VOLUME XXXXII, 4

University of Tampa, Tampa, Florida

OCTOBER 7, 1971

V.P. Mendelsohn; Academic Affairs

Dr. Michael J. Mendelsohn, widely known U.S. Air Force Academy teacher-administrator, has been appointed vice president for academic affairs and dean of faculties at the University of Tampa.

University President Dr. B. D. Owens announced that Mendelsohn has agreed to accept the University position effective August 1, 1972.

The position has been open since the departure of Dr. Harold M. Grutzmacher, Jr. in May, 1970, to accept an office at his alma mater, Beloit College, Beloit, Wisc., in order to permit the new ad-

ministration to fill the high academic office.

Considered one of the most outstanding educators in the country, the 40-year-old Cleveland native is chairman of advanced courses in the Department of English and a charter member of the faculty at the Colorado Springs academy.

A specialist in modern drama and world literature, Dr. Mendelsohn is a professor of English and humanities. He previously served two years as assistant dean of the faculty of the Air Force Academy.

Elated at being able to

attract Dr. Mendelsohn to the University of Tampa campus, Dr. Owens said, "Dr. Mendelsohn is a noted scholar and writer and has a distinguished record as a teacher and administrator at the Air Force Academy."

"He is the type of outstanding educator we have sought to carry out the high quality academic program we plan for the University of Tampa. He was the top choice of faculty, staff and students."

In his present capacity Dr. Mendelsohn supervises some 20 instructors teaching 14 courses be-

(Continued on page 6)

Homecoming plans provide busy weekend

Plans for the 1971 Homecoming are really getting underway and it looks as though it's going to be the best Homecoming yet.

Lawn displays, skits, the game, the queen contest, the dance and Alice Cooper are all going to be big attractions.

The lawn displays will be judged on November 12 and they must pertain to the theme "Spartan Suncoast Showcase." Construction on displays may not begin on the selected sites before 6:00 p.m. Wednesday, November 10. They may be fabricated before this time. All independents living in dormitories are urged to enter a dormitory lawn display along with the regular organization displays. The displays will be judged on the following ideas: adherence to the theme, creativity, mobility, construction and general appearance.

The skits, also judged on November 12, must be limited to a maximum of 10 minutes each. There will be two mandatory rehearsals at the theatre and it is asked that everyone be orderly, cooperative and prepared. Skits will be judged on dialogue, costume, creativity, performance, direction and adherence to the theme.

Candidates for queen must follow all rules for the Homecoming queen and they must be sponsored by a recognized campus organization. Voting will be by the student body and results will be announced November 12 at 10:00 p.m. at Falk Theatre.

Any violation of the rules of any Homecoming event will result in the automatic disqualification from all Homecoming events. Any honors or trophies won will be taken away and the runner-up will be declared the winner.

Any questions involving Homecoming will be answered by the appropriate Homecoming Chairman or by the Student Program Council. All questions may be directed to Barry Lydon, Barbara Mass, Donna Aller, Barry Bontilier, Randy Gish, Vincent Christakos, Bess Seidman, Sue Huyler, Barbara Feldman, Sue Green, Richard Barrer, Claudia Pontecorvo, John Magnolia, Lorraine Duthy or Bill Bush.

Alice Cooper for Homecoming

In a society that considers TV to be the national pastime, who can determine what is real and what is not? Alice Cooper is a product of this generation. To Alice Cooper, songs are not just music, they are something that must be appreciated, like a fine painting. In order to do this, the Alice Cooper Band must be radically different from other rock and roll bands.

"We like reactions — a reaction is walking out on us, throwing tomatoes at the stage, applauding, passing out or throwing up. As much as we can get, the better. I don't care how they react as long as they react," states Alice.

Salvador Dali, one of the first persons to truly appreciate the importance of Alice's visual image,

has requested that his 'Child' be used as a future album cover. So far, the group has not found the record that they feel would be worthy of the painting.

To be labeled a freak is nothing new. Neither is seeing someone dressed in women's clothing. What is new, however, is one like Alice Cooper, a person capable of combining avant garde theatre and good rock and roll music. Drawing heavily on theatrics, it is easily possible to question the sanity of someone who incorporates an electric chair, an eight foot boa constrictor, silver lame jump-suits, leotards, fire extinguisher foam, feathers and a working gallows into their performance. Strange as it may seem, all of those props

(Continued on Page 6)

Sertoma awards given to two UT professors

Sertoma Club's gold honor distinguished president award — Sertoma's highest individual award for excellence as a club president — was presented Sunday, Oct. 3 to two University of Tampa faculty members.

