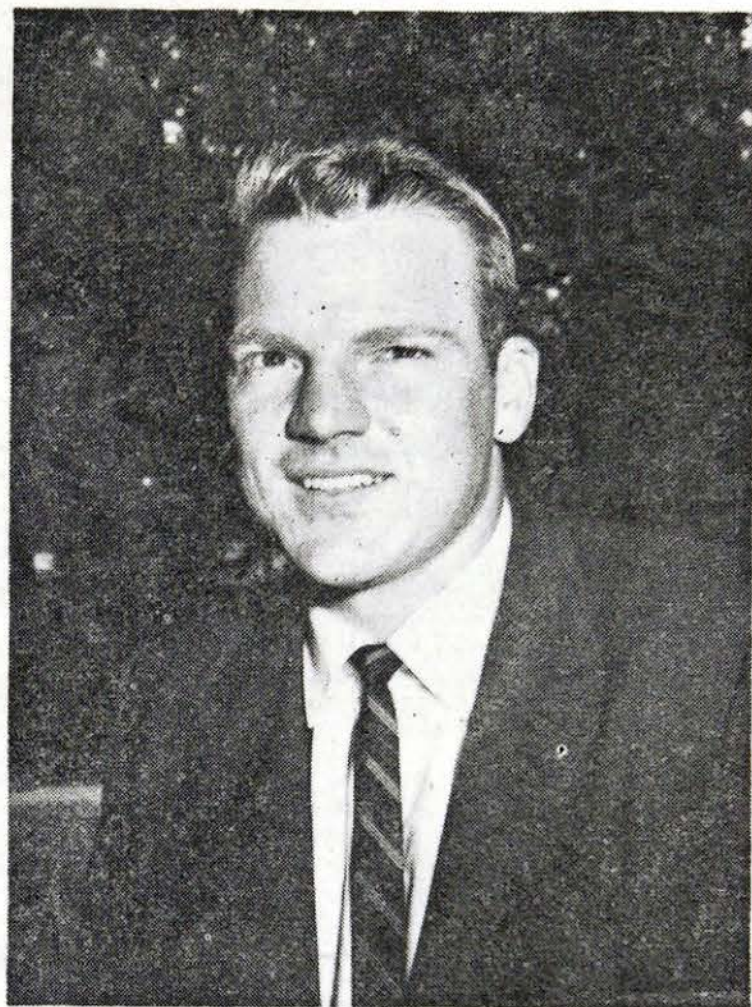

support during the run-off."

Carole Murfee won the position of sophomore secretary-treasurer over Pat Alvarez. Carole one of the outstanding members of Student Congress last year, plans to continue to dedicate her time to improvement and progress.

Frances Felicione and Josephine Pendino are in the run-off for Sophomore representative having edged out Pat Fussell.

Frances Felicione plans to work toward the publication of a complete student directory. When asked how she felt about the number of votes she received, Francis commented: "I truly appreciate the support I have received and hope that this support will continue and increase during the run-off."

(Continued on Page 4)

SENIORS ELECT LAZZARA TWO STILL VIE FOR VEEP

Ralph Lazzara won out over Ross Jett with a total of 99 votes. Ralph, who has been in student congress for three years, had this to say about being elected President of the Senior Class: "I am sure that my past experience will enable me to do a good job. I feel that my opponent ran a very fair race and I am very thankful to the Seniors for thinking me worthy of being their president."

There will also be a run-off for the office of Vice-President of the Senior Class between

Andrew Mirabole and Norma Fernandez. Sylvia Rivero was the 3rd candidate. Andrew wishes to thank the students for their votes and asks for their support in the run-off. He hopes that he can live up to the work of predecessors and strive for a "bigger and better Homecoming."

Norma Fernandez said, "I feel it's a big honor to be in the run-off. I am grateful for those who supported me. If I do make it, I'll do the best I can."

Sue Phillips ran unopposed for the office of Senior secretary-treasurer. Sue feels that next year's homecoming will be even better than the last. She is looking forward to working with John and the new VEEP. As for her election Sue said, "It was a hard race but I knew I'd come out on top, especially since I had no opposition."

Rene Carrera was elected as one of the senior class representatives out of a field of five: Rene, Judy Yavornik, Vilma Tamargo, Josie Alvarez and Marie Goding. His attitude is best expressed in this statement: "I'm looking forward to a progressive year filled with cooperation, success and true representation of the Senior Class."

Marie Goding was chosen as Senior representative. Marie

(Continued on Page 4)

CHARLIE LYLE, President

CHARLIE LYLE IS JUNIOR PRESIDENT

Charles Lyle heads the list of Junior class officers; Charlie's opponent was Lefty Louis. Charlie, a football player, expressed gratitude to those who voted for him and pledged his untiring efforts for student representation.

(Continued on Page 3)

NEVE EDGES OUT HUFFMAN

In the Sophomore class, Jim Neve maintained a slim lead over William Huffman to win the office of President. Jim thanked all his classmates and expressed his joy in being re-elected. He promised to "uphold the office to the best of my ability." Jim felt, "that while Student Congress was good in the past year, I will help to make Homecoming a super-production this year."

Joe Gilbert and Sandy Rodriguez are deadlocked for the Sophomore Vice Presidency. John Procaccio and George Nousianen were nosed out.

Sandy plans to work for increased school spirit and for each individual student, if elected. She says, "The competition is tough but if elected, I know I can do the job well."

Joe's platform includes working for male cheerleaders and for an improvement in the rules for freshman rat court. Joe stated that he "appreciated the support shown in the primary and hopes that the same students will continue to give me

THETA CHI INJURED

Rock Thrown At Praying Student On Easter Virgil

by Tony Castellano

Almost two thousand years ago, in a land so remote and far away that many of us are aware of its existence only once a year, a child was born whose name was Jesus.

Jesus Christ was to many, the true Son of God, while to others, he was an agitator whose very existence was a menace. He was a menace because he taught love, humanity, and all the basic goodness of life.

Today Christianity is prevalent in a large part of the world and every year as if to pay homage and renew that faith, all the Christian religions observe Easter Sunday.

As if crucifying the Christ wasn't enough, even today in the modern and advanced civilization, there are those who would cast stones. To those persons Christ addressed these words, "Let he who is without sin cast the first stone." I firmly believe he was also speaking to these same type of persons when he spoke of the generation of vipers.

About two weeks ago, a young man knelt in meditation, in observance of the coming Easter Sunday. Meditation can mean many things; thinking of peace, love, betterment of self, and of fellowmen. Yet this young man's fellowmen answered him with stones! Stones which were thrown in defiance of a person's freedom of religion.

Why? I ask, must be there such people in existence. Perhaps he or they had a good laugh at the thought of hurting someone, or perhaps, they just don't believe in God. However, if God does exist they will answer for their actions.

If they have a conscience, they will not sleep for many nights because of what they have done.

And, lest they should feel their rock throwing is a minor incident, allow me to state here and now, that such a person belongs in the same category as those who bomb synagogues and paint swastikas. Only animals resort to such a low degree and manner of showing dislike. Rather a rattlesnake who warns before he strikes, better a dog who growls before he bites, than a terror in human form who will not allow a man to pray.

LETTERS TO THE EDITOR

Education Differences Should Be Resolved

In this contemporary era of sputniks and interplanetary space aspirations, we find the faculties and administrations of the universities of the nation conducting surveys, making studies, and spending endless hours debating (arguing in many cases) over what can, and what should be done to improve the quality of education being offered at their respective institutions. We, the college students of these universities, attend classes to hear college professors climb on their soapboxes and preach the evils in the education department and the damnation and curse which this cult of professors has levied upon the American society and the students of the nation. On the

other hand we find the education professor defending progressive education and he vigorously tries to illustrate the good and wonderful contributions that the contemporary concept of education has given the nation. In the midst of this conflict (slight resemblance to a war) we find the bewildered college student patiently waiting for the professors to settle on what is going to be done with the curriculum and how it is to operate and of course, when. Unless a compromise is reached soon, we will regrettably find that the Russians will not only circle the moon but colonize the planet Pluto.

Plano Valdez

Student May Receive Free Professional Help

Isn't it amazing how we students work and make our way through a four year college curriculum in preparation for some future career; and when the time comes for interviews with prospective employers we think all we have to do is walk in and tell these people, "here I am", and our job worries will be over. Well friend, it just "ain't that simple."

I am sure many of you know what I mean. The employers don't come knocking our doors down just because we have a degree. Today's employers are very particular to whom they give their money. The applicants are judged not only on their scholastic record but also on the way in which they present themselves to the interviewer.

We, here at the University of Tampa, are very fortunate in that Dean Setear is well versed in the techniques used by the interviewers. He can give us many pointers on what to say, what not to say, and perhaps more important the manner in which to say it.

We students going out into the business world, who do not avail ourselves of the advice which the Dean of Men has to offer, will quite probably do an injustice to ourselves in that we may have to accept something less, in a job offer, than might otherwise have been necessary.

Why not take full advantage of the opportunity to get professional advice absolutely free.

EDITORIALS

Tampa University's Future Is Bright; The Past Need Not Be Darkened

Sunday, April 24, the Tampa Tribune featured an article concerning the University of Tampa. The plans for the future and accomplishments were discussed. Present progress was illustrated beautifully. How unfitting that these worthy developments were brought out at the expense of Tampa University's past.

Present progress speaks for itself. There is no need to underrate the past in order to emphasize the future. Yet, in the feature the University of a mere five years ago is spoken of as a place students were ashamed of attending. A very small minority took it upon themselves to voice the opinions of the thousands of graduates of the University of Tampa as well as those students still enrolled. The University in the past, has contributed much in the way of leadership and culture to the community. Many of the leaders of today who owe their education to the University of Tampa would undoubtedly strongly defend it's past.

Improvements which have been made should definitely be played up. There is no doubt that the University has progressed greatly, especially physically in the last eighteen months. However, it is a definite slap in the face to the members of the faculty who have been here several years as well as to the many proud alumni to refer to the past as something to try to forget.

