

## Students In Four Fields Eligible For AAUW Contest

If you like to draw or paint, or write poems or stories, or compose music, the Tampa chapter of the American Association of University Women invites you to enter its third annual contest in the creative arts. You have until April 2 to turn your work in for judging, but the time to start getting ready is right now.

The contest has four divisions—art, music, poetry and the short story—and in each of these divisions a prize of \$10 will be given

for the entry adjudged the best original work submitted, and honorable mention will also be awarded. A person may compete in more than one division, thus having an opportunity to win more than one prize.

Miss Louise Morton is in charge of arrangements for the contest, and Mrs. E. E. Garrison is chairman of the Creative Arts Committee through which the AAUW announced the offer of awards to University of Tampa students.

As in previous years, there is one general requirement—each picture or composition entered in the contest must have a religious theme.

The art work must not have been exhibited before. The maximum size is 14 by 16 inches, and the work must be mounted. It may be in crayon, oil, water color or other medium.

Musical compositions may be for piano, violin or other instruments. Poems may be narrative or lyric, rhymed or unrhymed, and must consist of 12 or more lines.

Short stories entered in the contest must be from 2000 to 3000 words in length.

All manuscripts are to be typed, without the authors' names appearing on them. Entries will be judged by number and the contestants' identity will not be known.

Students wishing further information about the contest may consult Prof. Norman Borchardt, Prof. Lyman Wiltse, Prof. Stephen F. Park or Prof. Howard G. Baker.

## Spartoon Stomp A Successful Dance

E. Kelley Tagliarini

One of the most successful dances of the Fall semester was held at the Temple Terrace Country Club Friday night, Jan. 13, and was sponsored by the Beta Chi Fraternity. Music was furnished by Steve Soklak and his orchestra, incidentally Steve is a Beta Chi alumni. The music was lively and danceable, but then there were those smooth moments too when John held Mary Esther closer, and no one minded when the lights went out.

Chaperones of the dance were Dean Baker, who looked lonesome without Mrs. Baker, and Mr. Jimmie Whitehead, also Dr. Roy A. Jones and Dr. H. Laub the fraternity advisor.

Of course everyone had a wonderful time, but did you notice the Rho Nu table? Undoubtedly the gayest group of all, with "Lil-Bit" Lambert contributing more than a little bit to the enjoyment of the evening.

... saw a black and pink lace dress full of loveliness ... wonder who she was? Jean Belle Reid had to be the one with coke spilled in her lap. Couldn't happen to a sweeter gal.

Mike Royer looked like a picture from Mademoiselle with her high heels and swept back hair do. Speaking of pictures, wish I had one of the "Fish Pond" incident, humm? Arlene??

Dr. E. Montgomery represented by his grandson Roger Chisholm, a Beta Chi member, gave 3 sterling silver candle holders to the Fraternity.

The informal attire of the evening seemed conducive to informal behavior, and such goings-on! Well, it was fun, and is still being discussed with such comments as, "Wish we could do it again" etc. The Beta Chi's (and oh those waiters) were fine hosts, and we have them to thank for a fine evening.

## FBLA Honors Four Graduating Seniors

At the regular meeting of the Future Business Leaders held Tuesday, January 18, four members of the local chapter were made associate members.

According to the charter of this national organization, active members may be so honored upon graduation. Those achieving this point in their careers were William Schwartzman, Clifford Mott, Harold E. Lawber, and Dolores Schjaastad.

President Delores Schjaastad told how they were among the most active of members in the organization's short history. He also wished them success in their later business ventures. All four members were given membership cards.

All members were urged to campaign for an increased membership and to answer all the questions of prospective members. Business students in particular are urged to join. The next regular meeting will be held after exams, on Feb. 8, 1949.

## Announcements

All money for Senior Class Announcements must be in by Feb. 15. The price is thirty cents apiece, payable to Mary Jo Glenn.

## "RUDE AWAKENING"

## Tide Turns In Last Period For Win Over Southern College Quintet Here

By Irving Edelson

The University of Tampa Spartans staged a tremendous last period rally and then battered down an inspired Southern College five's retaliation to overcome the Moccasins, 74-66, before a large crowd at Fort Hesterly Jan. 22.

Mike Gaddis' cagers saw the low end of the score throughout most of and part of the second half. It was an all-out attempt that saw the game Tampans come to life late in the last quarter to hoop in enough points to cinch the contest. The locals steamed ahead to an eleven-point lead and coasted to the victory.

Holland Aplin showed remarkable improvement under the basket and on shooting accuracy, running up a total of 20 points for the night. Harry Bryan, who, with Mac Williams, also played good ball, ended up with 17 markers, while Williams was held to 11 by careful guarding.

It was a Florida Southern player, Terry, who stole scoring hon-

ors for the contest with 21 points. His performance on the court was also brilliant.

The game started fast, as do most college games, with the Spartans sporting a tight zone of defense and plenty of speed. The Mocs also came up with a zone which the winners soon cracked.

D. Kumm started the ball rolling by dropping in a charity shot for the Lakeland college. From then on, the lead see-sawed back and forth until the final big rally by the Spartans in the tale-telling final quarter.

During the second half, the Tampans had whittled the lead down to the equivalence of one free throw when bad luck struck them. Aplin, tall center for the Tampans, and his hard fighting team mate, Refe Escobar, collided and were forced to the sidelines with cut eyes.

