

INAUGURATION MARKS NEW ERA

With 'Quality' As Watchword, Faculty, Student Body, and Alumni Go Forward with Far-seeing President To Greater Goals.

The determination to excel, expressing the collective mind of students, faculty, alumni and officials of the University since Dr. David Marion Delo assumed office, will be impressively affirmed Saturday in the inauguration of Dr. Delo as fifth president of the University of Tampa.

The inaugural convocation will be held at 10 A.M. in the Municipal Auditorium.

The installation and inaugural address of Dr. Delo will be the climax of a two-day program that includes a symposium at 4 P.M. Friday on "Strengthening Education Through Improved Education of Teachers," and a second symposium at 8 P.M. Friday on "The Role of the Independent University."

The academic procession, in which will be University officials, members of the Board of Trustees, the University faculty, and more than 200 delegates of universities and colleges, learned societies, foundations, and educational organizations, will form in the University building at 9:30 and enter the auditorium for the inaugural convocation at 10 o'clock.

The procession will be played by the University of Tampa Band, under the direction of Alonzo Turner.

David E. Smiley, Sr., chairman of the Board of Trustees of the University, will preside.

A MacDill Air Force Base color guard will take part in the ceremonies, and a musical number will be given by the University Chorus, Prof. Lyman Wiltse directing.

The convocation speaker will be Dr. Charles W. Campbell, vice president of the Prudential Insurance Company, and a member of the Florida Nuclear Development Commission and chairman of the subcommittee on science and mathematics.

After Dr. Campbell's address and a selection by the University Chorus, Mr. Smiley will conduct the installation of the new president, and the Hon. Campbell Thornall, justice of the Supreme Court of Florida, will administer the oath of office to Dr. Delo, who will then deliver his inaugural address.

Carl D. Brorein, chairman of the executive committee of the Board of Trustees, will introduce the platform guests.

The President of the University will confer two honorary degrees, the doctor of humanities degree on Dr. Campbell, and the doctor of science degree on Dr. John S. Allen, president of the University of South Florida.

Dr. Campbell will be presented for the degree by George B. Howell, a trustee of the University. Dr. Allen will be presented by Dr. M. C. Rhodes, dean of administration of the University of Tampa.

At the close of the inaugural convocation the delegates, staff, alumni, and friends of the University will gather in the Wicker Lounge in the main University building.

(Continued on page 10)

DR. DELO, OUR FAR-SIGHTED NEW LEADER

New President Has Background In Science

Assuming office July 1, 1958, Dr. David M. Delo became the fifth president of the University of Tampa. Educator, author, and geologist, Dr. Delo came to Tampa from Staten Island, N. Y., where he had been president of Wagner College since 1952. Prior to that he was executive director of the American Geological Institute and executive secretary of the Division of Geology and Geography of the National Research Council in Washington, D.C.

As Chief of the Scientific Manpower Branch in the General Staff's Research and Development Division, Department of the Army, from 1946 to 1949, Dr. Delo instituted the first formal reserve program for scientists and engineers. A successful and productive program, it was soon extended to cover other branches of the Armed Forces. In 1951, he served as a special consultant to the Research and Development Command of the U. S.

Airforce, concentrating on the efficient utilization of scientific manpower.

Completing his undergraduate work at Miami (Ohio) University in 1926, he was elected to membership in Phi Beta Kappa. In 1928, Dr. Delo was awarded the master of arts degree from the University of Kansas, and in 1935, while studying under an Austin Fellowship at Harvard University, he received the doctor of philosophy degree.

Dr. Delo began his college teaching career as an instructor in Washington University, St. Louis, Mo., in 1929; moving to Northwestern University in 1930 to serve in the same capacity. In 1934, he became chairman of the Department of Geology at Lawrence College, Appleton, Wis. Three years later, he was appointed chairman of the Department of Geology and Geography at Knox College, Galesburg, Ill., a post he held until 1946.

While at Knox, Dr. Delo was a certified instructor in the civilian pilot training program (1939-1943). From 1944 to 1946, while on a leave of absence from Knox, he served as a technical aide in the Office of Scientific Research and Development, Washington, D.C. He was awarded the Certificate of Merit by the Department of the Army in 1946 for his work with that office.

A contributor of numerous articles to technical and educational journals, Dr. Delo is also the co-author of "Years of This Land" (1943) and "Scientists in Uniform" (1948). The latter work is the only comprehensive report on the employment and utilization of our scientists and engineers by the Armed Forces during World War II.

In 1954, Dr. Delo received the Erasmus Haworth Distinguished Alumni Award from the Department of Geology, University of Kansas. He has been awarded the honorary de-

grees of doctor of science by Hartwick College, and of doctor of laws by Miami (Ohio) University. He is a fellow of the Geological Society of America and a member of Beta Theta Pi, Sigma Xi, and the Harvard Club of New York, the University Club of Tampa and Kiwanis. He was president in 1952 of the Association of Geology Teachers, and has also been a trustee of the United Cerebral Palsy Association. On Staten Island he was a Director of Northfield Savings and Loan Association, Family Welfare Service, Red Cross, the Staten Island YMCA, the Group Health Dental Association, (N. York,) and a member of the Naval Reserve Civilian Advisory Council.

Born in Mount Morris, Ill., in 1905, he is the son of a Lutheran minister, the late Rev. Frank S. Delo. He and his wife, the former Elsie M. Crooker, have three children — Diana, David and Virginia.

INAUGURATION OF DR. DAVID M. DELO as president of the University of Tampa

Friday, Dec. 12:

4:00 P.M. SYMPOSIUM;
Strengthening Education
Through Improved Edu-
cation of Teachers.
Auditorium. County
Court House.

Ceremonies (Municipal
Auditorium).

12:15 P.M. Reception
(Main University Build-
ing, Wicker Lounge).

1:45 P.M. Luncheon (Ball-
room, Hillsborough Ho-
tel).

EDITORIAL

New President — New Spirit

President Delo, although he will be officially inaugurated Saturday, has been in charge of the University of Tampa for over five months. In this time he has shown the students and the community that he sincerely works for the betterment not only of Tampa U., but of the Tampa Bay Area. By vigorous activity and continuous effort, Doctor Delo has made it plain that he has not been chosen president of the University to serve as its chief pall-bearer, Dr. Delo has said: "We have adopted a policy that what we do will be of the very highest caliber, the very highest quality. I think that every educational institution has an obligation for excellence which it must fulfill as part of its educational mission. That is what we're doing at the University of Tampa — building on the excellent foundation of 25 years of educational contributions the University has made to the city of Tampa." With this realistic appraisal, President Delo has recaptured much of the optimism that was shattered by the announcement of a state university being opened in Tampa. Many of the citizens and students felt that the University of Tampa would have to close its doors. In education, as other fields, excellence and quality are always in demand. If Tampa U. can continue to offer such a program, we have nothing to fear from competition.

President Delo has shown not only by precept but by example what can be achieved by intelligent action. We have this intelligent action on the part of the administration; what is lacking is the wholehearted and sincere effort of the student of Tampa U. to back the forward-looking programs of the administration.

Let us make this inauguration, not only the official installation of a new President, but the inauguration of a "new spirit" in the student body. Tampa U.'s student body has been lethargic long enough and then some. Don't be apologetic when you say that you are a student of Tampa U. Anything that is worth our effort is worth our best. Therefore let us make the inauguration of President Delo a real milestone in the history of Tampa U.; a new President and a truly "new spirit" in the student body.

PRESIDENTIAL INAUGURATION

by Ron Brickey
News Editor

On Dec. 13, Dr. David M. Delo will become the fifth president of the University of Tampa. He will be sworn in at 10 a.m. at Tampa Municipal Auditorium.

This is not only an inauguration of the president of the University, but the beginning of a new era. For the University has found someone who will live up to the standards and qualities that the office of President demands. Dr. Delo is a person of action, and this fact is borne out by the changes already noticed in the University.

Dr. Delo, a man with a dynamic personality, has made friends for himself and the school.

