

## DeGuzman Receives W. Wilson Fellowship

The Woodrow Wilson National Foundation has announced the awarding of a Woodrow Wilson National Fellowship, for graduate study, to Miss Jeanette DeGuzman, a senior at the University of Tampa.

The recipient, Miss DeGuzman, is the 21-year-old daughter of Mr. and Mrs. B. J. DeGuzman, of 2009 Mitchell St. She is one of 1,475 college students receiving the fellowships from among 9,767 candidates throughout the United States and Canada. Winners were selected on the basis of scholarship and potentiality as successful college teachers.

Miss DeGuzman, a native Tampa, was graduated from Hillsborough High School in 1959. As a student at the University of Tampa, since that time, she has been an active participant in school affairs. At the present time she is the editor of the MOROCCAN yearbook, a member of Phi society, honorary scholastic fraternity. She is also listed in *Who's Who in American Universities and Colleges*.

Jeanette has been named to the Dean's List at the University having received a straight 'A' average this past semester. As a freshman she held the highest scholastic average in her class, and was subsequently awarded the Borden Freshman

Prize for 1959; that year and for the next three consecutive years she also won the Food Fair Foundation Scholarship. At the present time she is Vice President of the Senior Class at the University of Tampa and a member of Sigma Sigma Sigma social sorority.

Jeanette DeGuzman

A second University of Tampa senior, John M. Murray of Tampa, received an honorable mention in the fellowship competition. An Art major, he was one of 1,154 college students receiving honorable mention.

The fellowships cover tuition and fees for the first year at the graduate school of the fellow's choice, plus a stipend of \$1,500. Miss DeGuzman, who will graduate from T. U. in June with a B.S. degree in Spanish, plans to enter graduate school next fall to study for her Master's degree in Spanish.

## Hudson, Henson Get Grad Assistantships

Two University of Tampa seniors majoring in accounting have been awarded graduate assistantships for the 1963-64 year by the Accounting Department of the University of Florida's College of Business Administration.

They are Walter R. Hudson of Ruskin and Maj. Ira C. Henson (USA, ret.), of 4610 Villa Rosa, a student in the University's MacDill Air Force Base Division. Both have received graduate assistantships covering the period from Sept. 1, 1963, to June 30, 1964, or 2 1/4 trimesters. They will receive stipends of \$225 a month, will take a maximum of 12 semester hours of course work each trimester, and will serve as graduate assistants in the accounting department for 15 hours a week.

Both students will receive BS degrees in accounting from the University of Tampa, Hudson in June, and Henson in August. They plan to receive Master's degrees in accounting at the University of Florida at the conclusion of their assistantship programs.

A native of Ruskin, Hudson is the son of Mrs. Lottie Hudson of Ruskin and Walter Hudson, Ar-

## LaMonte Gallery Features Art Department Faculty

The University of Tampa opened its second art exhibition in the new LaMonte Gallery in the Falk Theatre building March 17. The show features paintings, sculpture and ceramics by members of the University of Tampa art department faculty. Represented are Joe Testa-Secca, Wallace Green, Alfred Nash, Harold Nosti and Frank Colson. The gallery hours are 2 to 5 p.m. Tuesdays through Saturdays, and the show ends March 29. Admission is free of charge.

Missippi, retired from the Army in cadia. He has worked his way through college as a commercial fisherman and with his own part-time bookkeeping and income tax consultation service. He is a graduate of East Bay High School in 1959 and received an Associate of Arts degree from Manatee Junior College, Bradenton.

## Musgrave Receives Composer's League Prize

A University of Tampa senior majoring in music took first prize in the student composers' competition at the annual convention of the Florida Composers' League last Friday and Saturday at Florida State University, Tallahassee.

He is Frederick A. V. Musgrave, of 4820 Flamingo Rd., whose composition, "Adagio for Brass," won the top award from entries submitted by college students from throughout the state. Judge for the annual student composers' competition was Roger Sessions, professor of music at Columbia University and well-known composer, who was composer-consultant for the convention.