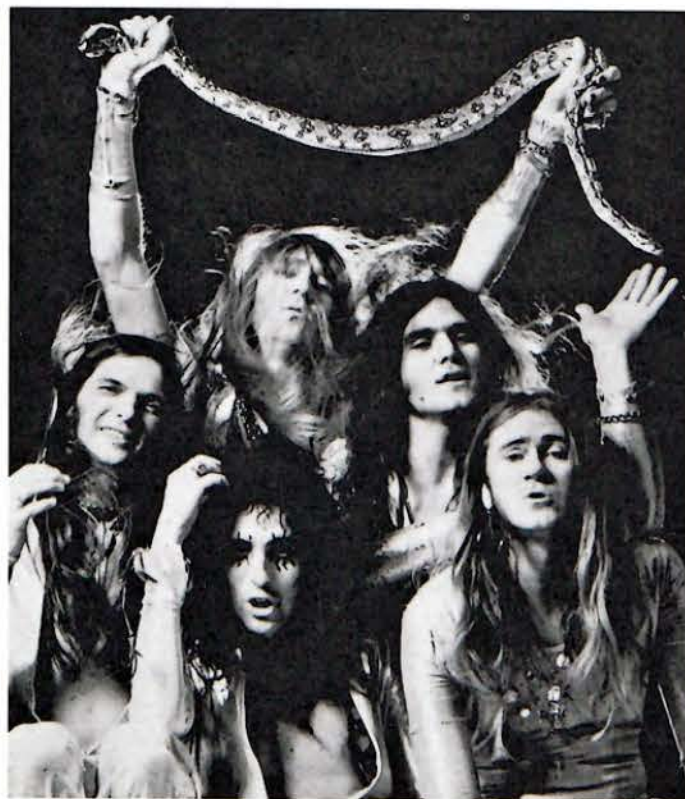

Recipients were Dr. Eustasio Fernandez, chairman of UT's Modern Language Department, and Thomas McMullen, insurance instructor in U. T.'s Division of Continuing Education for the past 16 years.

Dr. Frederick G. McFall, St. Petersburg surgeon who is president of Sertoma International, made the presentations at the Sertoma District Conference which was held Sunday at the Hawaiian Village. The district embraces 17 Sertoma clubs in the Central and West Florida area.

Dr. Fernandez served as president of the Downtown Sertoma Club and McMullen, president of McMullen and Associates Inc., independent life in-

surance agencies, headed the Interbay Sertoma Club. Both are immediate past presidents.

Downtown Sertoma is a strong contender for the Sertoma Governor's Cup, given by the governor of the district to the best club in the district. The downtown club each year contributes scholarships to numerous institutions in this area. For the past eight years it has given a \$1,000 academic scholarship to the University of Tampa each year.

Editorial

Coming elections student senators

by Butch Heiles

In a small university, such as the University of Tampa, it is possible for a high degree of student involvement. Student involvement is the key word to student success in the area of governmental voice in the University.

As in any other successful organization — the Student Government Association has a leader — the President, Chuck Smith. Under the leader there are other important people who work with the leader to coordinate poli-

cies and business. These people are Maureen Stuart, Vice President of the S.G.A., the Attorney General and the two Secretaries. However, in order for these people to be able to keep Student Government moving, there are eight people, elected by their appropriate classes, who represent them in the Student Government Association.

These eight people are senators — they are extremely important because they are the voice, the spokesmen for their classes.

It is for this reason only truly interested people should seek these offices, for they have the responsibility of standing up for their classes when it is necessary.

Another reason that these senators must really have a genuine concern is because someday, if they remain involved in Student Government, it will be they who are elected to be President, Vice President and Attorney General. They will be responsible for keeping the wheels moving, to stimulate the senators for progress. In order to do a good job at this — they must have the background. Background that could be obtained by serving as senators for their classes.

So, in conclusion, I ask you to consider the need for sincerely interested people to fill these offices. If you feel you can do the job, if you care enough to try, please run for office in the coming Freshmen and Sophomore elections.

I assume that your efforts will be noted, your enthusiasm will be appreciated and your victory will be, at the very least, "only the beginning!"

Tampa student receives ROTC scholarship

UT student Jose Morales of Ponce, Puerto Rico, is presently attending the University on an Army ROTC scholarship. Morales, who is a junior, transferred to UT from the University of Puerto Rico. He is a history major and plans to graduate in June '73.

To obtain the scholarship, he had to compete with thousands of other

high school seniors back in 1968. He achieved excellent scores on his Scholastic Aptitude Tests in high school and was highly recommended by school officials. The scholarship pays all tuition and fees for four scholastic years as well as a \$50.00 per month subsistence allowance.

The Army ROTC Scholarship Program also offers 3, 2, and 1 year scholarships to cadets enrolled in the program.

FIREBOMBING ATTEMPT FAILS

Tampa police reported an attempted firebombing of the ROTC building at the University of Tampa on Sunday night.