He came to the University after serving as president of Wagner Lutheran College on Staten Island, N. Y. Although he began his duties officially on July 1, 1958, he was commencement speaker for the University's graduation exercises in June.

Dr. Delo has a well-rounded educational background. He began his teaching career in 1929, is the author of two books and the contributor of articles to technical and educational journals, served as administrator and consultant on several scientific programs while in the government in Washington and for six years, was the president of the New York Institution of Higher Learning.

Two-Day Program

The inauguration of Dr. Delo will climax a two-day program which will begin Dec. 12 with a two-part symposium on strengthening education

through improved teacher education, and the present day role of the independent or privately-supported university.

Panelists in the symposium, to start at 4 o'clock in the County Courthouse auditorium, will be J. T. Kelley, director of division of teacher education, Florida Department of Education; Forrest W. Murphy, dean of education, University of Mississippi; and Arnold Perry, dean of education, University of North Carolina and Charles B. Smith, President, Troy State College. J. Crockett Farnell, County Superintendent of Schools, will be moderator.

The symposium will move to the Greater Tampa Chamber of Commerce auditorium for the final session at 8 p.m. Panelists will be: Carey Croneis, Provost, Rice Institute; Theodore A. Distler, Executive Director, Association of American Colleges; J. Ollie Edmunds, President, Stetson University; Jay F. W. Pearson, President, University of Miami and Willis Tate, President, Southern Methodist University.

Students Invited

The President has asked that all students attend the inauguration ceremonies, Saturday morning. At this great hour, not only in the life of the President, but in the life of the University, the student body should be well represented. We should at this time show the new President our appreciation for what he has done in the short time he has been here, and show him the student body is behind him.

DE NOVO DEADLINE NEARS

Dec. 19 is the deadline for manuscript for De Novo. Those of you who would like to turn in copy for publication should contact one of the members of the editorial board — Jesse Jackson, Grace Fine, or Jean Morris — or the editor, Mrs. Margaret Wilcox in the next few days. Any article of a literary nature — poems, short stories, essays, critiques, or one-act plays — are suitable. There is a stipulation as to length: no article may be more than ten double-spaced typewritten pages. Whether you think your article will be printed or not, submit it. The task of the editorial board is to select the best for publication;

the more manuscripts that we receive, the greater opportunity we have of getting a good selection for publication.

For those of you who have not seen the bulletin boards advertising De Novo, or the recent article in the Minaret; De Novo is the literary magazine of the University of Tampa, sponsored by the National English Fraternity, Sigma Tau Delta. The purpose of De Novo is to furnish a vehicle for the publication of creative literary expressions of the students and faculty of the University.

De Novo will be ready for distribution in the latter part of January.

—POTPOURRI—

"The time has come," the Walrus said,

"to talk of many things:

Of shoes — and ships — and sealing wax —

Of cabbages — and kings —
And why the sea is boiling hot —

And whether pigs have wings."

Lewis Carroll

Welcome to the legions of confused thoughts and wandering words. We feel that the time is indeed here to "talk of many things" and to cast off the pedantic shroud that hovers over the realm of free expression. So sit back, throw your troubles to the laughing winds, confuse your organized thoughts and join us in our joyous babblings.

We feel that the highest and most exalted of the arts, Literature, has long been overshadowed by the weighty and depressing cloud of misunderstanding. Too many people have been exposed to Literature out of necessity, and never view it openly, hence failing to recognize the true gratifications that it has to offer. We propose in this column to reveal the world of Literature in

its most interesting and enjoyable aspects.

We know that among the secreted memoirs of many of our fellow students lie many profuse strains of un-premeditated art. You are qualified if you can match anything from "Pilgrim's Progress" to

"Do you love me

Or do you not?

You told me once,

But I forgot."

Or you may fall into the category of the person who said,

"Some write for pleasure,

Some write for fame,

But I write only

(To sign my name)."

Regardless of ability, subject, dialect or tongue, we invite you to take pen in hand and trill forth in harmonious ditty your joys and woes as the case may be. Address your tear-stained and perspiration-drenched works to "Literary Emancipators" and leave them in the MINARET box or in the mail room. All serious contributions will be discriminately evaluated for publication in this column.

Any Nobel Prize winners will be announced at a later date.

The Minaret

The Minaret is the official publication of the student body of the University of Tampa. It is published bi-weekly during school year.

The editors welcome comment and criticisms. Address all correspondence to the MINARET, Box 28, University of Tampa, Tampa 6, Florida.

IS IT MAGIC?

by Ron Brickey
News Editor

That is what most people associated with the University are asking. They want to know how it is humanly possible for one person to do so much. And who are they talking about? Dr. David M. Delo, our new President!

On this point all students here at the University will agree. For in just five months Dr. Delo has tackled and accomplished many kinds of jobs. Among these: delivering thirty speeches throughout the country, obtaining furniture from the Floridan Hotel to furnish the men's dormitory, dedicating playgrounds and entertaining important out-of-state officials.

Even though he carries a tremendous load of extra duties, he still finds time for his administrative work, and his door is always open to students who have problems they wish to discuss with him.

While in New York Dr. Delo bought a pair of copper urns that will hold from 40-50 cups of coffee each. To match his generosity, the Board of Trustees has granted enough money to install a new kitchen which will be located where the present women's lounge is.

He is determined to put the University of Tampa on the map, and to make it known throughout the country. Last week, planning to attend the meeting of the Southern Association of American Colleges, he was unable to obtain a reservation on any flight because of the existing airlines strike. Feeling that he should be there to represent the University of Tampa, Dr. Delo philosophically boarded a bus to Louisville, Kentucky, a twenty-six hour ride. If anything shows his feelings and devotion to the University, I believe this action does.

In spite of his heavy responsibilities, Dr. and Mrs. Delo manage to sneak off to the gulf beaches to soak up the Florida sun. Dr. Delo has found time to get in some fishing — his favorite sport. Up until now, however, he has not caught any record-breaking fish.

We all wish to thank the President for his devotion to his job, and hope that he and his family will enjoy their stay here.

Graduate Record and National Teacher Exams

All January '59 graduates in non-education curricula must make application during December for the Jan. 17 administration of the Graduate Record Examinations. Similarly, June '59 graduates in education must apply for the National Teacher Examinations before January 9, 1959. The National Teacher Examinations will be held on Feb. 7, 1959.

Application forms for both examinations are now available in Doctor Mohr's office, Room 227.

Residence of University of Tampa President

A FIRST FOR THE UNIVERSITY — This home at 1815 Bayshore Blvd. is the new residence of the President of our beloved University and his family. It was made available by Mr. James Furman.

by Ron Brickey

For the first time in the history of the University of Tampa the President and his family have been given a home where they can live and entertain students and officials of the University.

Our school could not have picked a more suitable family to be the first to occupy the "President's House" than the Delos. This beautiful old mansion, located at 1815 Bayshore Blvd., has been made available as the President's house by Mr. James Furman, a member of the Board of Trustees. Through the efforts of Mrs. Delo and a professional interior decorator, this home has been transformed to one of quality, of which every student can be proud.

Everyone is proud of her home and the accomplishments she has made in it. Since the family have moved to their new home, they have entertained over 1,700 people. Dr. and Mrs. Delo are quite sure this spacious home will serve its purpose as the social center of the University.

AN INVITATION

There will be an Informal Open House and Carol Singing for all students, at the President's House, 1815 Bayshore Blvd., Tuesday evening, Dec. 16, from 8:00 to 11:00. Come and bring your date.

A new idea in smoking...

Salem refreshes your taste

Created by R. J. Reynolds Tobacco Company

- menthol fresh
- rich tobacco taste
- modern filter, too

Salem adds a wholly new quality to smoking . . . refreshes your taste just as a sudden breeze on a warm Spring day refreshes you. Rich tobacco taste with a new surprise softness . . . menthol-fresh comfort . . . most modern filter, through which flows the freshest taste in cigarettes. Smoke refreshed . . . pack after pack . . . get a carton of Salems!