Musgrave received a \$25.00 award for his winning composition, furnished by the Florida Federation of Music Clubs. His work, which was tape recorded by the University of Tampa Brass Ensemble, was heard in a public concert Saturday morning on the FSU campus. The award makes him an honorary member of the Florida Composers League.

Musgrave, son of Mrs. Harold V. Musgrave, 4820 Flamingo Rd., and the late Mr. Musgrave, is choir director for the Salvation Army in Tampa. After his graduation from the University of Tampa in June with a Bachelor's degree in music, he plans to continue with his Salvation Army work. His wife, Miriam, also is a member of the Salvation Army.

A graduate of Plant High School in 1959, Musgrave is a member of the University of Tampa Symphonic Band and former member

## Hutchins Heads News Bureau Service At TU

A highly important though little known part of the administrative staff of the University is its News Bureau, which handles the public relations and publicity of the University on a local, state, and nationwide basis.

Consisting of a staff of four, the News Bureau is directed by the capable Colonel Frank Hutchins.

Colonel Hutchins has had a varied background, serving in the National Guard while working in the fields of news and public relations before World War II, thereupon serving in the African and Italian campaigns during the war, continuing in the Air Force until June of 1961, finally retiring and taking up the position of Director of Public Relations and Publicity at the University shortly afterwards, and acquiring a B.A. in English from T. U. in October of 1962.

Assistant Director is Mrs. Juliet Moore, a graduate with a B. A. in English from the University of Alabama, working for two years for the University of Florida's News Bureau and as a member of the staff for the Miami News and the Tampa Tribune before taking up a position at the University of Tampa's News Bureau.

Serving as secretary and general handiman is Miss Nancy Moore, a graduate of Plant High School presently a student at Tampa Univer-

sity majoring in secretarial science. The fourth member of the staff is Mr. Dick Davison, a student at T. U., serving in the capacities of student correspondent to the Tampa Tribune and is in charge of the

# Organization Failure

Of approximately 35 organizations on this campus, excluding the social fraternities and sororities, only about eight of these groups have consistently taken the time and effort to inform the Minaret or the Dean of Men's office of their activities. By failing to inform these respective offices, the campus organizations are exhibiting irresponsibility and doing an injustice to both the student body and to themselves. If these group activities are unknown, then those members of the student body who are uninformed have, without their consent been disfranchised of their opportunity to be active participants in school affairs.

As a school newspaper, we attempt to act as an information and thought providing outlet for the university and for the students in particular. We can not, however, function properly if we don't have the cooperation of those groups whom we are supposed to write about.

The Dean of Men's office has also requested group information, but to no avail. Each semester a form has been sent from the Dean's office to each active campus group asking for the following information:

1. Name of Organization
2. President
3. Home Address
4. Telephone
5. Place of Meeting
6. Time of Meeting
7. Faculty Adviser
8. Other Officers

To this reasonable request for information there has been a resounding silence. If this data were available it could often work to the benefit of these anonymous groups, since calls are continually flowing into the Dean's office asking for this general information, in order that speaking and other arrangements could be arranged with various groups. What information can be given if none is available?

Happily this lack of cooperation is not a factor with the social fraternities and sororities, as they have continually made an effort to fully inform all concerned of their activities.

If the Greeks can do their job, why not the other active organizations on campus? The trouble to advertise may net greater prestige and distinction on and off campus. Try it!

## From The Dean

It has been announced by the Vice President for Academic Affairs, that all courses in home economics will be dropped from the University curriculum at the end of the academic year ending in June 1964. This drop is concurrent with the retirement of Miss Stella M. Cox, Associate Professor of Home Economics at the University.

Reasons given for this drop are as follows:

1. The University feels that the purpose of these courses is no longer in line with the ultimate objectives of the school.
2. The classes have remained small, thus placing additional financial burden on the university.
2. Student interest in these courses has not been sufficient to warrant their further continuation.

In order that those students who are now minoring in home economics may get all their credits in this field, it is advisable that they complete their requirements as soon as possible.

## Cast, Davison Head Religious Council

The University of Tampa's Religious Council, composed of representatives of religious organizations on the campus for the purpose of encouraging religious cooperation, affiliation and participation on the campus and in the community, has recently elected officers for 1963-1964.