Police said the bomb, homemade in appearance, failed to ignite. They said the bomb was thrown through a window of the building at approximately 8 p.m.

The University of Tampa security police, the Tampa Police Department and the FBI are investigating the incident.

Unenthusiastic team—a personal opinion

by Gail Deneau

The time—1:35 a.m., Tampa International Airport. UT's football team arriving victorious after their Chattanooga game, the team strolls in off their chartered plane; directly into the arms of enthusiastic Tampa cheerers! Everyone is happy; except the team.

Their pace slowed, eyelids heavy, shunning excitement and bright lights, longing only for sleep;

they cannot believe all the people that love them. They shake their heads, and put up with the crowd.

The team seems tired and a little apathetic. They lack enthusiasm. Not even a thank - you - for - coming - anyway reply. Just that ol' why - don't - you - leave - us - alone stare. So, if they don't care, how can we?

The Minaret is published weekly by the students of the University of Tampa, Tampa, Florida.

Editorial content is decided upon by the editorial staff. The opinions expressed are not necessarily those of the University or the student body.

Letters to the editor must be signed, but the name of the writer will be omitted on request. Letters should not exceed 300 words.

As I look at the calendar, I realize that Christmas is only a few short weeks away (not counting holidays or weekends).

As I look at my bank balance I should wish it were a few years away.

Last year I really got caught short. I had 24 gifts to buy and \$20 to spend. I worked it out rather well though, I bought one dozen pairs of white knee socks, I borrowed a red magic marker and wrote a name at the top of each stocking, and wrapped each one in a "Saks" box and gave everyone a personalized Christmas stocking.

It worked OK until my one Aunt tried to exchange hers for a different color.

This year I've really beat the system — I've enrolled myself in "Santa's Workshop."

"Santa's Workshop," better known as Handicrafts or Industrial Arts 212, is a real life-saver for someone like me.

Under the direction of Peter Labruzzo, "Santa's Workshop" helps students to learn the fundamentals of various crafts — wood, copper, leather, etc.

The items that are made in class invariably turn out with a professional look to them.

They make excellent Christmas gifts and there isn't a recipient in the world who would dream of exchanging them.

The greatest part of the whole thing is you can make all your Christmas presents and not spend a cent. You simply tell your parents you need money for class material — they'd never dream they were getting that class material for Christmas.

The Rock Pile by GREGG BIGGS

by Greg Biggs

TAKE HEART — Mimi Forina and Tom Jans

When I first looked at this album, I was skeptical. I thought it was just another folk album by Joan Baez's sister and a new companion. But I was in for a real surprise!

When I put it on my stereo, out came some of the most beautifully done folk and soft rock music I had ever heard. Mimi and Tom are both accomplished guitarists and they blend together beautifully. The music is reminiscent of Mimi's playing with her late husband Richard, one of the best folk-singing duos ever to make the scene.

All of the songs on the album are written by Mimi and Tom except "The Great White Horse" by Buck Owens, which is one of the best songs on the record. They are joined on that song by Sneaky Pete on some fine steel guitar.

Mimi is at her best on "Letter to Jesus," "Reach Out" and "Madman." She even wrote a song for the late Janis Joplin called "In the Quiet Morning."

All I can say, is that this album is well done. Both Mimi and Tom have been around for some time and it shows in their music. It's the kind of album to study by, or make friends with, or listen to when you want to just lay around and do nothing. Even though Richard Forina's touch is still felt, Mimi and Tom add even more. They make the album. I hope they continue to do well, they're off to a good start.

Cadets Vincent Christakos (left), University of Tampa, and Bob Klass, Middle Tennessee University, clean their rifles at the ROTC Basic Summer Camp, Fort Knox, Kentucky.

3 UT students in ROTC program

UT juniors Ronald George, Vince Christakos and Randy Gish are enrolled in the two-year Army ROTC program. They attended Basic camp at Fort Knox, Kentucky for 6 weeks this summer and are now enrolled as third year students in

ROTC here at UT. The two year program, open to college sophomores, was designed primarily for Junior College graduates who had not been able to enroll in an ROTC program. The program, however, is open to all juniors at Tampa as an exception

to normal procedure since this is the initial year for ROTC on campus.

In addition to the UT students, Jud Chapman, Jim Deakayne and Peter Miller from Stetson Law School and Rick Vallario from USF are also enrolled in the two year program.

2nd Annual March of Dimes Fair

by Barry R. Lydon

Saturday, October 16 looks like a day of fun and games for University of Tampa students and the surrounding community. The Student Program Council with the aid of fraternities, sororities, and other campus groups will hold the Second Annual March of Dimes Carnival. All proceeds will go to the March of Dimes.

Although plans are not finalized as of yet, a number of games have been announced by Randy Gish, Special Events Chairman for Program Council. The games include, shave the balloon, dart throw, nickel throw, sponge throw, spin art, and dunk the clown. All prizes and construction materials are being donated by the participating organizations.