Take a Puff... It's Springtime

Convention Speaker

Dr. Charles W. Campbell, vice president of the Prudential Insurance Company of America, was graduated from the University of Alabama with Phi Beta Kappa honors. After Army service in World War I, he entered the banking business in Columbia, Ga., and subsequently began his Prudential career in that city.

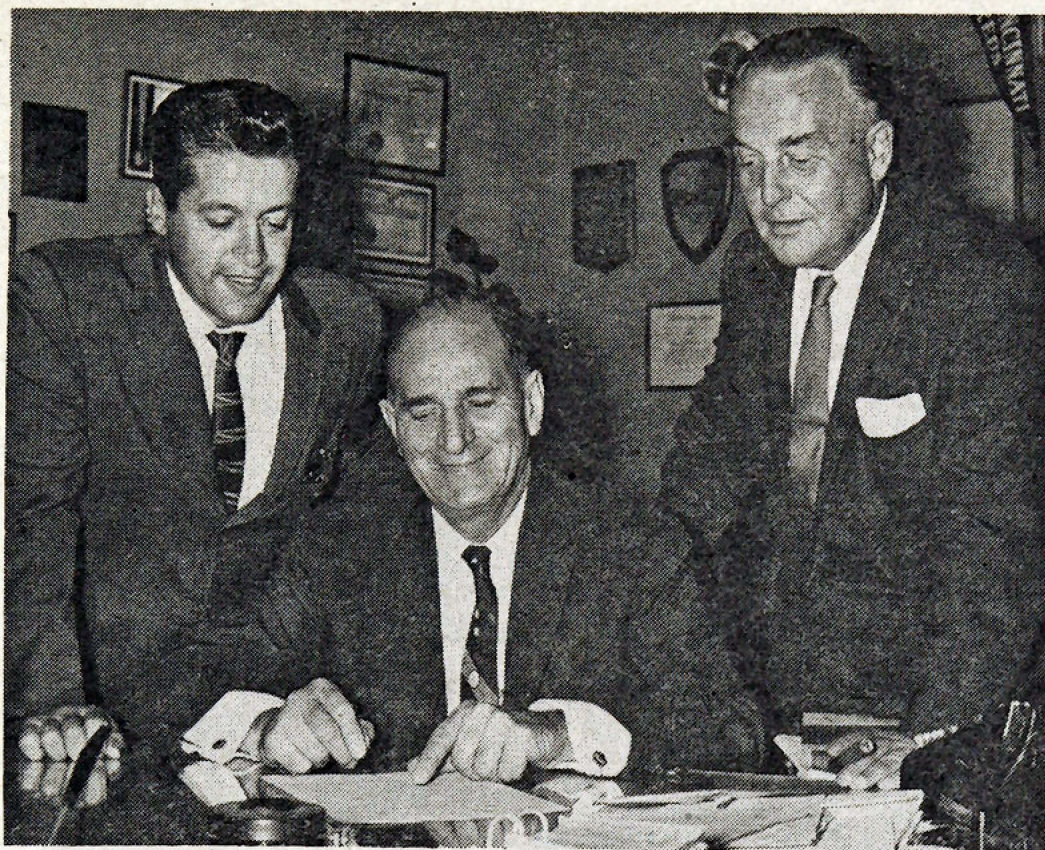

He served in World War II as a colonel, directing the field organization of the facility security program, which was charged with the prevention of sabotage and with the protection of key federal, state, municipal and privately-owned properties.

Shortly after leaving the Army in 1945, he was made manager of Prudential's Newark, N. J., agency. A year later, and for the next six years, his organization led all Prudential agencies. In 1951 it was the leader among all agencies of all companies.

Dr. Campbell was elected a vice president of his company in 1952, and was assigned to head the new South-Central home office in Jacksonville in 1953. In this capacity he directs all Prudential activities in 10 states, and an organization numbering 7000 people.

He is a trustee of the American College of Life Underwriters and was the first elected national chairman of the General Agents and Managers Conference.

He is a member of the Florida Nuclear Development Commission, and chairman of the subcommittee on science and mathematics.

WORKS WITH CIVIC LEADERS — Through good relationship with civic as well as school authorities, the University will grow. Shown here is Mayor Nick Nuccio (center) as he signs a proclamation setting aside a day as the city's Appreciation Night for the University of Tampa Spartans. Flanking him are Dr. David Delo (right) University president, and Head Coach Marcelino Huerta.

Symposium Will Begin Two-Day Program

A symposium will be held today at 4:00 P.M. and at 8:00 tonight. The symposium will open the much anticipated inauguration of David M. Delo as president of the University of Tampa.

At the conference various aspects of some questions will be discussed by a number of speakers.

The symposium scheduled at 4:00 will discuss the topic "Strengthening Education Through Improved Education of Teachers." The speakers are as follows:

J. T. Kelley, director, Division of Teacher Education, Florida State Department of Education;

Forrest W. Murphy, dean of education, University of Mississippi;

Arnold Perry, dean of education, University of North Carolina;

Charles B. Smith, president, Troy State College;

Moderator: Crockett Farnell, superintendent of Public Instruction, Hillsborough County.

At the symposium scheduled

at 8:00 P.M. tonight, the following speakers will talk on "The Role of the Independent University." Auditorium, Chamber of Commerce.

Carey Croneis, provost, Rice Institute;

Theodore A. Distler, executive director, Association of American Colleges;

J. Ollie Edmunds, president, Stetson University;

Jay F. W. Pearson, president, University of Miami;

Willis Tate, president, Southern Methodist University.

Tri Sigma Ready For Christmas

Members of Tri-Sigma sorority have been living up to the Christmas spirit. The "strange" sounds heard emerging from the Tri-Sig room have been the voices of the girls practicing Christmas Carols. The purpose of this little project is to serenade the members of the Old Folks Home at the party Tri-Sigas will give them on Dec. 23.

Although the motto of the sorority is "Sigma Serves Children" the members decided that it was time somebody thought of the Oldtimers, and gave them something to remember.

One of the National projects of the Sorority is the Robbie Page Memorial. The story behind this project is a stirring one and well-worth mentioning. In 1951, Robbie Page, son of Mary H. H. Page, national president of Sigma Sigma Sigma sorority at that time, was stricken by bulbar polio and died. This inspired Tri-Sigas all over the nation to do something about this disease. Two months after Robbie's death the Robbie Page Memorial Fund was established on a working basis. Its purpose is to increase the knowledge of polio, thereby aiding in its treatment. Among the grants made from this fund is one which helped finance the Salk vaccine program.

Delegates Will Attend From All Over the Nation

Listed in the order of the dates of founding of the institutions they will represent, the following delegates of universities and colleges, learned societies, foundations, and educational organizations will attend the inauguration of Dr. David M. Delo as fifth president of the University of Tampa:

Harvard University, Charles G. Roudabush; College of William and Mary, Walter C. Buchanan; University of Pennsylvania, James W. Gray, Jr.; Princeton University, George A. Hochschwender; Washington and Lee University, John Bell; Columbia University, Clarence M. Pruitt; Brown University, Charles H. Ricker; Rutgers University, William A. Feirer.

Dartmouth College, Forrest Riley; University of Georgia, Leila G. Allen; University of North Carolina, Arnold Perry; Ohio University, Henry E. Wiley, Jr.; University of Maryland, Lt. Col. Louis W. Berger; Colby College, Lester E. Young; Allegheny College, S. W. Robinson; University of Michigan, Frederick W. Schaeberle.

Amherst College, Albert M.

Morris; George Washington University, Milton Ladd; Trinity College (Hartford), William P. Barber; Rensselaer Polytechnic Institute, James M. Fiske; Kenyon College, Charles L. Lord; Western Reserve University, Edwin W. Cummer; University of Richmond, Gordon E. Marks; Denison University, Walter Livingston.

University of Alabama, R. Renfro Duke; New York University, Francis J. Thompson; Wesleyan University, George S. Brengle; Gettysburg College, the Rev. John B. Dickson; Stephens College, Harry M. Philpott; Tulane University, Ned Wilson Holland; Wake Forest College, Ennis P. Thorne; Albion College, M. Dan Siler.