Bill Cast was elected president; Dick Davison, vice president; and Emma Weiman, secretary-treasurer.

Westminster Fellowship, a Presbyterian organization, and only one of the many church organizations on campus, meets every Thursday at 11 a.m. on "The Circle" for lunch and a program, and every Sunday evening at 6:30 at the Hyde Park Presbyterian Church for a snack supper, discussion, and recreation. Everyone is welcome at these meetings.

For the Religious Council to function properly and carry out its responsibilities properly, it must inform students and faculty of the religious activities taking place on campus and in the community.

It is expressed that any religious group having information of interest, such as activities, election of officers, etc., bring this information to the officers of Religious Council,

## Courtesy Tickets Given

Any car with an out-of-state license plate is allowed five (5) 'courtesy tickets' before having to pay a fine to the City of Tampa Police Dept. Also, after having received the fifth 'courtesy ticket,' they stand the chance of having their cars towed away.

It has been brought to our attention by one of the Police Department 'Meter Maids' that there are some of the University Students with out-of-state license plates who are abusing this courtesy.

## From The Greeks

### TAU EPSILON PHI

Congratulations to Brother Alan Kalsmith who was recently elected Vice President of the IFSC.

All the brothers would like to welcome Brother Harvey Green, a TEP from the University of Miami. Harvey is currently our fine assistant pledge master.

We would like to formally announce that our TEP Sweetheart Dance is set for April 5 (open). All of us sincerely look forward to seeing this function as 'our best yet' for 1963! It promises to be an evening you will never forget.

Word has it that our pledges had a "fine time" in Jacksonville — seems as though the brothers missed out on something!

### ZETA TAU ALPHA

All Zetas, if anyone has noticed, are working as busy as bees, for this year it is our definite plan that Zeta Weekend will be bigger and better than ever.

The Zeta pledges have also been working hard on their little nest egg. The pledges have chosen as their project, a goodie sale, for those girls in the dorm who can afford to have midnight snacks.

We would like to compliment the Sig Ep's on their lovely ball, also congratulations to Kittie Lyon and the other girls on making court.

Don't forget when you go to the polls to vote for: Nancy Mooney as Secretary-Treasurer of the Junior Class, Marsha Bryant as President of the Sophomore Class, and Sue Black as Secretary-Treasurer of the Sophomore Class. But above all, please support your student body government and get out and VOTE!

### DELTA SIG NEWS

Congratulations to ten undergraduates and a professor. All are pledges of Delta Sigma and have the potential of becoming an individual asset to the fraternity. They are Mike Busacco, Andy Demeyer, Aaron Dowd, Charles Ferguson, John Horst, Bill Kendrick, Louis Ottaviano, Bob Padernacht, Dennis Schill, Jack Somerstein, and Professor Russell Apple.

A future event to be sponsored by the fraternity will be a talk by management on its viewpoint on unionization. This will be in connection with a recent talk of this nature also sponsored by Epsilon Rho chapter. The public is invited and interested students of Business Administration are urged to attend as the event should prove to be quite interesting.

Congratulations to ten under Moulis, Jere Munz, and Al Waters on their election to represent Epsilon Rho chapter at the Grand Chapter Congress held at Bedford Springs, Penn. from August 19 to 23. This is the International Fra-

ternity's biggest event and it is an honor to be selected to attend.

### ALPHI CHI OMEGA

Saturday, March 16, Senator Sam Gibbons crowned Wilanne Starling Miss Shamrock. St. Patrick's Day found Wilanne busy with the festivities. We are so proud of our queen.

On Friday, March 15, Roxanne Call was presented in the 1963 Sigma Phi Epsilon Sweetheart Court. We are proud of Roxanne.

Our Pledge Captain, Alice Carter, has informed us that our pledges have finally declared a truce with the Pi Kappa Phi pledges. Their truce was not a white flag but a large white cake decorated in the Pi Kappa colors designed with a Pi Kap pledge hat and an Alpha Chi pin.

The mothers of the pledges got together Friday for pizza at the Pizza parlor.

With the Student Congress elections coming up you will find many sisters working on their campaigns. We all wish them the best of luck.