Local television and radio stations have pledged public service announcements in order to make the Carnival a success.

The carnival will begin at noon and end at 5 pm. A donation dance will be held the same evening, beginning at 8 pm in the cafe and will be open to students only. Donation is 50¢ a student or 75¢ a couple. Local bands will provide free entertainment.

Any questions regarding the Carnival or any organization wanting to participate are urged to contact Randy Gish or Dave Heflin at the University Union.

"The Rapper" defined

In defining the purpose of The Rapper the members of the Communication and Public Relations Committee feel that the students, faculty and administration should be aware that:

- 1) It is not the purpose of The Rapper to alienate any group or person.
- 2) We hope that an exchange of ideas will flow between students and students, students and faculty etc.
- 3) We hope that profanity will not be used in the expression of a person's ideas.
- 4) We would like to see a person place his or her name on an

article, but we do not feel that it is mandatory.

The committee believes that through the rational presentation and discussion of ideas, a climate of academic and individual growth will take place.

DOCTORS DISCOVER NEW PILL FOR TREATMENT OF ACNE

This report deals with a new form of sulfur. Sulfur is probably the safest medicine known to man. M. Hannon found particles of theionized or activated sulfur taken by mouth are so fine and tiny they can be absorbed rapidly from the intestine. Dr. Hannon feels theionized sulfur's effectiveness occurs because it reacts more rapidly to influence all organs including lungs, circulation, kidneys and above all the skin. This reaction takes place because theionized sulfur not only is rapidly concentrated in the blood but this high blood sulfide level is carried to the skin to produce high concentrations at the site where the acne begins. This is the reason theionized sulfur is so effective in pustular acne of the teenager. Dr. L. D. Bulkley confirmed Dr. Hannon's findings. He treated sixty-nine acne patients with theionized sulfur analogue. He found theionized sulfur analogue effective for acne when used alone or combined with other measures. The drug was most effective for teenage acne whether pustular or cystic. AVAILABLE without a prescription . . . AKNE-KAPS only \$1.69 at better DRUG STORES and all KASH and KARRY.

What Can I Say - it's SGA! *by Stygles*

by Joanne Stygles

Still mad about the parking problem? Well, you'll be happy to note that S.G.A. has submitted a recommendation on parking which will be presented to the Senate. It seems that the reason you are having so much trouble finding a parking space is, because there are 1350 cars on campus and only 649 spaces to park in. So, the recommendation from Jim Lucas states that: "the class schedules should be revised because there are more cars on campus in the morning, than in the afternoon. And that only 5 spaces should be reserved." So, some progress is being made, at least you know that someone is working for you.

As of now there is no candidate for Freshman Senator, and only one for Sophomore Senator. Anyone interested should contact Butch Heiles. Once again voting days are October 7 and 8. Remember these are your representatives, so don't forget to vote.

The rules for Homecoming: display, skit, and Queen contest have been set up and are available. Any organizations interested in participating in Homecoming 1971, should get a set of these rules. If you need any other information on this subject contact Barry Lydon, Homecoming Chairman.

It has been a custom at this University that each fraternity sits in a certain section at home football games. As you all know, this was not the case at the first game, and some people got really upset about it. Well, it seems that someone got their wires crossed, and for once it can not be blamed on the school. Last year I.F.C. and SGA voted out block seating. So if you Greeks are interested in sitting in sections again, you'll either have to change the decision or send two people to the game early and save seats. Sorry pledges.

If everything works out all right, maybe the Library will stay open longer. Yes, SGA has taken a stand. A motion has been passed asking for longer Library hours during the week and weekends. Now it has to go to the Ways and Means Committee, then hopefully to the Administration.

Everyone start saving your pennies. The Student Program Council is having a March of Dimes Carnival on October 16. It's open to the public with a dance for students afterwards. Sounds like it should be fun.

If by some chance you are confused about the Dress Code, read on, from the office of Dean West:

Campus NEWS

The University Union will provide buses to the Dayton Game this Saturday night at Tampa Stadium. Buses will leave the front of the Union at 7:15 pm and leave the stadium 15 minutes after the game. The cost is 75¢ round trip and tickets can be purchased all day Saturday in the University Union office until 7 p.m. After 7, tickets will be sold in the lobby of the Union.

STUDENT TRAFFIC COURT

All students receiving a traffic ticket may make an appeal to the Student Traffic Court which convenes every Tuesday at 4 pm in room 4. Students are encouraged to make their appeals in person so that every consideration may be given to their appeal.

FIRE LANES

All students are strongly urged to cooperate with the University in regard to fire regulations by keeping fire lanes open at ALL times. (Especially in front of Howell Hall and Smiley Hall while picking up or dropping off dates at night).