What American would say that if he had lived prior to the Twentieth Century here in the United States he would have hung his head in shame? He would have done so because industrialization and big business, modern inventions and facilities were not available then in this country. Such a person would lose the respect of his peers, and would certainly not possess any great amount of patriotism. The same can be applied to the University of Tampa.

The progressive process has been greatly accelerated. The Facilities Fund is the beginning step of a still greater era for the University.

Every member of the administration and staff, from the newest janitor to the top administrator has contributed to the drive now being conducted. Many of these contributors give because they feel the University of Tampa has a great future and many because they are a part of its past. How unfitting then, that any part of this University's history, past or present not be held high as a milestone on the way to the plans that are today becoming reality.

The future is brilliant, the present bright, but the past is not dismal, only darker by degree.

TAKE TIME

Take time to work—it is the price of success.
Take time to think—it is the source of power.
Take time to play—it is the secret of perpetual youth.
Take time to read—it is the foundation of wisdom.
Take time to worship—it is the highway to reverence.
Take time to be friendly—it is the road to happiness.
Take time to dream—it is hitching your wagon to a star.
Take time to love and be loved—it is the privilege of the gods.
Take time to look around—it is too short a day to be selfish.
Take time to laugh—it is the music of the soul.

MINARET

DEADLINE

WEDNESDAY

APRIL 4

12:00 NOON

The Dreambeat

by Bernie McGovern

"All right, class, now that we've had our little joke", today's subject is women . . .

There was a time when a scolded wife could take it to heart instead of to court . . . It's easy for a mother to hear herself talking—all she has to do is listen to her kids . . . Women who are usually giving somebody else a piece of their mind are usually the ones who can't afford it . . . When women get that foolish yen for simpler things, they marry men . . . When a man boasts he married a beautiful woman and a wonderful cook, some people suspect he's a bigamist . . . When two women start saying goodbye, there's much adieu about nothing . . . The latest thing in women's clothes is usually a woman . . .

* * *

A newlywed came down to breakfast to find his bride of two months weeping bitterly. "Honey," he asked, "what's wrong?" "Everything," wailed the wife. "You go to bed at night after all the housework is done and what happens? While you're sleeping, sheets are wrinkled, dust is settling, stomachs are getting hungry.—You just can't win." . . . "Have you ever driven an automobile?" the lady applicant for a driver's license was asked. "Over 100,000 miles" interrupted her husband, "and never once had a hand on the wheel."

* * *

Do you think women are harder to get along with than men? Well, sad to say, they are. The results of countless surveys, tests and experiments all indicate that such is the case. Women are not only harder to please, they are more critical of others' shortcomings and they find fault quicker than do men. Women even tend to be more annoyed by people, places, situations, and things.

* * *

One consoling factor for the ladies, reported by psychologists: being more critical than men, women are more accurate in their judgment of character, are fooled less easily, and have far superior intuitive faculties.

On women, Our Thought for the Day: "Baloney is the unvarnished lie laid on so thick they hate it. Blarney is flattery laid on so thin they love it."

MR. AND MRS. SEIBER, DAVID, SHERI, AND ALLISON
MAKE A PERFECT FAMILY PICTURE

FACULTY FAMILIES INTRODUCING The Truman Seibers

Among the many family men and women in our faculty, we would like to spotlight Mr. Truman D. Seiber, instructor of geography, and his family. A native Floridian from Miami, Mr. Seiber met his lovely wife Heraldine right here at the University of Tampa, while he was stationed at MacDill Air Force Base. Mrs. Seiber is the busy mother of three children David 6, Sheri 3, and Allison eighteen months old. Pop Seiber has a grand time with them, but at times prefers to take in a game of golf with Mr. Reed (that is, when he can get him to go).

The Seibers have their home in Clair Mel City, where several other members of our faculty live. Their favorite pastime is spending the day at the beach, which of course the children enjoy very much. "It's pretty hectic keeping up with three healthy little young ones, especially when all three are learning to swim at one time," said Mr. Seiber.

In her spare time, Mrs. Seiber takes math and psychology and is working toward a degree in secondary education. These activities are not all she does. According to her grateful husband she's a magnificent cook and a fine housewife as well.

Mr. Seiber was just initiated into Alpha Phi Omega, service fraternity here at the University. He was also a member of Beta Theta Pi fraternity and Delta Sigma Pi honorary business fraternity at the University of Florida, from which he got his degree. This is his third year with the University of Tampa. He enjoys teaching immensely, although his first desire was to specialize in Industrial Relations and intelligence work for the government.

The 5'9" blue-eyed instructor was also a tennis player for Miami Edison High School and still enjoys a good game now and then. His pet peeve is student apathy.

NEW DANCERETTES TO BE CHOSEN ON MAY 4

Attention all candidates for the 1960-61 dancerecette corps!

Tryouts for the University of Tampa Marching Band's dancerecettes will begin on April 25th with subsequent meetings on April 27, 29, May 2, 4, and 6. Final selection will be made on May 9th. Girls interested must be not less than 64 inches

and not more than 69 inches tall.

These tryouts, under the direction of Mrs. Iris Williams, the dancerecette coach, will be primarily for incoming freshmen, but students already at the university are welcome to come out.

INQUIRING REPORTER

A new core curriculum is being introduced shortly here at the University of Tampa. Your inquiring reporter thought that students might have some ideas or comments on this pending change.

HOW DO YOU FEEL ABOUT THE PROPOSED CORE?

Dan Rodriguez

The basic idea of a core is sound. The concept is comparable to that used in the two state universities here in Florida. However, I feel that too many courses are being included which are not necessary. More latitude should be given. That is, students should be allowed more freedom in selection of courses applicable to their individual fields of interest.

Sue Foster

I feel that the proposed core is a definite improvement over the present system.

Julius Vircelle

The core is essential to the standing of the University of Tampa in view of the fact that the new State University in this area will force Tampa University to offer an elite liberal arts education. This curriculum will certainly attract a better quality of northern students.

Ross Jett

A core is not advisable in a school of this size. It would result in a graduate who is the product of many small general courses that actually contribute little to the person's major field.

REVIEW OF BRIGADOON

Sword Dance In "Brigadoon" Draws The Largest Applause

by Mildred Walker

The whole music department of Tampa U. is wearing a justifiably proud smile now that the final curtain has descended on "Brigadoon". The 2½ hour production on April 23 stirred both laughter and longing among the onlookers and the enchantment of some of Lerner and Loewe's most beloved music left the audience spellbound.

Under the outstanding guidance of Prof. Lyman Wiltse, musical director, and Lloyd Spangler, choreographer, the cast displayed its singing, dancing, and acting with professional zest. Spoken lines were understandably articulated, greater credit must be given to the audibility of the sung messages. Several of the songs, especially the comic bits, contained tongue-twistingly rapid lyrics. But the excellent performance of such evoked appreciative laughter from the audience.

Sally Wallace as Fiona and Jack Jenkins as Tommy, rendered heart-capturing performances as main leads. It is difficult to determine which was more admirable, their acting or their singing. Barbara Anderson and Douglas Vance

practically stole the show with their comedy roles. Others with speaking parts did equally well. Not one person on stage appeared ill-at-ease, and all spelled out the story in such a way that the showgoers themselves felt like townsfolk of Brigadoon.

The large group of dancers, who are Tampa U. Chorus members, enthralled the onlookers with their happy-go-lucky rhythm and their swirling, colorful costumes.

Drawing the largest hand of applause was the Sword Dance by Joyce Cameron and Irene Noland. The lassies did the highland fling to the accompaniment of drums, and of bagpipe played by David Watson. The number added Scotch authenticity to the play.

Each song sung either solo, by duet or by the chorus, was applauded immediately after its presentation, so that applause rippled through the entire production.

Scenery and props were excitingly realistic, and lighting effects made the production seem all the more professional. In one scene, when a sudden rain began to pelt the village, "lightning" flashed, "thunder" rolled, and as villagers scat-

tered frantically for shelter, the scene became almost unbelievably realistic.

A moment of suspense is aroused when Harry, played by Weyman Hudgins, threatens to leave Brigadoon. He is the jealous lover of Jean MacLaren played by Cecelia Fernandez, who had just married Charlie Dalrymple. Since the village is somewhat a myth, coming to life only once in a century, it will vanish forever if anyone leaves. During the chase to retain Harry, he falls and is killed. A funeral follows, and Grace Klein as Death takes his soul in a dance interpretation.

Placing a lump in every throat and a tear in every eye was the scene wherein Tommy, after returning to N.Y., has visions of Fiona singing as she did in Brigadoon. In the end, the two are reunited in a touching love scene.

As the last strains of the orchestra swelled, the curtain closed on an unforgettably magnificent performance. As the audience cleared the auditorium, the feeling which each heart enclosed was akin to one of the show's loveliest songs—"It's Almost Like Being In Love".

was recently recognized for her outstanding service during the last year. When asked about her future plans Marie stated, "I want to get a student directory started and have several new ideas for Homecoming. I would like students to give me their ideas which I will bring up in Student Congress. I would like to thank all those who voted for me. I feel very honored because opposition was great."

other members of the Junior Class and the student body as a whole."

Joe stated that he was grateful for the support he received from his fellow Sophomores. "I would appreciate further support. I am suprised and grateful because I was running against some stiff competition."

Sue Foster was elected Secretary Treasurer of the Junior class by a wide margin. Her opponents were Linda Boyette and Diana Barbary. Sue expressed her wish to work with students in every way possible. "I would like to thank all those who voted for me and assure you I will try to do a good job."

Tina Sichel won over Yvonne Bretz in a close race for Junior Representative. Tina was quoted as saying, "I was surprised and very, very pleased. I really wanted the job and will strive to do my best to be deserving."