Rather than discouraging them, this only seemed to inspire the City Five, and soon after George Harris, reserve center, started the ball rolling on the big drive. Harris bucketed one from

the foul line and another from the field. Baity made a 2-pointer and the Bryans contributed 7 more between them, to bring the score to 69-56.

The losing hoopsters, made one last desperate attempt to win but could only bring their total to within 4 markers of their rivals. The Tampans then took over and "iced the game" with two quick field goals.

The game was exceedingly rough with D. Kumm, Wooge, and Zolavath, receiving officials request to leave the game for excess fouling.

## Dr. R. L. Mohr Was Public School Head

Dr. Robert L. Mohr, who joined the University of Tampa faculty last fall as associate professor of education, was born and educated in Pennsylvania, and for a number of years was engaged in administrative work in Pennsylvania schools.

After being graduated from Juniata College in Huntingdon, he taught science and mathematics for three years in Pennsylvania and New Jersey. He received the Master's Degree in psychology and educational philosophy from Lehigh University, Bethlehem, Pa., and a Doctorate in the history of education and secondary education from the University of Pennsylvania.

Before coming to Tampa he was supervising principal of the Rockledge schools at Foxchase, Philadelphia, a position he held for some years.

Dr. Mohr is the author of "Thomas Henry Burrows," a biography of the pioneer educator of Pennsylvania. The book was completed and accepted for publication in 1942 by the University of Pennsylvania Press and the Oxford University Press, but because of the paper shortage was not published until 1946.

Dr. Mohr is listed in Who's Who in American Education, and is a member of the National Education Association, the American Academy of Political and Social Science, the

## C. Schwab Named Prexy of Group

The University of Tampa Chemical Society had its second meeting Wed., Jan. 19, 1949 in order to elect its officers, and plan its activities for the coming semester. The officers elected were: Credo Schwab; president; H. D. Allen, vice-president; Muriel Troughton, secretary; Glen Philson, treasurer, and Mary Ficco, public relations officer.

It was decided that Professor L. P. Geer and Professor C. V. Collier would be co-advisors for the organization.

The organization will become active next semester with its sole objective being to increase chemical knowledge both among its members and other interested persons through a diversified number of mediums.

## BX Gets Favorable Response for Stomp

By Marvin Dawkins

It seems as if everyone who went to the "Spartoon Stomp" enjoyed themselves, because the responses which we have been getting are very good. The Beta Chi Fraternity was gratified to see that all those who went to the dance enjoyed themselves. This fraternity has always endeavored to provide entertainment which everyone can enjoy.

It has been brought to our attention that a large number of the freshmen students have been complaining because they were not given invitations to the "Spartoon Stomp." It seems as if the Freshmen were left out because invitations were extended only to Greek lettered organizations, and it is legally impossible for these first semester students to belong to any fraternity or sorority. We are very sorry that this happened but we would be glad to give invitations to any freshmen students at any time. It is a rather difficult job to "track down" all freshmen students and give them invitations. It would be advantageous to both you and us if you would form as a group and we would give out all invitations in that manner.

During the intermission at the

## Adult Education Term Begins Here With Twenty-Two Courses Offered

### Ace Club Valentine Ball, February 19

Plans for a Valentine Ball Saturday, Feb. 19, have been made at a pledge banquet given by the Ace Club. The banquet was given at the Spanish Park Restaurant. The new officers of the club, recently elected, were announced and the former pledges inducted into the club at their formal initiation.

Officers elected, who will be in charge of the plans for the dance, were: President, Chuck Barus; Vice-Pres., Hugh Kelly; Sec. Treas., Dick McIver; Sgt.-at-Arms, Lucian Martinez.

### USAF Interview Team Seeks U. of Tampa Men For Officers

The opportunity for pilot training and a career as an officer with the United States Air Force which is open to qualified college men will be explained to U. of Tampa men 31 Jan. thru 4 Feb. by a special Air Force Aviation Cadet Team, Lt. Col. Ralph E. Keyes said today.

Male citizens, 20 to 26½ years old, and physically fit, with two or more years of college, will have the opportunity to provisionally qualify for the flight training im-

While Tampa University students were winding up the semester's academic business this week, a new term was already getting under way in the 22 courses composing the Adult Education Center's second group of offering for 1948-49.

Scheduled in the evening hours for the convenience of those who are unable to attend classes during the day, the 22 classes will meet once a week for 10 weeks.

The courses, instructors and hours as announced by Dr. Martin I. J. Griffin, acting dean of the Adult Education Center, are:

General—How to Think, Owen Reynolds, Thursday, 7 to 8:30; How to Build Your Home, Alfred M. Watson, Monday, 7:30 to 9; Mar-

riage and Its Problems, Martin I. J. Griffin, Monday, 8:30 to 10; Dressmaking and Costume Design, Sybil Terry, Tuesday, 7:30 to 9:30.

Marine Life of the Florida Waters, Rubert Allyn, Wednesday, 8 to 9; Stars over Florida, Ludwig A. Koelnau, Thursday, 8 to 10; Spanish Conversation, instructor to be announced, Thursday, 7 to 8:30; Elementary Spanish, instructor to be announced, Wednesday, 7 to 8:30.

Business Skills—The Psychology of Successful Selling, Lillian Dukes, Wednesday, 7 to 9; Human Relations in Business, Lillian Dukes, Monday, 7 to 9; Typewriting, Robbie Landry, Tuesday, 8 to 9:30; Refresher Shorthand, Robbie Landry, Thursday, 7 to 8:30; Everyday Law, Henry Wilson, Tuesday, 7 to 8; Elements of Everyday English, Earl E. Keller, Wednesday, 8 to 9:30.