Biology club elects new officers and plans year

The Biology Club held its second meeting of the fall semester on Thursday, September 30.

The meeting began with the election of the new officers. The results were: President, Diane George; Vice President, Marilyn Drury; Secretary, Jane Kennedy and Treasurer, Dennis Fisher.

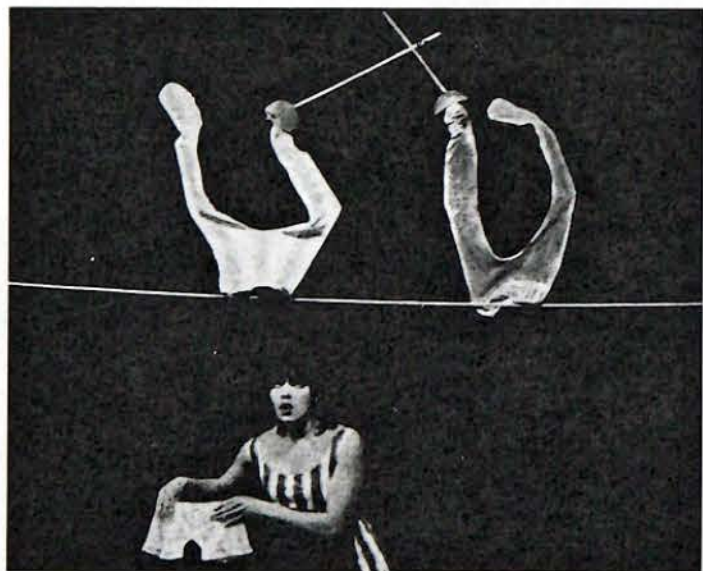

Miss George discussed possible projects for the club. Dr. Gude suggested several projects for club members interested in

working on biological displays on the Biology department floor.

Other plans included guest speakers and debates among the Biology club members on topics of current biological importance.

A field trip has been planned for October 16 to Hillsborough State Park.

The club is off to a good start and promises to be a source of learning, accomplishment and enjoyment for its members.

"Laundress," one of the delightful moments in "Metaphors." It was one of the most popular items of the international program at the Olympia Theatre, Paris in the summer of 1967 and was included in the opening session of the Committee of the XIXth Olympic games, at Grenoble 1968.

"International culture" theme for convocation

by Joanne Stygles

This year's selection of Convocations for the University of Tampa, includes some of the most widely recognized performing groups. Dr. Hugh Fellows stated: "This year the theme will be International Culture," emphasizing the culture and relations between countries. The first group appearing is The Light Theatre of Prague. These performers use black lights to simulate optical illusions.

The other convocations planned are: The Danish Gym Team, a folk dancing and gymnastic group; Ayako Uchiyama, who will present a slide lecture on the arts of Japan and will also perform Kabuki dances; and the former President of Peru, Dr. Fernando Belaundo-Terry. No date has been set yet for his visit. Dr. Belaundo was ousted as President of Peru for refusing to allow the government to take over an American oil company.

Music students at the University of Tampa help Mr. Stephen Parks celebrate his birthday. Parks has been a composer-in-residence at the University of Tampa since his appointment in May, 1961.

Artist - in - residence welcomed to Tampa

Esther Glazer, noted violinist of international tour experience, has accepted an appointment as artist-in-residence at the University of Tampa for the 1972 Spring semester, UT President B. D. Owens announced. She will be UT's first musical artist-in-residence.

Miss Glazer is the wife of Irwin Hoffman, music director and conductor of the Florida Gulf Coast Symphony. She will make guest appearances with the symphony in November and next April.

Presently she is on tour in Europe with her husband and 15-year-old son, Gary, for the month of October. Miss Glazer will appear as soloist Oct. 12 when Hoffman conducts the BBC Welsh Orchestra at Cardiff, Wales. Gary

makes his London debut on Oct. 10 in Wigmore Hall.

As artist-in-residence, Miss Glazer will teach violin and viola in the UT Department of Music under the direction of Richard Rodean, music chairman, and be available for music seminar classes.

Miss Glazer also will develop the string program at the University and present one formal recital.

UT President Owens said: "Miss Glazer's talent and experience will be of tremendous value to our students and to the cultural leadership program of the University of Tampa. We are delighted such an outstanding performing artist has elected to affiliate with the University as musical artist in residence."

In addition to appearing frequently as guest soloist, she is a member of the Hoffman String Quartet, consisting of Hoffman and their son and Ed Stover, a member of the music faculty at St. Petersburg

Junior College. The quartet will present three chamber music concerts at the University of Tampa during the spring semester of 1972.

The Hoffmans also have three other children, all accomplished musicians.