Marietta College, Harry W. Fogle; Emory University, Horace S. Smith, Jr.; Davidson College, Thomas E. Gray; Knox College, Orpah N. Houk; Boston University, Stephen L. Speronis; University of Missouri, W. L. Ball; Ohio Wesleyan University, R. S. Shriver; Willamette University, Mrs. Robert A. Janis.

Hillsdale College, Robert E. Jagger; New York State Col-

lege for Teachers (Albany), Milton G. Nelson; Louisiana State College, Clifford Smith; Wittenberg College, the Rev. Carl A. Driscoll; Bucknell University, Romeyn Henry Rivenburg; Mount Union College, Ross Wesley Adair; St. Vincent College, Fidelis J. Dunlap; Otterbein College, Lloyd A. Abbott.

State University of Iowa, Marie Jeffre Isch; Geneva College, Wray D. Storey; Muhlenberg College, Harry P. C. Cressman; University of Wisconsin, Charles J. Kaniss; Eastern Michigan College, George W. McDowell; Teachers College of Connecticut, Richard L. Wampler; William Jewell College, Joseph E. Lewis; Illinois Wesleyan University, Donald R. Mathis.

Carson-Newman College, Claude W. Crosby; Catawba College, Aaron R. Tosh; Hope College, Gerard DeLoof; University of Minnesota, Arthur R. Knauf; Tufts University, Harold A. Spalding; Westminster College, Norman M. Shenk; Antioch College, Robert B. Sprague; Cornell College, Haridas T. Mazumdar.

University of Florida, Vice-President Harry M. Philpott;

Washington University, Hadley H. Hasemeier; Evansville College, Kenneth Watson; Elmira College, Mrs. DeWitt T. Farabee, Jr.; Michigan State University, Willis J. Dunn; Pennsylvania State University, Edward W. Cooke; University of San Francisco, the Rev. Fr. Charles Lashley; Birmingham Southern College, Lorenzo Dow Patterson.

St. Lawrence University, Col. S. F. Griswold; Florida State University, President Robert M. Strozier; Lake Forest College, Mrs. Jack D. Oldham; University of the South, Charles G. Mullen, Jr.; Baker University, Lynn W. Bloom; Augustana College, Clifford D. Johnson; Louisiana State University and Agricultural and Mechanical College, Mason Clifton Smith; Wheaton College, the Rev. Millard C. Cleveland.

Massachusetts Institute of Technology, William H. Mills; Kansas State College of Agriculture and Applied Science, D. Paul Ayers; Bates College, Egbert A. Case; Swarthmore College, Robert G. Dawes; University of Denver, Robert E. Schaffer; Cornell University, George B. Howell; University

of Kansas, Maj. Gen. W. R. Wolfingbarger; University of Kentucky, Mrs. F. L. Adams.

University of Maine, William W. Haney; Carleton College, Marston Headley; College of Wooster, David Wilson Allison; State Teachers College (Kutztown, Pa.), Robert R. Abernethy; University of New Hampshire, James H. Scudder; Lewis and Clark College, Carleton E. Van Arnam; University of Illinois, A. L. Anderson; University of California, Dean D. Halsey.

Purdue University, Charles C. Murphy; University of Akron, Mrs. Kurt Arnold; Ohio State University, Joseph Jenks Chamberlain III; Syracuse University, Dunham Conger; Wellesley College, Mary Anne Lewis; Wilmington College, Amos G. Smith; Smith College, Mrs. Gladys K. Metz; University of Arkansas, Marvin B. Miller.

Colorado College, Dorothy Chidlow; University of Nevada, Mrs. Joe Walker; George Peabody College for Teachers, Flo Bottari; Agricultural and Mechanical College of Texas, Edward B. Aman; Calvin College, Marvin Beelen; University of Colorado, Ralph D.

Three Trustees Appointed

Announcement of three new members of the Board of Trustees of the University was made recently by David E. Smiley, board chairman.

The new members are G. R. Griffin, vice-president of the Exchange National Bank of Tampa; James W. Warren, Tampa bottling company executive; and W. Howard Frankland, president of the First National Bank of Tampa.

Mr. Griffith succeeds his father, the late J. A. Griffin, who was one of the founders of the University. His term will run until May, 1962.

Mr. Warren succeeds the late Col. Harry W. Culbreath, and Mr. Frankland will succeed A. M. Case, who resigned from the board. Both terms will run until May, 1963.

Charles F. Blake, secretary-treasurer of the board, will represent the trustees on Trustees Endowment, Inc. He fills the vacancy caused by the death of Colonel Culbreath.

Serving with Mr. Blake on Trustees Endowment will be Mr. Smiley; Charles Galloway, representing the First National Bank; Henry Toland, representing the Exchange National Bank; and Carl Brorein, Sr., chairman of the executive committee of the Board.

Other members of the Board of Trustees are: R. J. Binnicker, J. W. Dupree, David A. Falk, J. Crockett Farnell, Chester H. Ferguson, James L. Ferman, George B. Howell, Howard P. Macfarlane, D. B. McKay, V. H. Northcutt, V. V. Sharpe, Paul Smith, Frank M. Traynor, C. C. Vega, Jr., Louis Wellhouse, Jr., Morris E. White, Al Yorkunas.

DEAN SETEAR

Dean F. W. Setear, before accepting his present position as Dean of Men on the University of Tampa's staff served in the position of director of the dormitory and assistant to the Dean of Men at Northern Illinois University at DeKalb, Ill. There Dean Setear also worked in the Counseling Clinic and taught classes in psychology. Previous to this he worked four and one-half years as a personnel director.

When asked why he went into this field Dean Setear replied, "I enjoy working with people and feel that I can be of some assistance not only to the faculty but also to the student."

As the Dean of Men he is responsible for integrating all activities that affect the male

student of the University. He assists in some policy making must understand and interpret all policy and assist in application of these policies. As Dean of Men, Dean Setear participates in the following activities: parking, placement, scholarships, student loans, non-academic guidance and counseling, discipline, student elections, records, fraternities, and the men's dormitory. He is a member of the following standing committees: Orientation, Student Organizations and Social Life, Discipline, Part-time Employment, and Student Publications.

Dean Setear has both a B.S. and M.S. degree in the field of Guidance and Counseling from the University of Purdue. Sports, art, and people are a few of the many interests of

CHESTER H. FERGUSON Will Be TOASTMASTER

The Hon. Chester H. Ferguson, prominent Tampa attorney and director of Tampa Hillsborough County Civilian Defense, will be toastmaster at the Inaugural Luncheon to be held at 1:45 P.M. Saturday in the ballroom of the Hillsboro Hotel.

FORMER PRESIDENTS

Dr. David Marion Delo, who will be inaugurated Saturday as president of the University of Tampa, is the 11th president of the institution.

Former presidents and those who have served as acting president since the founding of the University in 1951 are:

Frederic H. Spaulding, president, 1951-56.

Morris S. Hale, acting president, 1956-57.

Dr. John H. Sherman, president, 1957-60.

Dr. James E. Mooney, president, 1940-44.

Dr. M. C. Rhodes, acting president, 1944-45.

Dr. Edwood C. Nance, president, 1945-57.

Dr. M. C. Rhodes, acting president, 1957-58.

Dean Setear that are shared by his wife, Charmian.

When asked for his comments concerning the University of Tampa's present program of expansion and development, Dean Setear gave the following view:

"The University of Tampa is a growing university. We have approximately 1500 students enrolled at the present time. The facilities here are taxed to a maximum and the administration is considering expanding the facilities. The program that we have here at the University has been devised to fill the needs of the students and the community."

THE FIRST LADY — Mrs. David M. Delo, known as Sunny to her friends, has the job of First Lady—hostess at the President's home. Mrs. Delo will accomplish this easily since she has a charming personality and a wonderful sense of humor.

THE ORDER OF THE PROCESSION

The Faculty of the University of Tampa.