The Arts—Great Books in Review, Warren Pierce, Tuesday, 8 to 9:30; Short Story Writing, instructor to be announced, Wednesday, 7:30 to 9; Pottery Making, Florence Irete, Tuesday, 7 to 9; How to Draw and Paint, Norman Borchardt, Monday, 7 to 8:30.

Ballroom Dancing, staff of Arthur Murray Studio, Tuesday, 8 to 9:30; Contract Bridge for Beginners, Virginia Allen Alderman, Monday, 9 to 10:30; Professional Modeling, LeRoi Scarlett, Thursday, 7 to 8; Speech for Dynamic Living, Thelma E. Jones, Monday, 7 to 9.

## KSK Was Founded In Virginia College

By Bob Hancock

The fraternal order of Kappa Sigma Kappa was founded September 1867 at Virginia Military Institute. This early founding date makes Kappa Sigma Kappa one of the oldest fraternities in the nation. During the first period of growth, expansion was confined to Southern colleges. Since the time the first chapter of Kappa Sigma Kappa was founded at V.M.I. the fraternity has grown until now it reaches the four corners of the earth.

Today, with chapters in 38 states, Europe, England, Canada, New Zealand, China, and Alaska, the fraternity is serving some 20,000 members.

The badge of Kappa Sigma Kappa is the most attractive design worn by any American college fraternity. The design is so original and distinctive that it is not easily confused with that of any other national fraternity. The badge is a Greek cross in the center of which is a circular disk bearing the letter "K" and the initials of the owner are engraved on the back of the badge.

The Florida Alpha Chapter of Kappa Sigma Kappa was chartered at the University of Tampa in the Spring of 1947 with nine charter members. At the present time, there are 38 members of the local chapter and 15 pledges.

Since the founding, the local chapter has taken an active part in school activities. For two consecutive years, the Chapter has won both the annual Homecoming Float Trophy, and Intramural Softball Championship. It has been represented on all Star Intramural team, The Student Government, Class Officers, newspaper, and yearbook staff.

The invitational social functions of the Tampa U. Chapter have been very successful. For two fall semesters, it has given the "Skyline Ball" at the Bayshore Royal Hotel and were rewarded with overflowing crowds. The annual Anniversary Ball, held last year at the Davis Island Country Club, had a capacity crowd.

This year, the fraternity sponsored Miss Majorie Stanaland, who

mediately when the traveling Aviation Cadet team meets here in the Rawlins Room Col. Keyes said. The team is headed by Maj. Leslie McLaurin and is one of several which is visiting colleges throughout the country.

Men who are accepted for pilot training with the Air Force will

All graduates have the opportunity to apply for regular commissions during their active duty tours.

Only men who meet the high Air Force standards will be accepted Col. Keyes pointed out, because of the necessarily high level of intelligence and physical fitness required to operate modern military aircraft. In 31 Jan. thru 4 Feb. the Aviation Cadet team will be prepared to administer all preliminary examinations to flight-training applicants. Those who meet the requirements at that time need only take the final physical examination and complete an interview later before being finally accepted and assigned to a class.

Basic flight training courses are given at Randolph Air Force Base, San Antonio, Texas; Goodfellow Air Force Base, San Angelo, Texas; Perrin Air Force Base, Sherman, Texas; and Waco Air Force Base, Waco, Texas. Basic training is given in single-engine T-6 Texans.

Advanced pilot training phases are given at two locations ... single-engine in F-51 Mustangs and F-80 Shooting Stars at Williams Air Force Base, Chandler, Arizona; and multiple-engine training in B-25 Mitchels at Barksdale Air Force Base, Shreveport, Louisiana.

### "Ruthie" To Sing At Kappa Kappa Psi Hop

Kappa Kappa Psi, national honorary band fraternity, will hold a merry and informal dance in the University Lobby, Friday evening, Feb. 4, from 9 p.m. to 1 a.m.

Music will be furnished by the fraternity's own fourteen-piece dance band, with vocals by "Little Ruthie" Sullivan. Admission will be 50 cents per person.

Proceeds will be used to buy letters and sheet music for the band.

"Spartoon Stomp" the Beta Chi Fraternity was presented three beautiful sterling silver candlestick holders. The gift was given by a staunch supporter of our fraternity Dr. E. Montgomery who was represented by his grandson Roger Chisholm, a Beta Chi member.

## THE MINARET

The Minaret is the official publication of the student body of the University of Tampa. It is published bi-weekly during the school year at no cost to the student body. The staff welcomes comments and criticisms. Address all correspondence to The Minaret, room 222, University of Tampa, Tampa, Florida.

### In Answer To Civil Rights Legislation

Augusta, Ga., Jan. 29—(AP)—Precedents were smashed here tonight when a negro girls' basketball team defeated a white sextet.

The negro team, an independent outfit known as The Tigerettes, won by a 23-19 margin over a team of university hospital nurses.

The game, a preliminary to a clash between two service quintets, was played at oliver general hospital, an army installation.

Spectators at games played there are not segregated.