Sister Pam Seifert got back from the taping of the Ted Mack show in Miami and informed us that it went well. The show will be on in Florida April 7.

We all got fat on the Pi Kap Spaghetti Supper which was enjoyed by all the Alpha Chi's.

Many sisters went to the Sigma Phi Epsilon formal and had a wonderful time and are looking forward to the Theta Chi Ring Dance.

BIG LYRES — announced April 1, by Alpha Chi Omega.

## THETA CHI HOSTS ANNUAL RING DANCE

Last Friday the brothers of Theta Chi hosted their annual Ring Dance. It was exceedingly successful. The couples danced under muted colored lights to the music of alumnus Ed Walker's splendid group. The highlight of the evening was at Eleven o'clock when all the brothers and their dates passed through the traditional Theta Chi Ring and were individually announced. The fraternity's new officers were also announced. They are as follows: Bob Maher, President; Norman Cohen, Vice President; Ken Bozak, Secretary and Andy De Meyer, Treasurer. Special recognition was also given to brother Rick Francke, Chairman of the Ring Dance Committee and to brother Al Kinnaird, Vice Chairman of the committee. Then followed the moment everyone was waiting for, the most conjecture eliciting election held on campus.

The Dream Girl and her Court, The Dream Girl of Theta Chi for 1963-1964 is Miss Norma Boza, escorted to the Ring by Brother Al

## LETTER TO THE EDITOR

# Our Answer To Football: No!

In answer to the editorial opinion expressed in the March 15 issue of the MINARET many conscientious students wish to oppose the views cited therein. Yes, it is agreed that T.U. has a money problem. This fact is common knowledge on the campus. There is a gross shortage of funds in the school's treasury for academic scholarships. Many people do not realize that this shortage is due to the large amounts of money that is squandered yearly on athletic scholarships. It may be true that many students are first attracted to a college because of its athletic achievements. It may also be true that T.U. would lose several students (football players) if the sport were to be dropped. But, is it not also true that those students who come to a college purely for its athletics are the very same ones who will be actively participating in the sport. Since it is the football players only who are mainly concerned with athletics and not with academics in choosing a college these people would not be attracted to T.U. in the first place and therefore we will have lost nothing. We beg your pardon, in actuality we will have gained something — students who come here to study and raise our standards.

It seems very odd that so few of the students on the campus have even heard about this so called poll before the results appeared in the MINARET. We would like to know how many people were asked. We would also like to know how does one vote against football on campus. You suggested that we add a nickel to the jar to vote in favor of football. Are we to assume that to vote against we must subtract one nickel?

As far as social life is concerned football contributes to it in the aspect of giving everyone free license to become intoxicated. Anyone genuinely interested in the game would find it difficult by the second half to see or hear what was going on out front. The scenes that go on in the bleachers can be likened to an orgy. There are dances given after every game. (Most of the people who attend them are heavy with drink by the time the game is over.) Since when is it necessary to use a football game as an excuse for holding a dance? The dances could be held even more

frequently than before. Of course we could still have a homecoming dance. As an example, Stetson University (a very highly rated school academically) has its homecoming dance at the close of the basketball season. There is no reason why T.U. could not do the same.

Your last line reads "Remember, if the students do not support football it cannot survive." From what is said in the article directly under this the students are not supporting football. There is so much complaining about lack of support and spirit at the games. Is this not demonstrative of the prevalent attitude toward the sport?

We will let you decide for yourselves, but let's look at the other side of the coin before jumping to conclusions.

## HOW TO GET EDUCATED ALTHOUGH ATTENDING COLLEGE

In your quest for a college degree, are you becoming a narrow specialist, or are you being educated in the broad, classical sense of the word?

This question is being asked today by many serious observers—including my barber, my roofer, and my little dog Spot—and it would be well to seek an answer.

Are we becoming experts only in the confined area of our majors, or does our knowledge range far and wide? Do we, for example, know who fought in the Battle of Jenkins' Ear, or Kant's epistemology, or Planck's constant, or Valsalva's maneuver, or what Wordsworth was doing ten miles above Tintern Abbey?

