RUN OFF ELECTION INVALID

TO THE VICTORS

The results are in and the winners have been posted, and we of the Minaret would like to congratulate all of the winning candidates on their individual victories. Winning a campus election is not an easy job, and we can be sure that each candidate spent many hours working towards his or her goal.

To the people who made the election the success that it was, the voters, a thank you for the showing that each of them made at the polls. To those who did not feel that the election was important enough to vote, we wonder if these people will ever realize their responsibilities.

To the newly elected officers we ask them to remember that they have been given a great responsibility by the student body, and will be expected to fulfill to their utmost the responsibilities of their office.

M.H.S.

UNCONTESTED

Karen Cobb

As Secretary of the Student Body I feel my first job is to meet and organize my duties. Since this a newly elected position, this up-coming year will be an establishment of precedents for this office. I plan to work in close coordination with the President and all other officers of the student body. As an elected official I will do my utmost in working for closer coordination with the student body and administrative relations. I am confident that in the academic year '66 - '67 "our" University will be one of the most successful ever.

COED BOSS

Merry Barr

I'd like to thank those of you who voted for me and supported me in my campaign. I will do my utmost to serve the student body fairly, and efficiently, in order to strengthen our student government.

The office of Co-ed Vice President is not an easy one, as any of you who have worked in student government surely know. I will need your continued support as I assume my office to carry out the ideas that you want to see become realities.

Those who complain about our Alma Mater are usually those who do the least to correct its faults. If I accomplish nothing else, I hope to lessen the apathy of some of our students and put their abilities to their best use.

In order to be fair to all candidates involved, the office of attorney general of student government, after conferring with the Deans, has announced that on Monday, May 9, the Student Government will hold a runoff election for the office of Student Body President and President of the Sophomore Class.

After careful examination the election committee came to these conclusions:

1. The number of peoples' names checked off in the Registrar's book is 623. This was checked by Paul Jirka, and Robert Klomp, tally was taken 3 times.
2. The number of votes for the President of S.G.A. when added together was 625.
3. The number of ballots voided for various reasons, such as voting for the candidate not running, was 8.
4. There were between 5 and 10 ballots cast just for officers of the Sophomore Class, and no choice made for the President of S.G.A.
5. Therefore, the number of ballots for the office of President of S.G.A. should tally to be less than the number in the Registrar's book, minus the number of voided ballots, and minus the number that voted for just Sophomore Class officers.

Smoke filled the International Room Wednesday night, as the first on countdown began 808 votes were cast in the first two days of voting. This figure represents over half of our full time students. Approximately the same amount of students voted in last year's election.

From the very beginning Bill Oakerson lead for President and Merry Barr managed to secure the 51% needed to win on the first ballot.

Class officers that were elected are, Paul Jirka who contested Rick Lede; Anita Carbone who also had to secure one more than half the votes, over Tom Cunningham and Pete Mack.

NO OPPOSITION

John J. Mulry, Jr.

It is indeed a pleasure for me to have the opportunity to serve our student body for a second year.

I thank every student for the vote of confidence which I received, and I will endeavor to meet the responsibility which has been accorded to my office.

In the year to come I plan to give proper representation to our student body as I am sure the entire slate of elected officers will do.

As chairman of homecoming, it is, of course, my hope that this occasion will be the highlight of our '66-'67 college year. As of yet thoughts have not been translated into definite plans. However, concrete plans should be laid throughout the summer.

See no opposition on Page 2

ELECTION RESULTS

STUDENT GOVERNMENT

PRESIDENT STUDENT BODY	
Moe Kunsch	287
William Oakerson	318
Greg Mathews	203

CO-ED VICE PRESIDENT	
Merry Barr	544

SOPHOMORE VICE PRES.	
Anita Carbone	147
Tom Cunningham	94
Pete Mack	51

JUNIOR CLASS PRESIDENT	
Paul Jirka	124
Rick Lede	86

PEOPLES CHOICE

Bryce William Smink

As Senior Class President my first duty is to the Secretaries of all the Deans and let them know who I am. Then to make appointments with the Deans and speak with each of them.

Never in the past has the Senior Class President had a say in the acquiring of a speaker for graduation. This I hope shall be the most important change to come about. If this is changed we may have speakers at both graduations which will make attending such a special occasion as Graduation a pleasure and something to remember, rather than a chore that must be done.

We will have meetings of the Senior Class which shall be adequately publicized, along with each senior personally contacted. At these meetings such things as the "Class Gift" and Graduation will be discussed.