In 1947 the American Legion brought charges of Communist controlled leadership against the A. V. C. (American Veteran Committee). These charges were brought at the time the A.V.C. was seeking admission to the University of Tampa and attempting to organize a chapter on the campus. A few days previous to the day the charges were made, Dr. E. C. Nance, President of the University, had granted permission to the A.V.C. to come on to the campus and canvass among the veteran students for members.

But after the American Legion had brought their charges, Dr. Nance did not feel it advisable to run the risk of offending such a large number of the citizens of Tampa without first looking into the matter further. On the other hand he did not wish to offend the A.V.C., so in trying to be fair to both organizations, he informed the A.V.C. that they would have to delay taking any further action about organizing on the campus until this charge of Communist leadership was cleared up. At the same time, he offered to them the Assembly Room of the University in which to hold a meeting with the American Legion, and at that time to let the American Legion prove their charges or give the A.V.C. an opportunity to disprove them. Two days after releasing this statement to the press, Dr. Nance received from a Mr. Roth, a lawyer in Miami who was representing the A.V.C., a letter in which Mr. Roth called the action of Dr. Nance, "the greatest blow to liberal thought in the South since the war."

After working for twenty-five years to obtain liberalism in the South, this seemed to Dr. Nance an unfair statement. In answering Mr. Roth's letter, Dr. Nance said, "Since you have found it necessary to bite the helping hand," you will have to go elsewhere to hold your meeting.

However, at the meeting which was held in the Municipal Auditorium, the American Legion said their evidence was not prepared and that was looked upon by the A.V.C. as a signal to organize on the campus; but that was not the case, for the American Legion did bring out the fact that the leader of the Tampa chapter was a communist and had run on the Communist janty ticket in New York. The next day the A.V.C. ousted this man as their leader and appointed a Mr. Bill Pauling as chairman of the Tampa group. Then things on the surface seemed to cool off and nothing more to cause a great deal of attention to the A.V.C. happened until Jan. 23, 1949. On that day Dr. Nance received a letter from Bill Pauling, Chairman of the Jose Gonzalez chapter of the A.V.C. in Tampa, in which Mr. Pauling said, "I have before me documents which force me to believe that you are burning the fires of prejudice under various organizations in order to obtain money for our University." Dr. Nance answered this statement in a

letter to Mr. Pauling, "I am enclosing a copy of a speech on brotherhood, which has been delivered 150 times throughout the United States during the past two years. It has also been published in The Tribune of Nations, Paris, and World Affairs Magazine published in Washington. Read it, Mr. Pauling. You will not find any 'fires of prejudice' or 'anti-minority feeling' in it. Also, it is a well known fact that while on this speaking tour Dr. Nance was taken ill from delivering so many requests for this speech. Dr. Nance also went on to say, 'I want to observe sadly that I find no improvement in the taste and manners of the A.V.C. leadership since 1947.'

Mr. Pauling is quoted by The Minaret as saying that "I am not a Communist and I disagree with the Communist principles." Perhaps this statement does clear the local leadership of the A.V.C., but to quote from the National Republic Telegram No. 204, "Certain G.I. groups among the veterans attending schools and colleges under the G.I. educational act, as attested to by recent discoveries of the new Communist leadership stemming from them, have huge votes of certain college locals of the A.V.C., in opposing the action of the national board of the A.V.C. in ousting two Communist leaders from its ranks, and petitions of G.I.s opposing the arrests and trials of leading Communists in the United States." All these facts indicate the inroads the Red masterminds have already made and are planning in this particular field of young America.

This does not prove the A.V.C. to be Communist, nor does it prove the National organization to have a completely clean shirt, but it certainly does prove that the local organization should look more closely into the actions of its national organization. It also proves that the local organization should try to put a little more tact and good manners into its letters.

This paper feels sure that the A.V.C. could again be on speaking terms with Dr. Nance if they would bring their claims and evidence forward and present it to him in a friendly manner, for it is a well known fact that Dr. Nance is one of the south's most liberal men, and if the A.V.C. proves themselves innocent, he will be among the first to admit it. But to prove their innocence they should prove it on a local and a national scale as well. But if proven guilty, the A.V.C. has one of Communism's most bitter foes to fight and one who will not easily go down.

### This Is The Story - - -

Perhaps this should be entitled the Last Chapter, for the story was started a long time ago. The principal character is now dead, but his memory lives on in the hearts of men who realize how much he gave to the world of education.

Now in order to prove that we have not forgotten, we are asked by men who are striving to keep his name among the honored to donate to keep his memory burning. Why should we donate? You will probably ask yourself this question. The best answer is told in the simple and sincere words of one whom your donations will help.

"My name is Dave Brooks. My home is in Franklin County, Virginia. I grew up here, spent two years in the army, but never had much chance to go to school or learn a trade. For one year after I came out of the army, I tried one job after another, but did not get much money for my work. Everyone told me about the G.I. Bill of Rights, but that didn't help me, because I just went to the fourth grade in school. In November I heard about the trade school at the birthplace Booker T. Washington, and now I am at the birthplace learning how to be a carpenter. Every nail I drive, I am thankful for what B.T.W. did for his people, and I know the other fellows here feel the same as I do."

This is an honest and genuine appeal from a member of a race who need all the understanding and help we can muster. The dollars you give will be part of this help. Send your dollar to the Booker T. Washington Birthplace Memorial, 52 William Street, New York 5, New York.

## Len's Den

Here's a letter received by The Minaret from Bob Hancock:

This letter speaks only for myself and not for any other members of the Student Senate.

