UNIVERSITY OF TAMPA, TAMPA, FLORIDA

MAY 29, 1964

## Dr. Delo's Letter To The Graduating Seniors

As graduation approaches, you can look back on your exciting years of constructive campus change. You entered the University at a time when its future was uncertain. You leave it in a year when there is no doubt that it can look ahead with confidence.

You have seen many physical changes. Howell Hall, the Falk Theatre, the Industrial Arts Building, the LaMonte Art Gallery, the new wings on McKay and Smiley, the Student Center, the new special rooms in the Main Building and the beautiful Hazel Ward Lounge have all been added since you were freshmen.

All of these are highly desirable and necessary, but they really are only a means to an end — toward creating a campus environment in which we can develop a superior academic program — an environment in which a student may grow and mature, and lay the foundation for a rich and satisfactory life.

These changes have resulted from the gifts, the vision and the work of not just a few persons, out of hundreds. Each has done his or her part to help each of you. Many of you also have contributed much to improvement of campus life. I appreciate what you have done and am grateful for your help and co-operation.

In a few days you will be alumni and alumnae. It is now your turn to join the hundreds who helped you by assisting the University to provide a better physical and academic environment. It is your privilege to help to continue that improvement for the students who are still here and those who will enter in succeeding Septembers.

You are the logical class to set the example, not only for the classes of the past but for all those to come. For you are the charter members of "The Great Change"

which transformed our campus during your own college career. You have lived as part of this transformation. So I know that each of you will want to keep the momentum of this constructive improvement and continue to be part of the future of the University. You can do this, and as the Class of 1964 you can make a lasting impact. May I suggest —

1. That you organize yourselves so that information concerning the progress and significant events in the lines of each of you reaches the Director of Alumni Relations whom we will install in September. We also plan an excellent alumni magazine in which this information will be printed. It will be sent to you four times each year if we have your address.

2. That you lose no opportunity to speak favorably about the University, especially to good prospective students.

3. That you annually support the Alumni Loyalty Fund, even though your gift be a small one. It is not so much the size of your gift which counts, but the number of you who give and thus express your continued interest in the University.

All of us who remain behind are interested in your plans and your progress. As you do plan, make no small ones — set no low goals — they have no power to stimulate you or anyone else. You will be surprised how often you will secure the best if you go after it with every ounce of your ability, and finally, put a red circle on your calendar each year for Homecoming and Commencement. We hope to have some surprises for you which will make you glad you came.

With every good wish,  
David M. Delo

## Rice Chancellor To Speak At T. U. Commencement

*Editor's Note: This is a summary of Dr. Croneis' varied background.*

Dr. Croneis came to the University as Provost and Harry C. Weiss Professor of Geology in 1954. Previously, for a ten year period, he had been President of Beloit College, and of the Beloit Board of Trustees.

Dr. Croneis was graduated from Denison University where he was elected to Phi Beta Kappa in his Junior year. He took his doctorate in Geology at Harvard in 1928 prior to becoming a professor at the University of Chicago. During the sixteen years that Dr. Croneis was a faculty member at Chicago he had many off-campus assignments. He was on the staff of the U.S. Office of Scientific Research and Development, designed the geology section of the Chicago Museum of Science and Industry, served as Head of the Hall of Science at the Chicago Century of Progress Exhibition, and was a member of the National Science Foundation Committee on Mathematics, Physical and Engineering Sciences.

Dr. Croneis is a past President of the American Geological Institute, has served as Vice President of the American Paleontological Society, as President of the Society

of Economic Paleontologists and Mineralogists, and is the immediate past President of the National Association of Geology Teachers. He is the author or co-author of several books and scores of scientific articles and reviews. He is Chairman of the Board of Educators of the United Educators, Chicago, and is Editor of the Harper and Brothers series of texts

Dr. Croneis

and monographs in the Earth Sciences which now includes more than twenty volumes with worldwide distribution.