A musician since the tender age of nine when she made her debut in Chicago, Miss Glazer followed up by winning a fellowship to Julliard School of Music in New York City where she studied with Ivan Gaimian. She later won the Naumburg Award in New York.

Her concert career has taken her to Canada, Europe and Israel, in addition to various parts of America. She has appeared with such orchestras as the BBC Symphony, the New York Philharmonic Orchestra, the Royal Liverpool Philharmonic, Radio Zurich Orchestra, the Chicago Symphony, the New Orleans Symphony, the Vancouver Symphony and the Grant Park Symphony of Chicago.

Study tour announced to Mexico

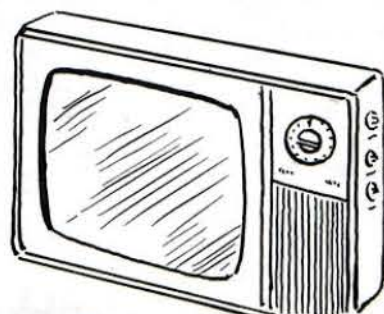

by Barry R. Lydon

Dr. Eustasio Fernandez, Chairman of Modern Languages Department, announced that the University will offer a 3 credit Travel Study Tour of Mexico during January Intersession. The course will be conducted entirely in English and any interested student is welcomed to enroll for the course.

Studies will begin in Tampa January 6-17; on the 18th of January the students will depart for a tour of Mexico which will end on January 25. Places of interest the group will visit include Mexico City, City of Tasco, famous for its silver mining, Teotihuacan — great silver mining district, Yochimilco with its floating gardens, and Cuernavaca. Interested students should contact Dr. Fernandez for further information.

UT Student Enters Women's Army Corps

by Janet Nickels

Would you believe that during this past summer I went through four weeks of training with the United States Women's Army Corps? I decided to 'try out' the army which is something that not too many people are allowed to do. But if you are a female and a junior in college, you may qualify for this action-packed summer — with 149 other girls and receive a corporal's pay for the experience. The training is designed to prepare young women for an officer's career in the Women's Army Corps.

The thought may enter your mind why any girl

would want to enter the army, especially after a college education. Many female college graduates are seeking out a different kind of life into which they may step at an executive level, without sacrificing executive wages and benefits. Any career is possible from finance to journalism or career guidance. If you want to further your education — the Women's Army Corps offers many programs; where you can as an officer, attain your graduate degree at Uncle Sam's expense.

The summer training program is intense—never a dull moment. You'll learn about the roll of the WAC, military customs and courtesies, military leadership, and intelligence. You go to

school during the day and learn how the military operates. During the evenings and on weekends you are free to do as you please and the selections are many. At the end of your training, if you are selected you receive a Corporal's pay and allowances throughout your senior year. When you graduate, you will be commissioned as a Second Lieutenant as I will this May.

If you are interested in an exciting job with travel, good pay, benefits and a responsible position, don't hesitate to stop by and talk to the Women's Army Corps Officer recruiter when she comes on campus. You may be surprised at all she will tell you, I was.

New column plans help

by Regan

Hi, Gang! You've guessed it. It's the start of another new column. Yes, I come your way to make your life easier and to help you solve all those difficult and frustrating problems concerning this school.

The column, "You're Here, Too" has been designed especially to help you out of campus upsets, with the least amount of hassle for you. So, when the ol' financial aids department has got you down, or you need an English advisor and don't know where to go, or you want a job but are looking in all the wrong places, or maybe you just want to get a few things straight about what's happening around this place.

Just drop a note off in the post office, Box 1075. We can help you, only if you write. Okay? After all, you're here, too.

NBC to show ROTC story

An NBC producer who filmed Advanced Camp activities at Indiantown Gap Military Reservation (IGMR) in July announced that a 13 minute ROTC feature is scheduled for his network's new *First Chronology* show in October.

Producer Lawrence Goldstein filmed activities and interviewed cadets, instructors, educators and others over a two week period and condensed yards of film footage into a show which attempts to give an objective overview of ROTC and current attitudes about the program.

The show is scheduled for broadcast Friday, October 22, at 9 p.m. Eastern Time, but the schedule could change. Interested persons should consult their TV guides for final programming information.

Intramural football begins on schedule

by Dave Willis

The 1971-1972 Intramural Football season began on September 30 with the third annual "Flag Football Jamboree." Under the direction of Mr. Charles Kutumbos, all of the games were run according to schedule.

Most of the games were played to scoreless ties. The defenses on most of the teams looked very strong. There were numerous fumble recoveries and interceptions by several players.

The defending champion Majors Club once again looked very good. They played to a deadlock, 6-6, with Pi Kappa Phi. The

Majors have a lot of depth and should be a strong contender again this year.

Two teams that made surprising showings were Lykes and Delo Hall. Lykes defeated Delta Sig by two touchdowns and could possibly give the Majors a battle for the title. Delo Hall played in two scoreless games but threatened at the goal line several times. They have an excellent chance of being the dark-horse in their league.