In the last issue of this newspaper, you wrote an article concerning the Student Senate. I am not offended by it in any way, only a little puzzled as to why the article was so incomplete. For example, you mentioned the Senate members graded papers, but you gave no explanation for whom the papers were for or the reason why the Senate did the grading. It might have been of interest to some student that the papers were the Freshmen Entrance Exams and took a neat deal of patience and time, to grade. I hope there isn't anyone who was led to believe the Senate has been grading papers for the professors of the School. The Senate is not responsible for "failures."

Another item which could have been explained further was the parking lot situation, and its woes. A great deal of time was spent getting the cooperation of the city police to aid us in regulating the situation. Then there were signs to make and paint, and place on the lot. Only the administration and Senate members know of the many headaches caused needlessly by improper parking day and night.

The Homecoming activities were not the only ones given attention by the Senate. The students of visiting schools must have the help of our Senate in arranging plans for their welfare. The Student government was represented at the annual Florida Student Government Association meeting held at the U. of Miami last fall. Then, too, there was the Tallahassee trip made by a number of T.U. students for whom the Senate was only too glad to be of assistance.

Then, too, you mentioned that I headed committees, but the committees were not identified. I am not the only Senate member who has either headed a committee or served on one. It may be of interest to know whether or not the committees were successful in their assignments.

This is not a letter to draw blood or cause dissent between the Senate and Minaret. It is only a suggestion that instead of coming to the Senate and asking for items to publish, you dig up some, and put your reporters to work.

I'm certain that the Senate will release to the press and radio, any news that is of interest to the Student Body. There are some things that are being held back, but the Senate has reasons for not releasing them as yet.

Do the Senate members a favor next time and give complete detail on the whys and wherefores, whether good or bad. I believe it is your obligation to the Student Body to do so.

Thanking you in advance,  
Bob Hancock

Dear Bob:

May I express the gratitude of The Minaret for your interesting letter and offer a few explanations.

Our oversight in not explaining the character of the papers being graded was purely unintentional. Our only excuse is that we are human (and there may be some doubt as to that). As for the other omissions, they were also accidental.

In regard to the results of the actions taken by the various committees, how about the final draft of the judicial set-up, which was due several weeks ago and which was in the hands of Bob Hancock?

We gave credit in our article where credit was due.  
Yours truly,  
Leonard Gotler

## Salute To Youth

By Ralph Eugene Bennett

I salute you, O YOUTH, I salute you.  
It is a new world  
Shining and burnished from the hand of the maker.  
It is yours to be born with the burst of the atom.  
It is yours to live in a new world—unimagined.  
It is yours to know frontiers untrammeled.

In your age, O YOUTH, men can live without labor;  
The sweat and toil of the past be forgotten;  
The union and factory and floundering masses  
Be replaced by men with more time for leisure.  
Leisure for what?  
YOUTH! Have the answer!

The time has come when men need not hunger  
When we can produce food for the millions  
As easily as once we fed our own families  
Distributing to all the wealth of the people  
And no one need suffer,  
Or go to bed hungry.

In your age, O YOUTH, men can live without armies  
Destroying the wealth of generations unborn.  
When war and destruction will all be forgotten  
And peace will be the peace of production.

I salute you, O YOUTH, I salute you.  
I say it is your world.  
What will you do with it?  
Will you rise to the challenge of life and of peace—  
New ways, new thoughts, new faith, new ambitions—  
Or will you walk in the path of destruction?

A new world is born  
In one of two ways . . .  
It comes through the courage and faith of new people  
Or it grows from the dust of carnage and death.  
Which way will it be?  
I salute you, O YOUTH, I salute you.

# Greenroom Glimpses

By Tom Carlin

Have you ever stopped to think as you watch the familiar faces of your friends emoting on the stage, that these people are getting all of the glory for a job which they really didn't do all by themselves?

An actor is a piece of clay which must be gently moulded into the finished product that one applauds on opening night. Of the three people who contribute to this moulding process, last but not least is the prompter.

The prompter has an easy job—provided she is able to stop being human at a moments notice. She must be able to ignore insults. She can have no nerves. She must sit, hour after hour, carefully watching a script which she knows almost by heart. She must be alert; she

## May I Suggest - -

By Jim Carley

This is the story of a student who entered the University of Tampa in Sept. 1948. It doesn't matter whether he was a freshman, soph, or so-on, but he entered the U.

He got a little worked up about a few things . . . tried to show a little school spirit . . . heard the long and tedious tale of "Plant's old hotel that is now a university" . . . Took some notice of the Endowment trend and in the efforts for accreditation. He had the usual gripes—he personally found some professors overage or dogmatic and not too competent. But he liked T.U.

This student also heard of the parking problem. He inquired and found that said parking problem had existed for many years, back to the 20's, but after all, he didn't have a car so what was the difference—especially to him.