Chancellor Croneis has been the recipient of five honorary degrees and a citation from the Guatemalan Government. He has four times served as Chairman of the Southwestern Assembly sponsored by Rice and Columbia Universities, and has taken an active part in Houston community affairs. He is a member and past Chairman of the Board of Directors of the Contemporary Art Association, has served as a board member of the Houston Chamber of Commerce, and is presently a member of the Board of Directors of the Houston Museum of Natural Science and Vice Chairman of the Board of Trustees of the Kinkaid School.

## Phi Sorority Is Now DPhiE National Sorority

The Phi Rho Pledge Chapter of Delta Phi Epsilon Sorority was inducted and honored at a luncheon at the Floridan Hotel on May 12. The eighteen girls who were inducted were formerly known as Phi Sorority, a local group that was organized in October, 1963.

Flying in from Miami Beach to perform the ceremonies were Mrs. Ethel Chisling, International Vice President, and Mrs. Cecelia Shapiro, National Panhellenic Representative.

Delta Phi Epsilon is an international, non-sectarian sorority, well-known throughout the north as well as the south. It has chapters

Delta Phi Epsilon Officers

at Miami University and University of Florida, as well as chapters in our neighboring states of Georgia, Texas, and Alabama. There are chapters all over the north, in the eastern, central and western parts of the United States. Because of its chapters in Canada, D Phi E rates as one of the few international sororities in the U.S.

After a formal pledge period, the chapter hopes to get its official charter from D Phi E.

## Lovely Announces "American Visit" Program For '64-'65

by Joel A. Schneider

During the 1964-1965, Academic Year, the Student Union, under the leadership of Mr. Lovely, is launching an "American Visit" program. According to Coach Lovely, "this program is hoped to instill in our students a better understanding and appreciation of their American heritage."

Each state will have a display in the student center for a period of time; during which we will be able to present a complete picture of the state. The display will consist of exhibits, pictures, flags, and maps. Films will also be shown, music played, and foods served that are characteristic of that state. The Coach would also like to have a speaker from each state, if possible, to come and talk to the students about the state's problems today.

The "American Visit" needs the help of the entire student body. If you can contact officials in your home state during the summer vacation, have them contact Mr. Lovely at the University of Tampa's Student Union; he will be able to give them specific information as to the nature of the program.

The first in this series is to take place in the week of September 21 to September 25, when Mr. Lovely has tentatively planned a Luau to commemorate Hawaii. January 3 to January 7 will see Pennsylv-

vania, the 12th to the 16th will be New Jersey, and the 16th to the 20th will be New York. The other forty six states plus Washington, D.C. will be celebrated in subsequent weeks. Exact dates will be posted prior to their presentation.

## Library Notice

All Library books, magazines, pamphlets, and pictures are due in the Library on or before Monday, June 1. Anyone needing 2-week books after that date, for exam use, may secure special permission from the Circulation Librarian to renew them for one day or overnight use. All books not returned or renewed by June 1 will be subject to the following:

20c per day on each 2-week book; 25c per day on each Reserve book.

Overnight Reserve books — see schedule of fines at Circulation Desk.

Please check date slip in each Library item for date due. At the end of each semester, the Library is required to turn in to Business Office, for billing and collection, lists of Delinquent Library Accounts. Please return all Library materials promptly, so that your name need not appear on these lists.

Dr. David M. Delo

## EDITOR'S NOTE

TO THE SENIORS . . .

THANK YOU!

by Dick Perrier

The Minaret, along with the administration, faculty and student congress, would like to extend its congratulations to the graduating seniors. We would however, like to go one step further, by also extending our thanks; thanks for holding fast, when the university was on thin ice; thanks for having the confidence in the school that others lacked, and thanks for helping to shape the foundations of an outstanding small college.