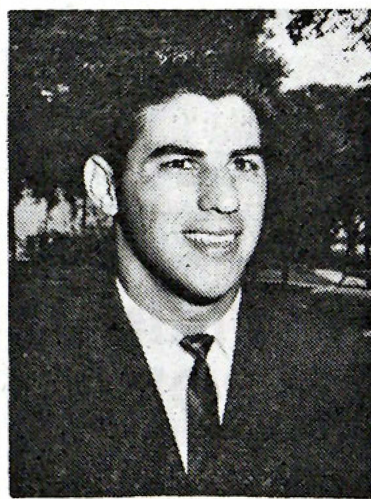

Sophomore Veep and Rep. Candidates In Runoff

Josie Pendino summed up her feelings in the following statement: "I'm tickled pink about being in the run-off."

After almost making it last year, I am very hopeful my fellow classmates see fit to back me for this office, for which I feel qualified."

Science Department Receives \$1755 Grant

Tampa University's Science Department has been awarded a grant of \$1755 by the National Science Foundation under the Undergraduate Research Training Program.

The grant is to be employed for a research project in organic chemistry and infra-red spectroscopy. Two students will be selected from those now attending chemistry classes, to participate in this special work.

These students who will conduct the research will be chosen on the basis of their intention to attend school in advanced work and on a high level of scholarship in science and mathematics.

Said students will receive \$60.00 a week during the nine weeks of research during the summer. Dr. Tornyak will direct the program.

All money appropriated will go to the students. Faculty members donate their time.

Under the grant the University will be able to purchase a special apparatus for research worth \$300 which the school will keep when the program is completed.

The University of Tampa will benefit in a number of ways as a result of this program. There is a good chance that some original research results will be obtained. These would not only give the students experience but could prove worthy of publication in the Journal of the American Chemical Society.

The main purpose of the grant and therefore, of the program to be conducted here at the University is the furtherance of student training.

DONALD E. ESCARRAZ

ESCARRAZ WINS FULL FELLOWSHIP

Donald E. Escarraz has just been awarded a full fellowship to the University of Wisconsin. This fellowship includes a full schedule of courses with no work (part-time) involved.

Donald was offered eight assistantships and scholarships from different universities but, he decided that the one from Wisconsin was the best for him.

Don is a Senior at the University of Tampa and is majoring in accounting. He has been attending the University since September of 1957. He was born in Chicago and is now a resident of St. Petersburg.

He received letters of recommendation from Dr. Keene, Dr. Nielson, Professor Worthington, Professor Apple, Professor Roberts and Professor Wieman.

When Don finishes his education he plans to teach Accounting.

Men's Dorm Holds Dance

Saturday night, April 30th will see the advent of a most unusual scene — girls in the men's dorm. This is the date set for the first dance to be given in said institution.

Plans for the dance, once but a figment of the imagination became reality several weeks ago when the basic arrangements were made. Heading the committee in charge of the dance are Gregory Esposito and Mike Malloy. A general meeting held Tuesday, April 26, served to polish up the last details.

Music will be provided by a band and will begin promptly at 8:30 p.m. eastern standard time. The dance is open to all students.

Wilkins Gives Concert At Tampa University

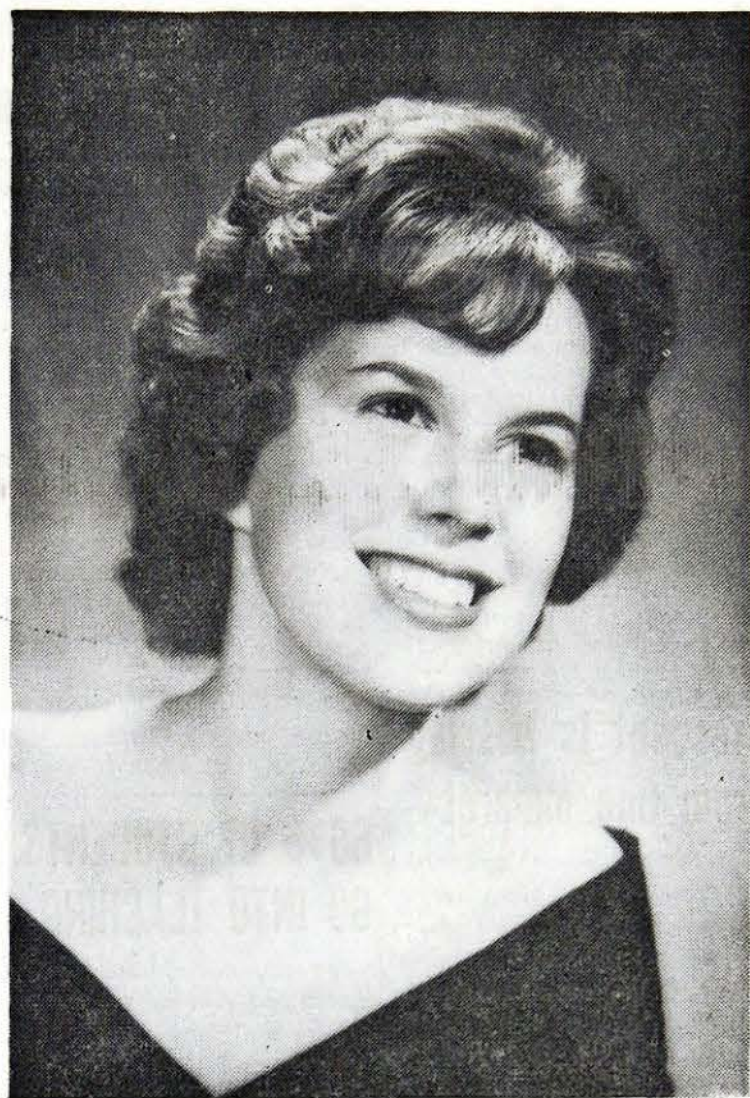

Frederick Wilkins, flute soloist with the Voice of Firestone Symphony Orchestra for over twenty years, was presented in a concert clinic at the University of Tampa on Friday, April 22, at 8 p.m.

Regarded as one of the nation's foremost flute soloists and teachers, he now devotes himself to giving clinic throughout the United States before school and college educators and students. Prof. Hunter Wiley, Director of Band at the University of Tampa said "this was a memorable occasion for all of us in the Tampa area."

Besides playing with the Firestone orchestra, he has played with other radio and concert orchestras in New York and through the United States. Before joining the Firestone orchestra he had been solo flutist with the Radio City Music Hall Orchestra under the late Erno Rapee. He is on leave from the faculties of the Juilliard School of Music, Teachers College of Columbia University, and the Manhattan School of Music. He has been solo flutist and teacher at Chataqua for years, and the George Barrere scholarship on flute is with Mr. Wilkins.

Following a recent performance in New York's Carnegie Hall, Don Gillis, the noted composer and conductor, wrote "Although I have heard the flute and band before, I never have heard anything quite so musically fulfilling."

Mr. Wilkins is the author and flutist on the record album, "The Flutist's Guide," and recently released a second album called "Flutists' Showcase," featuring Mr. Wilkins and several of his distinguished colleagues from New York. The performance at the University of Tampa was of particular interest to flutists and conductors, but the general public benefited greatly.

LINDA COUCH, TAMPA UNIVERSITY, IS NAMED MISS TAMPA OVER WIDE FIELD OF OPPONENTS

INTERVIEW

LINDA COUCH IS NEW MISS TAMPA

Linda Couch, an 18 year old freshman at T. U. has recently had the honor of being selected Miss Tampa. She is a graduate of Hillsborough High School. During her senior year she was a calendar girl, F.F.A. Sweetheart, and a member of the Acapella Glee Club.

She was selected the Florida Junior Miss for 1959-60 and placed second in the America Junior Miss Contest.

In both contests she received the talent award. 1959-60 were busy years for Linda, for during this time she was also selected Miss Disc Jockey.

Linda is Tampa's Jeanie With the Light Brown Hair and was in the court in the state finals. This is a strictly vocal contest.

Whenever the Jaycees need an entertainer at one of their functions, Linda is always the first they contact. She has sung at local, state, and national

functions for them.

Linda will currently be featured as the "Clearasil Personality for June."

After graduation from T.U., where she is majoring in music, Linda plans to continue her studies in New York. Her ultimate aim is to sing light opera.

As a result of winning the Miss Tampa Contest, Linda is expected to attend banquets, make personal appearances, and visit Chicago to accept the keys to the city on May 15.

Talk about a girl with a busy schedule—Linda's got it. However, when asked if she would still run for Miss Tampa if she had known the work it involved, she didn't hesitate to answer, "Of course! I wouldn't give it a second thought. This is the most exciting thing that ever happened to me."

Linda will compete June 23 in the Miss Florida Contest.

Employment Abroad Offered To Students

All students who would be interested in obtaining summer employment in Europe this coming summer, are urged to apply immediately to the World Student Service, Weserstrabe 31, Frankfurt/Main, Germany.

Employment is with American and European firms and

there are some types of employment available on farms and at various resorts.

Pay is not high, but will cover all expenses plus pocket money. Full assistance can be given applicants for greatly reduced transportation to and from Europe.

Application should be made immediately and can only be accepted from registered students of recognized educational institutions.

Students Contribute To Facilities Fund

At the convocation held on Tuesday, April 19 retiring president Dick Lovett presented Dr. David M. Delo with a check for \$1200, towards the University's Facilities Fund. The money, voted to be donated to this cause from the Student Body by the Student Congress, was taken from a surplus amount in the Student Congress treasury.

Retiring Student Congress members were presented and received their gold keys from Dick Lovett. The retiring officers from the Student Congress are: President, Dick Lovett; Vice-President, Wayne Wilson; Secretary-Treasurer, Sue Phillips. Retiring officers of the Senior Class are: President, Sam Giunta; Vice-President, Lou Rabassa; Secretary-Treasurer, Sandra Perez; and Representatives, Diana Rey

and Billy Turner. Retiring officers of the Junior Class are: President, Lloyd Hines; Vice-President, Ralph Lazzara; Secretary-Treasurer, Sue Phillips; and Representative, Marie Goding. Retiring officers of the Sophomore Class are: President, Sue Foster; Vice-President, Louis Mixon; Secretary-Treasurer, Carrie Hernandez; and Representative, Yvonne Bretz. Officers retiring in the Freshman Class are: President, Jim Neve; Vice-President, Vince Mandese; Secretary-Treasurer, Carol Martin; and Representative Carol Murfee.