It is hoped that a Senior Ball of some form will be planned and fulfilled at an available date in the future.

As Senior Class President I will support the other Student Government Officers and work in every way possible to make the University of Tampa more efficient and academic in every possible way. I have several ideas which involve only the Senior Class of what are felt should be policy at the University, but it is best that before they are announced the proper research be conducted. If anyone has any ideas for a better Senior Year I'd be more than happy to entertain them. One such idea hopefully to come about is a cocktail hour for the parents of graduating seniors with the faculty and administration, prior to the graduation exercises.

I shall be attending SUSGA representing the Senior Class and I am confident that here one can learn much and return with new knowledge and ideas which shall benefit "Our Class" and "Our University".

This or any job is what a person wants it to be and I am looking forward to September and the realization of just how much responsibility this office may effectively establish and successfully carry out.

Good luck on your finals and I sincerely hope that our senior year will be one to remember and be proud of, not only next year, but forever.

NEW VEEP!

Burton Epel

As the Vice President of the Senior Class I plan to work hand in hand with the President of the Senior Class. It is also my goal to make the office of Vice President a creative and working position. Already there has been discussion and plans to to have meetings with President and Deans of the University to create a working relationship.

At such meetings we hope to discuss whom we might have for graduation speaker. It is also hoped that Senior Class Meetings might be arranged so that plans can be made that would be representative of the class as a whole.

It is foremost in my mind to work with the Student Government, helping in every way throughout the year to strive for a greater Senior Class and a greater University of Tampa.

CLASS TELLS

Anita Carbone

As your newly elected Sophomore Vice President I would like to thank the Student Body for their encouragement and support.

May I assure you that I will do my utmost in carrying through the responsibility you have placed in me. I shall always be ready to work with you in any and all endeavors for the betterment of our University.

JIRKA TRIUMPHS

Paul N. Jirka

Through the combined efforts, cooperation, and support of individual constituents as well as the numerous social and service organizations represented within this institution, a student can aspire and succeed in any endeavor which he or she may desire.

It is a deep and personal satisfaction, which I now possess, to know that I may - along with the continued support of our junior class - provide the leadership and initiative necessary to fulfill our role in the growth and development of the University of Tampa.

To expedite the responsibilities and goals which we, as a class possess and pursue, demands an elimination of any barriers of communication which may exist between the administration and the students. For, the success or failure of any private enterprise depends upon the degree of cohesiveness and understanding between both the executive and the laborer.

I sincerely wish to thank those individuals and organizations who have contributed their support to me in this election.

To conclude, our strength resides within us and is of the highest degree.

WE STAND CORRECTED . . .

To correct the article that appeared in the last issue concerning the new Dean of Men, Mr. Al Terry. Mr. Terry served as a stock exchange representative with the firm of Shearson, Hammill & Co., and was not a C.P.A. with that firm. Mr. Terry is working on his M.A. from the University of Florida and has not yet received it, as was written in the last paper.

Editor-in-Chief
MERRY BARR

Edited by
MICHAEL STEIKER

NO OPPOSITION . . .

As chairman of the constitutional Committee I plan to attempt a revision of our present S.G.A. Constitution into a firm working tool of the student body.

As students of this University we all share one basic responsibility. This is interest in our school. This interest can be best expressed through our Student Government. We are a fast growing University and therefore our government must grow stronger with each new year.

I am confident as vice president of the student body and as a student, that this growth can take place during the coming school year.

DO YOU KNOW . . .

8. That this building was known the world over as the most fabulous structure of its kind in the world?
10. That the library was formerly the dining room where guests were served culinary specialties on the finest Wedgwood, crystal and Vienna plate?

Who is your ideal date? Thousands use Central Control and its high-speed computer for a live, flesh-and-blood answer to this question.

Your ideal date — such a person exists, of course. But how to get acquainted? Our Central Control computer processes 10,000 names an hour. How long would it take you to meet and form an opinion of that many people?

You will be matched with five ideally suited persons of the opposite sex, right in your own locale (or in any area of the U.S. you specify). Simply, send \$3.00 to Central Control for your questionnaire. Each of the five will be as perfectly matched with you in interests, outlook and background as computer science makes possible.

Central Control is nationwide, but its programs are completely localized. Hundreds of thousands of vigorous and alert subscribers, all sharing the desire to meet their ideal dates, have found computer dating to be exciting and highly acceptable.

All five of your ideal dates will be delightful. So hurry and send your \$3.00 for your questionnaire.