Delegates of Learned Societies, Foundations and Educational Organizations.

Delegates of Universities and Colleges.

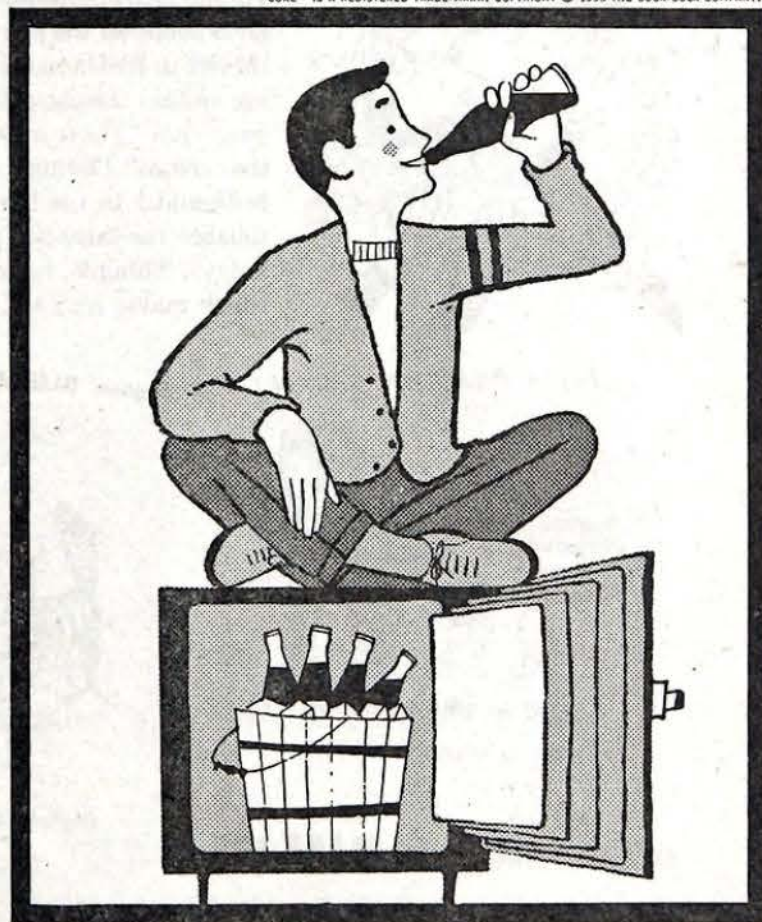

Official Guests.

The Board of Trustees.

The President of the University.

The Chairman of the Board of Trustees.

CLINTON R. TOBEY

Clinton R. Tobey became the new business manager of the University of Tampa this semester.

Mr. Tobey was graduated from Cornell University in 1918 with a mechanical engineering degree. After service in World War I, he joined the Brownell Company of Dayton, Ohio, as a sales engineer, and became manager of the Detroit district office in 1921. He resigned from this position in

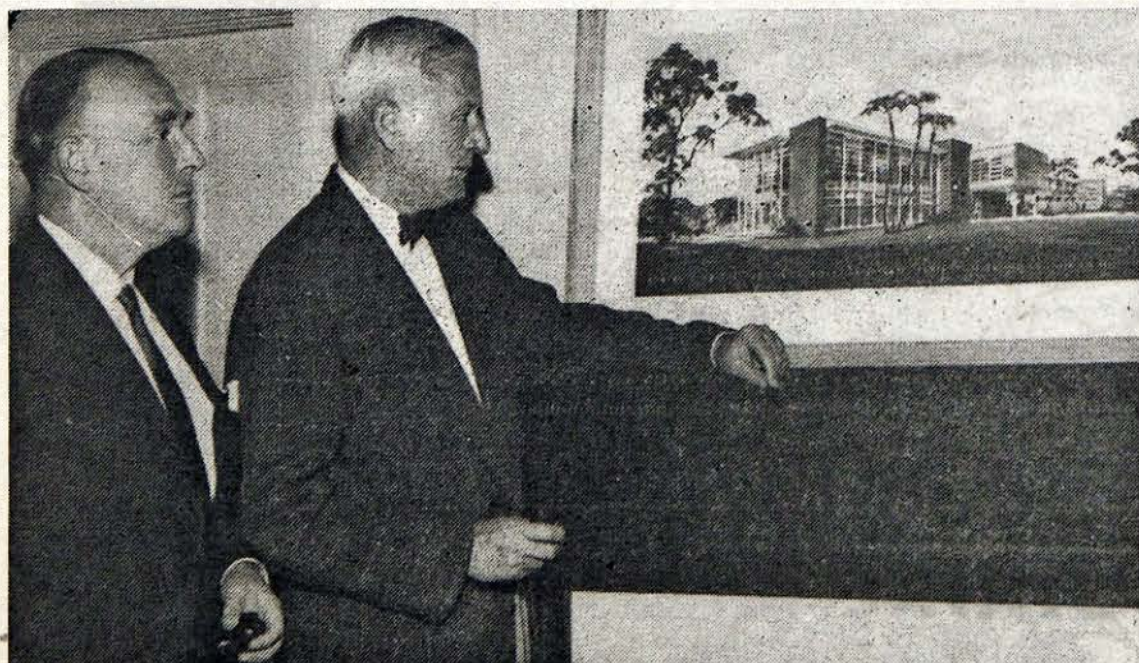

1923 to enter the investment banking business, where for approximately 20 years he was identified with overwriting and distribution of industrial and public utility securities.

With the outbreak of World War II he became identified with the financial activities of the Detroit Ordinance District, which purchased for the Army more than 10 billion dollars of war material. He became Chief of Renegotiation for the dis-

trict in which millions of dollars of excessive profits on war material were recovered.

After completing the renegotiation program Mr. Tobey became assistant to the president of James Vernor College of Detroit.

With the approach of the Korean episode, he was asked to return to the Detroit Ordinance District in the top civilian position, and as comptroller was responsible for all financial activities.

President Delo and Mr. Tobey discuss the architect's drawing of one of the two dormitory buildings now under construction on the campus.

CENTER OF SOCIAL LIFE — Shown here is the living room of the new home of Dr. and Mrs. Delo. As President of the University, Dr. Delo and his wife will entertain many students, alumni, and people of great renown in this room. As you can see, guests of the President will be entertained in a manner befitting the University.

WTUN-FM

"Good, better, best, the superlative on the West coast of Florida, WTUN, Tampa's silver skyline station. . . The listening's fine at 88.9." This station break, familiar to listeners from Clearwater to Haines City and from Hernando County to Sarasota County, is not only catchy but true. This is the finest year in the history of the University Broadcasting Service. WTUN's 1000 watts, combined with an increased staff and new ideas in programming, has brought not only praise to WTUN but also a new and enlarged audience. WTUN has become the Number One classical music station in Florida. This great achievement comes mainly from WTUN's Chief Engineer and Classical Music Coordinator, Thom Spettel.

Bob Currie, as chief announcer and head of the WTUN News department has done a fine job in both the training of personnel and in the presentation of the World, National and Local news to the Tampa Bay area. Dr. Pat Hardeman's "Weekend in Review," "Dr. Speronis Speaks," and "Washington Report" round out WTUN's ever increasing news coverage.

WTUN boasts the largest LP library in Tampa. The tremendous job of keeping this library intact is handled by Joe Schreiber as traffic and continuity manager.

One of the biggest reasons for the success of UBS is "Operation Prestige" as introduced by the University's new professor of Radio and Drama, John Von Szeliski in keeping with the spirit of the school as instilled by Dr. Delo. The most successful efforts of "Op-

eration Prestige" were the broadcasting of "Der Meistersinger," all six hours of it; the airing of the Tampa Spartans' home football games; and "Women's Day at WTUN" which not only received wonderful coverage by Tampa newspapers but also made the wires of United Press International.