Members of the Student Congress who had done outstanding work, "above and beyond the call of duty" were acknowledged. These were: Sam Giunta, Sue Phillips, Marie Goding, and Carol Murfee.

Kappa Kappa Psi Pledges Nine T. U. Band Members

The University of Tampa concert band presented a concert on March 30 at the Municipal Auditorium to an enthusiastic audience. The presentation was recorded for the voice of the University of Tampa, WTUN, and broadcasted to their listening public on the following Sunday.

The newest member of the Fraternity, Mr. Wiley (N. Hunter), was almost lost at sea because of a wave on the recent fishing trip in the Gulf of Mexico. Mr. James (Plenn) Sasser had the inebriated honor of landing the largest fish on the expedition, capturing the pot.

Honors were bestowed upon nine male members of the band. Chosen as pledges of the fraternity are James Klapps, Robert Calafell, Lonnie Keen, Joseph Derves, George Nousiainen, Gilbert DeMeza, Norman Roccaforte, Bill Dutcher, and Lee Otto. The pledge class will have a car wash at Lassiter's Gulf Service Station at the corner of Cass and Willow Streets on May 1.

Paul Steuart was elected president along with Jerry Scora, vice president; Wayne Mayo, secretary; James Sasser, treasurer; and George Chives, assistant treasurer of the fraternity.

Freddy Wilkins, well known flutist, will honor the band with his presence on Friday, April 22.

Crescent Is Missing From One Minaret

Thirteen minarets grace the sky above the University of Tampa. Twelve crescent moons sit atop the minarets. 13 minus 12 equals 1. What happens to the thirteenth crescent? This is the question which is whispered through the halls of the hallowed institution which lies beneath the twelve complete and one incomplete towers.

Many theories have been proposed which might explain the disappearance of the half moon.

A low flying plane from MacDill may be responsible for the loss and then again it could possibly be a robust pigeon. It could also be attributed to those slightly "excited" tropical breezes known as hurricanes.

Tourists are noted for their ability to secure unusual souvenirs, perhaps the crescent is gracing the mantel of some Yankee mansion. This theory is not valid as it is widely known that any object taken from this University in the deep south would promptly disintegrate in the northern atmosphere.

One of the more intellectual theories reports that this symbol of the University was taken by those interested in the new University of South Florida, in the hope that it would bring them the luck and progress evident in old T. U. over the past year.

Visitors from outer space might well be responsible for the loss. This small part of Tampa University might easily be housed in some Martian curio shoppe.

Perhaps the theory that would best meet with public approval and credence is that proposed by that self-styled expert Joe: "I visited Russia for two days and am an expert" Smithinsky. Because everything from fallout to stubtoes is attributed to the work of the Communists, the missing

66% OF STUDENTS GO INTO TEACHING

The school of education spring intern program includes 45 secondary and junior high school teachers and 47 elementary.

In a recent publicity release prepared by a night school journalism student, it was brought out that 2/3 of the University of Tampa's graduates have majored in the field of education. The article stressed the importance that has consequently been placed on the teacher training program by President DeLo and Dr. Dwyer, head of the university's education department.

Each of the 92 interns sent out to area schools this semester has attained at least an overall academic "C" average, has been interviewed and recommended by the school's principal and has also been interviewed by the county supervisor.

The first five weeks of the interning semester are spent on campus in seminar courses relating to school organization, administration, and problems which may arise in interning.

Classroom Participation

During the actual interning, the student assumes actual classroom responsibility in an area school under the supervision

crescent should follow suit.

Perhaps, being unable to acquire any paramount secrets at the Cape, a visiting Communist spy took the crescent. It is now being used as the blueprint for the next moonshot.

Whatever the answer, whoever the culprit, one thing is sure. The University looks slightly lop-sided without the crescent. Therefore, a plea to outer space, Russia, the University of South Florida and the great wind god to please return the half moon to the lonely Minaret.

REHEARSALS ARE BEING HELD FOR THE TWO WEEKEND RUNS OF BELLA SPEWACK'S "MY THREE ANGELS"

Production Of "My Three Angels" Completes Theatre's 20th Season

The final major production to be given by the University Theater is "My Three Angels", the popular comedy by Sam and Bella Spewack.

The presentation will complete the Theatre's twentieth season. It will run two weekends, with performances April 29th and again on May 6th and 7th.

Prior to the current "My Three Angels," the University Theatre staged "An Evening of Shakespeare and Shaw", Frederick Knott's thriller "Dial 'M' for Murder", and an original play written by University students entitled "The Huntt".

"My Three Angels", based on "La Cuisine des Ages" by Albert Husson, was produced

very successfully on Broadway by Jose Ferrer.

It was later made into an extremely humorous film starring Peter Ustinov, Basil Rathbone and Humphrey Bogart. In the Philadelphia Inquirer the play was termed "A completely captivating comedy." Its other side is shown in the Christian Science Monitor comment: "Includes a welcome and congenial air of humanity." The play, according to TIME magazine, "... tells how three badmen ... became the good angels of a sadly harassed household. The scene is laid in French Guiana, a region where on Christmas day the temperature graciously drops to 104 degrees, and where convicts can not only hire out but apparently never have to report back."

Students include in cast are:

Tyrone Lavin, Roy Weissinger and Richard Kuchtey as the three convicts; Joseph Jules as Alfred; Jerry Wetherington as Felix Ducotel; Patti Lane as his wife, Emilie; Joanna Nichols as his daughter, Marie-Louise; Carolene Phinney as Mme. Parole; Budd Adams as Henri Trochard; James Klapps as his nephew, Paul; and John Gonzalez as the Lieutenant; Connie Moos is rehearsal assistant.

Setting and Direction are by John von Szeliski, Director of the University Theatre.

Tickets for "My Three Angels" are available at the University Theatre office. Admission is 75 cents. Tickets will also be available at the door. All performances will be given in the Dome Theater. Curtain time is 8:00 p.m.

Propeller Club Dusts Library; Gilbert Turner Addresses Club

Mr. Gilbert Turner, President of the Tampa Propeller Club, was guest speaker on April seventh. He explained what the downtown club was doing along the lines of harbor improvement and increasing imports to the Tampa area through mercantile shipping. President Bill Tervo outlined the progress that had been made on the club project, and Mr. Turner added a list of names from whom the mem-

bers could secure the necessary information.

Last Saturday, April ninth, members of the Propeller Club were active in the library dusting books and shelves. We understand that the Propeller Club was the first organization to rid a few of the books of their dust. Anyone else care to join us on some future Saturday? If so, contact either Bill Tervo or Larry Floyd.

TRADITION BROKEN AS TWO SWEETHEARTS NAMED IN TAU KAPPA EPSILON COURT: TEX ENDSLEY AND PAULINE TOURLES

FOOTBALL PLAYERS WORK FOR CHARITY; HUERTA PLAN IS KNOWN NATIONALLY

Football players from the University of Tampa in conjunction with the national Society for Crippled Children go out on "Lily Day" the Saturday before Easter, and give freely of their time and effort to collect for unfortunate children. These big, brawny chaps clutching a handful of lilies have taken the public fancy and heart.

6,000 Dollars Raised Last Year
Little is it known that the football players as a unit have collected more for charity each year than any other organization on campus. Last year, \$6,000 was raised for the crippled children as a result of the charity work of these athletes.

What prompted the idea that healthy, able-bodied young men lend a hand raising money for crippled children? The plan that now had reached nationwide proportions was suggested by none other than Tampa's own Coach, Marcelino Huerta in 1957. The plan is popularly known as the Huerta Plan. The Coach wrote every

governor and every athletic head in the country to get the drive rolling. It has become the backbone of the Easter Seal Drive.

Through this drive, Coach Huerta and the football players have acquainted such men as Dwight D. Eisenhower, Baker Priest, and many governors with the University of Tampa.

Other Worthwhile Projects
"Lily Day" is not the only day on which the football players here at the University go out of their way. Recently they were asked to move chairs for a crippled children's campaign. They did so readily and used their own cars.

Organizations in the area have discovered that the football team is ready, willing and able to help in any worthwhile activity whenever they are called upon.

Tampa's flood problem presents one instance which illustrates the work of the players. Upon hearing of the disaster, the team notified the mayor's office that they would volun-

teer services. At the time, however, more volunteers were available than were needed. After the flood, when the families that had evacuated had to move back, no help was available.

T.U.'s football team was contacted. Each day from 2:00 to 7:00 six boys from the team went to the Forest Hills area to help families move their belongings. This continued for two weeks until all moving was completed.

Gratitude was expressed by many of the residents of the area who were assisted. Among the letters received was one by Jean Kloppe which heads in part, "I wish to thank each of you for your kindness in helping us. The fact that you gave willingly and unselfishly of your time, made each of us realize what good neighbors we have in Tampa. If there is any bright spot in such an unfortunate catastrophe, that bright spot is the wonderful help you gave us."

Teke Breaks Tradition: Name Two Sweethearts

Epsilon Beta of Tau Kappa Epsilon named Miss Evelyn "Tex" Endsley and Miss Pauline Tourles "Teke Sweethearts of 1960". In doing so, the Tampa Tekes became the first chapter in this international organization to name two girls as reigning Sweethearts. The selection of the two girls was announced at the recent Teke Red Carnation Ball.

Teke president Lloyd Hines said that the chapter felt that both girls were equally deserving of the honor usually given

to one girl each year. International has been informed of the unprecedented selection but no word has been returned. Both girls are now eligible for the title of International Teke Sweetheart.

The Epsilon Beta Sweetheart Court was also unprecedented in that two of its members are married and are not attending the University. The members of the court are Mrs. Betty Hoperich, Mrs. Mifi Mixon, Miss Patsy Hanshaw and Miss Janice Wurtz.

Tampa U's NEA Charter Takes Attendance Trophy

T. U.'s Benjamin C. Graham, Chapter of the Student Florida Education Association was awarded, on a permanent basis, a trophy, which the chapter had won in 1958 and 1959 for having the largest number of student members present at Leadership Conferences and other professional meetings during those years, at the annual FEA meeting at Miami Beach on April 23rd, 1960. The award came as the University of Tampa repeated this feat for the third consecutive year.