Four years ago the University of Tampa was the possessor of a decaying hotel, a few dedicated faculty members, little money and a determined new president. Then it started: competition. The University of South Florida was planned, and within a year construction had already underway and the first buildings of the sprawling institution had started; with their completion arose unrestrained competition for the, then, local student body. As college freshmen, back then, a choice had to be made; a difficult one, as to what they were looking for in a college education. Did they want impersonal, regimented teaching with the best of modern equipment, or did they want the personal intellectual stimulation that could only be obtained from face to face exchanges of ideas between faculty and students? Those who chose the latter, are shortly to receive their degrees from the University of Tampa.

The competition was and is healthy, for with it, we at Tampa had to throw out the self righteous idea of "letting well enough alone" and accept new dynamic ideas. We had to grow, to improve or die. McKay Hall, Smiley Hall, Lykes Hall, the Sigma Phi Epsilon and Pi Kappa Phi fraternity houses, were our answer to the problem. We began recruiting from out of state; then we had just Edward Van Gelder to shoulder the burden, now we have a fulltime recruiting team in the field.

With a growing student body and commensurate physical growth our next step was to strengthen our academic program. This meant that faculty salaries had to be increased. They were and now continue to increase at a steady pace. A strong faculty and strong academic program has thus been assured. (Perhaps here it would only be fair to stop and thank those professors who turned down lucrative offers from other institutions to stay and help the University of Tampa grow.)

This year's graduating seniors have seen all this, and whether they realize it or not, what they have seen is nothing short of miraculous. In the past four years, in the face of fierce competition, hundreds of small colleges have either fallen by the wayside or else been absorbed by larger, heavily endowed institutions. The University of Tampa in the face of that very same competition, has in addition to building and acquiring dorms, completely renovated the main building, built an industrial arts building, a student center, an art gallery and acquired and remodeled an auditorium.

Thank you again for helping to make this possible.

## Student Congress Notes

by Dell Davis

A Student Congress Meeting was held Monday, May 18, 1964.

Sue Black, Co-ed Vice President, was put in charge of a committee to set up the Legislature for next year. The committee was to meet this week to make further arrangements to organize the Legislature before the end of the semester.

The Leadership Conference to be held Tuesday, May 26, at 9:00 p.m. was discussed. The Conference is to be open to all students. The presidents of all recognized organizations on campus are asked to attend if at all possible.

Orientation plans for next Fall have been started in Student Congress. We hope to vastly improve the Orientation Week so that it will be of greater value to the new frosh. One plan discussed hopefully will instill school spirit and pride in the new freshmen.

## Echelman Wins First Prize In U. of Tampa Annual Art Show

Mrs. Anne Echelman of Tampa won the Central Oil Company \$100 first prize as a result of judging in the University of Tampa's annual student art show now in progress at the college's Charles LaMonte Gallery.

Her painting, entitled, "Composition in Blacks and Purples," took the top honors in the show which features entries by more than 20 art students at the University. The first prize was donated by Mr. and Mrs. John A. Guyton, Jr., of Tampa.

She received the award at the reception held Sunday afternoon at the gallery, when Mrs. David M. Delo, wife of the University's president, presented the awards. Judge

## Survey Shows College Fraternity Averages Above Non - Greek

Scholarship averages of members of college fraternities throughout the nation continue to climb above the respective all-men's averages for the past academic year, according to an analysis just released by the National Interfraternity Conference.

The final figures for the academic year, 1962-63, reveal that the all-fraternity average exceeded the all-men's average in 59.3% of all colleges reporting. These percentages are based on reports from chapters from whom comparable data is available, comprising over three-quarters of all fraternity chapters in the United States and Canada. There was a total of 283 institutions reporting with 3,038 fraternity chapters involved.

The improvement in fraternity

scholarship has been particularly pronounced during the past decade, it was pointed out. Only 40.3% of the colleges reporting 10 years ago (1953-54) show the all-fraternity average above the all-men's average.

This improvement in scholarship has shown a steady, consistent increase. For the previous academic year, the figure was 68.1% and two years previous the figure was 56.7%.