League play begins on Tuesday, October 5, on the fields directly next to the swimming pool. The public is invited to come and cheer their favorites on to victory.

Registration procedure to take on a new look

by Daniel Faulkner

Registration procedures will take on a new look at the University of Tampa during the Spring semester. Registration will not be held in Plant Hall as in past years, but in the University Union.

When registration was held in Plant Hall, there was one main problem — the arrangement of Plant Hall was not conducive to registration, it was a thoroughfare for students and visitors. Registration lines were being broken by people who were not actively involved in registration, and this caused confusion for students.

The idea of shifting registration from Plant Hall to the University Union was initiated by the Registrar, E. H. Cropsey. Even though the main problem of line breakers will be terminated, other problems are arising due to the change. One problem is bookstore traffic, so instead of registration lines forming at the front of the University Union, they will probably form at the rear to avoid blocking the bookstore doors. A second

problem is that the students may not be able to eat in the cafeteria because it will be roped off for registration purposes. An alternate plan for this problem would be to feed all of the students in the snack bar in the union. A third problem is that of orientation and freshman activities conflicting with registration.

Although there are problems involved with the registration change, there are also some time-saving ideas that will help streamline the process of registration. One idea is to set up more cashier stations, so that more students can be processed in a shorter period of time. A second idea is to get non-pre-enrolled students to talk to advisors before registration begins instead of during registration.

The hopes for success of this new plan of registration are very high. It will hopefully speed up the process of registration with as few problems as possible, even though there still are a few with the new site of registration.

Many people haven't heard this, but the Athletic Director at Chattanooga said the Spartans were the best team they've ever played at Chamberlain Field. Let me tell you, with the kind of teams Chattanooga has played (Auburn, Tennessee, etc.) that's really something. They said that Tampa had the best depth in running backs they've ever seen.

Last week on Inside Football, Coach Fulcher said that Mark Wakefield was one of the best receivers in the country. Nobody can argue that. He's only caught six passes in two games. I don't know why he's not thrown to more often. He drew single coverage against Chattanooga again. One of his passes was a TD.

Frank Pitts, the frosh sensation from Tarpon Springs showed that he can't sit and watch much longer. Hmm, wonder where they will put him?

Louisville, picked to win the Missouri Valley Conference, was beaten by Drake 10-7 last week. Both are Spartan opponents.

Dayton has a Sport Magazine Honorable Mention All-American. He is Gary Cosins, a running back. I hear the pro scouts are high on him.

Villanova also has a Sport Magazine First Team All-American. His name is Mike Siani and he was the leading receiver in total yards last season. He is the man the Spartan defensive backs will be looking for.

So far, this season, Mississippi is undefeated. The Spartans face Ole Miss at Tampa Stadium. The Rebels will face Alabama this week.

Well, I know one thing that will go uncontested this year, Tampa is better than Florida! Weep a little Gator fans — the truth hurts.

TU students to present radio program on WSOL

University of Tampa students, enrolled in the Radio Communications class will present a one hour radio program on Saturday morning beginning October 16.

The program will be broadcast over WSOL Radio, 1300 KC, from 11 to 11:45 a.m. every Saturday until December 4.

Each program will be written and performed by two students from the

class.

The class, which is listed as a speech course, is a study of the basic fundamentals of radio. It is a two part course, the first part being offered during the fall semester and the second during the spring semester.

Mr. Albert Gale, station manager for WSOL, is the instructor for the course. Classes are held in the WSOL studios at 1711 W. Kennedy Blvd.

BandDay proves to be a success

One of the greatest Band Day spectacles ever staged at Tampa Stadium provided half-time entertainment Saturday afternoon for fans attending the football game between Tampa and Youngstown State.

Almost 2,000 high school bandmen from schools as far away as Jacksonville were massed on field with the UT marching band, "the biggest little band in the South," for a program that bridged the generation gap musically.

Reaching a climax when the bands formed a living outline of the United States for a patriotic salute to America, the third annual Band Day pageant was directed by Christopher Styles, director of bands at St. Petersburg Junior College, and Richard Rodean, chairman of the UT Music Department.