This certainly speaks well for the professional attitude

displayed among prospective teachers here at the University.

The student FEA is under the direction of Dr. Ralph E. Stout, and officers are: Prudy Maniscalco, President; Martin Rossbach, George Mackinnen and Felix Lopez, Vice-Presidents and Grace Lucido, Sec.-Treas. Jack Smallwood, a University of Tampa student has served the student organization as state FEA President as well as Vice-President of student NEA during the past year, another distinction to come to the University.

JUST IN JEST

Homeowner fishing in flooded basement to friend: "We gave up trying to keep it dry and had it stocked."

Long-whiskered man to fellow commuter: "It all started about ten years ago — you see, I have 3 daughters and only one bathroom."

Husband doing dishes to wife: "There are some peas left over. Shall I throw them away now or put them in the icebox and let you throw them away next week?"

Boss to employee: "Yes, Dawson, I know you can't get married on the money I'm paying you, and someday you'll thank me for it."

Long-faced doctor to patient: "Let me know if this prescription works — I'm having the same trouble myself."

Wife at breakfast table to grumpy husband: "Look on the bright side. In 16 hours you'll be back in bed."

Perfume salesgirl showing newest brand to customer: "To be frank I consider it unsportsmanlike — in the same class with dynamiting fish."

Small boy at dinner table to parents: "I've chewed the mouthful of carrots ten times. Now what do I do with them?"

The doctor had finished the examination and was ready to give his professional advice. "Quit smoking and drinking, go to bed early every night and get up at the crack of dawn," he said. "That's the best thing for you."

"Frankly, Doc," the patient answered, "I don't deserve the best. What's second best?"

ALPHA PHI OMEGA FRATERNITY HOLDS CONCLAVE THIS WEEKEND

The Mu Omega Chapter of the Alpha Phi Omega, National Service Fraternity, will be host to an All Florida Conference here at the University of Tampa this weekend. Delegates will attend from four chapters in Florida. These are: Florida State University, University of Florida, University of Miami, and the University of Tampa.

The delegates will arrive on Friday afternoon. They will be met and entertained informally by the local brothers.

Registration will begin at 10:00 Saturday morning. The delegates will choose which workshop group they will participate in and register formally.

At 11:30 Saturday morning all brothers will meet at Las Novedades restaurant for a luncheon. At this time, the purpose and program of the Convention will be outlined. The toastmaster for the luncheon will be Sunny Sellers, presidential representative.

The first "What's My Line" Workshop will begin at 1:15 in the ballroom. Following a break at 3:00, a second workshop will be held. The purpose of these workshops is to answer questions and solve problems concerning fraternity activities and traditions. The Faculty advisors from the respective chapters will lead these sessions.

A banquet will be served at 6:00 in the ballroom for all

brothers, pledges, and delegates. The toastmaster will be Gene Slasik, presidential representative from Miami. The featured speaker for the evening will be Dr. David M. Delo.

Following the Dinner, a dance will be held in honor of all delegates and dates.

Following a breakfast on Sunday morning the closing exercises will be held.

Dr. Adams is AAHPER Director Of Publications

Dr. Miller K. Adams has been appointed by the National Office of the American Association for Health, Physical Education and Recreation as Director of Publications in charge of all Association literature on exhibit at the National Convention of the AAHPER at Miami Beach, April 24-28.

Dr. Adams has served as Publications Director for Florida, the South, and now takes on the responsibility for the Association at Miami Beach. Dr. Adams will coordinate the display of Association literature with literature from the allied fields of Health and Recreation. Dr. Adams will work closely with Carl Troester, editor of the Association Journal and Mrs. Ella H. Wright, National publications editor.

SUE FOSTER, SECRETARY; JOSIE ALVAREZ, PRESIDENT; YVONNE BRETZ, SECRETARY; ANDREW MIRABOLE, VICE PRESIDENT; JUDY YVORNAK, TREASURER (not pictured).

INTER-FRATERNITY-SORORITY COUNCIL ELECTS OFFICERS

The Inter-Fraternity-Sorority Council has elected officers for the 1960-61 term. For the first time in several years, if not the first time in the history of IFSC, a girl has been elected president of the organization, which is composed of representatives from the eight Greek sororities and fraternities on campus.

The new president is Josie Alvarez. Josie is Editor of the Minaret and past President of Sigma Sigma Sigma Sorority. Vice-President is Andrew Mirabole, member of Theta Chi Fraternity and of Sigma Tau

Delta Honorary Professional English Fraternity. The treasurer is Judy Yvornak, president of Alpha Chi Omega Sorority. New recording secretary is Yvonne Bretz president of Zeta Tau Alpha Sorority. Corresponding secretary is Sue Foster of Alpha Chi Omega Sorority, and retiring President of the Sophomore Class.

Out-going officers of IFSC are: President, Rene Carrera of Theta Chi Fraternity; Vice-President, Elmer Lincoln of Tau Kappa Epsilon; Treasurer, Barbara Strickland of Zeta Tau Alpha Sorority; Recording

Secretary, Josie Alvarez of Sigma Sigma Sorority; Corresponding Secretary, Carrie Hernandez of Delta Zeta Sorority.

At the last meeting of IFSC plans were discussed for next year's Homecoming. It was debated whether to import a big name band for next year or bring a big name singer and use a local band.

Plans were made to hold meetings during the summer to discuss Homecoming and any issues which may come up.

Handicrafts Class Makes Field Trip

by Mildred Walker

The Industrial Arts handicrafts class made a field trip to St. Petersburg April 7. Dr. C. S. Giles made arrangements for the group to visit Craft Village, a Florida attraction where various craft treasures are made and sold.

A quaint log structure, Craft Village is a combination shop, store, museum auditorium, and restaurant. For every display of art work, there is an expert standing by to demonstrate and explain each step of making the article.

Included in the crafts found at the village are shell work, leather work, ceramics, copper enameled jewelry, hand-etched metal ware, plastics, costumes, Hawaiian leis, basketry, mosaics, and miniature chenille dogs which are irresistible true-

to-life. In addition to the hand made articles, materials and art supplies for making the craft-work are sold at the village.

A talent show is held every Saturday in the Hayloft, which is a big room with a stage. On Friday nights travel movies are shown in color, and a dinner is served.

Craft Village also sponsors art classes, including skills in painting, chenille, shell craft, basket weaving, sewing, weaving, copper enameling, ceramics, leather work, sculpturing, metal work, and many, many more. During the visit, the class was given a demonstration of copper enameling, which is a forthcoming project.

Dancing classes are provided for both adults and children in tap, ballet, Hawaiian, acrobatic, and modern. To prove that Craft Village has everything, even a hypnotism course is offered by a renowned hypnotist.

Dorm Life Playboys

By William S. Huffman

Everyone is back to the old grind again after Easter vacation. Stories are still floating around about trips to Cuba and Miami, and beach parties. It seems that everyone enjoyed the vacation very much.

There is a reliable rumor in the Men's Dorm that air conditioning is being installed in the near future. If this is true, which I sincerely hope, I'm sure the fellows would consent to do hand springs for the Administration. This is a much needed luxury; for if anyone sleeps in an oven, we do.

An independent organization of dorm students is in the process of being formed. This organization will improve relations between the dorm residents and Administration and also help improve conditions in the dormitory.

Faculty In The News

The Florida Association of Colleges and Universities meeting in Tampa, April 28th and 29th, will be entertained by President and Mrs. Delo with a reception at their home from 5:30 until 6:30 Thursday. The University of Tampa Concert Chorus will appear on the program at the Hillsboro Hotel later that evening.

The Evaluating Committee will accompany Dr. J. T. Kelley, in a visit to our campus the first few days of this week.

Myron Kartman Salon Concert will be heard for the second time this year as a live program by WTUN. Admission charge 75 cents. Those present for the first concert have praised highly the performance of this talented, young violinist who has recently studied in Europe, and is Concertmaster for the Philharmonic.

Dr. Dwyer's paper "A New Look at the Supervisory Role" will appear in the late summer issue of THE AMERICAN SCHOOL BOARD JOURNAL.

Mr. Fernandez spoke to the Ybor City Optimists on "The University of Tampa and its Significance to the Community" at the Columbia last week.

Dr. Giles addressed the Brandon Art Center Monday. His lecture and demonstration

dealt with art aesthetics and judgment of Fine Art.

Mr. Fusillo presented a program of folk songs at Oak Grove High School on Wednesday afternoon.

Mrs. Allen appeared as guest lecturer on Station WEDU Tuesday, April 19.

Dr. Ho has been conducting Membership Qualification Examinations for the Assoc. of Securities Dealers in Washington, every second and fourth Tuesday.

Dr. Giles recently received a letter of thanks for the outline and questionnaire he prepared for the College of Ceramics at Alfred University, State University of New York, one of few colleges of ceramics in the United States.

Dr. Hornyak recently toured the National Bureau of Standards in Washington through the courtesy of Dr. Roger Bates, Chief of the Chemistry Division. He also visited Diamond Ordnance Fu e laboratories which conducts highly classified research on microminiature electronic assemblies for rocketry.

Dr. Speronis addressed the annual meeting of the Regional Secretaries Association seminar at the afternoon of April 23, at Fort Pierce.

Ivy League

Is it ever Ivy! Why, Coke is the most correct beverage you can possibly order on campus. Just look around you. What are the college social leaders going for? Coca-Cola! So take a leaf out of their Ivy League book and do the same! Enjoy the good taste of Coke!

PI KAPPA PHI

PI KAPPS HOLD CONCLAVE

The weekend of April 9-10 saw Beta Lambda Chapter as host of the District six Pi Kappa Phi Conclave. Over 100 brothers and pledges were in attendance representing all chapters in Florida. Chapters and their respective colleges were: Chi, Stetson; Alpha Epsilon, University of Florida; Alpha Chi, University of Miami; Beta Beta, Florida Southern; Beta Eta, Florida State; Beta Lambda, University of Tampa.