If we do not, we are turning, alas, into specialists. How then can we broaden our vistas, lengthen our horizons—become, in short, educated?

Well sir, the first thing we must do is throw away our curricula. Tomorrow, instead of going to the same old classes, let us try something new. Let us not think of college as a rigid discipline, but as a kind of vast academic smorgasbord, with all kinds of tempting intellectual tidbits to savor. Let's start sampling tomorrow.

We will begin the day with a stimulating seminar in Hittite artifacts. Then we will go over to marine biology and spend a happy hour with the sea slugs. Then we will open our pores by drilling a spell with the ROTC. Then we'll go over to journalism and tear out the front page. Then we'll go to the medical school and autograph some casts. Then we'll go to home economics and have lunch.

And between classes we'll smoke Marlboro Cigarettes. This, let me emphasize, is not an added filip to the broadening of our education. This is an *essential*. To learn to live fully and well is an important part of education, and Marlboros are an important part of living fully and well. What a sense of completeness you will get from Marlboro's fine tobaccos, from Marlboro's pure filter! What flavor Marlboro delivers! Through that immaculate filter comes flavor in full measure, flavor without stint or compromise, flavor that wrinkled care derides, flavor holding both its sides. This triumph of the tobaccoist's art comes to you in soft pack or Flip-Top box and can be lighted with match, lighter, candle, Welsbach mantle, or by rubbing two small Indians together.

When we have embarked on this new regimen—or, more accurately, *lack of regimen*—we will soon be cultured as all get out. When strangers accost us on the street and say, "What was Wordsworth doing ten miles above Tintern Abbey, hey?" we will no longer slink away in silent abashment. We will reply loud and clear:

"As any truly educated person knows, Wordsworth, Shelley, and Keats used to go to the Widdicombe Fair every year for the poetry-writing contests and three-legged races, both of which they enjoyed lyrically. Well sir, imagine their chagrin when they arrived at the Fair in 1776 and learned that Oliver Cromwell, uneasy because Guy Fawkes had just invented the spinning jenny, had cancelled all public gatherings, including the Widdicombe Fair and Liverpool. Shelley was so upset that he drowned himself in a butt of malmsey. Keats went to London and became Charlotte Bronte. Wordsworth ran blindly into the forest until he collapsed in a heap ten miles above Tintern Abbey. There he lay for several years, sobbing and kicking his little fat legs. At length, peace returned to him. He looked around, noted the beauty of the forest, and was so moved that he wrote Joyce Kilmer's immortal *Trees*. . . And that, smart-apple, is what Wordsworth was doing ten miles above Tintern Abbey."

# Sigma Sigma Sigma To Celebrate Tenth Year

Beta Sigma Chapter of Tri Sigma sorority will celebrate its 10th year anniversary on this campus, April 11, 1963. Ten years ago Zeta Delta Phi became the Beta Sigma chapter with our national president, at that time, Mrs. Robertson Page, heading the installation team.

Our charter members chose to become collegiate members of Sigma Sigma Sigma because the principles of friendship, love and group participation, common bonds in a national sisterhood, would help them to become better college women. These principles guided our founders to make Tri Sigma a sorority for others to base their ideals and hopes. Thus, a new sorority was founded by eight wonderful and fun-loving girls at the State Normal School at Farmville, Va., now known as Longwood College, on April 20, 1898. Since those early beginnings, Tri Sigma has expanded to 64 collegiate chapters throughout the United States.

Tri Sigma was the first sorority to offer membership to only teacher training institutions. Thus our chapter roll includes many teacher colleges and universities.

The Badge of Tri Sigma is an indented triangle, with pearl on its border and a raised inner triangle with a Greek letter Sigma on each point.

Our sorority colors are purple and white, our flower is the purple violet, and jewel the pearl.

Nationally, "Sigma Serves Children" through its social service project — *The Robbie Page Memorial Fund*. The money collected from collegiate chapters and alumni chapters go to help children stricken with polio and for further research for cure of this dread disease.

On the TU campus, Beta Sigma has established many traditions. Our annual "Man of the Year" contest has been held for the past four years. Anthony Muly, Theta Chi, Ralph Lazzara, Theta Chi, George Nousiainen, TKE, and Allen Ep-

stein, TEP have held this honor. The proceeds go to our *Robbie Page Memorial Fund*.