Bands taking part in the pageant included those from Auburndale High School; Southeast High School; Bradenton; Clearwater High School; Forrest and Lee High Schools in Jacksonville; Pinecrest, Lithia, and Lakewood

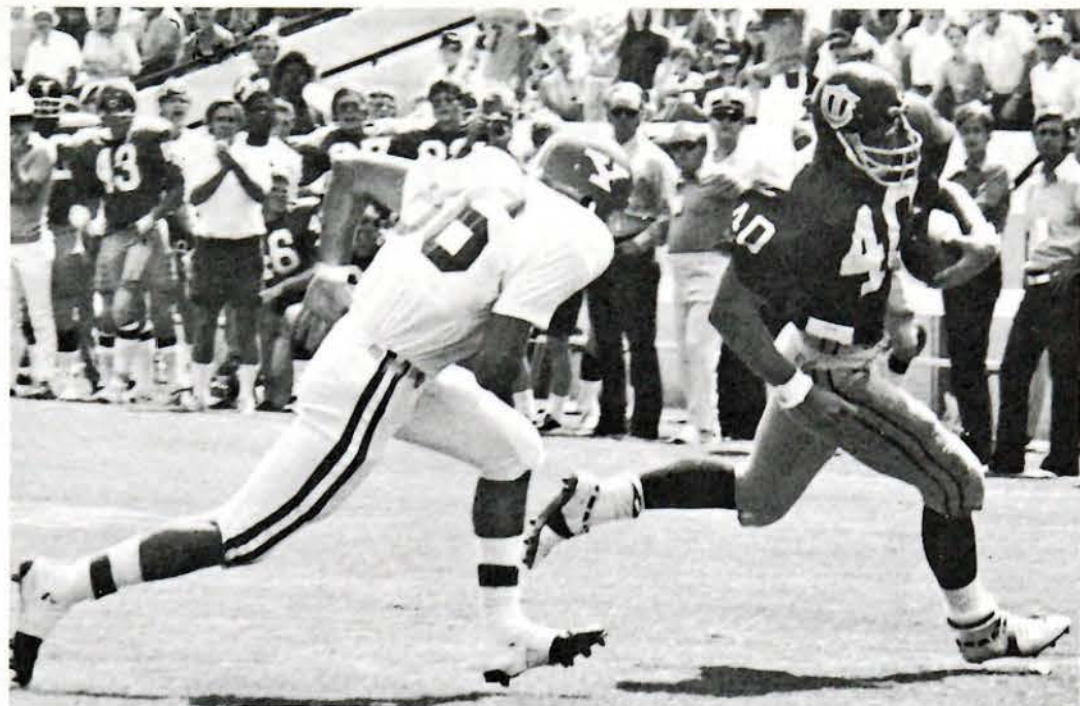

Alice Cooper...

(Continued from Page 1) do fit into the set with expert staging and theatricals.

In a last attempt to clear up the mystery behind the name Alice Cooper, the only valid explanation can come from Alice himself.

"We're America's most American group. Our parents were rich, we wanted to be as obnoxious as possible, and Alice Cooper was the most American name we could think of.

If all of this still puzzles

The "Brandon Bull", Paul Orndorff, on his way for a TD against Youngstown.

UT tops Penguins 49-0

The Tampa Spartans unloaded against a hapless Youngstown State Penguin team Saturday afternoon to the tune of 49-0.

Youngstown totaled only 81 yards in total offense. Tampa had 385 in the rushing department alone.

The scoring started with 4:20 left in the first quarter. Buddy Carter handed off to Paul Orndorff, who rambled 19 yards for the score. Jesse Soper added the extra point.

In the second quarter, Ernie Dubose went eight yards on an inside trap for Tampa's second score. Again Soper added the PAT.

Later in the second quarter, Carter dropped straight back and fired over the middle to All-American candidate Alex

Edlin, who made an unbelievable catch for Tampa's third score. Jesse Soper made it 21-0.

The third quarter was the most prolific in scoring in the game.

Willie Miller scooted in from the 5 for the first. Then Freddie Solomon began his one man destruction crew.

Solomon, faking a pitch on the option, cut back against the flow and gutted 10 yards for his first touchdown.

After an exchange of punts, Solomon tossed a perfect strike to wide receiver Bob Stringer on a play that covered 38 yards for the score.

"Super" Soper added all three PAT's.

The Spartans scored only once in the final period, but it was the most exciting score ever seen in Tampa Stadium.

Freddie Solomon rolled left at his own 22, cut upfield for about 10 yards and reversed his field, avoiding 5 or 6 Youngstown players. Solomon sprinted all the way to the West sidelines picked

up a block and jetted the remaining yards for the last and most exciting score of the game. Soper added the final extra point of the game.

"Fabulous Freddie", in 9 carries gained 147 yards for rushing honors. He was also 2-6 in passing for 49 yards and a touchdown.

Tampa faces the tough Dayton Flyers October 9 at Tampa Stadium. Game time is 8 P.M.

MENDELSON...

(Continued from page 1) yond the freshman year, in addition to his own teaching duties. He serves also as chairman or member of a number of faculty-wide committees, and chairs the department's executive committee.

His wide range of experience includes faculty personnel management, advising students on the Rhodes Scholarship Program and on graduate school opportunities, liaison work with other colleges and consulting for various international organizations.