The conclave began with registration at 12:00 on Saturday, and various workshop sessions were held during the rest of the afternoon. That evening the group met at the Hillsboro Hotel for a social hour and dancing. Music was provided by Brother Larry Arnold and the Twilights.

On Sunday morning, a breakfast was served at the Hillsboro Hotel for all delegates. This was followed by a final workshop session which concluded the conclave.

All delegates seemed to enjoy themselves during the conclave, and Beta Lambda Chapter wishes to express their thanks to all the people and organizations that helped to make the conclave a success.

Pi Kapps are anxiously looking forward to their second annual cruise to Mullet Key, to be held on Saturday, May 7. This year the boat will sail early in the morning and make a return trip to pick up latecomers at about six or seven o'clock. Arrangements are being made to have enough food this year, and the weatherman promised warmer weather.

The pledge class is busily engaged in activities for the fraternity, too. On the 22nd of April, they will sell deviled crabs, and on Sunday the 24th they will have a car wash. Tickets can be purchased from any Pi Kappa pledge.

On the intramural scene, the Pi Kapps, inspired by the pitching of Guy "Fireball" Walton, are tearing up the diamond. The ball club is still a little rough after victories over Theta Chi, TKE, and the Independents, but shows great promise for the remaining games.

TAU KAPPA EPSILON

TEKES AWARD TROPHY

When the Tekes say there are surprises coming, they aren't just kidding. The Epsilon Beta Teke's selection of two Sweethearts will be Inter-

national's surprise of the year. Miss Evelyn "Tex" Endsley and Miss Pauline Tourles two lovely ladies who have served our organization unselfishly for the past years now reign equally over our chapter. Tex is pin-mate of Frater Dick Lovett and Pauline is the pin-mate of Frater Bernie McGovern. The sweethearts court consists of Patsy Hanshaw of Alpha Chi Omega; Mrs. Betty Hoperich, wife of our Frater Treasurer Mike Hoperich; Mrs. Mifi Mixon, wife of Frater Historian Louis Mixon; and Miss Janice Wurtz, of Sigma Sigma Sigma, and pin-mate of Lloyd Hines. We wish to thank all of these ladies for gracing our fraternity and for the many, many things they have done for us in the past.

The second annual presentation of the Teke Gold Man Award trophy went to Delta Zeta sorority. The award and trophy is given to the sorority which in the opinion of the chapter, has done the most to further our university. The traveling trophy was first awarded to Tri-Sigma last year.

There were surprises aplenty at the Ball. The fraters got an unexpected treat as their dates were each given an orchid corsage. The fraters were each given the traditional carnation, which this year were flown in from California just before the dance. Table decorations consisted of silver and gold statuettes.

Intramurals are rolling along for Teke. Although the record doesn't show it, we've had an enjoyable softball season. Frater Lloyd Hines has been as consistent as the threat of the year as Teke's homerun hitter. Frater Buck Wasmund has suffered a broken finger covering the first base slot but has continued to ably cover his position. With Track coming up on the intramural scene, the fraters are looking to Roy Weissinger, the frater Chief Announcer of WTUN to turn on the speed that breaks the 10 second mark for the hundred yard dash. Flat Foot Charley Henry will be out there plugging away hoping for a successful Field show.

The fraters are now looking forward to our Commemoration Banquet which will hold more honors and more surprises for all. The lovely Sweethearts and their Court will be the guests of honor at this last big function of the fraternity for the year.

SIGMA SIGMA SIGMA

TRI SIGMA HAS BIRTHDAY

Sigma is 62! Sixty-two years ago on April 20, 1898, Alpha Chapter of Sigma Sigma Sigma was founded on the campus of Longwood College Farmville Virginia.

On Tuesday, April 19, Sigma collegiates, pledges and alumni gathered at the Columbia Restaurant for a banquet to celebrate Founder's Day. The theme of the banquet was "Stars For Our Intentions". Various toasts were offered to the founders and to the alumni. Announcements were made of National Merit Awards given by the sorority. Installation of officers was held after the banquet.

The biggest story of the month is the annual Cinderella Ball to be held tonight at the Rocky Point Beach Restaurant Patio. Pledges are especially looking forward to being presented in the traditional manner. Music will be furnished by Bob Blake and his orchestra with Sylvia Mastros as vocalist. As always the suspense is great about which lucky boys will be elected as Prince Charming for 1960.

Josie Alvarez has been elected as president of Inter-Fraternity-Sorority Council.

Theresa Tamborello recently pinned to Marlin Clark, was chosen as Marlin's "daughter" on Pi Kappa Phi's Daughter's Day.

Janice Wertz, pinned to Lloyd Hines, was selected as a member of Tau Kappa Epsilon's Sweetheart Court, at their annual Red Carnation Ball.

DELTA ZETA

DZs HOLD PARTY

Election time is here again and Delta Zeta has its representation of candidates. Candidates for next year's student Congress representing Delta Zeta are Norma Fernandez, Marie Goding, Diana Barbary, and Sylvia Diaz. We have had three very able members in this year's Congress.

Norma Fernandez was selected as a daughter. Norma has gained many honors during the year and is an extremely active sorority member.

DZ's are still recuperating from the beach party they held at Pass-a-Grille beach. Although we weren't with the rest of the sororities and fraternities, we had lots of fun on our own. Tau Kappa Epsilon Fraternity must take part of the credit for the fun because without these wonderful boys it

JUDEE BUCKLEY ADMIRES ZETA TAU ALPHA'S "EASTER EGG TREE" ON DISPLAY IN THE LOBBY DURING THE EASTER HOLIDAYS.

ZETA TAU ALPHA

ZETAS HOLD STARDUST BALL

The Zeta in the spotlight this week is "Tex Endsley", who was chosen as one of Tau Kappa Epsilon's two sweethearts. Tex was honored by the Tekes at their annual carnation dance, held on April 8th.

Zeta pledges displayed their Easter spirit with an original idea, "An Easter Egg Tree", placed in the Tampa U. Lobby. The white tree was covered with the names of the pledges, with star foam eggs decorated and with hollow egg shells painted in pastel colors and covered with sequins, glitter, and cellophane ribbons.

The Easter week-end found Zetas galore at the beach house of Dr. Rex Myers on Indian Rocks Beach. Gab fests and swim fests were held on the beach throughout the weekend. On Sunday afternoon the Zetas prepared a bonified feast for their Pi Kappa Phi, Theta Chi and Independent guests.

The Stardust Ball was held at the Tampa Terrace Hotel on Friday, April 22. The Palm Room was decorated with glittered stars and star foam centerpieces covered with angel hair. Decorating the stage was a huge star through which the new pledges walked to be introduced to those present. Music for dancing was provided by Gene Thompson's orchestra.

Yvonne Bretz, president of Zeta, was recently pinned by Bill Bieglow, Delta Tau Delta, of the University of Florida.

would have been very boring for all. As it was, they kept the place jiving for three days!

The party held at Lowry Park for D'Zs and their dates was also a huge success. Among the highlights of the party was a softball game in which D'Zs won a "fair and square" game over their dates. Food for the occasion was grilled steak cooked with our own very delicate hands. Along with this went the usual extras that go with parties. One thing is for certain. Fun was had by all.

If you saw a few Delta Zetas walking around the building with chocolate eggs in their hands on Wednesday, April 13, prior to Easter holidays, I hope you didn't think they were going back to their "pre-T.U." days. The occasion was a little remembrance at Easter time from pledges to their "wonderful" mothers. It was a beautiful way of saying Happy Easter.

Along this line comes the Easter project made by the pledges. It was a big Easter Basket, all decorated, with the words "Happy Easter, D Z Pledges", Chalk up another job well-done pledges!

Tuesday, April 12, DZs held their regular meeting at Mrs. Angus Williams, Jr.'s house. By the way Mrs. Williams has a beautiful new home on Dickens Ave.

Alumni of Delta Zeta gave the actives an "around the world party" after the meeting. Objects from countries all over the world were shown to the girls, some of which they could choose for souvenirs.