Our Cinderella Ball has honored not only our pledges but those who have helped us during the entire year. Some of our Prince Charmings are John Hanna, SPE; Charles Henry, TKE; George Nousiainen, TKE; Tony Shostak, Theta Chi; Alan Windt, Theta Chi; and Art Constantini, TKE. Dean King was one of our first Fairy Godmothers.

Our Senior Prince Charmings, such as Dr. McFayden, Prof. Becknell and Prof. Carmona have helped our sorority throughout our ten years here.

Beta Sigma's have held many titles in all areas of the university's functions from scholarship honors to Homecoming Queen and Maids. Our outstanding scholar, Jeanette DeGuzman, has received the Bordon's Freshman Award, Tri Sigma Pledge Scholarship Award, Dean's List for four years, Most Intellectual, Senior Notable, and a Woodrow Wilson Fellowship for graduate study in the field of Spanish at Yale University.

In 1960, the Homecoming Queen was Sister Sylvia Fernandez. Sigmas also received best Skit Honors that year and again in 1961. The best sorority float went to Tri Sigma.

We have held the position of Editor-in-chief of the MINARET with Sister Josie Alvarez in 1959, and this year Sister Jeanette DeGuzman was Editor of the MOROCCAN.

This year all our girls have been active at the university. Sister Brenda Baggett is President of the Student Education Association. Sister Jeanette DeGuzman is editor of the MOROCCAN, and Vice President of the Senior Class. Vice President of Westminster Fellowship is Sister Lee Ann Betz. Sister Marion Parks holds the office of Secretary of the Newman Club.

All in all we sisters of Beta Sigma Chapter have many wonderful experiences and memories of a fun filled ten years at Tampa U.

## Rules on How To Read Playboy

(ACP) — Anyone can read "Playboy" magazine in private. But reading it in public takes adherence to the following rules, as set forth by THE STUTE, Stevens Institute of Technology, Castle Point, Hoboken, New Jersey.

The first step is to look at the cover and carefully consider what you expect to get out of the magazine. Now, change your attitude completely. Begin to think of yourself as a cut or two above the average man. This is the correct mental attitude.

Tilt your nose slightly upward. Skim the articles, putting in an occasional "Humm" or an "Ah," but not too loud.

If you turn the page and suddenly find a rather revealing photograph, watch yourself. Turn the pages at regular intervals, with a careless abandon, as if the pages present nothing unusual.

As you close the last page, pause for a minute. Put the magazine down somewhat carelessly and say, audible to those around you but not conspicuously so, "That's a good magazine." Then stand, put your pipe in your mouth, light the pipe, comb your mustache and leave the room.

## ON PASSING AN EXAM

Wonderous figure on my paper  
How did you come there, who  
who led the way?

I studied and studied, but knew  
not an answer  
So I wrote down whatever my  
noggin could say.

I passed the exam — I pulled  
down a Hundred! —  
The teacher was flustered on how  
it did happen;  
I've figured the secret (You'll  
never guess what —)  
I answered in Spanish, but the  
course was IN LATIN!

It's a puzzle I'm sure, but the  
teacher knows both  
So I answered in a language I  
at least understand;  
The prof's caught on now,  
I can't do it ever,  
But I still have a prize —  
I passed an Exam.

## Alpha Chi Omega Uses "At Work For Others"

This is a side of our Social Sorority that we seldom have an opportunity to show people. Being that February to all Alpha Chi's is known as MacDowell month, we would like to tell you a little about this side of Alpha Chi.

Seven undergraduate music students at DePauw University founded Alpha Chi Omega in 1885. Although always a women's collegiate "social" fraternity, this paramount devotion to music, by the founders and many early members, has left a heritage that still runs strong today through this sisterhood of now more than 50,000 members. "... to advance the appreciation and practice of the allied arts among its members" continues to be one of the Fraternity's purposes as stated in its Constitution.