A similar improvement has been recorded in the nationwide percentage of individual fraternity chapters above the all-men's averages. During 1962-63, a total of 49.8% of all fraternity chapters reporting were above their respective all-men's averages, whereas only 41.4% could show a superior rank 10 years earlier.

During the past academic year also, 31 institutions qualified for the Summa Cum Laude rating for superior scholarship, where every fraternity chapter on their respective campuses exceeded the all-men's average. Of this number six achieved the honor for three successive years, while seven achieved it for two successive years.

Out of 60 national fraternity organizations, 28 reported that at least a majority of their chapters or more were above the all-men's averages on their respective campuses.

## Minaret Apologizes . . .

We would like to apologize to Steve Newman, Student Congress Secretary of Greek Relations for omitting his name in the May 22 issue in which the delegates to the recent Southern Universities Student Government Association convention at Biloxi, Mississippi were listed. He was very much in attendance at the conference.

## New Stereo Room In Student Center Donated To University of Tampa

The Student Center at the University of Tampa has added a stereo listening room through a pair of gifts from local businessman Charles LaMonte and a second benefactor.

It is located in Room 6 on the Center's second floor, and is equipped with a modern hi-fi record player and AM-FM tuner, or radio system.

At the heart of the set is a 75-watt Fisher 800-C stereo multiplex receiver, playing off an English imported Gerrard type A Mark II auto turntable.

The room is open to all students and faculty, it was announced by Center Director Robert Lovely, who explained that persons wishing to use the room must check first with the office and have a staff member set the player up for use.

There is a small supply of records available at the Center, and, indicated Mr. Lovely, persons using the room are invited to bring their own records.

The room itself has been prepared for use by the most discriminating hi-fi buff, or by those who just want to sit and listen to their favorites.

Drapes have been hung to help dampen echo noises, and a carpet will be put in soon. In addition,

50 rattan lounge chairs were added to the room to accommodate larger groups.

Director Lovely pointed out that the record changer is constructed to play all speeds and all popular record sizes.

The University series twin speaker system, built by Mr. LaMonte himself, each consists of a series woofer, or bass, twin mid-

ranges and a tweeter, with cross-overs to provide smooth transitions from bass to treble.

They are capable of reproducing sound from 30 to 30,000 cycles per second, well above and below the distinguishable human audio range.

Director Lovely said that the room will be open and available free to users during all hours in which the center is open.

New Stereo Room

## MINARET MAID OF THE WEEK

Mary Ann Lippleman

When the annual college transfers ended the University of Tampa happily was in possession of Miss Mary Ann Lippleman. Mary Ann, a Chi Omega, from the University of Florida finds Tampa much to her liking, one reason must be that she is near to the water to pursue her first love, namely water skiing. A sociology major, she plans to do social work when she graduates.

Things were touch and go for awhile as the Plant Park pigeons carefully examined this new visitor, to their territory. And by the look on Mary Ann's face, it's obvious she viewed her callers with apprehension.

But the ice was broken the minute she flashed that oh so friendly smile, and as she must do with the guys, she had the pigeons eating out of her hands.

## T.U. Coed Tries To Start Swim Team For '64-'65

The University of Tampa Athletic Department is hoping to have intercollegiate competition in golf, tennis and swimming in the near future. At the present time Miriam Pellegrino is taking the names of those who are interested in starting a swimming team next year. This is the first big step towards getting a team and if you are interested in this sport, contact her before you go home. She can be reached at Room 301 in Howell Hall.

## FOOTBALL . . .

(Cont. from Page 4)  
the Coaching Staff and fans as well with some excellent broken field running. The 175-pound junior proved he could pick up the yardage. Bill McManigal turned in a fine showing at full-back and should see considerable action at that spot for the Spartans next fall.

Charles Foures, Ken Sands and Ed Owen all looked tough on defense, as did Al Ward who was quick to recover one of the two fumbles committed by the offense while within easy scoring position.