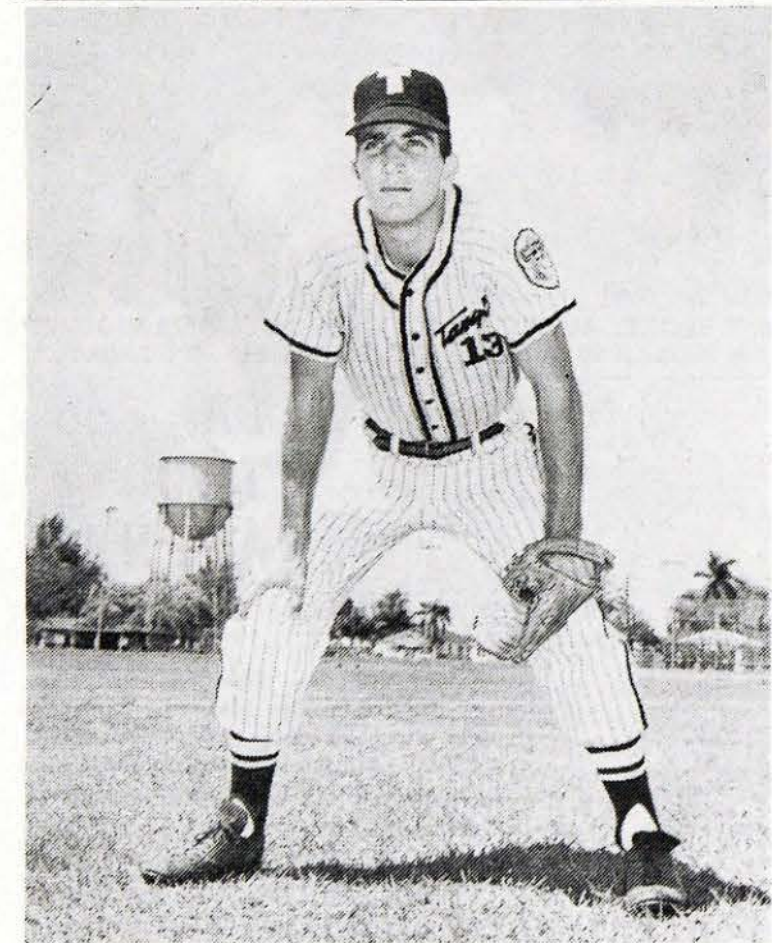

HIGHLIGHTS IN THE

HATS OFF TO BILL ROUSE

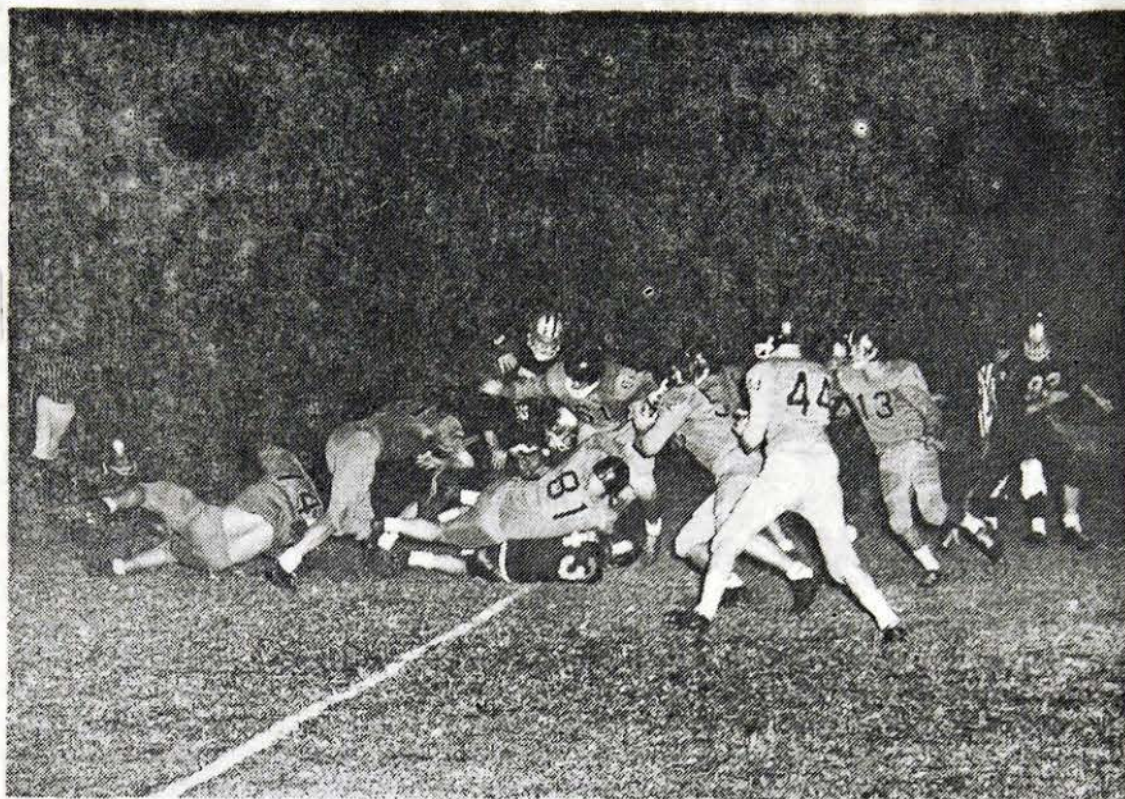

by Mel Baumel

Hats off to Bill Rouse, one of the fine athletes attending the University of Tampa. Bill hails from Avon Park, Florida where he also excelled in athletics. In football Bill was elected to the Ridge Conference, All Conference, Hon. Mention All State, played on the South All Star team, and Lettered 3 years. In baseball he was elected All Conference, All State and All Tournament out of 16 other ball clubs. Upon graduation he received a medal from the school for the Outstanding athlete over a period of four years.

Bill plays halfback for the Spartans in football and center-field in baseball. He was selected All State in baseball which is a coveted honor for anyone but especially for a freshman. Bill is currently majoring in physical education and upon graduation hopes to enter the coaching profession. Bill stands 6'1 and weighs 175 pounds. He is a credit to the University of Tampa and a fine person to know.

BILL ROUSE, FOOTBALL HALFBACK AND BASEBALL CENTER FIELDER WAS ELECTED BASEBALL ALL STATE

ALUMNI PROVED TOO MUCH FOR SPARTANS TO HANDLE — WIN GAME

450 FANS SEE ALUMNI SLAUGHTER SPARTANS 23-6

by Mel Baumel

Before 450 cold fans the University of Tampa Alumni defeated the University of Tampa Collegiates 23-6 in the annual Alumni football game which marks the conclusion of spring practice for the varsity team. The game this year was sponsored by the University of Tampa Quarterback club . . . The Alumni consisted of a long list of All-Americans and pro football players, such as Tad Greene, Tom Mahin, Holland Applin, Nick Waytovich, Don Herndon and Fred Cason. This was the most powerful Alumni team that the Spartans have ever met. They were coached by the old pro Nash Higgins who was recently elected to the NAIA Hall of Fame.

The Spartans could not get moving throughout the first half as they only ran the ball one time. The deception of Bill Nuznoff and the passing of Billy Turner was the one-two punch that the Alumni needed. The Spartans only score came in the third quarter when sophomore halfback Charlie Lyle skirted off tackle for the score.

The front line of the Alums was held down by Ted Greene, Tom Mahin, Ken Belliveau, and Nick Waytovich. Waytovich was more times in the Spartan backfield than he was on the scrimmage line. Performing admirably for the Spartans was Charlie Lyle, Charlie McCullers, Earl Bramlett, and Max Davis.

With the ball game over, Spring practice at the University of Tampa is over and all one can do is wait for September when football is once again in the air.

Spartan Nine Lose To Jacksonville 7-3

by Mel Baumel

The Jacksonville Dolphins invaded Cusaden Park to meet the University of Tampa in a Florida Intercollegiate Conference game. Starting pitcher for the Spartans was Ream Wilson. The Dolphins jumped off to a quick 6-0 lead but the Spartans battled down right to the wire. The hitting chores for the Spartans was handled by Charlie Lyle and Bill Yeagle. Lyle came in the ballgame in the fifth inning and promptly got two hits. Ream Wilson ran into difficulty and Coach Bailey called the fireman Joe Canzoneri in with bases loaded. Canzoneri struck out the first man he faced and forced the other to hit to the box. The Spartans could not contain the longball hitting of the Dolphins. They came back strong in the late innings but too late. The Spartans will meet Taylor University next.

BASE HIT FOR THE SPARTANS

Spartan Oarsmen Sweep Purdue's

The knights of the Hillsboro beat the Purdue Boilmakers in both the J.V. and Varsity races during the Easter vacation. The Spartan oarsmen were never pressed even from the start and won both races going away.

The coxswain for the varsity

race was Larry Arnold and the Coxswain for the J.V. was Ralph Lazzara. The J.V. boat consisted of Bob Lombardi, George Romano, John Hanna, Buddy Williams, Sam Sardigna, Ricky Arnold, and Ray Andrews. The Varsity was comprised of Donny Robbins, Dan Pickard, Tom Addison, Angel Arenas, Ralph Griffin, Chris Pordon, John Wiltse and Norm Dann.

Crew is not an individual but a team sport. It takes the sweat and hardwork of every man that is in the boat. The time of a crew race is short but the preparation for the race takes a lot of time and hard work. The boys on the crew team do not get any financial assistance from the school but participate because they love the sport. Crew is a great conditioning sport because it stresses the functioning of every part of the body. There is no glory in crew for any individual but there is a great amount of satisfaction when eight men pulling together cross that finish line first.

THEY SANK

TAMPA U. CREW DID NOT LOSE TO JACKSONVILLE

We Didn't Lose — That's what is being heard around the campus ever since the T.U. crew returned from Jacksonville.

Tampa who again has one of the strongest crews in the South, bowed to Jackson by two boat lengths. However this is not really considered a defeat as far as the boys in the shell are concerned.

What happened was that Tampa's shell, which was leading at the half mile by half a boat length, was swamped by the rough waters of the St. John's River. At the start the crew had to pull to shore once because the boat was full of water. Then again when the race started, Tampa having the inside lane, the boat was swamped by the waves that were breaking into the boat. There was not much the crew could do but continue the race with a boat that was half submerged.

Jacksonville started to catch Tampa just before the start of the last mile. Jacksonville had the advantage of using the outside lane where they could just ride the waves. The final came 200 yards from the finish when the boat finally sank.

The boys were tempted to leave the shell in the water and try to forget the near victory and the sinking. Sportsmanship prevented them from doing so, however.

The J.V. race was cancelled because of the rough water.

Coach Tiler of Jacksonville believed he came through with a clean victory. What he may not be counting on is that Tampa's Varsity and J.V. will be ready to match him in the state race. Stalnaker knows his boys can do it and the the crew knows the WILL. The crew members consider the race a gift to the opponent who couldn't beat Tampa in the last four years.

PI KAPPS TIE MAJORS CLUB; SOFTBALL DUAL

Pi Kappa Phi and the Majors club are still tied for the lead in the softball tournament. Guy Walton has pitched the Pi Kapps to an undefeated season so far. Herman Valdez and Buddy Williams have handled the pitching chores for the Majors Club. Bowling is in full swing right now with Mickey Truehart of Theta Chi with the highest average of a 178. The Theta Chis lead with total pins of 2002 followed by the Pi Kapps with 1790 and the nIndependents with 1768.

The Track date has been changed to April 28 at Plant Field so all organizations will be required to have their entries on the board by the Intramural office on the 26th.

EVENING DIVISION

Emphasis Is Being Put On Fire Safety

by Ruth Whites

The University of Tampa maintains one unusually large building on its campus and several smaller ones. Danger from fire within these buildings has been kept at a minimum through careful planning and supervision.