And then . . . and then he bought a car or a jalopy . . . Anyway, he bought a means of transportation to and from the campus. Ya' see, he lived off-campus. Anyway, our student suddenly became aware of the parking situation . . . He had one helluva time finding parking space. At about this time he began to realize that a parking problem really did exist . . . after all, he now had a car and had a nice time searching for a place to park. So-o-o, he sat down and pondered the situation and began to wonder; these things:

- KSK - - -  
(Continued from Page 1)
- was a member of the Homecoming Queen's court.
- Though one of the youngest fraternities on the campus, the local chapter of Kappa Sigma Kappa has taken great stride in advancement. Always ready to serve and lend a helping hand, the membership extends to each old student a warm invitation to become better acquainted with it and it's ideals. To the new incoming students, the fraternity suite is located on the second floor above the Riverview Auditorium. There you will find a friendly and cordial atmosphere not to be found elsewhere. Feel free to go in at any time.
- ponding number to those who park. Dorm students with cars not to be excluded.
8. System would not be mandatory, but helpful.
- Student Senate and Administration, how about it, can it work? Is it worth a try?
1. How many students have cars?
  2. How many students park their cars at the U. during classes.
  3. How many of the students who park at the U. during the day are dorm or off-campus students.
  4. How much room is there in available parking space and how many cars will it accomodate.
  5. Why not take a census, soon, say at Spring registration and find out the why's, how many's, etc.
  6. Why not c'hage \$1.00 a semester or some nominal fee like that for parking in University lots.
  7. Number your parking spaces and issue a sticker with corres-

"all men are created equal" free and equal in the mind of the God or in minds of men when it is popular to quote the phrase . . . yes you're biologically built the same way . . . there is ends . . . your thought processes—master race—are inclined to what you'd like to believe . . . to

# Your Experiences—

## War Stories . . .

In the University of Tampa, at the present time, the veteran enrollment is 583. This figure includes only those attending under the G.I. bill. There are others, men who are not using the G.I. benefits, men who spent the war years in the Merchant Marine, and some whose enlistments terminated before Dec. 7, 1941.

Among these 583 veterans there are undoubtedly a wealth of anecdotes and exeriencies which would afford interesting reading. So The Minaret issues a call to you, and you, and you. If you have a favorite sea story, or an amusing incident that occurred while you were in the service, bring it to The Minaret office, or drop it in the T-bag at any time.

Your name will be published or withheld just as you wish. The story may be amusing, tragic, heroic, or clever. It may be one you yourself experienced or it may be the experience of a buddy, friend, or relative, but it must be true.

The following story is one written by John Frost, a Freshman here at the University who was formerly in the Army.

Probably the most unforgettable person I have ever met was a German Doctor. He had an apartment in the house next to mine in Esslinger, near Stuttgart. I watched him from my yard, as he and his plained—and quite logically too—the causes and results of the rise of Nazism.

As he was preparing to leave, he

## "Zany" Diving Champ At Fair

Called the "zaniest screwball" in show business, but good for a hearty laugh every second he is performing, is Larry Griswold, trick and fancy diving champion, who first won national acclaim as featured comedian with Billy Rose's Acquacade at the New York World's Fair. Griswold was once a professor of gymnastics and aquatic training at the University of Iowa, but dropped the dignity of the calling for the more remunerative job of making show patrons

laugh. He has been signed as the featured performer, afternoon and night, for stage attractions for the Florida State Fair at Tampa, Feb. 1 to 12.

If an aluminum pan becomes darkened inside from hard water, boil it in a solution of two table-spoons of cream of tartar to one quart of water.

German pillboxes are being used as bathing huts and cafes in Holland.

## How Romantic can a love song be?

VAUGHN MONROE has the answer in "MY OWN TRUE LOVE" New RCA Victor Release

Here's dream-stuff that says, "Gather 'round and let's play that again!" Smooth-singing Vaughn Monroe and his Moon Maids make love really talk in this honey of a new recording.

## How MILD can a cigarette be?

Make the CAMEL 30-DAY TEST and see!

In a recent coast to coast test of hundreds of people who smoked only Camels for 30 days—an average of one to two packs a day—noted throat specialists, after making weekly examinations, reported

NOT ONE SINGLE CASE OF THROAT IRRITATION due to smoking Camels

Money-Back Guarantee: Smoke Camels and test them in your own "T-Zone." T for taste, T for throat. If, at any time, you are not convinced that Camels are the mildest cigarette you ever smoked, return the package with the unused Camels and we will refund its full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

THAT 30-DAY MILDNESS TEST I MADE SURE CONVINCED ME—NOW IT'S CAMELS AND ONLY CAMELS FOR ME!

I'M A CAMEL SMOKER FROM WAY BACK. I KNOW CAMELS ARE MILD. AND CAMELS SURE HAVE THE FLAVOR!

Vaughn Monroe talks it over with one of his lovely Moon Maids, June Hiatt. Hear them on the Camel Caravan...Saturday nights...CBS.

## What, Where, And When With SKN

By Credo Schwab

At a meeting held at the house of Ernest Webb on the evening of Mon., Jan. 19, 1949 James Ghiotto took over as president of the Sigma Kappa Nu Fraternity. The past president Albert McNab is graduating in February after three successful semesters as president of the fraternity. We of the Sigma Kappa Nu wish him all the luck in the world and are sure that he will make a success of anything that he undertakes.

On the evening of Jan. 28, 1949 the Sigma Kappa Nu Fraternity will hold its informal initiation. A committee of specialists have been assigned to the task of arranging the initiation for the lucky pledges who make a C average in their grades. Credo Schwab, Alex Kaiser, Joe McAllister, and pledge captain James Mayo, are the members of the committee.

## On Prejudice

"I did not choose my parents. I did not choose my father's color, his profession, his religion, his economic status or his social background. I had nothing to do with it. Whatever I may be today is largely an accident of birth."

How can we call ourselves the "superior white race?" We are no larger than other races in stature nor do we have more intelligence than they. The Negro man's body consists of flesh and bone with blood running through his veins the same as the white man. The pigmentation in his skin surely cannot make him inferior.