## THE BULLETIN BOARD

by Mike Moore

Basketball Coach Bob Lavoy will not have the services of George Shary next year. It is official now that the F.I.C. voted not to let him play. There was no actual rule that could have kept him from playing and the N.A.I.A. ruled him eligible but the conference ruling took preference in this case. The N.A.I.A. will have a ruling from now on which will cover cases such as this and the player will not be allowed to play. Neither Lavoy or Shary expected the conference to allow him to play but there was always that slim chance. With George in the lineup we certainly would have had a better season this year and better chance for next year, but one player does not make a whole team. We have some fine players returning and some potentially excellent ones coming in for next year. I think there was a tendency on the part of coach and players alike to rely on this one man too much the past couple of years. It will take a team effort to make our basketball squad click next year and we have the coach and players to do it. We will all be waiting to see if they meet the challenge.

Those students who showed enough interest to come to the Spring Football Game were treated to a hard-hitting battle. There has been some comment that we are playing out of our class next fall but I feel that our personnel can stand up to any of the schools we have on the schedule next year. The real big difference between us and some of the bigger schools is depth. I think many people will be surprised with the showing the Spartans make next fall. One of our big assets is the coaching staff. I doubt if there is a school in the country our size that has a better one.

Here is a chance for the "Lobby Coaches" to do something constructive — if you know of a good college basketball prospect, turn his name in to Coach Lavoy who would appreciate the help. He is coach, recruiter and scout all rolled into one and consequently doesn't have the chance to get around the country to see every prospect in action.

At the spring game I noticed our new cheer leaders doing the same thing they do at the season games — nothing. When they try to lead a cheer the students pay no attention and they probably feel a little stupid out there. I never have seen a student body with so little spirit. There is nothing like a good loud cheer to motivate those boys on the field. Maybe the students should be moved out of those good 50 yard line seats and placed in the end zone since they don't seem to care what's going on anyway. There were about 50 people sitting on the north side and they all clapped once and made more noise than the students have in three years.

## SUMMER JOBS

for STUDENTS

NEW S'64 directory lists 20,000 summer job openings in 50 states. MALE or FEMALE. Unprecedented research for students includes exact pay rates and job details. ## Support Spartan Sports

# Defense Play Sparkles In Annual Spring Grid Battle

Defensive Coach Charles McCullers was all smiles as the defense dominated the annual Spring Game Thursday night. Ralph Young scored the only touchdown in the affair when he blocked a punt and carried the ball 10 yards to the end zone, giving the White's a 7-0 win over the Blacks. Young is a 205-pound transfer from Mississippi Southern.

Line Coach Frank D'Agostino was very pleased with the hard-hitting, aggressive play of the lines

on both squads. Backfield Coach Vic Prinzi was well pleased considering all the quarterbacks except John Perry, who only stepped into the position a week ago, were hampered with injuries.

Bailey was also pleased with the play of returning ends Jim Galmin, Dan Riviero, Dan Cogan and Howard Langdon. Galmin hauled in some fine catches and showed some good hard-nose running.

Billy Howell drew praise from (Cont. on Page 3)

## School's Out.

Right now, graduation seems way off in the wild blue yonder. But it's not too early to start planning. In the future, you'll look back on decisions you make today with satisfaction... or regret.

What can an Air Force career mean to you in tangible gain? The opportunity to take on executive responsibilities you might otherwise wait years to attain. And a head-start into one of a wide range of possible careers in the exciting Aerospace Age.

As an Air Force officer, for example, you may be flying a su-

personic jet...helping to keep America's guard up. Or you may be in an Air Force laboratory, working to solve an intricate scientific or technological problem.

Doing jobs like these, you can hold your head high. In addition to being essential to your country, they're the beginnings of a profession of dignity and purpose.

For more information, see the Professor of Air Science.

If there is no AFROTC unit on your campus, contact your nearest Air Force recruiter.

**U.S. Air Force**