In looking over the construction of what was originally a hotel we find there are steel beams and four thick concrete slabs between floors. There is no wooden construction in the partitions. All the below surface construction is of steel, concrete and adobe tile. The only wood used is in trim around doors and windows where it can be seen. Unfortunately, the roof is wood covered with tin. In by-gone days the entrance to the roof was used for storage, but appreciating the possible fire hazard from these, there is no longer any material there and the entrances are sealed.

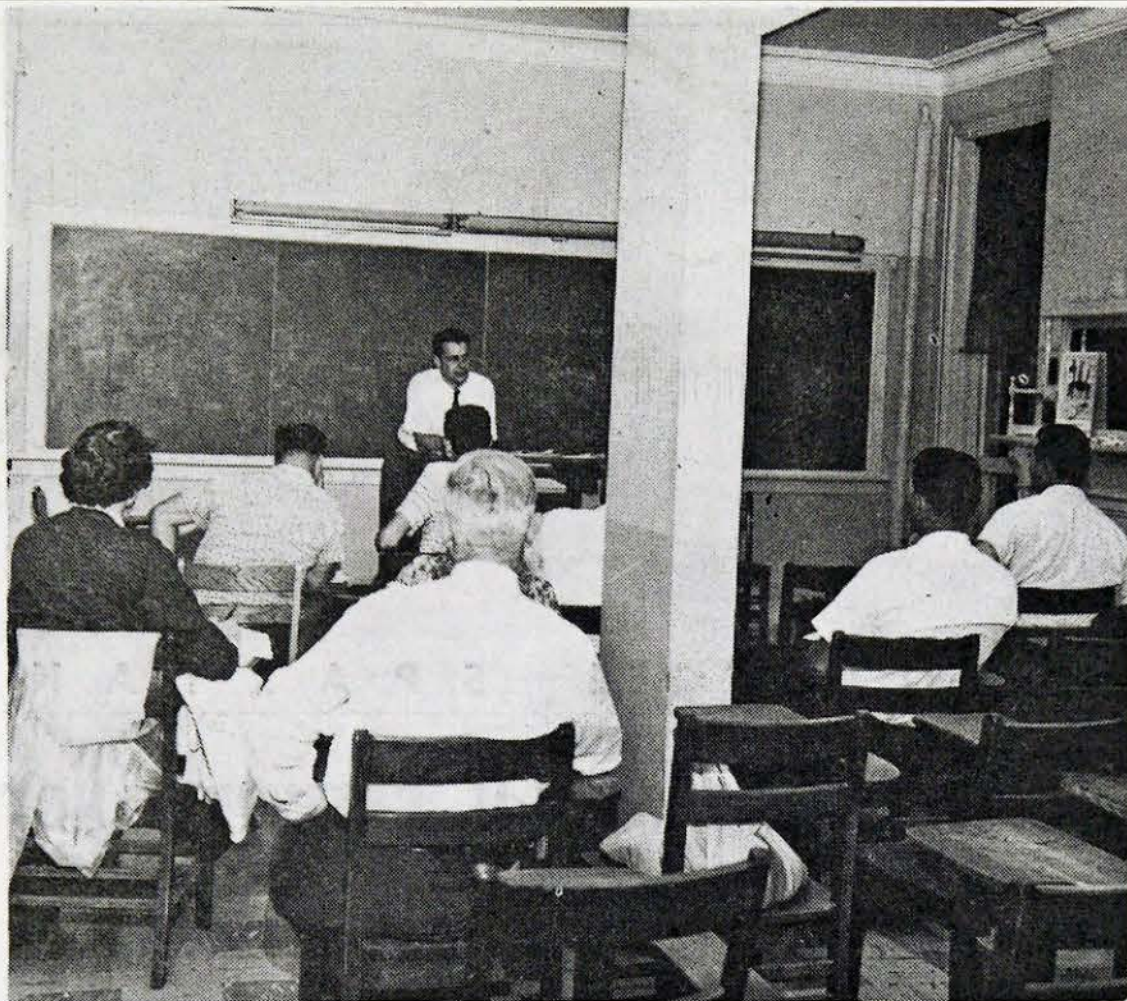

There are fire escapes at the end of all the halls and fire extinguishers placed in all the hallways, which any one can operate in an emergency. Red bulbs burn twenty four hours a day at all exits. Loud speakers maintain contact from the switchboard to the third and fourth floor.

Fire safety has become increasingly prominent in the last five years. At that time individual classrooms were being heated by open fire places, which were a great hazard. Since then these have been sealed and their beauty and efficiency replaced by electric heat. The wires to these are in conduit, or wire molds with a pilot light to each heater, thereby enabling one to tell at a glance which are on and which are off, and serving as an added safety precaution.

The maintenance department is well aware of its responsibilities as regards fire and maintains around the clock security. They frequently inspect closets for any combustible material and are alert to the ever possible acts of carelessness which are inevitable where a thousand or more people frequent. They have proposed as an added safety precaution the installation of fire doors in hallways, which would help greatly in containing smoke in a small area, should a fire start.

The city fire departments inspect the building two or three times a year and make recommendations which are carried out by the University wherever possible.

Obviously no building can be one hundred percent fire proof. Any building can burn if deliberately set. However where every precaution is taken in the maintenance of buildings; which includes the choice of non flammable materials for furnishings in the new dormitories, and fire resistant acoustical tile in the ceilings, then the prevention of fire rests squarely on the shoulders of every member of the Faculty, staff, and student body.

MANAGEMENT TRAINING IS PART OF NIGHT DIVISION CURRICULUM. IT IS TAUGHT BY DR. PIETRANGELI OF THE PSYCHOLOGY DEPARTMENT

Management Course Being Offered Now

Management Training is being offered for the first time at the University of Tampa in the Evening Division. It is being taught by Dr. Pietrangeli of the psychology department. The course is designed for managers and supervisors of the local business and industrial organizations.

Some of the business represented in course attendance are: Tampa Electric, General Cable Corp., Tampa General Hospital, J. H. Sultenfuss, Inc., and Self Service Shoe Stores.

Topics Covered

During the course of the semester topics are covered which are deemed beneficial for manager trainees. Among them are: Nature of Human Relations, Human Motivation and Behavior, Interviewing, Attitudes, Role of the Supervisor, Nature of Organization, Communications, Conference, Leadership, and others along this line.

The total enrollment at the present time is seventeen. The course has been well received.

Course Background

Dr. Pietrangeli spent a year with RCA at the missile test center at Patrick Air Force Base. His duties were to develop and conduct the supervisory training program for approximately one hundred RCA managers. After this Dr. Pietrangeli taught two similar courses at Manatee Jr. College. This led up to the Management Training course here at the University of Tampa.

This is one of the avenues being used to expand the General Studies Division. A course of this type follows right along the University's policy to cater to the needs of the community.

Quips That Pass In The Night Division

by Journalist Joe

"You say that your husband thinks he's a refrigerator?" inquired the psychiatrist.

"Yes", replied the distraught wife of an Evening Division student, "and it's most annoying. He sleeps with his mouth open and the light keeps me awake."

* * *

A married student is one who has replaced the currency in his wallet with snapshots.

* * *

Dr. Speronis was reprimanding a meek student in his history class. He said, "Vega, I understand you've been going over my head."

"I wouldn't do that, sir."

"But isn't it true that you've been praying for less homework?"

* * *

Professor Fernandez tells us of the condemned Cuban who was led before the firing squad. He was asked if he had any last requests.

"Just one," he replied, "use blanks."

* * *

Lee Vance was trying out his new sports car on a country road when he ran over a chicken. Wanting to do the right thing, he knocked on the farmer's door and said, "I'm sorry, but I've just run over your rooster, and I'd like to replace him."

"Okay," said the farmer, "let's hear you crow."

Nite Beat

by Ewing Esch

Students frequently ask if I don't find it difficult to work a long, full day, carry 15 semester hours at night, keep my grades up and still find time for some fun and relaxation occasionally, active membership in outside organizations and such extra-curricular activities as this column and the T. U. chorus (last semester).

The answer is: Yes. It is grueling and, sometimes, frustrating; but no one ever promised that life would be easy! My job requires my complete concentration all day, but away from my desk, my grades at the University of Tampa are my primary concern. I feel I am enrolled in college—first to learn. That requires attentiveness and perseverance. I try (and almost always succeed) to turn in all homework when it is due (in spite of professors who recurrently assign three term papers at once to be due by next class meeting, failing to consider a student's class load and work load!). Of course it frequently means doing homework until 1:00 or 2:00 a.m., even though one must arise at 6:00 to go to work. However, contrary to some students' opinions, it can be done. I too have always required a lot of sleep, but find I can be alert, live, and perform my job well on less when I must. Yet, diversions are necessary. However, your college life should be something more than a pot-pourri of dances, beach parties, fraternal and sports events. The rule is "Moderation in all things!"

Why write this column, despite so many other activities? Well, it is good for one's emotional welfare to find diversified interests. It is also good for one's emotional welfare to have a steam valve. This column, as you well know, has often been mine. Also, I enjoy people, and ideas. Most of all, however, this column has been most regarding to me in the sense that it has helped me to see many of my personal crusades to fruition. Three years ago, I was crusading for a broader program of evening courses. That is now being realized. Simultaneously, I was crusading for the founding of a Latin American Studies Division of outstained calibre in this, the most logical university for it in the United States. Well, the plans are now being formulated! I stressed the need for a traveling public relations man, or "recruiter" for T. U. Ed Van Gelder is now it. I pleaded for improvement of our physical plant. Daily, we are seeing it! I have often suggested that each department work out a schedule four or more years in advance (tentative, of course), so that all course offerings be rotated among day and evening hours, in order to escape semester-after-semester repetition or omission. Such is now being planned. I could go on and on, but the point is, that words cannot explain the satisfaction one feels in knowing that one has aided, in some small way, in the improvement and progress of one's alma mater.

DEADLINE

MINARET

WEDNESDAY

MAY 4

12:00 NOON

WHAT A MINARET IS NOT - - -

A minaret is not . . .

An exceedingly small live bait used in fishing

A type of instant rice

A dance that was very popular during the Revolutionary War.

A two-stage missile.