It makes my blood run cold to hear someone speak of an incident involving a Negro, by saying, "That's just like a nigger." There are many white criminals in our midst, but we do not judge the white race by their actions, so why should we judge the Negro race by the bad ones?

It is true that the Negro in the United States, especially in the South, has not made equal progress with the white man. This is due to the fact that, he has never been given the chance to prove himself. In some states he doesn't have the right to vote in state elections, nor can he obtain a job that will pay a large enough salary to secure a decent place to live.

The main reason for the Southern Negro's lack of progress is the low educational standard. The average Negro child does not complete his elementary schooling before he has to go to work to secure a living for himself. Even those who continue through school do not get an adequate education because of the poor facilities furnished by the Southern states. The South spends annually in public education an average of \$12.57 per Negro pupil as compared with \$99 per white pupil.

Give the Negro the same education, the same opportunities and the same rights as the white man and we will build a better America with better citizens.

## Future Beachcombers—Take Notice, This Is Deep

### On The Uses Of Philosophy

From time immemorial it has been found that there are pleasures in philosophy, and these pleasures differ in quality. You have the philosophy of John Stuart Mill embodied in "Hedonism—pleasure the highest good," and at the nadir you have the philosophy of Epicurus (90 A.D.), "Stoicism—virtue the highest good."

### Lifes Tragedy

Students of the University of Tampa seemingly having received the hangman's noose become estranged. They leave the mainstream of life and those who once question the nature and direction of its flow (for the nature of the mainstream is that it is blind) can nevermore return.

### Jobs Open

There are few professions open to the estranged—pilgrim or poss-

## AG Sorority Honors Alumnae, Mothers

Alpha Gamma sorority gave a reception immediately after exams in honor of the mothers of the alumnae, active chapter, and its pledges. Mothers of the members had expressed an interest in the group, and the girls took the opportunity to permit them to become acquainted with the members and with each other.

Violet Conte, president of the alumnae chapter, has announced that the annual Founder's Day banquet will be held Feb. 19, at the Crystal Ball. The alumnae, members, and their dates will also be entertained by a dance afterwards.

Plans for rushing, which will include a formal dance and a circus party, are nearing completion.

## Would You Like A Swiss Education?

Did you ever consider the possibility of a year's study abroad? Such opportunities are now increasing. Ernest Herbster, assistant to the Director of the American Council on College Study in Switzerland, reports that 53 men and women representing 35 colleges and universities are studying in Zurich under the Council's auspices. They are members of the group known as the "Junior Year in Zurich." All of the students are majoring in the field of Liberal Arts. Science and Engineering students are not eligible because of limited facilities in Zurich. They are, however, accepted in the Junior Year in Basel group, also sponsored by the Council, because the science facilities at the University of Basel are somewhat better than in Zurich.

Courses offered this year include German Grammar and Composition, German Language and Literature, Government, History, Economics, Art and Music as well as advanced courses in other Modern Languages. Tuition for the year is \$550. Veterans may make use of their G.I. benefits.

If you are a Sophomore and will complete two years of college by next spring or summer or if by that time you will have completed two

sibly play boy—many have done this in the past. Beachcombing, though, is the most satisfactory work of all. We have no lack of beaches here but there is an alarming shortage of beach combers. Of course, there is no chance for advancement, but the estranged are not very ambitious anyway.

### Adequate Supply

Equipment needed might consist of:  
1 pair ragged white duck trousers.  
1 shirt (knotted around the waist).

1 bottle (if only to scare away picnics).  
1 pair calloused feet.  
1 fellow beachcomber with whom to discourse weightily on things of no great moment, such as a gull's flight, a sunset, tides and sea-shells, stars, and the nature of things.  
1 philosophy (a gentle one).

### Recommendation

Possibly a good selection would be "What Are the True Ends of Life," from "Spinoza Selections." Quote—"After experience has taught me that all the usual surroundings of social life are vain and futile; seeing that none of the objects of my fears contained in themselves anything either good or bad, except insofar as the mind is affected by them." Unquote.

These parting words mean anything to you? "A little happiness, a moment of vision, then, an eternity of night."

### The Julian Calendar

Eleven days of English and American history were legislated out of existence in September, 1752, when by act of Parliament the Gregorian calendar superseded the Julian calendar in England and the colonies.

The Julian calendar, introduced by Julius Caesar in 46 B.C., had long since been replaced in most European countries by the Gregorian, so named for Pope Gregory XIII, who introduced it in 1582. The Julian year was 11 minutes longer than the astronomical year, and in 1582, the Julian calendar was lagging by 10 days, an error that Pope Gregory's calendar corrected. In 1752, when the new calendar was adopted in England and the colonies, the error had become 11 days. The day that would have been Sept. 3, 1752, became, by Parliamentary act, Sept. 14, with the result that there is a gap of 11 days in newspaper files and other records of that year. Thus the fifth number of the Mercury, a weekly paper of New York, was dated Aug. 31, 1752, but the sixth number, published a week later, on what would have been Sept. 7, bore the date of Sept. 18.

years of college German or have the equivalent in that language; and further if you are in the upper half of your class you may be eligible to become a member of the 1949-50 Junior Year in Zurich.

The American Council on College Study in Switzerland has prepared a 16-page announcement containing full details of the year abroad. It can be obtained by writing to the Council's American office: 1123 North Eutaw Street, Baltimore 1, Maryland.

