83 YEAR OLD NOTED LECTURER AND AUTHOR  
TO SPEAK AT ASSEMBLY MONDAY

Youngest Old Man In The World Will Tell  
Uni. of Tampa Students How To Keep Young

"Uncle Billy" Reese, 83 year old internationally known author and radio lecturer on health and dietetics, will speak at an assembly Monday, February 20, at 6:30 P.M.

In spite of his advance age Uncle Billy has the appearance of a much younger man. He attributes his perfect health to correct eating.

Uncle Billy is in Florida for the purpose of selecting a site for a large health hotel. He is in great demand for his health talks but has consented to give a limited number at luncheon clubs and schools. We are fortunate in having him for an assembly discussion.

All students are expected to be present, and they will not be disappointed in hearing an interesting and instructive lecture.

INTRODUCING

B. Wofford Wait, Jr., witty, green eyed, and tousled haired, is president of the sophomore class and chairman of the athletic committee. He is the son of Mr. and Mrs. B. Wofford Wait, Sr., 206 Plant Avenue.

Wofford intends to get his B.S. degree from the University of Tampa and his M.S. from Harvard.

He hopes to be a lawyer, or perhaps he will teach physics and mathematics in a university.

Judge Baya is Wofford's favorite teacher and mathematics is his favorite subject. "Wof" is now taking calculus (Math 201).

As for authors, Wofford prefers Rafael Sabatini, and "Scaramouche" is his favorite novel.

Speaking of girls, Wofford says, "They must have dark, curly hair and blue eyes." Ho! Oh!

All in all Wofford is quite a brilliant young man and humorous to boot. The world will hear from him.

(Helen Aronovitz)

## SPARTANIC DAZE

-Ikey the Ike-

Add to promising young couples Dot Pou and Bill Logan.....Just another regular case.....Tush! Tush!

Sh!.....Don't tell anybody about this....Woody Garcia seems to have ambitions along the promising young couples line....Atta boy, Woody, we wish you the best of success in your case with Ruth.... The more couples, the more we have to write about.

And the South Florida Fair may have gone broke this year, but it at least gave Alice Sumner a chance to get in the limelight....Many blessed events to you, Alice.

A word of welcome to the cute brunette who entered this semester after completing the first part of the year at Tally. She is Alice Dean Mabry, formerly of Plant Hi where she was elected prettiest girl last June.

You guess...which one of our promising young couples recently almost went the good old way? The male half was caught doing a little two-timing on the sly.

Who's our candidate for the vacant position on the student council?

## THE STUDENTS' COLUMN

Letters and comments for this column will be gladly receive by the staff.

### Fountains of Youth

The famous fountain for which Ponce de Leon spent his time and substance has its counterparts in the halls of our educational home. Ponce never found the fount for which he sought. When we seek one of our founts we never have any trouble. We know where they are. In fact, we know so well that we hurry to them, indulge in the pause that refreshes, and depart, without further thought on the matter. The refreshment offered by our several fountains of youth is precious, men have been known to fight for it, and to die for lack of it. Let's keep it clean for ourselves and our neighbors, by not dumping anything unnecessary we happen to be carrying, particularly if we happen to be carrying the offending object in our local orifice into the fountain. Moreover, the refreshment from our fountains of youth is pleasing in taste and effect. Let's keep it pleasing, in general effect, by not decorating the environment of the fountains with scraps of paper, or other extraneous paraphernalia. Thank you; Thank everybody.

--Collegian