### The MacDowell Colony

It is not surprising then that Alpha Chi Omega's first national altruistic project, adopted in 1909, should have been aid to a new and courageous venture that was seeking to help artists in all fields — the MacDowell Colony, of Petersborough, New Hampshire. Also it is not surprising that the Colony is still an Alpha Chi enthusiasm

The Colony was founded in 1907 by Mrs. Edward MacDowell to honor her husband, the composer, and to establish a place where painters, sculptors, musicians, and writers might work in peace and quiet, amid beautiful natural surroundings, and with living expenses kept to a minimum. No artist had to demonstrate success in order to be admitted as a colonist — proven talent and devotion to his or her art were (and still are) the "Open sesame!"

Alpha Chi built a studio at the Colony in 1911 and later endowed it. Named STAR STUDIO for the three stars in the Fraternity's coat of arms, it was the first studio to be built by an outside agency. Star now has 26 companions, each isolated from the others in the lovely wooded acres that make up the Colony.

Colonists at MacDowell are given every possible encouragement to work and work they do! Breakfast and evening dinner are served in a community dining hall but lunch is taken to each studio, packed in a basket, and silently left on the porch so that the artist's work-day is undisturbed. Each lives in a private room in one of the central residence halls. Evenings are for "socializing" or more work, depending on individual inclination.

Do the artists produce? Since 1919 MacDowell colonists have won 24 Pulitzer prizes, 25 Guggenheim Fellowships, and many other awards and prizes.

## George Shary Receives Little All-American

by Al Waters

Basketball season may be over, but Spartan guard George Shary is in activity yet; this is award-collecting season for him! The classy back-court performer copped among his awards a selection on the All-State first team. Although his length is only 5'11", he typified the saying that "size means nothing" by edging out a top notch opponent that is over a foot taller than himself.

Another feather in his hat came from his selection as the most valuable player in the Florida Intercollegiate Conference which boasted of many fine stars. His average of 24.2 points per game was responsible for this and his selection to the F. I. C. first team.

Perhaps the biggest thrill for the red headed junior is the national

## Theta Chi Upsets Lykes Hall In Final Intramural Game

by Stephen Lefkowitz

In the last game of the season Lykes Hall was upset by Theta Chi, and lost by a score of 46-28.

This ended their six game winning streak, and chances for a perfect season.

The second place honors went to Smiley Hall; the surprise team of the year. They emerged victorious in their last three games.

The Independents played seven games without a victory. A few of the games were 2-0 forfeits. They had some bad breaks; but were much better than their record indicated.

### WIN FIRST GAME 8-2

## Spartans Split Opener With Ohio Buckeyes

by Steve Lefkowitz

Spartans upset the Ohio State (Buckeyes.) by a score of 8-2 but lost the nightcap 10-3.

On Monday, March 18, at Winter Park, Florida, a doubleheader was played between O. S. U. and T.U.

The Ohio State team is a nationally ranked team, and year after year it comes near or is ranked the top baseball team in the nation.

In the first game the score was tied 2 all at the end of six. In the seventh inning with two men on base, Dave Fuller singled to center driving across the lead run, Mike Lavin doubled, Jim Gatto tripled, Jim Mobry singled and Ron Perez put the ice on the coke with a line drive home run with one man aboard.

The Spartans are a strong and powerful team, with a great deal of depth in the line up and on the bench. They should be a much improved team, and with the victory over Ohio State, it should give them the spark they need to win games and have a fine season.

## Class Of 1963 Initiates Annual Undergrad Development Fund

The class of 1963 at the University of Tampa has initiated an undergraduate development fund which will result in an annual senior class gift to the university for the first time in its history.

Student Congress, the student body government at the university, voted in favor of establishing the fund after original impetus was given the plan by the senior class which will graduate in June.

The first contributions toward the fund are being made by the members of the Class of 1963, who will present the first annual senior class gift to the university. The class has announced that the gift will be the remodeling of a classroom on the second floor of the college's main building. It will contain a plaque as a memorial to the Class of 1963. The room, which will be paneled and air-conditioned, is expected to be completed by the end of the current semester.