Program director Bernie McGovern reminds that WTUN is not only known for its fine classical music and news coverage but also for its many features and Disc Jockey shows. . . "The Voice of Sunshine" Weyman Hudgins, Tuttle Walker, and the jazz man Dan Howes are among Tampa's more talented DJ's. Jean Morris' "Strictly Feminine," Joe Schreiber's "Billboard" and "Antonini on the Air" are among WTUN's fine programs designed for listening enjoyment.

On Jan. 4, WTUN will once again increase its broadcast time and will be on the air seven days a week, 11 hours a day. Among the new programs joining WTUN at that time are "The Magic Holiday," "Folk Songs of the World," "Opera Encore" and "Holiday in Greece."

Station manager Jerry Herms views WTUN's rapid rise with confidence and predicts not only better programming and even a better trained staff but also an increased listening audience. Mr. Herms predicts that if WTUN continues at its present rate it will greatly help the University in its goal of better serving the community.

All in all the message is. . . "The listening's fine at 88.9, WTUN, the radio voice of the University of Tampa."

Adult Education Center

In an attempt to be of the best possible service to the largest possible number of people living in the environs of the city of Tampa, the authorities of the University of Tampa back in 1946 established the Adult Education Center of the University and appointed the then Prof. Donald W. Robinson as its first Dean.

The Center was established to offer to citizens of the West Coast of Florida educational opportunities in a wide variety of subjects and at convenient evening hours. An inspection of the courses of study offered in those years reveals a diversity of subjects, such as radio, art, basic English, dancing, contract bridge, creative writing, politics, interior decoration, French, Spanish, music, the great books of literature, philosophy, sculpture, and ceramics. Courses in the Adult Education Center have never carried academic credit, nor do they do so at the present time.

In the intervening years the Center has been headed by Thelma Jones, then associated with the drama and speech department of the University; Charles F. Steck, who was also director of public relations; Dr. William D. Glenn, head of the department of psychology; and since 1954, Prof. Harold A. Heiser, head of the department of business administration and dean of the Adult Education Center.

Following the pattern of adult education courses that are offered by other universities throughout the country, the Adult Education Center of the University of Tampa offers courses one or two nights a week for 10 weeks beginning in October and extending to De-

cember, and, in the spring session, beginning in March and extending to May.

Many of the courses offered in the current session are "old stand-bys," such as Spanish, French, ballroom dancing, and similar courses that have purely entertaining or cultural value. Within the last five years, however, qualification courses leading to a state license have come into popular demand, as exemplified in the courses in principles of real estate, and principles and practices of fire and casualty insurance. Men and women who have taken these prerequisite qualifying courses in the Adult Education Center of the University have had notable success in passing the state board examination for license certification in those areas. For example, over the past four years, 450 people have taken the eight weeks' 240-hour course in insurance that meets daily from 12:30 in the afternoon to 5:30. Of those who later took the state board examination, 96 per cent passed the examination. A similar ratio of those who took the state board exam for realtors passed.

In a recent class in the Adult Education Center, 70 medical secretaries attended a class in physiology and anatomy. At the present time a group of professional and industrial leaders of the city are attending a series of 10 lectures in maritime affairs. A course in motor transport was given a few years ago. Just completed was a series of lectures for 70 men and women who are members of various local credit unions. Other highly specialized courses are in the planning stage for the spring session.

CARL JOHNSON

"The ideal editor is never satisfied with things the way they are. He knows perfection cannot be attained, but he is always striving for that end."

These were the words of Carl Johnson, editor of the Tampa Daily Times, as he spoke to members of two national fraternities at their November meeting at the home of Dr. and Mrs. Howard G. Baker.

The ideal editor, according to Mr. Johnson, knows his community intimately, be it large or small; he also knows the history and politics of his state and is familiar with what is happening in the nation. He not only reads his own newspaper, but is familiar with all others published.

A strong characteristic of the ideal editor, he said, is his curiosity. He not only knows "how" but also wants to know "why." A good editor may not always know new things first but he will know them. He criticizes as he sees need to do so, and accepts constructive criticism. When necessary, he will not hesitate to make retraction.

After the meeting, members of the two groups, Pi Delta Epsilon, national honorary journalism fraternity, and Sigma Tau Delta, professional English fraternity, enjoyed a spaghetti dinner.

Woman's Club

Under the presidency of Mrs. Clyde T. Reed, the University of Tampa Faculty Woman's Club began the year's activities with a reception in the newly decorated Rawlings Room honoring Mrs. Delo, new faculty and staff members, and wives of new faculty.

Last month, through the kindness of Mr. and Mrs. George Lenfesty, the Lenfestys' lake home north of Tampa was the setting for the club's annual picnic for all faculty and staff families.

Each year the Faculty Woman's Club completes some project for the benefit of the University. The project for the present year is the purchase of an antique chandelier for the Rawlings Room.

The club members have in the past helped with many of the receptions given in honor of the graduating classes. The group is proud to assist in the welcoming of guests at the inauguration of President Delo.

The club was formed for the purpose of fostering good public relations between the University and the City of Tampa, furthering the interests of the University whenever possible, and, promoting congeniality among the women of the University.

TEXAS COMPANY GRANT

President Delo announced recently that the University of Tampa has been selected as one of the privately-financed colleges and universities of the United States to receive an unrestricted grant-in-aid under the Texas Company aid-to-education program. The grant, awarded for the academic year, amounts to \$1500.

President David Delo's *The Dreambeat* Thanksgiving Message

As this most American of all our holidays approaches, we can truly say, "The Lord hath done great things for us; where-of we are glad."

He has endowed us with this land, so rich in space, resources and fertility. He has protected us with two broad oceans during our years of growth so that we might wax strong without interference. He has brought to our shores the vitality and the intelligence of all the nations. He has enabled us to establish here a social and political system unique on all the earth. He has brought us a material well-being which is the envy of all; a nation in which few are cold, or hungry or unsheltered. These are the material blessings for which we give our thanks.

But He has also given us great richness in blessings of the spirit. He has instilled in us the spirit of freedom under law for any activity which man may wish to follow. He has allowed us freedom of opportunity; opportunity to live and to work wherever we may wish; opportunity to rise within our economic and political order dependent only on our talents; opportunity for personal security, for religious freedom, for the benefits of education. Yet there are other oppor-

tunities which we must exploit fully if we are to fulfill His will; if we are to be worthy of the great things He has done for us.

Today we see many men worshipping and working together to the greater glory of God. As we compare today with yesterday, and in those terms look forward into the future, we see the great opportunity for creating the true brotherhood of men which is the dream of every Christian.

This is a time of great expectations. We are slowly conquering disease; we are probing the closest-held secrets of nature for constructive and peaceful ends; we are gradually eliminating human want. The expectations of our children should be even greater, for health, for spiritual strength, and for the achievement of man's dream of lasting peace.

This promise of the future will be realized only if all men will work together as friendly co-operators in the search for ultimate truth, whether it be in the conquest of nature, or in search for a true relationship to God and to one another. Without this sense of brotherhood translated into daily action at all levels, these great expectations will be only a mirage.

Let us thank God, then, that this opportunity is still before us. If we but grasp it, we shall create a brotherhood "that binds the brave of all the earth."

Why don't they find a cheap substitute for margarine? . . . Why don't they put Kirk Douglas in a movie where he can't yell and see if he can do it? . . . Why don't people at a loss for words just keep quiet? . . . Why don't they call a hangover a leftover? . . . Why don't they bring back knickers? . . . Why don't they have secretaries that really do sit on your lap? . . . Why don't they have German poodles? . . . Why don't they really cure insomnia by finding a substitute for sleep? . . . Why don't they match the Lock Ness Monster against Frankenstein? . . . Why don't they have uneasy chairs in the lobby around exam time? . . . Why don't they put zippers on wall safes for guys with feeble memories? . . . Why don't they glamorize spaghetti by putting fortune cookie slips in it? . . . Why don't they make shoe laces as strong as dental floss? . . . Why don't people make a count of how many of their suspicions have been confirmed? . . . Why don't they invent a filter to take the harsh ingredients out of commercials? . . . Why don't they have ugly hat-check girls who can't shame you into tipping? . . . Why don't they do an Off-Color TV show? . . . Why don't they put three cherries, three lemons, and three bells on pay phones instead of that dull dial? . . . Why don't they write some plays that you can enjoy watching instead of explaining? . . . Why don't people who try to cross Franklin Street just send a post-card instead? . . . Why don't they invent a shoe polish that stays as long on your shoes as it does on your hands? . . . Why don't they make wooden nickles for waiters that stand around like wooden Indians? . . . Why don't they make an after-shave lotion the same color as the gin that made you need it? . . . Why don't they issue Equity cards to wrestlers? . . . Why don't they let Gabby Hayes understudy for Peter Ustinov? . . . Why don't they make wet Martini for a change? . . . Why don't they get someone else to write this nonsense? . . .