## Men

If you smile at him, he thinks you're flirting;  
If you don't flirt, he thinks you're an iceberg;  
If you let him kiss you, he wishes you were more reserved;  
If you don't he'll seek consolation elsewhere;  
If you flatter him, he thinks you're simple;  
If you don't he thinks you don't understand him;  
If you talk of love and romance, He thinks you're asking him to marry you;  
If you're a good girl, he wonders why you're not human;  
If you return his caress, he doesn't want you to;  
If you let him make love to you, he thinks you're cheap;  
If you don't he'll go with a girl who will;  
If you go out with other fellows, he thinks you're fickle;  
If you don't, he thinks no one will have you;  
Men, God bless 'em—they don't know what they want.

# Hatters Fall To Spartans, 67-64

## Cagers Defeat FSU Seminoles In Dixie Conference Game

The University of Tampa cagers solved a tricky F.S.U. zone defense and went on to score an important Dixie Conference win by a 63-51 count Jan. 15, at Ft. Hesterly in Tampa.

The contest, played before 1800 excited onlookers, was rough all the way with 47 personal fouls being called. Two Tampa players, Re-

naldo Escobar and Holland Aplin joined Kendall of Tallahassee on the sidelines as a result of the five-foul rule.

Mac Williams of Tampa was the big gun of the night, with 19 points. Holland Aplin, making 11 markers, and Harry Bryan, with 10, proved able assistance. MacLaughlin, totaling 18 tallies himself, headed the Seminoles' scoring.

## Washington Used Skill and Daring

It was George Washington's skill and daring on that Christmas night in 1776, that brought success out of an hour of darkness and despair. The British under Cornwallis had pursued him through New Jersey to the Delaware and would have crossed that river if Washington had not taken pains to see that all the boats were on the wrong shore.

Then, on Christmas night, Washington and his men recrossed the Delaware, which was full of floating ice, and carried out a surprise attack on the British outpost at Trenton, N. J., where the Hessians were celebrating the holiday. He succeeded in capturing almost 1000 prisoners with a large quantity of much-needed supplies. The American loss was two private soldiers frozen to death during the night march, and two officers and a private wounded. The victory sent a wave of joy through the colonies.

To bake apples so they don't crack, peel a one-inch band around each apple's equator.

For a glazed, golden pie crust, brush the top of the pie with top milk, cream, butter or slightly beaten egg white.

## T. U. Five Will Be On Road for Games

The University of Tampa Spartans, fresh from a victory over the Stetson Hatters face a tough week on the road with Florida opponents before they travel to Madison Square Garden to face a tough Boston College five next Tuesday night.

Tampa will be risking its perfect league mark when it faces the Seminoles of Tallahassee tonight and the Moccasins of Lakeland Saturday night in return engagements. Both teams gave the Tampa five a hot time before bowing before them and will no doubt be seeking revenge.

The Spartans will leave Sunday night for the Garden and their big moment. It will be the first chance for a Tampa team to show its wares to the New York crowds.

The locals will play part of a doubleheader in which Holy Cross will participate in the other half. If the Cigar City tossers show true to form, New Yorkers can expect to get an evening full of thrills from a hard fighting five from "way down South."

Coach Gaddis intends to take almost the entire varsity squad on the trip upstate and to Lakeland but he is yet undecided on how many members will get to make the trip to the "Big Town." The performance of the cagers in this week's games will likely tell the story of who will get the nod for the Northern journey.

Planetoids, also called asteroids, are tiny planets revolving around the sun, mainly in orbits between Jupiter and Mars.

Sabea de Vaca and his men walked from the Atlantic to the Pacific through what is now the United States in the 1530's.

When a rattlesnake swims, it holds its rattle above water.

## Rally In Last Period Brings Third Straight Victory Of Current Season

By IRVING EDELSON

A late rally in the dying seconds of the game fell short and the Stetson Hatters fell victims to the University of Tampa Spartans 67-64 Monday night at Ft. Hesterly.

It was the third straight victory for the Tampa outfit in league competition. The local cage squad is riding atop the circuit with a perfect 1,000 mark as a result of wins over F.S.U., Florida Southern, and Stetson Universities.

As in all previous games, the Spartans thrilled the crowd with fast and hard playing and engaging in considerable ball hawking, though in that department the Hatters were their equal.

Though the winners started off fast with Holland Aplin dropping two straight goals between the hoops, the Deland team soon copped the lead and ran up a six-point margin.

The second quarter had barely commenced when the local "pride and joy" tied the count. The Tampa boys went to town on a fast attack aided by ball stealing and accurate shooting. Gallagher led off with a charity throw followed by Avron Bryan's free throw to make it 28-26. Before the intermission had descended, Aplin had tossed in a two-pointer and MacWilliams had opened up his own attack with five markers to run up a 35-26 margin. From then on the Plant Park cagers were never headed.

The Deland quintet came with in two points of the winners midway in the last session but that was the closest they came. The final whistle halted their drive with the Hatters trailing by three points and the stubborn Stetson "5" were forced to admit defeat.

Williams, Tampa shooting specialist topped the scorers with 19 points. Gallagher, a new face in the lineup contributed 10 markers on

long throws while the Bryans also shone for good work on the hardwood.

Larry Bottom was easily the standout player for the visitors though he was outscored by Everett and Benjamin who counted for 18 and 16 points respectively.