Under the planned development fund, lower classmen at the university will begin contributing a specified amount toward the gift of their senior class when they enter the university. These contributions will be placed in a special fund for providing such a gift. The exact nature of the gift will be decided upon by the seniors with the approval of the president of the university. The total gift of the freshman class of 1963 at the end of four years will be approximately \$18,000.

Although other senior classes have presented gifts to the university from time to time, this year's class will be initiating the tradition of an annual, continuing gift.

Ernest Stout is president of Student Congress, and George Nousainen is president of the senior class.

In commenting on the new undergraduate development fund, Dr. David M. Delo, university president, said "The initiation of the undergraduate development fund by the student body is a most important step in the history of the University of Tampa. It illustrates the interest and faith of the student body in the future of the University.

"To those of us who have pushed through the changes which have occurred during the past five years, it comes as a source of great encouragement. This fund will be of significant assistance to the University as it develops, since when it has been in existence four years it will supply a senior class gift annually of almost \$20,000. This can be utilized for a permanent memorial to each class, to improve the University, and to serve as an example and an encouragement for subsequent classes.

"The gift of the present senior class, the establishment of a memorial room, will be used by many generations of students and will stand as a permanent reminder of the class which initiated this very important new program."

### Aid to Children in Need

Since World War I, when the Fraternity "adopted" 100 French orphans, Alpha Chi Omega has made the helping of children in need its major philanthropic work.

From 1920-41 scholarships were given to children whose parents could not afford to send them to school after the legal working age. When World War II came money was raised for the relief of bomb-shocked children in England; then, after America entered the conflict, the project was changed to aid American children whose lives were being upset by war. A daytime nursery was set up in Detroit for children with servicemen fathers and employed mothers. Three such nurseries were established in Milwaukee.

### Cerebral Palsy Project

Aid for Cerebral Palsied Children was adopted as the Fraternity's chief philanthropy by the national convention of 1947. It was a cause that appealed to everyone and interest and support have continued unabated.

Beginning with 1947, and annually since then, the Fraternity has made available a sum of money for scholarships for doctors, dentists, nurses, therapists, and teachers of special education, who desire to take additional training and study in the field of cerebral palsy. These awards are made through the National Society for Crippled Children and Adults (the Easter Seal Agency). From 10 to 16 such grants have been made annually. The amounts of the scholarships vary, adjusted to the expense of the program sought.

Alpha Chi alumnae groups (including more than 230 chapters and clubs over the United States and two in Canada) raise money to purchase needed equipment for local schools, hospitals and clinics which treat these children, or to give assistance to needy parents of handicapped children. In addition, alumnae and many members of almost 100 collegiate chapters, do volunteer work in this field.

Here at Gamma Pi we aid Cerebral Palsy in November with Pilgrim Day and again at Easter with Bunny Day. At this time our pledges dress like bunnies and sell candy for this project. So on April 10 we hope to see you all support this worthy project.

## NTE Exams Planned For April 4 At TU

The University of Tampa will hold a local administration of the National Teacher Examinations in the main building on May 4.

Applications for the examination are now available at the University, Dr. Robert L. Mohr, professor of secondary education, has announced. Applications may be obtained through the Registrar's Office, the Office of the Vice President for Academic Affairs, the Education Department, or Dr. Mohr's office. They must be returned to Dr. Mohr no later than April 5.

Teachers and prospective teachers planning to take the exam are asked to obtain their applications from the university as soon as possible.

The responsibilities of the Bureau are as varied as its staff.

Responsible for the sustaining of an image of Tampa University throughout the country as a school of higher learning, the Bureau writes and sends articles of individual student and group activities to various news media on local, state, and nationwide levels.

The Bureau is in close cooperation with local TV and radio stations in the area for the broadcasting and coverage of student activities and also contributes stories to the Associated Press and U.P.I. syndicates and to specialty and interest magazines.

### University Report

Also within the jurisdiction of the Bureau is the formulating of a bulletin called the University of Tampa Report which is sent quarterly to the parents of students at the University and tells them some of the general happenings of the University.

Of special interest is an historical scrapbook of clippings pertaining to the University which is being continually formulated by the Bureau and will tell anyone who may so wish to look at it of the various happenings and events of T.U. over the past years.