SIG EP NEWS

by Bob Way

Intramurals

President Frank (Little John) Fuchek and Ron (Robin Hood) Tecza ran away with the archery championship in intramurals. This accomplishment placed us second in intramurals. The archery championship was our second win of the year, our first was fencing which was won by Frank (Zorro) Fuchek. As of this writing, we are leading in volleyball. We swept through the first three games of volleyball without losing a match. The three teams were TKE, Majors Club, and the Independents. We finally lost our first match while beating the TKE's in the best two of three matches. We won the game, but lost one match. This gives us a 4 to 0 record. In overall intramural standings, we are second, with the Pi Kapp's leading by 18 points.

House

We had a very fine Thanksgiving Day dinner at the Sig Ep house which was prepared and served by Mrs. Opp. Diners continue being served at the house. The price is usually \$.75 and the time is between 11:30 and 2:00 every Thursday. House remodeling is still going on. We have added new furniture and rugs so far.

Carlene Phinney In Music Contest

Carlene Phinney, a junior majoring in music, is a contestant for the "Jeannie With the Light Brown Hair" contest to be held in White Springs in February.

Judges for the contest in Tampa were Mrs. Alfredo Antonini and Jack Smith, who remarked on Miss Phinney's "excellent quality of voice."

At the state-wide contest Carlene will sing "Love Is Where You Find It," "Do Not Go My Love," and a Stephen Foster selection, "Beautiful Dreamer."

But the boys are safe now, the ice has long since melted.

We wish to thank the following Sig Eps for their work on the football team this season: Bill Nuznoff, Lowell Freeman, Charles Crawford, Bob Sajovetz, Ron Tecza, Wayne Story and pledge Dave Davenport. WELL DONE GANG.

We have two new pledges this fall. They are: Bob Shannon and Dave Davenport. They are two fine men and we're proud to have them as pledges of Sigma Phi Epsilon.

In closing we would like to congratulate our vice president Dan Prill on his engagement to Miss Gweyn Rogers, also a student here at the University.

Dr. John S. Allen

Dr. John S. Allen, president of the University of South Florida, will receive a D.Sc. degree at the Inauguration to be presented by Dean M. C. Rhodes.

Dr. Allen was graduated from Earlham College, received an M.A. degree from the University of Minnesota and earned his Ph.D. from New York University.

He has served as executive vice-president and acting president of the University of Florida.

An astronomer, Dr. Allen is a member of American Astronomy Association, Franklin Institute Solar Eclipse Expedition, Royal Astronomy Society of Canada, Astronomy Society of France, and Florida Academy of Science and a guest lecturer at Hayden Planetarium.

STUDENTS GO TOBOGGANING

With deliberation and much consideration some of our brave Tampa U. students participated in Tampa's Snow Show opening.

The first toboggan to come down the chute was manned by four daring Theta Chis and one courageous Pi Kap. Aboard the toboggan were Ray Pocaro, Joe Demi, Bill Pakalakas, Joe De Lauri, and Joe Andrews, who suffered a scratched arm.

As a result of the first toboggan veering part way off the level portion of the runway and the third nearly turning over, further tobogganing was called off until more ice could be packed on the ski slide.

The boys were heard on a national broadcast, Monitor, on Thanksgiving Day, when they were interviewed about their adventure.

AN INVITATION TO THE CREW

by Vic Pezzulla

Crew season began for all new oarsmen and some returning men immediately after Thanksgiving vacation.

The Black Knights of the Hillsboro, coached by Bill Stalnaker, should have the potential for one of the finest crews at the University.

The returning oarsmen from the varsity boat are: Frank Schabert, Tommy Addison, Angel Arenas, Jerry Lawson, L. J. Rhodes, Brad Wickersham, Tommy Simmons, Jim Williams, and coxswain Alan Harwood. From the J.V. boat: Bob Currie, Garry Pero, Isley Barnes, Vic Pezzulla, Fred Smelt, and coxswain Larry Arnold. Also, coxswain Jerry Wetherington, who had to drop out at mid-season, will be back.

The freshman crew should also be strong with a crop of big men intending to try out. A transfer student from Jacksonville University, who rowed there, Frank Williams, will also be out.

The crew will have six shells on the water as soon as possible. There will be four American built Pocock boats and two very swift, light, German-constructed Pirch shells, which have been recently acquired from abroad.

This season Tampa will race such fine northern crews as Boston and LaSalle, also mid-western Purdue.

All returning oarsmen are anxious to get back on the murky, usually choppy waters of the Hillsboro River and the Shipping Channel. The incentive needed by an oarsman to row to win makes crew one of the most competitive sports in the world. It is almost impossible to row with a "don't care" attitude because once you are in a shell stroking to win and you slack up — a glance at the faces of the other oarsmen and you row! Coach Stalnaker adds a little incentive through his ever-sounding megaphone. Stalnaker has some knowledge of the men in the school — those who row and those who quit, not because of lack of ability, but lack of heart and "guts!"

The crews have a little slogan in the boathouse which reads, "When the going gets tough, the tough get going." Sounds corny — well, it's the truth. It's a great separation device — good men from otherwise!

All men interested in crew are urged to come out. After you know crew and leave it for a while, the urge to get back on the water is tremendous.

The coxies' job is very important, too. It takes a cool head, a loud voice, ability to steer a straight course, and also very important, the ability and personality to win the confidence of the crew and kindle the spark which binds them together and gives them added incentive to give a little more.

So once again, the cries and rappings of the coxswains are good indications of the smooth gliding shells of the Tampa crew stroking and hoping to win.

GROUND BREAKING CEREMONY — One of the first official acts of Dr. Delo was breaking ground for the new dormitories. Dr. Delo is shown turning the first shovelful of dirt with Dean M. C. Rhodes (left) and David E. Smiley, chairman of the Board of Trustees, looking on.

ALPHA CHI OMEGA BANQUET

Gamma Pi chapter of Alpha Chi Omega held their annual Nash Higgins Award Scholarship Banquet on Tuesday, Nov. 25 at the Cricket Tea Room. The Award has been a tradition in the sorority, having been initiated when the chapter was a local sorority, Delta Kappa. The 1958 banquet marked the fifteenth year of the existence of the award begun by Mrs. Nash Higgins, advisor to Delta Kappa. Three awards are presented: One is given to the girl with the highest overall average for the previous year. This award went to Mary Meehan. Of the two remaining awards, one is presented to the active who has improved the most during the previous year and the other to the pledge who has likewise improved. Respectively these girls are Joan Jones and Pamela Shaffer.

Dr. and Mrs. Delo, Dr. and Mrs. Rhodes, Mr. and Mrs. King, Dean and Mrs. Setear, Mrs. Jane Anderson Smith, chapter alumnae advisor, and Miss Sandra Pendley, pledge

alumnae advisor were among the invited guests of the sorority.

Dr. Delo gave a short speech, commending the chapter on their interest in, and attainment of, high scholarship. Alpha Chi ranks first among the Panhellenic members on campus.

The banquet was brought to a close with the traditional singing of "Alpha Chi Omega."

Attention Organizations

If you have not been contacted by either Mary Ann Federico or Valerie Krebs as to pictures and write-ups of your respective groups, please contact your Moroccan editor. In order to insure a better annual, and one more representative of the University, we need your cooperation. Deadline for all material for the 1959 Moroccan is Dec. 20. Help your annual staff get your yearbook out on time this year by cooperating.

Pauline Tourles, Editor, '59 Moroccan

TELEVISION

Perspective, current television series presented jointly by WFLA and the University of Tampa, will take up the subject of "Christmas Literature" in the ninth program of the series, scheduled for Sunday at 1 P.M.

Introduced last October by President Delo, who has also appeared on several of the later programs, the series will continue throughout the University year. The series is designed to present challenging and interesting programs ranging from science to the arts, and at the

same time to call attention to the fine quality of the work the University is doing and to introduce the University family to the community.

Previous topics have included "Florida and the Coming Ice Age," "The Future of Education in America," "Perspectives in Agriculture," and "Geopolitics and the Modern World."

Coordinator of the series is Dr. Stephen L. Speronis of the University history department, who is widely known for his WFLA-TV broadcasts on the background of contemporary events.

SEVEN SENIORS PLAY LAST GAME

by Mel Baumel

Fred Cason, Ken Belliveau, Wayne Story, Charlie Coleman, Dick Leis, Bill Nuznoff, and Paul Davis played their last game in a Tampa uniform against the Southeastern La. Lions.

Fred Cason, a 245 pounder from Plant City, Florida, did not get to play the last four games of the season because of a slipped disc, but for the first six games he was virtually a one-man attack for the Spartans. Whenever the Spartans needed that extra yard or two for the first down, they called on the Big Moose; he was hardly ever stopped short of his goal. Fred is majoring in industrial arts and plans to teach, but first he plans to play pro football for the New York Giants. Whatever Fred does, we (the Minaret staff), on behalf of the Student Body, wish him all the luck in the world.

Ken Belliveau hails from Springfield, N. J. and concluded his football career by receiving honorable mention on the little All-American team. Ken was a ball of fire on both offense and defense. He threw many key blocks to spring Tampa scabbacks on long gains. Ken is a physical education major and plans to teach and coach. He married Miss Elaine Mickler this week and we wish them all the happiness in the world.

Wayne Story is from Webster, Florida. He played center four years here. If you ever went to Phillips Field you must have seen No. 22 bring-

ing down one of the enemies. Wayne was co-captain of this year's Spartans along with Ken Belliveau. Wayne is a major in physical education. He has been one of the mainstays of this year's Spartans and his presence on the field next year will be missed.

Charlie Coleman is from Jacksonville, Florida and is one of the few football players ever to letter in four different positions. Charlie as a freshman played fullback, as a sophomore he played center, as a junior he played guard and now as a senior he played end. This is a feat to be proud of, and our team is sure to miss the presence of this versatile player.

Dick Leis hails from Lakeland, Florida, and was one of the most under-rated football players on this year's team. Dick was a terror on both offense and defense and was in the opponent's backfield more than he was on the line. Dick was very competitive and his absence will be felt next year.

Paul Davis, another boy from Lakeland, was hampered by a shoulder injury all year, but when he was in there playing the opponents knew it. Paul may be the lightest man on the team in physical stature, but as far as desire and fight goes he may be the biggest.

Bill Nuznoff, who is from Detroit, played quarterback. He ran the option play with deception and speed. Bill is a major in physics and also is in the National Guard.

INAUGURATION

(Continued from page 1)

sity building to honor Dr. and Mrs. Delo.

The inaugural luncheon will be held at 1:45 P.M. in the Ballroom of the Hillsboro Hotel.

Informal Meeting

The informal meeting held in the University of Tampa Ballroom at 4:30 o'clock on Nov. 21 was sponsored by the department of education of the University. Mrs. Karl King, dean of women, and Mrs. Johnnie Pate, assistant treasurer of the University, assisted the department of education in planning for the function.

The purpose of the meeting was twofold: to express appreciation to the public school teachers who serve as directing teachers of the University of Tampa's interns, and to promote closer relationships between University and public school personnel.

All teachers directing the University of Tampa interns

this semester, principals, and administrative and supervisory personnel of Pinellas and Hillsborough counties, as well as the University faculty, were invited.

Music, featuring Jack Jenkins and Sally Wallace, was furnished by the University of Tampa music department, under the direction of Prof. Lyman Wiltse.

Dr. M. C. Rhodes, dean of administration of the University of Tampa, expressed appreciation to public school personnel for their assistance and cooperation in the University's intern program. President David M. Delo also expressed his gratification and outlined to those present some of the plans of the University in the area of teacher education.

SPARTAN WIVES AID UNIVERSITY

In 1948, wives of University of Tampa students formed an organization under the name of Spartan Wives, having as one of their purposes to serve the University in such volunteer capacities as the Administration might consider needful.

The group have been inactive the last few years except for reunions with their fam-

ilies from time to time. But when they learned of the need for assistance in restoring some of the former beauty of the University building, they raised the money to provide decorative shades for the Wicker Room, and nine of the group are assisting as hostesses for Dr. Delo's inauguration.

HIGHLIGHTS

The Spartan Wives held a fund raising luncheon and gave money to the University for the purpose of securing screens for the upper half of the windows in the wicker lounge.

The Griffin Memorial Fund currently exceeds \$4,000.

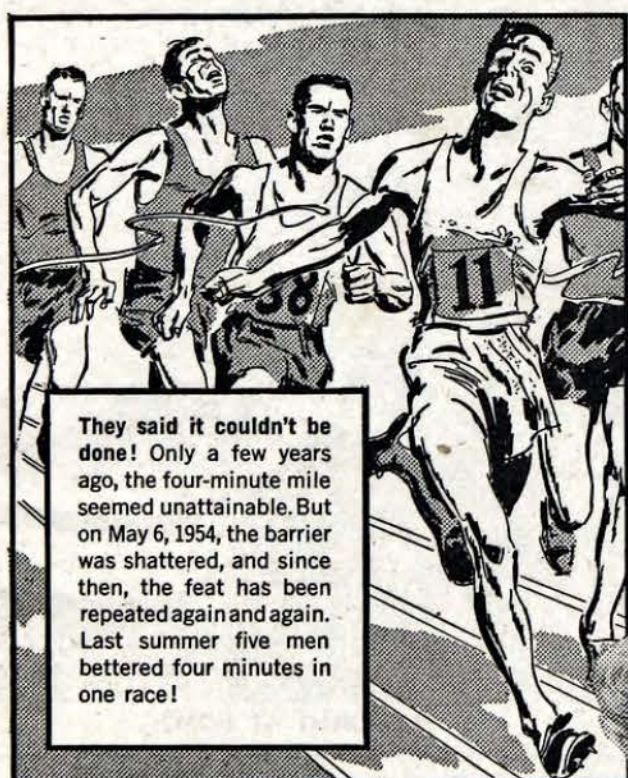

The pictures in the wicker lounge are very valuable, according to Dr. Giles, and are the work of students or former students of the University.

The fireplaces in the lobby are being replaced by other original fireplaces that were installed in the building at the time it was built. This rejuvenation will include two new marble hearths, one given to the University by Elliot Fletcher, architect for the new dormitories, and the other to be supplied by the University. This replacing of the fireplaces is one step in making the lobby more attractive.

Openings for Girl Science Majors

There are opportunities at Harvard Medical School for girl science majors, either Chemistry or Biology majors with several courses in chemistry. Dean of Men's office has information.

THEY SAID IT COULDN'T BE DONE-BUT TODAY'S L&M GIVES YOU-

They said it couldn't be done! Only a few years ago, the four-minute mile seemed unattainable. But on May 6, 1954, the barrier was shattered, and since then, the feat has been repeated again and again. Last summer five men bettered four minutes in one race!

**Less tars
& More taste**

DON'T SETTLE FOR ONE WITHOUT THE OTHER!

Change to L&M and get 'em both. Such an improved filter and more taste! Better taste than in any other cigarette. Yes, today's L&M combines these two essentials of modern smoking enjoyment—less tars and more taste—in one great cigarette.

LIGHT INTO THAT LIVE MODERN FLAVOR!
